We are America's Cabinetmaker.®

Looking for Merillat Express® sales support? These resources can help.

Merillat.com

This consumer-facing website offers many ways to inspire organizational solutions in beautiful cabinetry options, as well as drives business to our dealers. Here are some highlights:

- View inspirational designs and photos.
- Download floor plan drawings from photosets to gather design ideas.
- Visualize door styles by wood species and finish.
- Use the "Features & Accessories for Your Lifestyle" to view organizational solutions by room type.
- Engage consumers by directing them to the "Step-by-Step Kitchen Planner" to create a mood board to share with their designer.
- Educate consumers about wood characteristics, installation, Merillat Cabinetry sustainability initiatives, and dos and don'ts of cabinetry care.

MerillatBusiness.com

If you're not currently registered for MerillatBusiness.com, you could be missing important product and brand information that can assist you with your Merillat Cabinetry sales efforts. It's quick and easy, so visit the site and register today. It will enable you to:

- Check order status.
- Download or order product literature, like the product brochure, specification and price books, door/style finish codes, and 2020 Design updates. (For questions on 2020 Design, email **ecatalogsupport@mascocabinetry.com**.)
- Download promotional materials, such as brand campaign print ads, direct mail postcards, videos and counter cards.
- Order samples and displays, like wood chips, selection centers, and sample doors and backer cards.

Automated Orders proCAB™

proCAB™ is an online, web-based, real-time order management solution available for Merillat Cabinetry product lines. Sign up today if you don't already have an account. Benefits of proCAB™ are:

- Order Entry and Inquiry
- Import Kitchen Designs from 2020
- No Charge Shortage and Damage Ordering
- Quote Order Capabilities
- Expedite Requests
- Shipment Status Inquiry
- Product Inquiry Search
- Document Imaging to retrieve copies of acknowledgements, invoices, and shipping reports
- ACH electronic payment of your invoices
- Outstanding Invoices
- View open and paid invoices
- View check number that paid a specific invoice and payment receipts

For more information, please contact us directly at
(866) 626-1621 or **proCABsupport@mascocabinetry.com**

Order Confirmation and Tracking

You can monitor your order using MerillatBusiness.com or proCAB™. Simply login to review your confirmation that your order has been received and to also track its progress.

Merillat Express® Cancellation Policy

Merillat Express® cabinetry is made to order. That means we don't start building your cabinets until your order is placed. Due to our fast 5-day shipping schedule, orders are fulfilled as quickly as possible, affecting our ability to accept cancellations. To consistently maintain the quick 5-day shipping schedule, our policy is that orders cannot be canceled once placed.

Merillat Customer Care Resources

Electronic means are convenient, but sometimes you just need to talk to a person, and Merillat Customer Care consultants are here to help. Your consultant can help you:

- Order product.
- Follow up on orders or track delivery progress.
- Discuss product situations or address invoice questions.

Your Merillat® Account Manager is there to help you every step of the way. Make sure to contact them whenever you have questions, concerns or need information.

Additional assistance is available through Customer Care:
(855) 896-9803 or **distribution@mascocabinetry.com**
Hours M-F 8:00 am – 6:00 pm EST

For Order Placement:
Fax **(866) 998-4432** or **orderentry@mascocabinetry.com**

Kitchen Cabinet Manufacturers Association
ENVIRONMENTAL STEWARDSHIP PROGRAM
KCMA
CERTIFIED ESP 05-12
All products impact the environment. For ESP program criteria, visit greencabinetsource.org.

CERTIFIED CABINET
COMPLIES WITH KCMA
ANSI/KCMA A161.1-2012

LLOYD'S REGISTER QUALITY ASSURANCE
ISO 14001

Merillat Cabinetry carries the seal of the Kitchen Cabinet Manufacturers Association (KCMA) Certification Program, which assures that our cabinets meet or exceed the rigorous standards set by the American National Standards Institute (ANSI). Our cabinets are also independently tested to ANSI/KCMA A161.1–2000 and paragraph 611–1.1, "HUD Minimum Property Standards–Housing 4910.1" 9-8-86.

Merillat Cabinetry demonstrates its commitment to environmental sustainability through meeting or exceeding the requirements as outlined in the Environmental Stewardship Program certification, administered by the KCMA.

All Merillat Cabinetry facilities have also obtained ISO 14001 certificate of approval, demonstrating our commitment to reducing the impact of operations on the environment.

Construction and assembly methods may vary from what is shown in samples and imagery, but do not affect KCMA certification or performance standards of products.

WARNING: This product can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Code System

Merillat Express® Ordering Code

Merillat® builds its order code from global options, model, and model options which together define an orderable item. The order code is created from the door, finish, construction, cartoning, model and model options to complete the order code. The order code can incorporate all possible combinations available in the Merillat Express® product line. Each order code ***must*** be complete to be recognized as a unique product. By understanding the Merillat® code system you can identify any product with any variation or option in one place.
Following is a breakdown of each order code segment and how it combines to make a full order code. Each segment is identified with an identification number. That number will be repeated on this page and every page where the specification of product relates to a segment position of the order code.

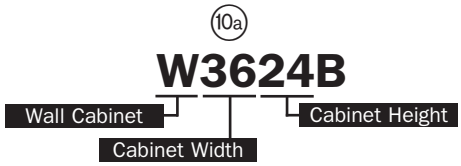
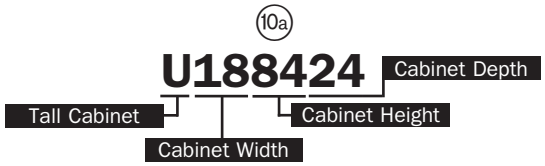
Understanding Product Codes

Standard Cabinets

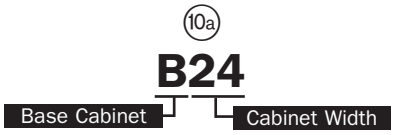
Wall Cabinet widths are always listed first followed by height. A standard wall cabinet is 12" deep except for Wall Refrigerator Cabinets which have a standard depth of 24". Thus 36 is the width, 24 is the height and depth is 12". Depth is only listed as the last two numbers when depth is other than standard. Cabinets with a "B" suffix have BUTT doors without a frame center stile.

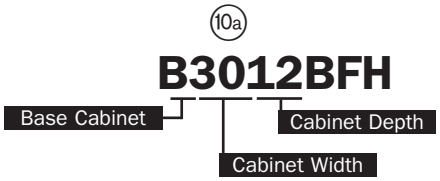


Tall cabinets follow the same sequence characteristics as Wall Cabinets; width first followed by height (eg; U 1884). In those instances where the cabinet depth is greater than 12", the sequence is width and height, followed by depth eg; U 188424).

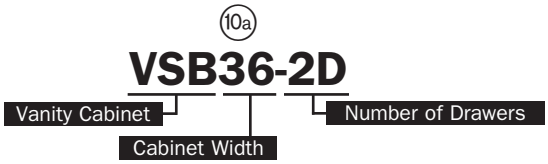


Base Cabinets are simpler than Wall Cabinets because the height (34 1/2" plus 1 1/2" for the countertop) and the depth (24") are always the same unless otherwise noted. The only numbers you need to know are the width. Cabinets with a "B" suffix have BUTT doors without a frame center stile.





Vanity Cabinets are similar to Base Cabinets; the numbers are used to represent the width. Vanity Sink Base Cabinets are either 31 1/2" or 34 1/2" high plus 1 1/2" for the countertop. This particular cabinet is 31 1/2" high and comes standard with two drawers and is located at the end of the code.



Cabinets with Options

Trays are an available option for select Base Cabinets. The option of 2 Standard Trays has been chosen for this cabinet. The code looks the same as it did before with (2ST) placed at the end.

Wood Species

Hardwood is considered highly durable, making it well suited for furniture and cabinetry. Hardwood is a general term used to classify several types of trees that wood comes from; it can refer to a number of species (e.g. Birch, Maple, and Red Oak)

Maple is a popular choice featuring a fine uniform grain that takes color quite well. Maple is versatile and available in nearly every color combination. A very consistent wood type.

Red Oak is a heavy, hardwood, and has a medium-fine, noticeable grain. It gives you dramatic lines that play quite differently off of each color.

Thermofoil is a solid colored vinyl that is applied to smooth, engineered wood or Medium Density Fiberboard (MDF), easy to clean and built to last. Thermofoil cabinetry gives you a uniform appearance.

Notes

Merillat Express® Finishes and Wood Species

Finishes

End grain surfaces and softer areas of the wood may accept more stain and often appear darker than other surfaces. Since wood is in a constant state of expansion and contraction, visible lines are normal at the joints on the cabinet face frames and doors.

All wood species show some wood grain. The amount of grain will vary by species and finish. Maple is a closed or fine grain wood that can have mineral streaks and pin holes. When paint is applied to Maple these beauty marks may remain slightly visible.

Stain Finishes

Stain Process

Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the wood. Sealer is then sanded to develop a bonding surface for the topcoating process.

Amaretto

Warm brown with dark brown glaze
TFJVZ Maple

Painted Finishes

Paint Process

Our painted finishes consist of several coats of pigmented semi-opaque enamel paint that is allowed to saturate the wood developing richness while allowing some of the natural grain to remain visible.

Chiffon
Cream
CHNON Maple

Cotton
White
CTNON Hardwood and Maple

Paint w/Accent Glaze Finishes

Paint w/Accent Glaze Process

Several coats of pigmented semi-opaque enamel paint is applied and allowed to saturate the hardwood developing richness while allowing some of the natural grain to remain visible. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the accent glazing and topcoat process.

Accent glaze is hand applied to specific door and drawer front profiles depending on door style and then cured.

Chiffon w/Desert Accent
Cream with brown accent glaze
CHDSA Maple

Chiffon w/Tuscan Accent
Cream with light gray accent glaze
CHTNA Maple

Cotton w/Tuscan Accent
White with light gray accent glaze
CTTNA Maple

Paint w/Glaze Finish

Paint w/Traditional Glaze Process

Several coats of pigmented semi-opaque enamel paint is applied and allowed to saturate the wood developing richness while allowing some of the natural grain to remain visible. Next, sealer is applied to protect the finish and prevent warping and cracking of the wood. Sealer is then sanded to develop a bonding surface for the glazing and topcoat process.

Glaze is applied, face side only, to corner hang-ups and profile recesses depending on door style.

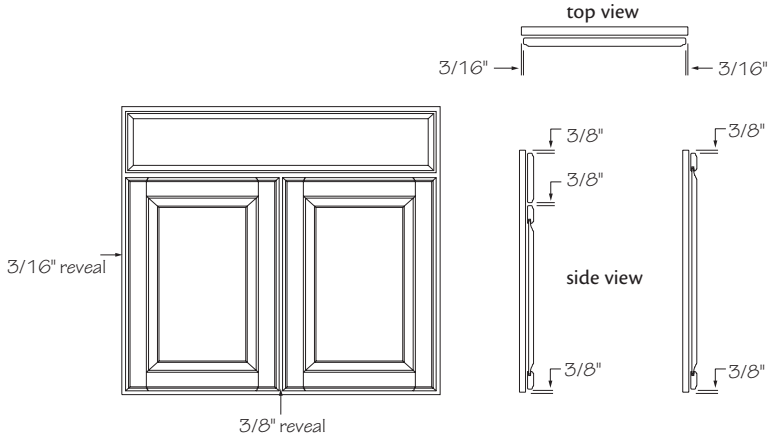
Notes

Cabinet Specifications

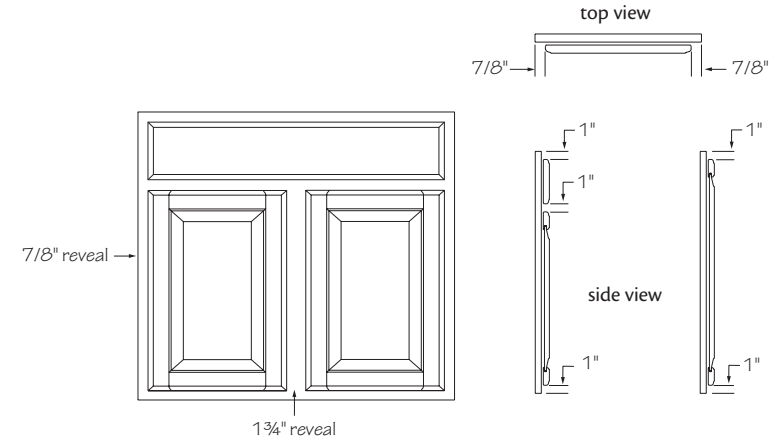
Construction Options and Modifications

Full Overlay - Concealed Hinges



- Full Overlay doors leave 3/16" of the cabinet's face frame exposed on either side of the doors and 3/8" exposed between doors
- Butt door cabinets have 1/8" reveal between doors
- Nickel-finished self-closing hinges, adjustable six ways for door alignment
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used

Traditional Overlay - Concealed Hinges



- Traditional Overlay doors leave 7/8" of the cabinet's face frame exposed on either side of the doors and 1 3/4" exposed between doors
- Butt door cabinets have 1/8" reveal between doors
- Nickel-finished self-closing hinges, adjustable six ways for door alignment
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used

(Blank) ***Not*** available

Note: Standard wall cabinet box depth is 12″ unless stated otherwise. Add door thickness with bumpers for total depth.

Caution: Installation of a wall cabinet 30″ or wider requires additional support, such as attachment to a soffit, or support from below. Failure to provide additional support could result in collapse of the cabinet, serious personal injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the limited warranty. See inside cover for warranty details

Any wall cabinet over 24″ wide or 30″ high with a depth greater than 12″ and/or butt doors ***must*** be installed between two cabinets, a cabinet and a wall, or supported from below.

Material dimensions may vary slightly based on lumber industry standards.

Wall Blind Corner Cabinet Information

- Wall blind corner cabinets provide access to corner space and permits adjustability of up to 2 7/8" maximum to aid in kitchen cabinet layout. Consult chart for "pull" dimensions and minimum wall space requirements.
- "Pulling" the cabinet away from the corner (2 7/8" maximum), and using the supplied filler and panel provides clearance for opening doors when decorative hardware is used.
- BR or BL indicates blind end of cabinet. Please specify.
- Door hinged on same side as blind
- Cabinets may be changed from right to left by inverting cabinet.
- ***Note:*** A 3" Wall Filler and Blind Panel is included with each WBC cabinet ordered, shipped unattached.

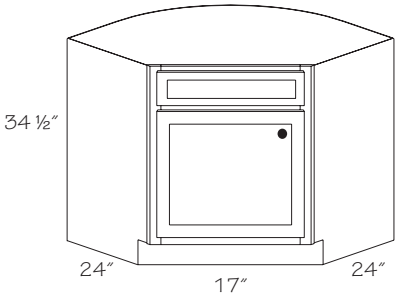
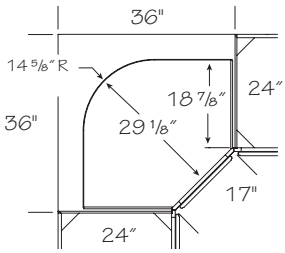
Sink Base Angle





10a 10c

Specify R or L
SBA36 R or L

- One full-width false drawer front above door
- Full overlay sink front door and false drawer front are similar in width to traditional overlay cabinets in order to avoid interference with adjacent cabinet doors. This exposes more of the cabinet face frame
- Top panel ***must*** be cut in field to receive sink
- Use Base End Panel Filler (BEPF3-34) if end is exposed (requires 3" of space)
- 29 1/4" minimum doorway clearance required for delivery with cabinet door removed
- Adjacent cabinets can be installed directly without fillers

❖ SST 7
❖ SDT 7
● CFO 10g
● CSO 10g

Caution: If cabinet is installed next to an appliance deeper than 25", it may interfere with the cabinet door opening. Options available:
A) Use a filler between cabinet and appliance,
B) Pull cabinet even with appliance front, which will result in a deeper countertop and overall base cabinet depth dimension

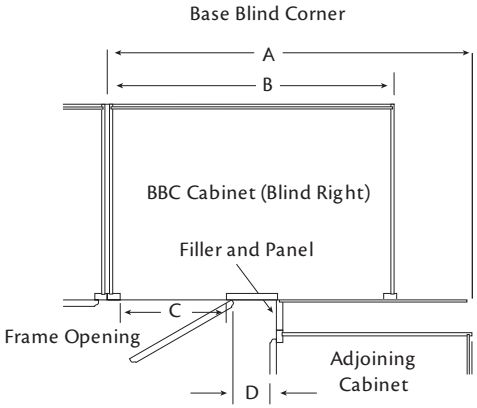
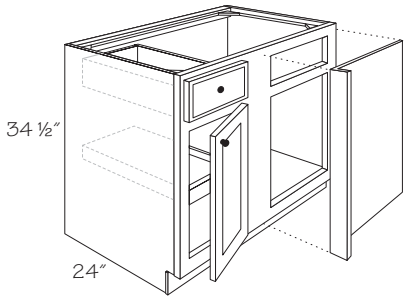
Base Blind Corner Cabinet Information





Blind Right (BR)
1st option shown

- Base blind corner cabinets provide access to corner space and permit adjustability of up to 2 7/8" maximum to aid in kitchen layout. Consult chart for "pull" dimensions and minimum wall space requirements
- "Pulling" the cabinet away from the corner (adding up to 2 7/8" maximum to the void area), and using the supplied filler and panel, provides clearance for opening doors and drawers when decorative hardware is used
- BR or BL indicates blind end of cabinet. Please specify.
- Door hinged on same side as blind
- Blind side ***must*** be ordered left or right
- Full overlay products ***must*** be pulled the maximum 2 7/8" for proper hardware clearance for drawer and roll-out tray of adjoining cabinet
- ***Note:*** A 3" Base Filler and Blind Panel is included with each BBC cabinet ordered, shipped unattached

BWBTK18-2 shown

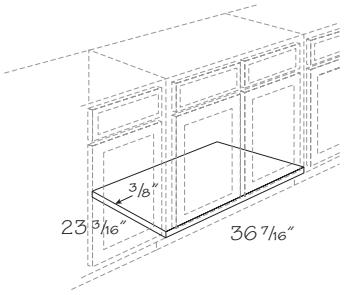
Base Wastebasket Top Mount Kit

(10a)
BWBTK15
BWBTK18-2

- Fits B15 or B18 cabinets
- BWBTK15 includes one 35 qt. white plastic basket and one 5 1/2″ deep white plastic tray for garbage bag storage
- BWBTK18-2 includes two 35 qt. white plastic baskets (no bag storage tray)
- Wastebasket assembly rolls out on full-extension ball-bearing slides
- Hardwood veneer tray supports easily removable basket(s)
- 35 qt. basket is 10 1/2″ x 14 5/8″ x 18″ high
- Installation instructions and mounting hardware included
- One per carton

HW (2) MP (2) RO (2) TH (2)

Sink Front Bottom

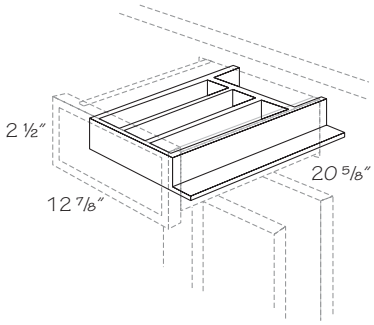


10a
SFB2336

- Designed to be used as an optional cabinet bottom with SF24, SF24B, SF30, SF30B, SF36, SF24FH, SF24BFH, SF30FH, SF30BFH and SF36FH sink fronts
- Fits SF36B and SF36BFH without field trimming; field trim to length required for remaining sizes
- 36 7/16" long x 23 3/16" wide
- Easy to clean natural woodgrain laminate on one side; backside unfinished
- 3/8" thick engineered wood core
- Installation screws included
- One per carton

HW 2 | MP 2 | RO 2 | TH 2

Cutlery Divider

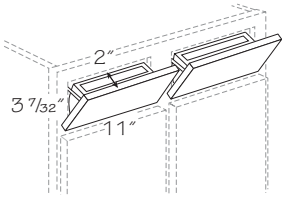


10a
CDI18

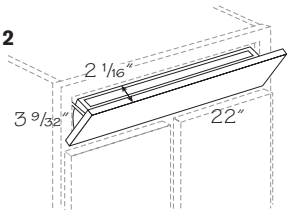
- 1/2" thick engineered wood dividers with Natural woodgrain laminate and matching top edges
- 1/4" thick engineered wood bottom panel with Natural woodgrain laminate on exposed surface
- Clean with a damp cloth only
- Five compartment cutlery organizer for 18" wide cabinets; can be cut down for 15" wide cabinets
- When used in Dovetail hardwood full extension drawer, 1 5/16" ***must*** be field cut off back edge
- One per carton

HW 2 | MP 2 | RO 2 | TH 2

Utility Tray Kit



UTK12



UTK22

10a
UTK12
UTK22

- Removable high-impact white plastic tray installs on backside of drawer front for convenient out-of-sight storage of small items, soap, scouring pads, etc.
- UTK22 fits sink base cabinets 27" through 39" wide
- UTK12 fits sink base cabinets 30" or wider
- Concealed self-closing hinges allow drawer front to tilt down 51° for tray access
- Hinge detent holds drawer front in full open position
- Order decorative hardware separately
- Installation instructions and mounting hardware included
- One per carton

If installing one UTK12 on a 24" or 27" wide sink base, consider utilizing the second tray on the backside for storage

CCK

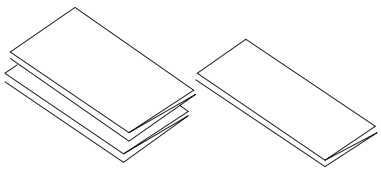
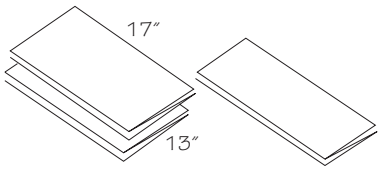
- One 8 oz. squeeze bottle of concentrated wood cleaner
- One 8 oz. squeeze bottle of cabinet/furniture polish and restorer
- Two 13" x 12" cleaning and polishing cloths
- One 17" x 13" dusting cloth



Cabinet Cleaning and Polishing Cloths

(10a)
CCPC

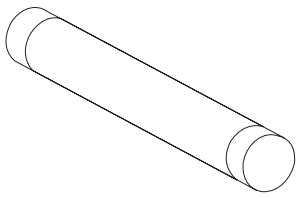
- 13" x 12" cleaning and polishing cloths
- 25 per carton
- Direct ship program



Cabinet Dusting Cloths

(10a)
CDC

- Treated to pick up and hold dust within cloth
- Six per carton
- Direct ship program

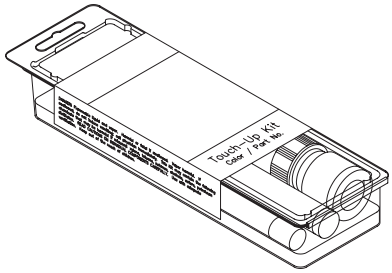


Fill Stick

(10a)
FS

- Matching putty crayon
- Available in all finishes
- One per carton

Touch Up Kit



(10a)
TUK

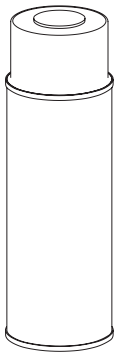
- Available in all finishes
- Used for final touch up and detailing
- Kit includes Touch Up Pen (TP), Fill Stick (FS), a bottle of touch up topcoat and a plastic storage case
- One per carton

Touch Up Pen

(10a)
TP

- Felt tip marker with matching stain or paint
- Available in all finishes
- One per carton

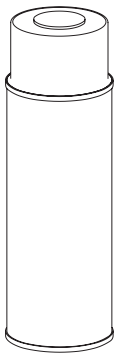
Touch Up Spray Can Primer



(10a)
TSCP

- Used as part of the process for final touch up of painted finishes only
- For use with Touch Up Spray Can Topcoat (TSCT)
- 13 oz. aerosol spray can
- Direct ship program

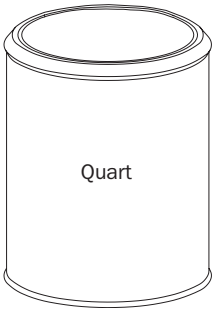
Touch Up Spray Can Topcoat



(10a)
TSCT

- Touch up topcoat paint for painted finishes
- For use with Touch Up Spray Can Primer (TSCP)
- 13 oz. aerosol spray can
- Direct ship program

Touch Up Quart



(10a)

QGL

Quart Clear Sealer/Topcoat
QCST

- Matching stain, paint, glaze and clear sealer/topcoat
- Available in quarts only
- Direct ship program

Stain, Glaze and Paint Direct Ship Information

Items Needed to Reproduce Glaze Finishes

Chiffon with Desert Glaze
- Chiffon Paint
- Medium Brown Glaze
- Clear Sealer/Topcoat

Chiffon with Tuscan Glaze
- Chiffon Paint
- Light Gray Glaze
- Clear Sealer/Topcoat

Cotton with Tuscan Glaze
- Cotton Paint
- Light Gray Glaze
- Clear Sealer/Topcoat

Sable with Ebony Glaze
- Maple Sable Stain
- Charcoal Glaze
- Clear Sealer/Topcoat

Toffee with Java Glaze
- Maple Toffee Stain
- Dark Brown Glaze
- Clear Sealer/Topcoat

Items Needed to Reproduce Accent Glaze Finishes

Chiffon with Desert Accent Glaze
- Chiffon Paint
- Medium Brown Glaze Marker
- Clear Sealer/Topcoat

Chiffon with Tuscan Accent Glaze
- Chiffon Paint
- Light Gray Glaze Marker
- Clear Sealer/Topcoat

Cotton with Tuscan Accent Glaze
- Cotton Paint
- Light Gray Glaze Marker
- Clear Sealer/Topcoat

Sable with Ebony Accent Glaze
- Maple Sable Stain
- Charcoal (black) Glaze Marker
- Clear Sealer/Topcoat

Sedona with Ebony Accent Glaze
- Maple Sedona Stain
- Charcoal (black) Glaze Marker
- Clear Sealer/Topcoat

Toffee with Java Accent Glaze
- Maple Toffee Stain
- Dark Brown Glaze Marker
- Clear Sealer/Topcoat

This listing represents the matching stain, paint and glaze, as well as clear sealer/topcoat needed to reproduce our finishes.

Available in quarts only. The stains are a "two-step" process, requiring first the application of the hand-wipe stain, followed by the application of the clear sealer/topcoat. Instructions and safety data sheets are packaged with each can of stain or clear sealer/topcoat.

Each stain has been developed for a specific wood specie, and is listed within the stain name, i.e., Maple Toffee. If a stain is applied to a wood specie other than it was originally formulated for the color can be expected to have a different appearance.

For optimum in-field color matches, it is recommended that the clear sealer/topcoat be applied following stain application.

There is no warranty on stains or items stained outside our facilities.

Important Note:

The clear sealer/topcoat includes UV inhibitors. Not all sealers/topcoats are clear, and using a formula from another source could alter the appearance and color of the wood.

Items (material) on this page will ***not*** ship with your cabinet order but will ship directly from our supplier.

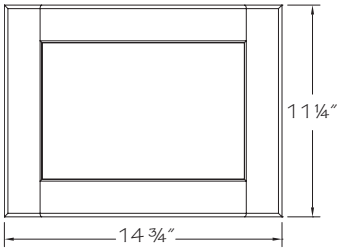
Door and Frame Assembly Sales Samples

(10a)

ACCESSDFAVB12
ACCESSDFAB15

- Available in all door styles
- Fits on carousels
- Door and drawer front sizes vary depending on full or partial overlay
- ACCESSDFAVB12 is the face frame/door/drawer front from a VB12 vanity cabinet
- One per carton

Sales Door



(10a)

SLDO14.75X11.25

- Available in all door styles, species and finishes
- Includes door only
- One per carton

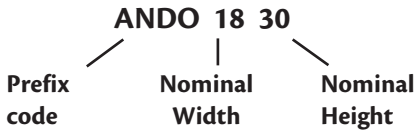
How to Use This Section

This section lists all replacement doors and drawer fronts by their nomenclature. This section also details the dimensions of each door in the overlays available.

Accessory Non-Drilled Door Information (ANDO)

Accessory non-drilled doors are not prepared for hinges. Accessory non-drilled doors are shipped with pliable bumpers attached.

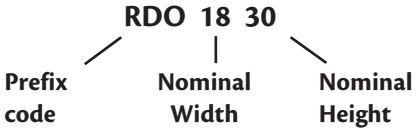
Accessory non-drilled doors and drawer fronts are coded for easy reference. The prefix indicates door and usage. The first two digits indicate nominal width and the second two digits indicate nominal height.

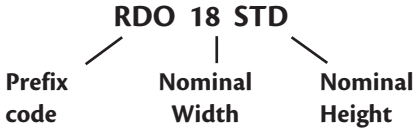


Replacement Door and Drawer Front Information (RDO and RDF)

Replacement doors are prepared for hinges. Replacement doors and drawer fronts are shipped with pliable bumpers attached.

Replacement doors and drawer fronts are coded for easy reference. The prefix indicates door or drawer and usage. For replacement doors the first two digits indicate nominal width and the second two digits indicate nominal height. For replacement drawer fronts the first two digits indicate nominal height and second two digits indicate nominal width.





Prefix Codes

ANDO	Accessory Non-Drilled Door
RDO	Replacement Door
RDF	Replacement Drawer Front
PKDC	Replacement Packaged Drawer Core

Accessory Non-Drilled Door specific prefix codes are as follows:

ANDOBCR33	Accessory non-drilled door for Base Corner Revolving 33
ANDOBCR36	Accessory non-drilled door for Base Corner Revolving 36
ANDOMTEP1218	Accessory non-drilled door for Matching Tall End Panel 1284 top door
ANDOMTEP12TALL	Accessory non-drilled door for Matching Tall End Panel 12 wide tall bottom door
ANDOMTEP21TALL	Accessory non-drilled door for Matching Tall End Panel 21 wide tall bottom door
ANDOSBC60-VCD/VSB6035	Accessory non-drilled door for Sink Base Combination 60 - Vanity Combination Drawer/Vanity Sink Base 6035
ANDOBCR36	Accessory non-drilled door for Base Corner Revolving 36
ANDOVB60FH	Accessory non-drilled door for Vanity Base 60 Full Height
ANDOVCD/VSB60	Accessory non-drilled door for Vanity Combination Drawer/Vanity Sink Base 60
ANDOVSB6035-4D	Accessory non-drilled door for Vanity Sink Base Double Bowl 6035 - 4D
ANDOVSB60-3D	Accessory non-drilled door for Vanity Sink Base Double Bowl 60 - 3D

Replacement Door specific prefix codes are as follows:

RDOBCR33	Replacement door for Base Corner Revolving 33
RDOBCR36	Replacement door for Base Corner Revolving 36
RDOBLS	Replacement door for Base Lazy Susan
RDOVB60FH	Replacement door for Vanity Base 60 Full Height
RDOVCD/VSB60	Replacement door for Vanity Combination Drawer/Vanity Sink Base 60
RDOSBC60-VCD/	Replacement door for Sink Base Combination 60 - VSB6035 Vanity Combination Drawer/Vanity Sink Base 6035
RDOVSB6035-4D	Replacement door for Vanity Sink Base Double Bowl 6035 - 4D
RDOVSB60-3D	Replacement door for Vanity Sink Base Double Bowl 60 - 3D

Replacement Door suffix codes are as follows:

BWBT	Base Wastebasket Top Mount
L	Left hinged
R	Right hinged
BL	Butt door left hinged
BR	Butt door right hinged
TALLL	Tall door left hinged
TALLR	Tall door right hinged
TALLB	Tall door - butt door

Replacement Drawer Front suffix codes are as follows:

DKD	3.500 or 4.125 front height
STD	5.500 or 6.125 front height
STDUT	5.500 or 6.125 front height with Utility Tray drilling
DP1	9.000 or 9.750 front height
DP2	10.375 or 11.188 front height

Merillat®

We are America's Cabinetmaker.®

Express™ Product Line

Merillat® Cabinets

Merillat® cabinetry makes better use of nature's hardwood, while providing a quality product. The wide range of wood colors and grain variations are natural characteristics of the wood and not a defect.

CABINET FRAMES

3/4" thick, kiln dried, solid hardwood joined with pocket screw joinery construction.

END PANELS

3/8" thick engineered wood is permanently finished on 2 sides with a laminate resistant to water and most household chemicals. End panels are machined to accept tops, bottoms, backs, and corner gussets. Ends are drilled to accept adjustable shelves. Tall cabinet end panels are 1/2" thick.

WALL TOPS & BOTTOMS

1/2" thick engineered wood is permanently finished on 2 sides with a laminate resistant to water and most household chemicals.

BASE BOTTOMS

1/2" thick engineered wood is permanently finished on 1 side with a laminate resistant to water and most household chemicals.

SHELVES

3/4" thick engineered wood is permanently finished on 2 sides for full depth shelves and 1 side for half-depth Base cabinet shelving with a laminate resistant to water and most household chemicals. Front edge is edge banded with melamine banding. Wall and Base cabinets have adjustable shelves supported by adjustable shelf clips.

Half-depth shelves in Base cabinets 39" wide and wider have a matching full-length support apron secured to the underside near the front edge for additional support. Shelves are designed to support 15 lbs. per square foot, not to exceed 50 lbs. per shelf.

BOOKCASE SHELVES

3/4" thick engineered wood, permanently laminated two sides to match exterior finish of cabinet. All bookcase units have adjustable shelves. Front edge is edge banded.

WALL BACKS

3/8" thick engineered wood finished on one side with a laminate resistant to water and household chemicals. Full-length dadoes in back allow tops and bottoms to be captured, stapled and glued.

BASE BACKS

1/4" thick engineered wood finished on one side with a laminate resistant to water and household chemicals. Extends full-length to floor.

WALL HANGRAILS

3/8" thick engineered wood full-length across top and bottom secured with staples.

BASE HANGRAILS

11/16" solid pine or Douglas-fir. Ends are rabbeted to join cabinet ends. Bottom edge is rabbeted to join back.

DRAWER GUIDES

75 pound rated drawer guide system, side mounted, 3/4 extension with self adjusting mounting brackets at rear. Drawer slides are fastened to the drawer box with screws.

DRAWER FRONTS

3/4" solid hardwood on all wood styles. Laminate and substrate on laminate drawer fronts use the same materials as corresponding door style.

DRAWER BOX

1/2" thick sides, fronts and backs of engineered wood. Top edges are finished with melamine banding. Side surfaces are finished with a laminate resistant to water and most household chemicals. 1/4" thick engineered wood bottom panel is finished on one side with same laminate. Laminate/edgebanding finish is Natural Maple. Drawer sides are rabbeted to join the drawer box fronts and backs. Each corner is joined with glue and stapled.

Drawers 30" and wider have 3/8" thick bottoms. Standard drawer interior height is 3 5/8"; deep drawers are 6 7/8". Base cabinet interior front-to-back depth is 20 11/16", Vanity is 17 15/16", and Vanity Space Saver is 14 11/16".

OPTIONAL DOVETAIL WOOD DRAWER WITH UNDERMOUNT GUIDE SYSTEM

5/8" sides, fronts and backs are solid hardwood. Drawer sides, fronts and backs are joined with half blind dovetail joints.

Nominal 3/16" plywood drawer bottom has laminate surface for easy cleaning. Drawer bottom is joined to the drawer sides, front and back on all 4 sides with a groove.

Hardwood drawer components are finished with clear sealer and topcoat on exposed surfaces. Standard drawer interior height is 2 3/4"; deep drawers are 5 3/4". Base cabinet interior front-to-back depth is 19 13/32", Vanity is 16 7/16" and Vanity Space Saver is 13 1/2".

Full extension soft close undermount guide system is concealed, self closing and can be adjusted to align the drawer head.

TOEKICK

1/2" thick engineered wood. Toekick extends from floor to bottom of cabinet, closing the toe kick area. Toekick Cover is required and sold separately.

HINGES

Traditional overlay door styles come with fully concealed European style hinges that feature 105° opening, 6-way adjustment, and a self closing feature on most doors.

Full overlay door styles come with fully concealed European style hinges that feature 107° opening, 6-way adjustment, and a self closing feature on most doors.

Some corner cabinets using concealed hinges will have hinges with wider opening capability for improved access.

Fire Resistance

Overlaid engineered wood used for cabinet construction has been tested in accordance with UL standard recognized-ASTM E 162-90-Standard Test Method for Surface Flammability of Materials, using a radiant heat energy source, and HUD Standard 3280.203, .204 and .209.

Formaldehyde Emissions Levels

Formaldehyde emissions comply with requirements of 24 CFR, Part 3280 (August 9, 1984), the HUD rule on Manufactured Home Construction and Safety Standards and 29 CFR Part 1910 (May 27, 1992), the OSHA rule on Occupational Exposure to Formaldehyde.
Formaldehyde emissions for raw engineered wood is restricted to 0.3 parts per million.

CERTIFIED CABINET AND FACILITY

Merillat® cabinetry carries the seal of the Kitchen Cabinet Manufacturers Association (KCMA) Certification Program, which assures that our cabinets meet or exceed the rigorous standards set by the American National Standards Institute (ANSI). Our cabinets are also independently tested to ANSI/KCMA A161.1–2000 and paragraph 611–1.1, "HUD Minimum Property Standards–Housing 4910.1" 9-8-86.

In keeping with our policy of continuous refinement, Masco Cabinetry LLC reserves the right to alter specifications and styles without general notice or obligation to make similar changes in products previously manufactured.

Merillat® demonstrates its commitment to environmental sustainability through meeting or exceeding the requirements as outlined in the Environmental Stewardship Program certification, administered by the KCMA.

All Merillat® facilities have also obtained ISO 14001 certificate of approval, demonstrating our commitment to reducing the impact of operations on the environment.

Replacement Parts

Use and Care

Wood
The fine "furniture" finish of your cabinets is designed for daily usage. All wood and laminate surfaces may be cleaned with a damp, soft cloth moistened with pure soap suds (***not*** detergent), then wiped dry with another soft cloth. As with all cabinet surfaces, take a little extra care on bottom edges of cabinets and cabinet doors where invisible moisture often collects.

Note: **DO NOT** use detergents, soap pads, steel wool, or other harsh, abrasive material on your cabinetry.

Polishing Wood
Remove dust from cabinets frequently with a soft lint-free cloth. The cloth may be slightly dampened with water or a spray type dust remover.

Clean spills immediately. Use a clean cloth and mild soap if necessary. Wipe dry with a clean soft cloth.

We recommend that you wash and polish cabinets once or twice a year. Use a light coat of quality furniture polish. Don't use a paste wax; the wax build up is difficult to remove and will leave a residue that attracts dust and moisture. Polishes that contain silicone should ***not*** be used.

Laminate Door Surfaces
Periodically clean the interior and exterior surfaces of the door using a soft, dampened cloth. Tough stains may be cleaned using a soft cloth dampened with a "*409*" or "*Simple Green*" type cleanser.

Wire Storage Products
Periodically clean with soft damp cloth. ***Note:*** Do ***not*** use detergents, soap pads, steel wool, or other harsh, abrasive material.

Roller Slide Systems

Periodically clean with a soft damp cloth. Ball bearing slides are lubricated with grease from the manufacturer to ensure smooth quiet operation and long life. Avoid removal of this grease during cleaning.

Preventative Care: Self-Cleaning Ovens
Self-cleaning ovens are cleaned through the use of intense heat. If the heat gasket does ***not*** seal properly, heat may escape from the oven. Cabinet components installed near the oven may suffer finish or surface damage. To minimize the risk of damage during cleaning cycles, we recommend that you open doors and drawers from cabinets that are above and adjacent to a self-cleaning oven.

Preventative Care: Heat-Producing Appliances
We recommend that you do ***not*** mount heat-producing appliances (such as coffee makers and toaster ovens) beneath cabinets. Excess heat and moisture from these appliances can damage cabinets.

The Beauty Of Natural Wood
The natural hardwoods we use in our product have characteristics that make every cabinet both beautiful and unique. All hardwoods have their own personality, and variation in color, texture, and grain pattern are an inherent part of this natural material.

Natural hardwood variations often include distinctive grain patterns or unusual shadings in color. These reflect the "life history" of the tree and contribute to the unique look of your cabinets.

As with other natural materials, your hardwood cabinets will be affected by environmental factors such as natural and artificial lighting, so you can expect to see the color gradually change and mellow over time.

Your satisfaction is important to us, and we want you to feel as good about buying our cabinets as we do about making them. Be assured only the best materials go into our natural hardwood cabinetry, including those hardwoods that may be considered unique. Because, at Masco Cabinetry LLC, we believe natural distinctive hardwoods are beautiful.

Due to the unique qualities inherent in the natural hardwoods used in this cabinetry, neither Masco Cabinetry LLC, nor your dealer, can be responsible for the actual degree of variation that may characterize your cabinetry purchase.

Warping, Cracking & Proper Humidity
As a natural characteristic, all wood products contain moisture. Changes in temperature and humidity affect the moisture content in wood, which causes wood to expand or contract. Over time, this expansion or contraction can cause warping and joint cracks to occur, potentially causing permanent deformations, in wood cabinetry.

To help prevent excessive movement in your wood cabinetry, we recommend maintaining a controlled environment of 70 degrees to 75 degrees Fahrenheit and 30% to 50% humidity in the areas where your cabinetry is stored or installed. Environmental conditions cannot be controlled by Masco Cabinetry and the effects of movement in wood is not considered to be a manufacturing defect and will not be considered as a reason for replacement.

Notes

Merillat®

We are America's Cabinetmaker.®

Masco Cabinetry LLC 25 Year Limited Warranty.

Masco Cabinetry LLC warrants to the original consumer purchaser that our Merillat Express® cabinetry will be free from defects in material and workmanship under normal use for a period of TWENTY-FIVE (25) YEARS from date of purchase. This warranty is not transferable. No changes or modifications can be made to this warranty except by an officer of Masco Cabinetry LLC.

Masco Cabinetry LLC may elect to repair or replace any defective Merillat Express® product covered by our warranty.
THIS WARRANTY DOES NOT COVER:

- The natural aging or darkening of wood color, or the inherent growth characteristics of, or variation, in wood.
- Defects caused by misuse, abuse, negligence, alterations, environmental conditions, improper installation, storage or handling.

As with other natural materials, wood is affected by environmental factors such as natural and artificial lighting. Darkening or mellowing of the wood can be expected and is a natural process of wood as it ages. Each wood species also exhibits its own distinctive patterns and characteristics that add to its natural beauty. These variations in color and characteristics are not considered imperfections or defects.

Masco Cabinetry LLC further provides a Lifetime Limited Warranty on the door hinges and drawer guides to the original consumer purchaser for as long as you own the product. This Lifetime Limited Warranty provides that the door hinges and drawer glides will be free from defects in material and workmanship under normal use. Replacement hinges and drawer glides are subject to their availability from our suppliers.

From time to time, we will change design, specifications and materials as conditions require and improvements are developed, but we have no obligation to incorporate such changes in products we previously manufactured.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS WARRANTY DOES NOT COVER INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF USE, OR LABOR EXPENSES IN UNINSTALLING OR INSTALLING ANY MATERIAL OR PARTS, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, TORT, OR ANY OTHER LEGAL THEORY, EVEN IF MASCO CABINETRY LLC HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. MASCO CABINETRY LLC DISCLAIMS RESPONSIBILITY FOR DAMAGES IN EXCESS OF YOUR PURCHASE PRICE. Some provinces and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty is only valid in the United States of America and Canada. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state and from province to province.

To obtain performance under this warranty, you must contact your Merillat Express® supplier and report, in writing, all defects claimed and provide your original sales receipt or other documentation acceptable to Masco Cabinetry LLC. If you have difficulty obtaining assistance, write to: Merillat Express® Warranty Department, Masco Cabinetry LLC, 15535 South State Ave. Middlefield, Ohio 44062 USA.

For Merillat Express® cabinetry purchased on or after May 18, 2015.
