

HON

PURPOSE[®]
Seating

EVERY DETAIL
HAS A PURPOSE

Fits Everyone. Goes Everywhere.

The way people work is changing. Less time is spent in isolation, while more time is spent working together. We understand that collaboration can happen anywhere, anytime, and can last for minutes or hours. As a result, companies need a seating solution that's ready for anything and anyone. Say hello to Purpose. With only a single adjustment for seat height, Purpose's innovative YouFit™ technology is designed to intuitively respond to each user's body. No complex manual adjustments to master, just advanced engineering. The result is comfort and support the moment you take your seat.

1 - BACK SUPPORT
The first flex zone responds to user movement to deliver constant back and lumbar support.

1

YOUFIT TECHNOLOGY

Purpose features an independent seat and back design that delivers a personal fit and continuous support with three distinct flex zones.

2 - BACK RECLINE
The second zone facilitates back recline.

2

3 - SEAT FLEX
The third zone flexes to evenly distribute pressure points in the seat for enhanced comfort.

3

SITTING IS BELIEVING

Every element of Purpose was designed to flex and adjust to you. Your posture. Your weight. Your movement. Finally, a chair designed exclusively for you.

VERSATILITY THROUGH SIMPLICITY

Adaptable like no other chair, Purpose's sleek design works everywhere, and with a versatile selection of fabric and finish options, it also fits anywhere. With two neutral base choices and a dynamic collection of upholstery selections, it's easy to create the right look for any space. Whether using the arm or armless task chair or stool, making yourself comfortable in Purpose is as easy as taking your seat.

DESIGN WITH PURPOSE

HON put the fun back into functionality. With a selection this simple, the hardest decision you'll have to make is how many!

- Step 1: Choose task or stool
- Step 2: Choose fixed, adjustable or armless
- Step 3: Select finish and optional seat/back fabric

B

SMART IN MORE WAYS THAN ONE

Purpose is not only good for the work environment, its level certification makes it better for the natural environment. Its innovative design includes fewer parts, making it easy to disassemble and recycle. Built to withstand the wear and tear of high-traffic spaces, Purpose is backed by the HON Full Lifetime Warranty, ensuring quality and comfort for the life of the product.

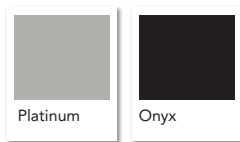

FABRIC

Textiles add character to any design intention. Optional fabrics can be added to the seat and back and pair with two frame colors to simplify choice and appeal to universal tastes.

CENTURION™ FABRICS

FRAME

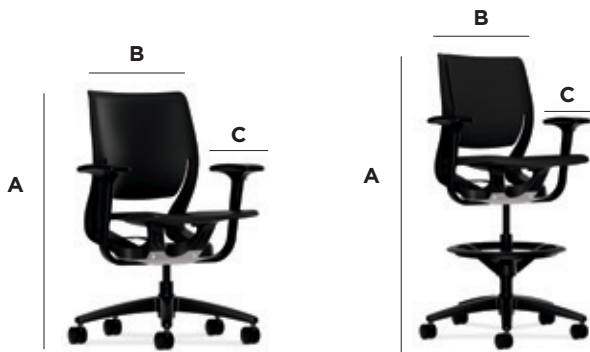

SILVERTEX™ VINYL

width: 27 1/2" (Adjustable Arms)
C depth: 26"

TASK STOOL ARMLESS

A height: 40 3/4" - 50 1/2"
B width: 26"
C depth: 26"

READY. SET. SIT.

Research shows that most people don't adjust their chair, especially if they are only sitting for a short period of time. Designed to work wherever you do, Purpose is always up to the task. Purpose encourages a full range of motion to support multiple postures and a diversity of people in shared, teaming, conference and large group environments. With Purpose, everyone can instantly sit back and relax.

CONFERENCE ROOMS

With Purpose, every meeting can start by sitting down and getting right to business. Because the unique design is optimally balanced to comfortably support the general population, everyone gets the comfort they need without the hassle of adjustments.

c

COMMUNITY SPACES

Research shows that a majority of the workday is now spent collaborating with others. Purpose task chair and stools work together to deliver the perfect combination of planned and impromptu spaces.

SHARED WORKSPACES

With the rise of mobile workers and the need for touchdown areas, it's important to have workspaces that can be used by a wide variety of people and comfortably support extended periods of concentrated work.

TRAINING AREAS

Purpose is uniquely suited to training and multi-purpose areas that facilitate a wide variety of users for extended periods of time. Purpose is engineered to intuitively and ergonomically support the user as they shift and move, so they remain comfortable and maintain focus.

“With Purpose, we set out to design a truly breakthrough chair that would invite anyone to sit down and experience immediate comfort and support. We fine tuned everything we knew about passive controls, and created an elegant chair that delivers a personal fit, without all the complex manual adjustments.”

Marcus Koepke,
Designer of Purpose
