VanCraft campervan conversions are simple, functional, durable, and aesthetically pleasing.

We made sure to stick to our roots with our new and improved conversion by keeping the natural maple wall and ceiling panels and beefy oak butcher block countertops.

High-pressure laminate cabinet faces offer superior wear and impact-resistance versus traditional cabinets. Our laminate is always laid-up on REAL WOOD. No particle board ever.

The campervan's floor is sure to be exposed to the elements, which is why we use a 100% water-proof tongue-and-groove vinyl flooring system.

VanCraft has a **no-compromise** policy when it comes to the materials we use.

The heart of the Short Wheelbase's Kitchen is the 45-quart compressor refrigerator, which is powered by the solar battery bank.

Cooking is a breeze with plenty of countertop space and an integrated 2-burner propane stove.
