Company Profile

FairyGene Inc. is a leading cosmetics Contract Manufacturing and Private Label company located in the Greater Philadelphia Area, USA. We provide full services for skin, body and hair care industries, including formulation, manufacturing, packaging and labeling, with product dosage forms in liquid, lotion, cream, gel, butter, balm and suspension etc.

Research and Development

Our R&D team is a group of talented chemists with strong chemistry knowledge beyond cosmetics. We have strong capabilities to develop formulations with natural, green and healthy ingredients, cruelty-free, gluten-free, paraben-free.

Manufacturing

Our mixers can handle temperature from -10 oC to 95 oC, either cold, room temperature or hot process.

Our lab homogenizer can mix at up to 10,000 rpm, and plant homogenizer up to 3,000 rpm, to produce stable lotions and creams with high quality.

Filling and Packaging

Our filling department is equipped with both cold and hot filling machines.

Our filling and packaging system provides the ability to offer service of filling, capping and labeling with various container shapes, sizes, and a wide range of viscosities.

We have strong container and package supply chain and design capability, helping execute customer final packaging needs with high quality.

Quality Control

FairyGene quality control system guarantees that all productions to meet the specifications and highest standards. All raw materials will be tested before manufacturing, and equipment will be double checked to ensure that they are clean without any cross contamination. The final product will not be released until complete quality control is done, including microbiological control, chemical and physico-chemical control and stability studies.

Aloe Sunflower Cleansing Gel

Formula ID: FG-FC003

Innovative Cosmetics
from Concept to Reality

Description

This extremely mild cleansing gel is made with soothing sunflower botanicals, Vitamins and Aloe Vera, 100% naturally derived. It dissolves and removes dirt and impurities quickly, while restoring and nourishing all skin types. The gel also creates an essential stratum barrier to protect and strengthen skin, leaving skin ready for serum and moisturizer.

Key Benefits

- Cleanses skin mildly and effectively
- Moisturizes skin while cleansing
- Promotes collagen formation and lightens skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Fine Lines and Wrinkles
- Dullness and Uneven Texture
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Lauryl Glucoside (and) Helianthus Annuus (Sunflower) Seed Oil - A sulfate-free glucoside surfactant derived from virgin sunflower oil. It has good cleansing ability and nice foaming properties that are both non-drying and non-irritating. It's also rich in Vitamin E, a powerful antioxidant in the body.
- Sodium Ascorbyl Phosphate - An active stable vitamin C derivative ingredient for the cosmetics industry. It liberates vitamin C in the skin and protects the cells of the skin, promotes collagen formation, controls the formation of senile keratosis, and lightens dark skin.
- Niacinamide - A form of vitamin B3. It promotes protein synthesis, which improves skin metabolism. By improving the cells metabolism, it improves skin texture exhibiting anti-aging properties. It inhibits free radical formation, making it a good anti-oxidant. It is also a skin whitener, and UV protector.
- Aloe Barbadensis Leaf Juice - Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Plankton Extract - Extracted from the exclusive Scenedesmus phyto plankton. It helps moisturize the skin (by increasing bound water retention and reducing Trans Epidermal Water Loss) while providing exceptional environmental protection and reducing the visible signs of aging.

4 fl oz / 120 ml
Clear Light-yellow to Yellow Gel

Glycolic Acid Purifying Face Wash

Formula ID: FG-FC005-1

Innovative Cosmetics
from Concept to Reality

Description

The daily-use light exfoliating cleanser features 8% glycolic acid to renew and revitalize skin, cleanses dirty and excess oil, clears congested pores as well. The vitamin C, aloe and other selected natural plant extracts bring extensive nutrition to the skin, leaving skin hydrated and brightened.

Key Benefits

- Revitalizes skin with gentle exfoliating
- Reduces the appearance of fine lines and wrinkles
- Moisturizes skin while cleansing
- Repairs skin damages
- Soothes skin

Target Concerns

- Pores, Acne and Blemishes
- Fine Lines and Wrinkles
- Oiliness
- Dryness

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Glycolic Acid - A naturally occurring alpha hydroxy acids (or AHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Sodium PCA - Commonly referred to as the Natural Moisturizing Factor, Sodium PCA occurs naturally in human skin and is responsible for binding moisture to the cells. It is a high performance humectant that can hold several times its weight in water.
- Aloe Barbadensis Leaf Juice - Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Panthenol - A plant-derived provitamin of B5. This ingredient has many beneficial uses to improve skin appearance because of its humectant properties. It helps soothe oxidative stress like redness, lines, and callouses.
- Calendula Officinalis Flower Extract - A natural extract of the flowers of Calendula Officinalis. Calendula has anti-inflammatory, antibacterial and antiseptic properties. It has been used to treat dry or damaged skin, heal wounds, burns, eczema and other inflammatory skin conditions.

4 fl oz / 120 ml
White to Light-yellow Cream

Retinol Moisturizing Facial Cleanser

Formula ID: FG-SFC011-R

Innovative Cosmetics
from Concept to Reality

Description

This creamy super mild sulfate-free cleanser features retinol to prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots. Formulated with Hyaluronic Acid, Algae Extract and hydrolyzed plant proteins, this product leaves your skin extremely hydrated while removing dirty and impurities.

Key Benefits

- Cleanses skin mildly and effectively
- Moisturizes skin while cleansing
- Reduces the appearance of fine lines and wrinkles
- Brighten dull skin and fade dark age spots
- Regulate oily skin and minimize breakouts

Target Concerns

- Fine Lines and Wrinkles
- Dullness and Uneven Texture
- Dryness
- Oiliness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Retinol – Commonly known as Vitamin A. Vitamin A is a powerful antioxidant that the body uses to maintain healthy skin, teeth, and vision. Retinol works in skin by promoting faster growth rates, thus producing fresher, livelier skin. As an antioxidant, retinol helps prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots.
- Tocopherol – Vitamin E, an antioxidant which protects the skin from various deleterious effects due to solar radiation by acting as a free-radical scavenger. It offers significant antioxidant properties to help defend from pollution and other environmental stressors that would otherwise weaken skin, causing unwanted changes.
- Algae Extract – The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.

4 fl oz / 120 ml
Pearlizing Light-yellow Cream

Anti-polluting & Hydrating Toner

Formula ID: FG-FT001

Innovative Cosmetics
from Concept to Reality

Description

The transparent tonic liquid features the natural light-blue colored Malachite Extract. The toner is a perfect anti-polluting and hydrating product which soothes dry, flaky skin and helps revitalize and recover moisture loss while infusing skin with anti-aging antioxidants. Meanwhile, it helps detox the skin and brings protection against environmental aggressions and pollution.

Key Benefits

- Reduces wrinkles and fine lines
- Protects skin against environmental aggressions and pollution
- Moisturizes skin deeply
- Soothes skin
- Repair skin damages

Target Concerns

- Fine Lines and Wrinkles
- Environmental aggressions and pollution
- Skin damages
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Malachite Extract - An innovative active mineral extract rich in trace elements and copper. As a powerful antioxidant, it helps detox the skin and brings protection against environmental aggressions and pollution - perfect for lines targeting the urban consumer.
- Algae Extract - The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.
- Sodium Hyaluronate - A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Aloe Barbadensis Leaf Juice - Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Chamomilla Recutiata (Matricaria) Flower Extract - A natural extract of the flowers of Chamomilla Recutiata. It's active constituents are flavonoids, (Apigenin derivatives), sesquiterpenes and coumarins. Chamomile is beneficial as an anti-inflammatory and also as a mild sedative, reduces redness and soothe the skin.

8 fl oz / 240 ml
Clear Light-blue Liquid

Glycolic Acid Resurfacing Toner

Formula ID: FG-FT002-1

Innovative Cosmetics
from Concept to Reality

Description

This toning complex with glycolic acid at 8% chemically exfoliates the skin's surface to help reduce the appearance of fine lines, wrinkles, pores, and uneven skin tone—all while helping to brighten, clarify, and smooth. With sodium PCA, aloe vera and botanicals, the formula helps soothe and calm the complexion, and leaves skin hydrated.

Key Benefits

- Revitalizes skin
- Reduces the appearance of fine lines and wrinkles
- Moisturizes skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Pores, Acne and Blemishes
- Fine Lines and Wrinkles
- Oiliness
- Dryness

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Glycolic Acid - A naturally occurring alpha hydroxy acids (orAHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Sodium PCA - Commonly referred to as the Natural Moisturizing Factor, Sodium PCA occurs naturally in human skin and is responsible for binding moisture to the cells. It is a high performance humectant that can hold several times its weight in water.
- Aloe Barbadensis Leaf Juice - Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Chamomilla Recutita (Matricaria) Flower Extract - A natural extract of the flowers of Chamomilla Recutita. It's active constituents are flavonoids, (Apigenin derivatives), sesquiterpenes and coumarins. Chamomile is beneficial as an anti-inflammatory and also as a mild sedative, reduces redness and soothe the skin.
- Centella Asiatica Extract - An extract from Centella asiatica, a medicinal herb widely used in traditional oriental medicine for the treatment of skin diseases and for wound healing. Scientific research has proven its wound healing properties, and found that bioactive compounds, such as asiatic acid, asiaticoside, madecassic acid and madecassoside, are the main compounds responsible for its anti-inflammatory actions.

8 fl oz / 240 ml
Clear Colorless to Light-yellow Liquid

Collagen Booster Serum

Formula ID: FG-SR001

Innovative Cosmetics
from Concept to Reality

Description

This Collagen Boosting Serum not only supplements collagen to the skin, but also stimulates and promotes collagen synthesis, therefore it helps to enhance the natural beauty of skin and retain moisture, softens and smooths for a radiant looking complexion. Add to daily routine to help reduce the appearance of fine lines and wrinkles for healthy, younger looking skin.

Key Benefits

- Stimulates collagen synthesis
- Promotes collagen formation
- Reduces wrinkles and fine lines
- Moisturizes skin
- Soothes skin

Target Concerns

- Fine Lines and Wrinkles
- Dullness and Uneven Texture
- Loss of Firmness and Elasticity
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Soluble Collagen - The undamaged collagen has strong affinity and substantivity to human skin. With its extremely high water-binding capacity, it nurtures the skin instantly, effectively and noticeably. Research shows that soluble collagen improves the biomechanical properties of skin, boosts the skin's natural processes of regeneration, rejuvenates the texture and elasticity of facial skin, contours are tightened, skin complexion appears plumper, smoother and more even. At the same time, it restores moisture, skin's cushion and its bounce, and helps to reduce the appearance of expression lines.
- Ascorbyl Glucoside - Glucose stabilized vitamin C, whitening, anti-pollution and UV induced cell damage protection preventing from pigmentation and aging. It is proven efficacy in antioxidant activity, in inflammation mitigation, in collagen stimulation, and for inhibition of melanogenesis.
- Palmitoyl Tripeptide-5 - A patented peptide that helps slow down the skin aging process. It mimics the body's own mechanism, simultaneously boosting collagen production and protecting against collagen degradation.
- Algae Extract - The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.
- Rosmarinus Officinalis (Rosemary) Leaf Extract - A natural extract of the leaves of Rosmarinus officinalis. Rosemary is an anti-inflammatory, antioxidant and astringent which is for anti-aging, skin lightening and to stimulate blood flow. Rosemary also has soothing properties.

Clear Colorless to Light-yellow Liquid

Hyaluronic Acid Moisturizing Serum

Formula ID: FG-SSR009-1

Innovative Cosmetics
from Concept to Reality

Description

This intense moisturizing serum is powered by Hyaluronic acid, Vitamins, Algae polysaccharides and other botanicals. It boosts hydration for smooth, supple skin all day, instantly absorbs to quench skin and deliver higher hydration levels for fully hydrated skin that glows day after day.

Key Benefits

- Moisturizes skin deeply
- Restores skin firmness and elasticity
- Soothes skin

Target Concerns

- Dryness
- Loss of Firmness and Elasticity

Recommended Skin Type

- All skin types

1 fl oz / 30 ml
Clear Colorless to Light-yellow Liquid

Ingredient Highlights

- Sodium Hyaluronate - A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Niacinamide - A form of vitamin B3. It promotes protein synthesis, which improves skin metabolism. By improving the cells metabolism, it improves skin texture exhibiting anti-aging properties. It inhibits free radical formation, making it a good anti-oxidant. It is also a skin whitener, and UV protector.

- Algae Extract - The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.
- Camellia Sinensis Leaf Extract - A natural extract of the young leaves of White Tea. It contains antioxidants and is effective for protecting skin cells against damage from sun exposure.

Vitamin AgeSpot Serum

Formula ID: FG-SR002

Innovative Cosmetics
from Concept to Reality

Description

This serum with a combination of Vitamin C (20%), B3, Hyaluronic acid and plant extracts targets multiple skin-lightening mechanisms and diminishes the signs of aging by reducing the appearance of fine lines, wrinkles and age spots.

Key Benefits

- Reduces wrinkles and fine lines
- Promotes collagen formation
- Lightens dark skin
- Moisturizes skin deeply
- Repairs skin damages
- Soothes skin

Target Concerns

- Fine Lines and Wrinkles
- Dark skin
- Dullness and Uneven Texture

Multi Vitamin Serum

Formula ID: FG-SR002-MV

Innovative Cosmetics
from Concept to Reality

Description

This unique Multi Vitamin Serum is formulated with Vitamin A, B3, B5, C and E to nourish your skin, lighten the dull and dark spots, and stimulate the collagen synthesis. Rich in anti-oxidants, it helps prevent skin aging and smooth out the existing fine lines and wrinkles.

Key Benefits

- Reduces wrinkles and fine lines
- Promotes collagen formation
- Brighten dull skin and fade dark age spots
- Moisturizes skin deeply
- Regulate oily skin and minimize breakouts

Target Concerns

- Fine Lines and Wrinkles
- Dark skin

Translucent Pink Liquid

Retinol & Peptide Night Repair Serum

Formula ID: FG-SR003

Innovative Cosmetics
from Concept to Reality

Description

This powerful peptide serum with blended peptides, Retinol, Hyaluronic acid and natural oils helps to promote skin repair overnight. It strengthens skin's natural barrier to prevent future damage, while improving its ability to lock in moisture so skin looks instantly smoother. Moreover, the serum helps to reduce the look of fine lines and wrinkles over time.

Key Benefits

- Reduces wrinkles and fine lines
- Slows down skin aging process
- Moisturizes skin deeply
- Repairs skin damages
- Soothes skin

Target Concerns

- Fine Lines and Wrinkles
- Dullness and Uneven Texture
- Loss of Firmness and Elasticity
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Retinol – Commonly known as Vitamin A. Vitamin A is a powerful antioxidant that the body uses to maintain healthy skin, teeth, and vision. Retinol works in skin by promoting faster growth rates, thus producing fresher, livelier skin. As an antioxidant, retinol helps prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots.
- Palmitoyl Tripeptide-1 (and) Palmitoyl Tetrapeptide-7 – Called Matrixyl™ 3000. It is a synergy of two matrikines, Pal-GHK and Pal-GQPR, that repair the cutaneous damages of age. This product is used in anti-wrinkle applications. It contains matrikines which are messengers of cutaneous restructuring and repair. They activate the neosynthesis of extracellular matrix macromolecules providing this product with a visible anti-wrinkle efficacy. Matrixyl™ 3000 is water soluble.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Rosmarinus Officinalis (Rosemary) Leaf Extract – A natural extract of the leaves of Rosmarinus officinalis. Rosemary is an anti-inflammatory, antioxidant and astringent which is for anti-aging, skin lightening and to stimulate blood flow. Rosemary also has soothing properties.

Brightening & Deep Moisturizing Cream

Formula ID: FG-DC003-1

Innovative Cosmetics
from Concept to Reality

Description

This moisturizing cream features Vitamin C, Licorice, Centella and other botanicals to brighten and whiten skin by preventing from pigmentation and aging. Incorporated with Hyaluronic acid and Algae extracts, it brings super hydration to skin deeply.

Key Benefits

- Moisturizes skin with 3D hydration
- Brightens and whitens skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Dryness
- Redness
- Dullness and Uneven Texture
- Skin damages

Recommended Skin Type

- All skin types

1.7 oz / 50 g
White to Light-yellow Cream

Ingredient Highlights

- Glycyrrhiza Glabra (Licorice) Extract - A natural extract of the root of Glycyrrhiza Glabra. Licorice root has anti-microbial, anti-irritant and anti-inflammatory properties and can be used for skin brightening and whitening.
- Centella Asiatica Extract - An extract from Centella asiatica, a medicinal herb widely used in traditional oriental medicine for the treatment of skin diseases and for wound healing. Scientific research has proven its wound healing properties, and found that bioactive compounds, such as asiatic acid, asiaticoside, madecassic acid and madecassoside, are the main compounds responsible for its anti-inflammatory actions.
- Ascorbyl Glucoside - Glucose stabilized vitamin C, whitening, anti-pollution and UV induced cell damage protection preventing from pigmentation and aging. It is proven efficacy in antioxidant activity, in inflammation mitigation, in collagen stimulation, and for inhibition of melanogenesis.

It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Algae Extract - The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.

Multi Vitamin Moisturizer

Formula ID: FG-DC004

Innovative Cosmetics
from Concept to Reality

Description

This creamy moisturizer with multivitamin gives skin a vibrant, healthy-looking complexion. Powered by Vitamin C, E, and B5, organic plant extracts and revitalizing minerals, the moisturizer instantly awakens the skin and promotes a glowing complexion.

Key Benefits

- Moisturizes skin with 3D hydration
- Enhances collagen production
- Strengthens the skin barrier
- Soothes oxidative stress

Target Concerns

- Dryness
- Redness
- Oxidative stress like lines and callouses

Recommended Skin Type

- All skin types

1.7 oz / 50 g
White to Light-yellow Cream

Ingredient Highlights

- 3-Glyceryl Ascorbate - A novel moisturizing vitamin C derivative. In addition to its excellent skin-moisturizing effect and inhibitory effect on melanin production, it has good cost benefits, that enhances collagen production, and exerts an intracellular antioxidant effect.
- Retinol – Commonly known as Vitamin A. Vitamin A is a powerful antioxidant that the body uses to maintain healthy skin, teeth, and vision. Retinol works in skin by promoting faster growth rates, thus producing fresher, livelier skin. As an antioxidant, retinol helps prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots.
- Tocopheryl Acetate – Vitamin E, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Panthenol – A plant-derived provitamin of B5. This ingredient has many beneficial uses to improve skin appearance because of its humectant properties. It helps soothe oxidative stress like redness, lines, and callouses.
- Niacinamide – Vitamin B3. It promotes protein synthesis, which improves skin metabolism. By improving the cells metabolism, it improves skin texture exhibiting anti-aging properties. It inhibits free radical formation, making it a good anti-oxidant. It is also a skin whitener, and UV protector.

Retinol Nourishing Moisturizer

Formula ID: FG-DC005

Innovative Cosmetics
from Concept to Reality

Description

This moisturizer features Retinol to help prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots. Formulated with Vitamin E, Hyaluronic Acid, Algae Extract and Squalane, it provides a natural and hydrating touch, offers intense moisturizing and skin-nourishing properties to skin. Works on all skin types.

Key Benefits

- Moisturizes skin with 3D hydration
- Repairs skin damages
- Soothes skin

Target Concerns

- Dryness
- Redness
- Skin damages

Recommended Skin Type

- All skin types

1.7 oz / 50 g
White to Light-yellow Cream

Ingredient Highlights

- Retinol - Commonly known as Vitamin A. Vitamin A is a powerful antioxidant that the body uses to maintain healthy skin, teeth, and vision. Retinol works in skin by promoting faster growth rates, thus producing fresher, livelier skin. As an antioxidant, retinol helps protect cells from the dangerous side effects of oxidation.
- Tocopheryl Acetate - Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Sodium Hyaluronate - A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Squalane - 100% plant-based emollient derived from plant sugars (sugar cane). Squalane occurs naturally in the lipidic layers of the skin and prevents moisture loss while restoring the skin's suppleness and flexibility. Squalane is highly resistant to oxidation and has a high affinity to skin cells due to its skin-identical structure.

Glycolic Acid Lightening Moisturizer

Formula ID: FG-SDC008

Innovative Cosmetics
from Concept to Reality

Description

This light exfoliating moisturizer features two alpha hydroxy acids (AHAs), Glycolic Acid and Lactic Acid, to rejuvenate the skin, reduce fine lines and wrinkles, as well as brighten the dull spots while bringing extremely hydration to your skin. Formulated with vitamins, Aloe Vera and botanical oxidants, this product nourishes, tones and soothes your skin for all day long.

Key Benefits

- Reduces wrinkles and fine lines
- Removes skin dead cells
- Moisturizes skin
- Brightens skin

Target Concerns

- Fine Lines and Wrinkles
- Dull skin and age spots
- Skin dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Glycolic Acid – A naturally occurring alpha hydroxy acids (or AHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Lactic acid – A hydrating alpha hydroxy acid (AHA) which brightens, smooths, and evens skin, while also making it look firmer. It helps reduce the appearance of fine lines, wrinkles, and dark spots.
- Tocopheryl Acetate – Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Algae Extract – The polysaccharide extracted from brown algae. It contains L-fucose, glucuronic acid, and has excellent moisturizing and emollient character. It has the ability to accelerate the cell division and to activate the cells as well.

White to Light-yellow Cream

Okra Anti-aging & Restoring Night Cream

Formula ID: FG-NC003

Innovative Cosmetics
from Concept to Reality

Description

This night cream features Okra oil and oligopeptides obtained by biotransformation of native proteins from the seeds of Okra, blended with two other peptides. It reduces muscle contraction and therefore reduces formation of express lines, helps improve firmness and elasticity to restore youthful-looking contours, as the intensely nourishing, moisturizing formula melts into skin for a supple, vibrant complexion.

Key Benefits

- Reduces wrinkles and fine lines
- Slows down skin aging process
- Moisturizes skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Fine Lines and Wrinkles
- Dullness and Uneven Texture
- Loss of Firmness and Elasticity
- Dryness

Recommended Skin Type

- All mature skin

Ingredient Highlights

- Hydrolyzed Hibiscus Esculentus (Okra) Extract - A complex of oligopeptides obtained by biotransformation of native proteins from the seeds of Hibiscus esculentus L. (okra). This product is ideally used as a topical answer to smooth expression lines, eliminate or reduce frequency of invasive procedures, and facial anti-age products.
- Dipeptide Diaminobutyroyl Benzylamide Diacetate - A small peptide that works synergistically with skin's own processes to help reduce the appearance of wrinkles and laughter lines – fast.
- Palmitoyl Tripeptide-5 - A patented peptide that helps slow down the skin aging process. It mimics the body's own mechanism, simultaneously boosting collagen production and protecting against collagen degradation.
- Tocopherol - Vitamin E, an antioxidant which protects the skin from various deleterious effects due to solar radiation by acting as a free-radical scavenger. It offers significant antioxidant properties to help defend from pollution and other environmental stressors that would otherwise weaken skin, causing unwanted changes.
- Ginkgo Biloba Leaf Extract - A natural extract of the leaves of Ginkgo Biloba. Ginkgo leaves contain antioxidants and can be used for anti-aging and circulation improvement. It's also a soothing and lenitive, anti-inflammatory natural ingredient for sensitive skin.

Anti-Puffing & Brightening Eye Gel

Formula ID: FG-EC001

Innovative Cosmetics
from Concept to Reality

Description

This fresh gel for the area around the eyes is formulated with Glycine Soja (Soybean) Protein and Hydrolyzed Rice Protein, which reduces dark circles and eye puffiness by improving microcirculation and reducing the effects of free radicals. At the same time, the formula exerts a rapid and perceptible tightening effect while hydrating the skin.

Key Benefits

- Reduces the appearance of under-eye dark circle
- Reduces eye puffiness
- Reduces wrinkles and fine lines
- Tightens skin
- Moisturizes skin

Target Concerns

- Under-eye dark circle
- Eye puffiness
- Fine Lines and Wrinkles
- Loss of Firmness and Elasticity
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Glycine Soja (Soybean) Protein (and) Hydrolyzed Rice Protein (and) Superoxide Dismutase - A unique, high performing complex that protects and strengthens the delicate skin under the eyes. It visibly reduces the appearance of under-eye dark circle and eye puffiness. Clinical studies confirm an improvement of the skin texture by more than 30% in only 4 weeks.
- Dipeptide Diaminobutyroyl Benzylamide Diacetate - A small peptide that works synergistically with skin's own processes to help reduce the appearance of wrinkles and laughter lines – fast.
- Sodium Hyaluronate - A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.
- Camellia Sinensis Leaf Extract - A natural extract of the young leaves of White Tea. It contains antioxidants and is effective for protecting skin cells against damage from sun exposure.
- Witch Hazel - A plant extract of Hamamelis virginiana that provides astringent, anti-inflammatory and anti-bacterial effects for the treatment of oily skin, after-shaves, hair care and skin tonics.

0.5 oz / 15 g
Clear Colorless to Light-yellow Gel

Revitalizing Renewal Eye Crème

Formula ID: FG-EC003

Innovative Cosmetics
from Concept to Reality

Description

This powerful eye cream features blend of peptides, MSM, Caffeine, Retinol and other Vitamins that fix aging problems around the eye, reducing the appearance of dark circle, puffiness, wrinkles and fine lines, while tightening and hydrating the skin. Rich of natural oils and botanicals, the formula protects the skin around eye against inflammatory, irritation, redness and dryness.

Key Benefits

- Reduces the appearance of under-eye dark circle
- Reduces eye puffiness
- Reduces wrinkles and fine lines
- Tightens skin
- Moisturizes skin

Target Concerns

- Under-eye dark circle
- Eye puffiness
- Fine Lines and Wrinkles
- Loss of Firmness and Elasticity
- Dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Retinol – Commonly known as Vitamin A. Vitamin A is a powerful antioxidant that the body uses to maintain healthy skin, teeth, and vision. Retinol works in skin by promoting faster growth rates, thus producing fresher, livelier skin. As an antioxidant, retinol helps prevent skin aging, smooth out fine lines and wrinkles, brighten dull skin and fade dark age spots.
- Palmitoyl Tripeptide-1 (and) Palmitoyl Tetrapeptide-7 – Called Matrixyl™ 3000. It is a synergy of two matrikines, Pal-GHK and Pal-GQPR, that repair the cutaneous damages of age. This product is used in anti-wrinkle applications. It contains matrikines which are messengers of cutaneous restructuring and repair. They activate the neosynthesis of extracellular matrix macromolecules providing this product with a visible anti-wrinkle efficacy.
- Glycine Soja (Soybean) Protein (and) Hydrolyzed Rice Protein (and) Superoxide Dismutase – A unique, high performing complex that protects and strengthens the delicate skin under the eyes. It visibly reduces the appearance of under-eye dark circle and eye puffiness. Clinical studies confirm an improvement of the skin texture by more than 30% in only 4 weeks.
- Ferulic Acid – A common phenolic acid in plant kingdom. It combines with polysaccharide and protein in plant cell wall to form the structure of cell wall. In recent years, it has been discovered that ferulic acid is a new non-peptide endothelin antagonist with whitening effect and also has anti-free radicals, antioxidants, promotes blood microcirculation, bodybuilding and skin protection.

0.5 oz / 15 g
White to Light-yellow Cream

AHA & Peptide Anti-aging Eye Cream

Formula ID: FG-SEC004

Innovative Cosmetics
from Concept to Reality

Description

This anti-aging eye cream is infused with Glycolic Acid (AHA) and peptides to rejuvenate the skin, reduce fine lines and wrinkles, as well as lighten the dull spots, thus reduces the eye dark circles and puffiness. Rich in vitamins and botanicals including Aloe Vera and Witch Hazel, this product nourishes, tightens, tones and soothes the skin around your eyes.

Key Benefits

- Reduces wrinkles and fine lines
- Reduces eye puffiness and dark-circles
- Removes skin dead cells
- Repairs skin damages
- Brightens skin

Target Concerns

- Fine Lines and Wrinkles
- Eye puffiness and dark-circles
- Dull skin and age spots
- Skin dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Glycolic Acid – A naturally occurring alpha hydroxy acids (or AHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Palmitoyl Tripeptide-1 (and) Palmitoyl Tetrapeptide-7 – Called Matrixyl™ 3000. It is a synergy of two matrikines, Pal-GHK and Pal-GQPR, that repair the cutaneous damages of age. This product is used in anti-wrinkle applications. It contains matrikines which are messengers of cutaneous restructuring and repair. They activate the neosynthesis of extracellular matrix macromolecules providing this product with a visible anti-wrinkle efficacy.
- Methylsulfonylmethane (MSM) – a sulfur-containing ingredient found naturally in plants, animals and humans. It reduces the release of molecules associated with inflammation, as well as boost levels of the powerful antioxidant glutathione.
- Allantoin – Occurs naturally in the roots & leaves of the comfrey plant, Allantoin improves the skin's moisture retention providing a smoothing effect. It is an ideal addition to anti-aging products to help to minimize the appearance aging and skin damage. In addition to its moisturizing properties, it is an effective anti-irritant, protecting the skin.
- Witch Hazel – A plant extract of Hamamelis virginiana that can cleanse, regulate the skin's oil production, eliminate excess sebum, nourish, tighten, tone, soothe, and reduce the chances of future blemish outbreaks. It reduces swelling, calms irritation, minimizes the look of enlarged pores.

White to Light-yellow Cream

Peptide Recovering Sleeping Mask

Formula ID: FG-FM001

Innovative Cosmetics
from Concept to Reality

Description

This recovering sleeping mask is an overnight leave-on treatment especially designed to recover skin that is assaulted daily by urban stress and pollution. The surprising melting gel-cream changes instantly when in contact with skin to a cooling watery fluid that deposits evenly on skin allowing a pleasant massage to relax a stressed tight face. The mask forms an invisible and non-tacky film to help reinforce the skin barrier, maintain hydration level and boosts actives to travel into skin as you sleep.

Key Benefits

- Moisturizes skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Dryness
- Skin damages
- Urban stress and pollution

Recommended Skin Type

- All skin types

Ingredient Highlights

- Palmitoyl Tripeptide-1 (and) Palmitoyl Tetrapeptide-7 – Called Matrixyl™ 3000. It is a synergy of two matrikines, Pal-GHK and Pal-GQPR, that repair the cutaneous damages of age. This product is used in anti-wrinkle applications. It contains matrikines which are messengers of cutaneous restructuring and repair. They activate the neosynthesis of extracellular matrix macromolecules providing this product with a visible anti-wrinkle efficacy.
- Aloe Barbadensis Leaf Juice – Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Tocopheryl Acetate – Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.

Light-yellow Lotion

Dead Sea Mud Nourishing Mask

Formula ID: FG-SFM005

Innovative Cosmetics
from Concept to Reality

Description

This mask is made with 100% natural mineral mud harvest from the dead sea. It removes dead cells from the skin's surface, purges the pores of impurities, and balances the skin's oil production and pH level while hydrating and firming your skin. Furthermore, it enhances skin elasticity, reduces the appearance of pores, and smooths the appearance of fine lines and wrinkles.

Key Benefits

- Reduces fine lines and wrinkles
- Removes skin dead cells
- Moisturizes skin
- Removes skin dirty and impurities

Target Concerns

- Fine lines and wrinkles
- Dryness
- Loss of skin elasticity
- Urban stress and pollution

Recommended Skin Type

- All skin types

Ingredient Highlights

- **Dead Sea Mud** – Dead Sea Mineral Mud is a natural element yielded by and harvested from the mineral-rich Dead Sea. It has hydrating, beautifying, purgative and relieving properties and is known to relieve various symptoms of skin and musculoskeletal ailments. Used topically, Dead Sea Mineral Mud accelerates the skin's detoxification process, draws out excess oil, tightens, and exfoliates to remove dead skin.
- **Kaolin** – Known as White Clay, 100% natural. It is well-known for its purifying properties. Its natural efficacy is due to its chemical structure. In solution, clay catches positively charged molecules such as mineral salts and can exchange them once it gets in contact with the skin. Clay remineralizes and detoxifies the epidermis by switching its mineral salts with toxins and impurities that lie at the skin surface.
- **Tocopheryl Acetate** – Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- **Sodium Hyaluronate** – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.

Aloe Soothing Tender Body Wash

Formula ID: FG-BBW008

Innovative Cosmetics
from Concept to Reality

Description

This luxuios body wash features Aloe Barbadensis Leaf Juice which soothes skin and repair skin damages while removing dirty and impurities. Blended with Vitamin E, Allantoin, Hydrolyzed Collagen and botanicals, this product enhances moisturization and strengthens the skin barrier.

Key Benefits

- Moisturizes skin
- Soothes skin
- Repair skin damages
- Strengthens the skin barrier

Target Concerns

- Dryness
- Skin damages
- Irritation

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Aloe Barbadensis Leaf Juice - Known for its antiseptic healing properties, aloe is an excellent humectant which makes it beneficial for dry or damaged skin. Its moisturizing properties aid in promoting the healing of wounds, burns, eczema and other inflammatory skin conditions.
- Tocopheryl Acetate - Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Allantoin - Occurs naturally in the roots & leaves of the comfrey plant, Allantoin improves the skin's moisture retention providing a soothing effect. It is an ideal addition to anti-aging products to help to minimize the appearance aging and skin damage. In addition to its moisturizing properties, it is an effective anti-irritant, protecting the skin.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and compared to other natural and synthetic polymers, has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.character. It has the ability to accelerate the cell division and to activate the cells as well.

White to Light-yellow Pearlizing Cream

Tea Tree Refreshing Shower Gel

Formula ID: FG-BW002

Innovative Cosmetics
from Concept to Reality

Description

The refreshing body wash features Tea tree oil. With powerful anti-bacterial and anti-inflammatory properties, it protects skin while washing away dirty and impurities. Moreover, with allantoin, vitamin B5 and botanicals, the formula offers great nourishing and moisturizing benefits to the body.

Key Benefits

- Purifies and calms skin
- Moisturizes skin
- Repair skin damages
- Soothes oxidative stress

Target Concerns

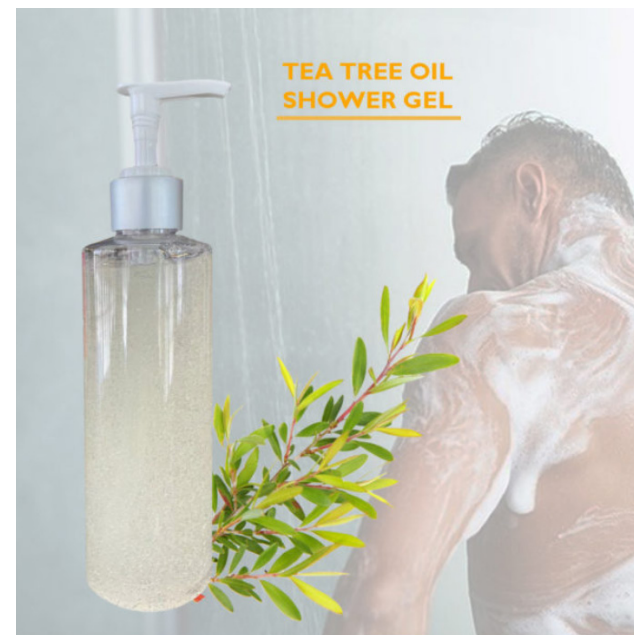

- Dryness
- Skin damages
- Oiliness

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Melaleuca Alternifolia (Tea Tree) Leaf Oil - An essential oil distilled from the Australian plant Melaleuca alternifolia. It has been used medicinally for centuries, and has been identified as an antiseptic. Tea tree oil has also been found to have substantial anti-fungal, antibacterial, anti-viral and anti-inflammatory activity.
- Allantoin - Occurs naturally in the roots & leaves of the comfrey plant, Allantoin improves the skin's moisture retention providing a soothing effect. It is an ideal addition to anti-aging products to help to minimize the appearance aging and skin damage. In addition to its moisturizing properties, it is an effective anti-irritant, protecting the skin.
- Panthenol - A plant-derived provitamin of B5. This ingredient has many beneficial uses to improve skin appearance because of its humectant properties. It helps soothe oxidative stress like redness, lines, and callouses.
- Sodium PCA - Commonly referred to as the Natural Moisturizing Factor, Sodium PCA occurs naturally in human skin and is responsible for binding moisture to the cells. It is a high performance humectant that can hold several times its weight in water.
- Ginkgo Biloba Leaf Extract - A natural extract of the leaves of Ginkgo Biloba. Ginkgo leaves contain antioxidants and can be used for anti-aging and circulation improvement. It's also a soothing and lenitive, anti-inflammatory natural ingredient for sensitive skin.

Clear Colorless to Light-yellow Gel

AHA & BHA Exfoliating Body Lotion

Formula ID: FG-BBL007

Innovative Cosmetics
from Concept to Reality

Description

The daily-use light exfoliating body lotion features the combination of glycolic acid and salicylic acid to remove dead cells, renew and revitalize skin. Formulated with Allantoin, vitamins, Hyaluronic Acid and botanicals, this product brings extensive nutrition to the skin, repair skin damages, leaving skin hydrated and soothed.

Key Benefits

- Revitalizes skin with gentle exfoliating
- Reduces the appearance of fine lines and wrinkles
- Moisturizes skin
- Repairs skin damages
- Soothes skin

Target Concerns

- Pores, Acne and Blemishes
- Fine Lines and Wrinkles
- Oiliness
- Dryness

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Glycolic Acid – A naturally occurring alpha hydroxy acids (or AHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Salicylic acid – A beta hydroxy acid (BHA). It is considered a keratolytic medication, which means that it's perfect for supreme exfoliation. It also loosens and breaks apart desmosomes (attachments between cells in the outer layer of skin). This 'desmolytic' action encourages exfoliation of skin and unclogging of pores.
- Allantoin – Occurs naturally in the roots & leaves of the comfrey plant, Allantoin improves the skin's moisture retention providing a smoothing effect. It is an ideal addition to anti-aging products to help to minimize the appearance aging and skin damage. In addition to its moisturizing properties, it is an effective anti-irritant, protecting the skin.
- Panthenol – A plant-derived provitamin of B5. This ingredient has many beneficial uses to improve skin appearance because of its humectant properties. It helps soothe oxidative stress like redness, lines, and callouses.
- Sodium Hyaluronate – A salt of Hyaluronic Acid. Hyaluronic Acid is normally found in skin, connective and nerve tissue and has the greatest capacity to hold water. It enhances the appearance of dry or damaged skin by reducing flaking and restoring suppleness.

Coconut Milk Himalayan Scrub

Formula ID: FG-SFS002

Innovative Cosmetics
from Concept to Reality

Description

This face/lip/body scrub features Himalayan pink salt and coconut milk. It physically sloughs off dead skin cells, absorbs dirt and toxins on top of having natural antibacterial properties, while leaving skin feeling super hydrated, soft and smooth.

Key Benefits

- Removes skin dead cells
- Moisturizes skin
- Removes skin dirty and impurities
- Soothes skin

Target Concerns

- Skin dead cells
- Dryness
- Urban stress and pollution

Recommended Skin Type

- All skin types

12 oz / 360 G
Pink Solid with Oil

Ingredient Highlights

- Himalayan Pink Salt – Also Known as Himalayan Rock Salt, this salt is hand-mined and harvested from ancient salt beds, deep under the Himalayan Mountains. Known to be rich in over 80 minerals and trace elements, some of the most notable being calcium, magnesium, potassium, copper and iron, this salt is considered to be the purest form of salt available. The Himalayan Salt is popularly known for its use in baths to promote relaxation of the body, and for its refreshing and energizing effects.
- Coconut Milk – Coconut milk is packed with vitamins C, E, B1, B3, B5, and B6 as well as iron, selenium, sodium, calcium, magnesium and phosphorus. Coconut milk contains good concentration of lauric acid, a medium chain fatty acid (MCFA) which gets converted to monolaurin in the body, a compound with antiviral and antibacterial properties.
- Tocopheryl Acetate – Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Prunus Amygdalus Dulcis (Sweet Almond) Oil - A universal carrier oil obtained from the dried kernel of the Almond tree. This oil is considered a lightweight oil which is known to be rich in vitamin A, E, and B as well as Oleic (C18:1) and Linoleic (C18:2) essential fatty acids.

Glycolic Acid Dual Exfoliating Scrub

Formula ID: FG-BBS001

Innovative Cosmetics
from Concept to Reality

Description

This unique body and face scrub with chemical and physical exfoliator supercharges to rapidly lift away dry, rough bumps and reveal healthier looking skin that looks and feels exceptionally smooth and glowing. Powered by Glycolic Acid (AHA), it rejuvenates the skin, reduce fine lines and wrinkles, as well as brighten the dull spots.

Key Benefits

- Reduces wrinkles and fine lines
- Removes skin dead cells
- Moisturizes skin
- Brightens skin

Target Concerns

- Fine Lines and Wrinkles
- Dull skin and age spots
- Skin dryness

Recommended Skin Type

- All skin types

Ingredient Highlights

- Glycolic Acid – A naturally occurring alpha hydroxy acids (or AHAs), a powerful chemical exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface.
- Tocopheryl Acetate – Vitamin E Acetate, provides all of the benefits of Vitamin E with the added benefit of sustainability. Vitamin E has proven antioxidant effects, enhances moisturization and strengthens the skin barrier. It also helps to counteract the appearance of inflammation linked to oxidative processes through downregulation of its mediators.
- Allantoin – Occurs naturally in the roots & leaves of the comfrey plant, Allantoin improves the skin's moisture retention providing a soothing effect. It is an ideal addition to anti-aging products to help to minimize the appearance aging and skin damage. In addition to its moisturizing properties, it is an effective anti-irritant, protecting the skin.
- Prunus Armeniaca (Apricot) Fruit Extract – Apricot Extract has high content in phenol compounds and vitamin C, thus it has antioxidant properties, scavenges free radicals and protects the organism from cell deterioration. Trans-epidermal water loss (TEWL) regulatory activity is due to the carbohydrates and α -hydroxyacids (AHA) in apricot. Cell regeneration stimulating activity is due to the α -hydroxyacids (AHA) content of apricot. It also provides moisturizing and exfoliating activity.

10 oz / 300 G

White to Light-yellow Cream with Brown Granules

Anti-aging Massage Oil

Formula ID: FG-BO002

Innovative Cosmetics
from Concept to Reality

Description

The fast-absorbing Body Oil features Vitamins and beta-Carotene, reduces free radical reactions and restrict oxidative/free radicals-induced damage, and offers significant antioxidant properties to help defend from pollution and other environmental stressors.

Key Benefits

- Moisturizes skin deeply
- Soothes skin
- Enhance skin natural suppleness and elasticity
- Protects the skin from pollution

Target Concerns

- Dryness
- Dullness and Uneven Texture
- Environmental stressors

Recommended Skin Type

- Normal, Dry, Combination, and Oily

Ingredient Highlights

- Tocopherol - Vitamin E, an antioxidant which protects the skin from various deleterious effects due to solar radiation by acting as a free-radical scavenger. It offers significant antioxidant properties to help defend from pollution and other environmental stressors that would otherwise weaken skin, causing unwanted changes.
- beta-Carotene (and) Helianthus Annuus Seed Oil (and) Daucus Carota Sativa Root Extract (and) Daucus Carota Sativa Seed Oil (and) Ascorbyl Palmitate - Blend of sunflower seed oil, carrot seed oil, and carrot extract enriched with beta-carotene and vitamin C. Beta-carotene effectively prevents and controls the production of free radicals and also reduces free radical reactions and restrict oxidative/free radicals-induced damage.
- Simmondsia Chinensis (Jojoba) Seed Oil - A versatile colorless natural liquid emollient for high quality personal care, cosmetics, skin and hair care products. It will enhance skin natural suppleness and elasticity. It helps protect the skin, lips, scalp and hair from dehydration by acting as a non-occlusive emollient maintaining the moisture level in the skin, while also allowing the skin to transpire naturally.
- Alpha-Bisabolol – Alpha-Bisabolol Natural has been shown to possess anti-inflammation and wound healing properties as well as antibacterial effects. It has many benefits, such as anti-inflammatory, bactericidal and antimycotic properties.

4 fl oz / 120 ml
Light-yellow to Yellow Oil

Soothing & Moisturizing Hand Cream

Formula ID: FG-BHL003

Innovative Cosmetics
from Concept to Reality

Description

This hand cream is formulated with Shea, Cocoa and Mango butter to provide extremely hydration to your dry and damaged hand. With Aloe Water, Tea Tree Oil and Peppermint Oil, it provides a stimulating and therapeutic cooling sensation meant to soothe your skin.

Key Benefits

- Moisturizes skin with 3D hydration
- Repairs skin damages
- Soothes skin
- Improves the appearance of aging skin

Target Concerns

- Dryness
- Skin damages
- Skin aging

Recommended Skin Type

- Normal, Dry, Combination

Ingredient Highlights

- **Shea Butter** – Shea Butter is a plant fat of the nuts of the African Karite tree (ambuk butter). Contains allantoin, vitamin A & vitamin E, and many cinnamic & unsaponifiable lipids (e.g. stearic & oleic acids) for a potent moisturizing effect. It is a potent moisturizer and emollient providing effective skin protection against environmental stress factors. Has been shown to have anti-irritant and soothing proper-ties and improves the appearance of aging skin, and protect the skin, repairs damage caused by climatic aggressions, pollution and UV radiations.
- **Mango Butter** – Mango Butter has been traditionally used in the rainforests and tropics for its skin softening, soothing, moisturizing and protective properties. It is a semi-solid at room temperature that melts upon contact with skin to provide a luxurious skin feel and excellent spreadability.
- **Cacao Butter** – The butter is from the seeds of the cacao tree, Theobroma cacao. It is solid at room temperature, but melts on contact at skin temperature. Cocoa Butter Natural prevents drying of skin and development of wrinkles.
- **Squalane** – 100% plant-based emollient derived from plant sugars (sugar cane). Squalane occurs naturally in the lipidic layers of the skin and prevents moisture loss while restoring the skin's suppleness and flexibility. Squalane is highly resistant to oxidation and has a high affinity to skin cells due to its skin-identical structure.

4 fl oz / 120 ml
White Cream

Apple Cider Vinegar Shampoo

Formula ID: FG-HSP013-ACV

Innovative Cosmetics
from Concept to Reality

Description

This sulfate-free shampoo features Apple Cider Vinegar to balance the scalp's pH levels and control dandruff while gently cleansing and purifying hair. Infused with vitamins, argan oil, shea butter and botanicals, it helps soothe and moisturize dry, itchy and flaky scalps and nourish hair from root to tip.

Key Benefits

- Balance scalp pH level
- Eliminates frizz and flyaways
- Moisturizes hair and scalp
- Enhances the shine of hair
- Control dandruff

Target Concerns

- Hair dryness
- Hair damages
- Frizz and flyaways
- Itchy irritation
- Dandruff

Recommended Hair Type

- All hair types

Ingredient Highlights

- Apple Cider Vinegar – A vinegar made from fermented apple juice. It has natural properties balance hair and scalp's pH levels to fight causes of dandruff, itchy irritation, and clogged pores.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Niacinamide – Vitamin B3. It has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been damaged by helping to build Keratin.
- Argan Oil – Argan Oil provides nourishment and shine from the tree of life. Highly concentrated in unsaturated fatty acids, tocopherols, and polyphenols. Helps to protect and restore skin functions, provides suppleness and softness, for nourishing and protecting formulations. It is a powerful natural shine enhancer and provides intensive care for dry or brittle hair.
- Hydrolyzed Keratin – Hydrolyzed Keratin protein helps fortify the hair shaft, replacing hair's natural protein to enhance strength and elasticity. It revitalizes the hair's natural protective layer by providing support where needed. Keratin protein is known to rebuild tensile strength, return elasticity, and reduce breakage.

Apple Cider Vinegar
SHAMPOO

12 fl oz / 360 ml

DHT Blocking Shampoo

Formula ID: FG-HSP014-D

Innovative Cosmetics
from Concept to Reality

Description

This DHT Blocking Hair-stimulating Shampoo features Biotin, Caffeine, Rosemary Oil and Castor Oil to deliver superior results for men and women with concerns about hair loss, thinning hair, and androgenic alopecia (female pattern baldness or male pattern baldness). It is formulated to maintain scalp vitality and act against follicular dysfunction, achieving the best results in a short period of time.

Key Benefits

- Promotes hair growth
- Moisturizes hair and scalp
- Repairs hair damages

Target Concerns

- Hair thin and loss
- Hair dryness
- Hair damages

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

12 fl oz / 360 ml

White to Light-yellow Pearly Cream

Ingredient Highlights

- Biotin – Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.
- Caffeine – Caffeine is an alkaloid methylxanthine and functions as a phosphodiesterase inhibitor, promoting cellular proliferation. In vitro studies report that caffeine counteracts the inhibitory effects of testosterone on hair growth, promotes hair shaft elongation, prolongs anagen duration, and stimulates hair matrix keratinocyte proliferation. Caffeine also downregulates testosterone-induced transforming growth factor (TGF)- β 1 expression, a hair growth inhibitor, and increases expression of insulin-like growth factor (IGF)-1, a hair growth promoter.
- Rosemary Oil – The essential oil has anti-inflammatory properties, promotes nerve growth and improves circulation. As a result, it prevents hair follicles from being starved of blood supply, dying off, and leading to hair loss. Beyond that, rosemary oil prevents premature graying, dandruff, dry and itch.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Castor Oil – Sourced from the castor bean (*Ricinus communis*), castor oil is rich in ricinoleic acid – a type of fatty acid found to fight inflammation. When applied to the scalp, it's purported to enhance the health of the hair follicles and, in turn, promote hair growth (as well as protect against hair loss).

Moisturizing & Revitalizing Luxury Shampoo

Formula ID: FG-HSP012

Innovative Cosmetics
from Concept to Reality

Description

This luxury and mild shampoo features natural sugar alcohol and polysaccharide to provide long-term hydration to the hair, after completely washing away dirty and impurities. Rich in Biotin, Panthenol and other Vitamins, proteins, amino acids and Amaranthus Caudatus Seed Extract, the formula helps hair shining and growth, repairing hair damages caused by environmental pollution, heating and chemical perm. The featured botanicals are proven to control dandruff, soothe scalp and fix many scalp problems.

Key Benefits

- Moisturizes hair and scalp
- Enhances the shine of hair, Eliminates frizz and flyaways
- Promotes hair growth
- Protects from and repair heat, UV and other damages

Target Concerns

- Hair dryness
- Hair thinning and damages
- Frizz and flyaways
- Dandruff

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

Ingredient Highlights

- Xylitylglucoside (and) Anhydroxylitol (and) Maltitol (and) Xylitol (and) Pelvetia Canaliculata Extract – A hair moisturizer and repairing agent that enhances the shine of all hair types. This new ally for damaged hair is a bio-inspired association of natural sugars mainly from wood and the brown algae.
- Biotin – Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Niacinamide – Vitamin B3. It has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been physically/chemically damaged by helping to build Keratin.
- Amaranthus Caudatus Seed Extract – A natural peptide that addresses many common hair concerns. It enhances hair's structural integrity by increasing the diameter of individual hair fibers from the inside out for fuller, thicker and healthier looking hair. It also reduces friction between the strands allowing for more hair movement and reducing the risk of mechanical damage.

Apple Cider Vinegar Conditioner

Formula ID: FG-HCD010-ACV

Innovative Cosmetics
from Concept to Reality

Description

This conditioner features Apple Cider Vinegar, Shea Butter and Avocado Oil to balance the scalp's pH levels and control dandruff while moisturizing hair and scalp, leaving hair soft and shining. Rich in vitamins, proteins and botanicals, it rejuvenates weak, thin, and/or severely damaged hair.

Key Benefits

- Balance scalp pH level
- Eliminates frizz and flyaways
- Moisturizes hair and scalp
- Enhances the shine of hair
- Control dandruff

Target Concerns

- Hair dryness
- Hair damages
- Frizz and flyaways
- Itchy irritation
- Dandruff

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

Ingredient Highlights

- Apple Cider Vinegar – A vinegar made from fermented apple juice. It has natural properties balance hair and scalp's pH levels to fight causes of dandruff, itchy irritation, and clogged pores.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Niacinamide – Vitamin B3. It has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been physically/chemically damaged by helping to build Keratin.
- Shea Butter – Shea Butter is a plant fat of the nuts of the African Karite tree (ambuk butter). Contains allantoin, vitamin A & vitamin E, and many cinnamic & unsaponifiable lipids (e.g. stearic & oleic acids) for a potent moisturizing effect. It is a potent moisturizer and emollient providing effective skin protection against environmental stress factors. Has been shown to have anti-irritant and soothing proper-ties and improves the appearance of aging skin, and protect the skin, repairs damage caused by climatic aggressions, pollution and UV radiations.

Apple Cider Vinegar
CONDITIONER

12 fl oz / 360 ml
White to Light-yellow Cream

DHT Blocking Conditioner

Formula ID: FG-HCD010-D

Innovative Cosmetics
from Concept to Reality

Description

This deep conditioning hair treatment is the perfect dry hair treatment and dry scalp remedy. Infused with Biotin, Caffeine, Rosemary Oil and Castor Oil, it provides deep hydration, reverses hair loss and stimulates hair follicles for hair growth, leaving you with long thick hair.

Key Benefits

- Promotes hair growth
- Moisturizes hair and scalp
- Repairs hair damages

Target Concerns

- Hair thin and loss
- Hair dryness
- Hair damages

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

12 fl oz / 360 ml
Off-white to Light-yellow Cream

Ingredient Highlights

- Biotin – Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.
- Caffeine – Caffeine is an alkaloid methylxanthine and functions as a phosphodiesterase inhibitor, promoting cellular proliferation. In vitro studies report that caffeine counteracts the inhibitory effects of testosterone on hair growth, promotes hair shaft elongation, prolongs anagen duration, and stimulates hair matrix keratinocyte proliferation. Caffeine also downregulates testosterone-induced transforming growth factor (TGF)- β 1 expression, a hair growth inhibitor, and increases expression of insulin-like growth factor (IGF)-1, a hair growth promoter.
- Rosemary Oil – The essential oil has anti-inflammatory properties, promotes nerve growth and improves circulation. As a result, it prevents hair follicles from being starved of blood supply, dying off, and leading to hair loss. Beyond that, rosemary oil prevents premature graying, dandruff, dry and itch.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Castor Oil – Sourced from the castor bean (*Ricinus communis*), castor oil is rich in ricinoleic acid – a type of fatty acid found to fight inflammation. When applied to the scalp, it's purported to enhance the health of the hair follicles and, in turn, promote hair growth (as well as protect against hair loss).

Super Moisturizing & Strengthening Conditioner

Formula ID: FG-CD002

Innovative Cosmetics
from Concept to Reality

Description

This luxury conditioner is rich in Biotin, Vitamin B3 and B5, thus improves effects of hair elasticity, moisture retention and flexibility, as well as promotes hair growth and prevent early hair loss. With Xylitylglucoside, Meadowfoam Estolide, Amaranthus Caudatus Seed Extract and many other botanicals, this product helps moisturize hair and scalp, repair hair damages and enhance hair's structural integrity.

Key Benefits

- Moisturizes hair and scalp
- Enhances hair's structural integrity
- Promote hair growth
- Repair hair damages

Target Concerns

- Hair dryness
- Hair thinning and loss
- Hair damages
- Frizz and flyaways

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

Ingredient Highlights

- Xylitylglucoside (and) Anhydroxylitol (and) Maltitol (and) Xylitol (and) Pelvetia Canaliculata Extract - A hair moisturizer and repairing agent that enhances the shine of all hair types. This new ally for damaged hair is a bio-inspired association of natural sugars mainly from wood and the brown algae.
- Biotin - Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.
- Panthenol - A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Niacinamide – Vitamin B3. It has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been physically/chemically damaged by helping to build Keratin.
- Hydrolyzed Keratin – A purified keratin lysate that helps fortify the hair shaft, replacing hair's natural protein to enhance strength and elasticity. It revitalizes the hair's natural protective layer by providing support where needed. Keratin protein is known to rebuild tensile strength, return elasticity, and reduce breakage.

Fortifying Healthy Leave-in Conditioner

Formula ID: FG-CD003

Innovative Cosmetics
from Concept to Reality

Description

This fortifying leave-in conditioner features Amaranthus Caudatus, Collagen, Keratin, Quinoa and Oat proteins which enhances hair's structural integrity by increasing the diameter of individual hair fibers from the inside out for fuller, thicker and healthier looking hair. Xylitylglucoside, Vitamins and botanicals moisturizes hair, soothes scalp and repairs hair damages.

Key Benefits

- Moisturizes hair and scalp
- Enhances hair's structural integrity
- Promote hair growth
- Repair hair damages

Target Concerns

- Hair dryness
- Hair thinning and loss
- Hair damages
- Frizz and flyaways

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

Ingredient Highlights

- Amaranthus Caudatus Seed Extract - A natural peptide that addresses many common hair concerns. Ageless Fortifying Hair Serum

Formula ID: FG-HS001

Innovative Cosmetics
from Concept to Reality

Description

This powerful hair serum provides hair with essential minerals, vitamins, amino acids, peptides and proteins for healthy, strong and shining hair. It fights against scalp discomfort and follicle ageing process to prevent hair loss, increases the aged hair strands diameter, repairs macro & micro damages.

Key Benefits

- Moisturizes, soothes hair and scalp
- Enhances hair's structural integrity
- Promote hair growth and prevent hair loss
- Repair hair damages

Target Concerns

- Hair and scalp dryness
- Hair thinning and loss
- Hair damages
- Frizz and flyaways

Recommended Hair Type

- Straight, Wavy, Curly, Coiled, Tightly Coiled

Ingredient Highlights

- Yeast Extract – HAIRGENYL® acts as an anti-hair loss/ regrowth active. It is rich in peptides from the yeast *Pichia minuta*, isolated from the flowers of azalea. It acts on three regulation mechanisms of hair regrowth: the mitochondrial dynamics, the expression of signaling molecules and the components of epigenetics.
- Saccharomyces/Zinc, Copper, Magnesium, Iron, Silicon Ferment – Consists of five fermented, essential minerals: zinc, iron, silicon, copper and magnesium. Through fermentation, these minerals are transformed into a bio-active material that is easily recognized by skin, scalp and hair. To clarify, the fermented minerals become a powerhouse of benefits, efficaciously enhancing barrier function, increasing growth factor expression, decreasing stress related factors, increasing cellular energy production and acting as an anti-inflammatory.
- Lactitol (and) Xylitol – Hairspa™. A solution for scalp moisturization and soothing. It provides skin microflora balance to fight against scalp discomfort (dryness, itching, dandruff irritations). It helps restore the ecosystem balance by promoting the growth of beneficial germs to the detriment of noxious germs.
- Biotin – Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.

Anti-frizz Shine Custard

Formula ID: FG-PC002

Innovative Cosmetics
from Concept to Reality

Description

This unique Anti-frizz Shine Custard will get the hair ready for any style. Tame frizz, define curls, add shine, and protect hair color with one product. It softly coaxes curls to keep them from frizzing, splitting, or sagging. Utilizing an antioxidant rich, anti-humidity formula, it provides nourishment, hydration, and touchable curl definition.

Key Benefits

- Controls curls
- Fights frizz
- Moisturizes hair and scalp
- Repair hair damages

Target Concerns

- Hair dryness
- Hair damages
- Frizz and flyaways

Recommended Hair Type

- Curly, Coiled, Tightly Coiled

12 fl oz / 360 ml
Light-yellow Cream

Ingredient Highlights

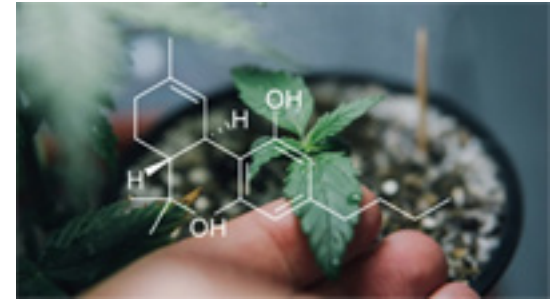

- Biotin – Also known as vitamin H or coenzyme R, a water-soluble vitamin B7 (Vitamin H). It is essential for the health of hair, skin and nails. In addition to its ability in strengthening the nails, it promotes hair growth and prevent early hair loss.
- Panthenol – A plant-derived provitamin of B5. It can improve damaged hair by improving effects of hair elasticity, moisture retention and flexibility. It also penetrates the hair shaft as well as the root of hair; thus giving hair an extra boost of Vitamin B which helps thicken hair as well as promote hair growth.
- Niacinamide – Vitamin B3. It has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been damaged by helping to build Keratin.
- Xylitylglucoside (and) Anhydroxylitol (and) Maltitol (and) Xylitol (and) Pelvetia Canaliculata Extract – A hair moisturizer and repairing agent that enhances the shine of all hair types. This new ally for damaged hair is a bio-inspired association of natural sugars mainly from wood and the brown algae.
- Cocos Nucifera (Coconut) Oil (and) Stearic Acid (and) Hydrolyzed Yeast Protein (and) Caprylic/Capric Triglyceride (and) Propanediol (and) Tocopheryl Acetate (and) Gamma-Docosalactone – An innovative technology using the synergistic activity of yeast extracted amino acids and natural fatty acids to restore hair's natural barrier against external aggression. The biomimetic action of the ingredient is activated under heat and improves the hydrophobic barrier of the hair shaft, leading to decreased breakage over time.

All of our skin care, body care and hair care products above are available with CBD version.

Cannabidiol, commonly known as CBD, is a naturally-occurring chemical compound found in cannabis plants (eg: marijuana and hemp). Unlike THC, pure CBD is a non-psychoactive cannabinoid, meaning it doesn't make you feel high. Research shows that CBD may be effective in alleviating anxiety, chronic inflammation and pain, insomnia and some rare forms of childhood epilepsy. Moreover, a long-term study published in the Journal of Alzheimer's Disease found that CBD may help prevent cognitive decline. In addition, according to a review published in the Neurotherapeutics journal, CBD may also be effective in treating substance use disorder.

*Innovative Cosmetics
from Concept to Reality*

CBD Cosmetics Benefits

- Treats skin concerns including inflammation, dryness and free radical damage
- Fights acne, helps reduce the production of sebum in the skin
- Treats eczema and psoriasis
- Reduces skin pain

CBD Options

- **Full Spectrum CBD**
Full-spectrum CBD contains all phytochemicals naturally found in the hemp plant, including CBD, trace cannabinoids, terpenes, and essential oils. Full-spectrum extracts from hemp also come with a negligible THC content — below 0.3%.
- **Broad Spectrum CBD**
Broad-spectrum CBD contains cannabidiol and all the other compounds within the hemp plant, but no THC, which is completely removed after the initial extraction.
- **CBD Isolate**
CBD isolate is the purest form of this compound, usually >98%, made by pulling it from its natural environment and removing it from all other ingredients.
