

RESOLUTION 186 - 2020

A RESOLUTION TO UPDATE COMMUNITY DEVELOPMENT FEES FOR BUILDING & CONSTRUCTION FEES (TITLE 14) AND LAND USE & DEVELOPMENT FEES (TITLE 21)

WHEREAS, the Department became a Special Revenue Fund in January, 2008; and,

WHEREAS, the Department proposed and the Board of Commissioners approved a limited fee increase in January, 2010; and,

WHEREAS, subsequent fee updates have been implemented at least annually since 2010; and,

WHEREAS, the International Code Council has increased its Building Valuation Data Table (August 2020 edition) by 2.01% which is considered in determining building and construction permit fees; and,

WHEREAS, based on 2020 analysis, the department recommends a change to the Permit Fee Multiplier (PFM) from 1.00% to 1.37% for commercial projects with the exception of tenant improvements and commercial mechanical / plumbing elements and updates to various fire permit construction and/or operation fees; and,

WHEREAS, based on 2020 analysis, the department recommends a change to the utilization of a basic plan set for single family residence from 50% of the new utilizing a basic plan set single family residence permit fee to 65% of a new utilizing a basic plan set single family residence permit fee; and,

WHEREAS, based on the 2020 analysis, the department recommends updating certain land use and development fees as identified in the 2021 Community Development Fee Schedule; and,

WHEREAS, the Board of County Commissioners held a public hearing on December 7, 2020 concerning the adoption of the updated Community Development Fee Schedule to be effective January 1, 2021;

NOW THEREFORE BE IT RESOLVED by the Board of County Commissioners that the attached Community Development Fee Schedule is hereby adopted.

ADOPTED this 7 day of DECEMBER, 2020.

FEE SCHEDULE COMMUNITY DEVELOPMENT

Residential and Commercial Building Permit Fees and Fire Code Construction Permits are determined by the building value or value of the improvement as calculated by either using the square footage of the project multiplied by the square foot construction cost, as compiled by the International Code Council (ICC) and published by the Building Safety Journal magazine annually, or the value of the improvement. For improvements not covered in the ICC table, applicants may be asked to provide the valuation for those projects (i.e., replacement furnaces, decks, or other components of a construction project). That value will then be multiplied by a Permit Fee Multiplier as determined by the type of construction. For single family residences, the Permit Fee may include all improvements of the structure, i.e., mechanical and/or plumbing permits, fixture fees, and plan review. For commercial projects, the Permit Fee Multiplier includes the main structure only; supporting elements such as mechanical and plumbing, etc. will have a separate fee based on the value of improvement. The Director will establish a separate policy regarding the timeframe for permits and extensions.

Where the values are unclear the Department will use RS Means or Saylor Publications Inc. or other regionally accepted valuation determination publication, or contract documents.

Mechanical and Plumbing Fees are included in the building permit fee for new single-family residences. For all other permit types, mechanical and plumbing fees are based on valuation with a minimum fee of \$75.

Land use and development fees are charged a flat fee based on the average processing time to review/process the application. The flat fee includes two iterations of plans review (first submittal comments and review of second submittal comments), as well as intake and closeout of the application. Any additional review beyond two iterations of plans review will be charged monthly at the approved hourly rate and must be paid in full prior to issuance. No applicant will be charged additional hours without a review by the appropriate manager to ensure the hours are valid. Inspections may or may not be included in the flat fee. Inspections that are charged an hourly rate as identified in the Community Development Fee Schedule, will be charged monthly, and must be paid in full prior to final inspection.

A non-refundable **Base Application Fee** of \$90 is collected for each permit application unless otherwise noted.

A non-refundable **Technology Surcharge** of 3% is collected for each permit application, which will be maintained in a restricted account for technology initiatives only.

Other Agency Fees are included for those agencies that have authorized the Department to collect specific fees on behalf of their agency. These fees include impact fees for local schools, roads and parks, and the Washington State Building Code Council surcharge.
