WELCOME

Messages from University of Miami leaders to the families of our students:

On behalf of the faculty, staff, and current students, I am pleased to welcome you to the University of Miami family. At this pivotal moment in human history—as the world emerges from a pandemic—we are working to build not just a new normal, but a better normal.

We will soon embark, together, upon an exciting and transformational journey at the U. This Family Guide will help to acquaint you with services and resources available in academics, campus life, and wellness. Our students' well-being is always our top priority. You can be confident in our ability to support our students' intellectual development and personal growth and ensure

that their experience as a 'Cane is rewarding, supportive, and safe.

As one of the leading teaching and research institutions in the world, the University of Miami offers an environment that is stimulating and challenging. We encourage students to aim for scholarly achievements, strive for mutual respect and appreciation for others, and serve their community meaningfully. This takes on a more urgent dimension as communities grapple with a pandemic, its economic impact, and renewed calls for social justice.

Our student body is vibrant and diverse, representing every state in the nation and many countries and nationalities around the globe. Our surroundings are distinguished by the natural beauty and cultural vitality of South Florida. The campus experience for this year's entering class will be impacted by the historic times in which we are living, offering the opportunity to learn the soft skills of adaptability, listening, innovation, and collaboration in new and memorable ways.

As we approach our centennial in 2025, we are building on the proud traditions of academic excellence, relevant service, exemplary engagement, and hemispheric and global reach that are the continued aspirations of the University of Miami. You have entrusted your loved one to us, and we want you to know that we are committed to helping each of our students succeed.

Along with my wife, Dr. Felicia Knaul, I look forward to getting to know you and your family.

With my best wishes,

Dr. Julio Frenk
President
