

### **Exhibit 14.1**

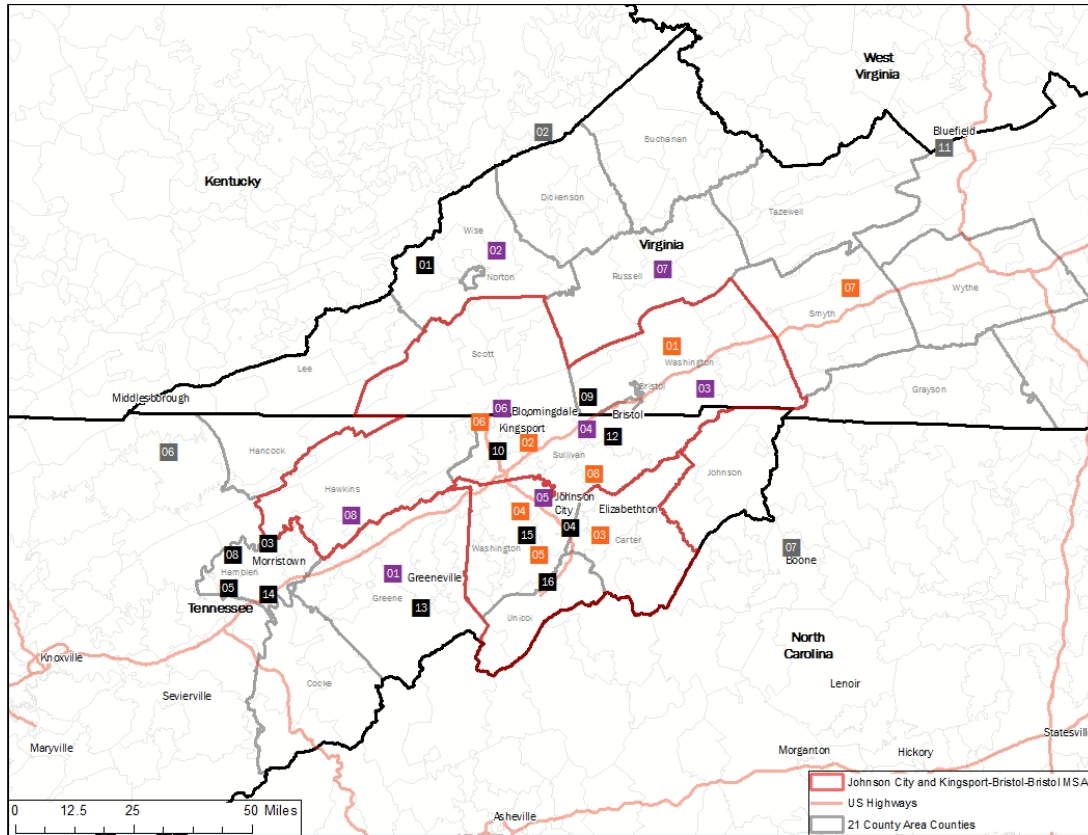

Outpatient analyses of the Geographic Service Area were conducted using counts of facilities for a variety of types of outpatient providers serving the area; these include out-of-area facilities. Facility-level data included the name, address, affiliation and type of service (e.g., ASC). A summary table for all categories of outpatient services is provided below and shows that for many services there is little or no overlap and that for the majority of services, independent providers account for a large share of total providers. In the few services in which there is higher share, there is no overlap. More detailed analyses were also conducted for three outpatient categories: urgent care, imaging facilities, and ambulatory surgery centers; and the tables below show that competing facilities account for 50% or greater share for each of these services. Maps show that these alternatives are located near those affiliated with Mountain States and Wellmont.

\* Wellmont sold Takoma Regional Hospital ("Takoma") to Adventist Health System in 2014. Wellmont has publicly announced its plan to repurchase Takoma. However, as of the date of this filing, the transaction has not yet closed and may not close. The Parties anticipate that, if Takoma is acquired by Wellmont before the COPA is granted, that Takoma would be included in the COPA.

\*\* Appalachian Orthopaedic Associates, PC is co-located with Bristol Regional Medical Center and is therefore not visible on the map

### E. Physician Status by Specialty/Employment

Data were developed by specialty to identify physicians employed by Wellmont, employed by Mountain States (or affiliated with Mountain States) and independent physicians. Data on independent physicians were developed using names and specialties for physicians with admitting privileges at Wellmont and/or Mountain States hospitals. The Overlap Flag identifies specialties in which both systems employed physicians.

\*Mountain States Affiliate physicians are those physicians who are not employed by Mountain States but who do provide services to Mountain States through a contractual arrangement. To be conservative, these physicians are counted along with the Mountain States employed physicians in assessing the "overlap" between Mountain States and Wellmont.
