**Fee Schedule – December 2021**

Listed below are the current fees, testing locations, and preferred specimens for the Virginia Department of Agriculture Laboratory System

Turnaround times are estimated in business days and apply to individual tests. Actual reporting of test results depends on the full battery of tests requested on the accession, day of the week/time of day samples arrive at the testing laboratory, and the quantity/quality of samples submitted.

Samples may be received at any laboratory listed, and will be forwarded to internal labs as needed for testing at no charge.

Referral testing will be charged according to the specific laboratory’s fees, and a shipping charge will be applied as appropriate.

Test Name	Fee	Harrisonburg	Warrenton	Lynchburg	Wytheville	Specimen	Notes / Turn-around time
<b>BACTERIOLOGY</b>							
Acid Fast Stain	\$5.85	X	X		X	Fresh tissue, fluid	1 day
Antimicrobial Susceptibility- Kirby Bauer	\$14.00		X		X	Bacterial culture	1 to 3 days after isolate identification
Antimicrobial Susceptibility- MIC	\$14.00	X	X	X		Bacterial culture	1 to 2 days after isolate identification
Bacterial Cytology for WBCs or Abnormal Cells	\$9.20	X	X			Fresh Tissue, Fluid, Slide	Often referred to VMCVM
Bacterial Unknown ID- Aerobic Culture	\$17.50	X	X	X	X	Fresh Tissue, Swab	2 to 6 days
Bacterial Unknown ID- Anaerobic Culture	\$17.50	X	X	X	X	Fresh Tissue, Swab	2 to 6 days
Bulk Tank Culture	\$17.45	X	X	X	X	Raw Milk	2 to 5 days
Bulk Tank Culture- Preliminary Incubated	\$17.45	X	X		X	Raw Milk	3 to 6 days
Campylobacter sp. Culture	\$17.45	X	X	X	X	Feces, fetal stomach contents, intestine, preputial washing in special media	4 to 6 days

Test Name	Fee	Harrisonburg	Warrenton	Lynchburg	Wytheville	Specimen	Notes / Turn-around time
Clostridium difficile Toxin ELISA	\$29.20		X	X		Feces	1 to 2 days
Clostridium FAs (each)	\$11.65	X	X	X	X	Fresh Tissue	1 to 2 days
Clostridium perfringens Toxin ELISA	\$16.35		X	X		Feces or intestinal contents	1 day
Contagious Equine Metritis Culture	\$29.10		X			Swabs in Amies with Charcoal transport media	Testing through VDACS OVS, 1 week turnaround time
Direct Microscopic Exam	\$8.20	X		X	X		Same Day
Fungal Unknown ID Culture	\$17.50	X	X			Fresh Tissue	Varies, >1 week
Gram Stain	\$5.85	X	X	X	X	Bacterial Culture	1 day
K99 E. coli Pathasure	\$16.35	X	X	X	X	Feces	1 to 2 days
Listeria sp. Culture	\$17.50	X	X	X		Fresh Tissue, Brainstem	>2 weeks
Mastitis Culture	\$4.25	X	X	X	X	Raw milk	2 to 5 days
Mycoplasma Culture	\$17.50			X	X	Individual cow milk, joint fluid, lung, choanal swabs, eyes, other	up to 7 days
Petrifilm E. coli Test	\$14.00	X	X	X	X	Sponge	Run on M, T, W, TH 1 day
Program Johne's Direct Fecal PCR	\$23.30			X		Feces	7 days
Salmonella Culture	\$17.50	X	X	X	X	Feces, liver, mesenteric ln, intestines	2 to 5 days
Salmonella Drag Swab Culture	\$17.50	X		X		Environmental Drag Swab	1 day if negative on PCR, 5 days if confirmatory culture needed
Salmonella pullorum Culture	\$17.50	X		X		Organ composite, Intestinal composite per NPIP protocol	4 to 5 days
Tritrichomonas Culture	\$14.00		X		X	Preputial washing collected in InPouch	7 days

<b>DAIRY MICROBIOLOGY</b>							
Aflatoxin Screen- Milk	\$29.10		X			Raw Milk	1 to 2 days
Antibiotic Residue (Charm SL3)	\$15.00	X	X		X	Raw Milk	1 to 2 days
Antibiotic Residue (Delvo P)	\$11.65	X	X		X	Raw Milk	1 to 2 days
Antibiotic Residue (Sulfa)		X				Raw Milk	1 to 2 days
Antibiotic Residue (Tetracycline)	\$17.45	X				Raw Milk	1 to 2 days
Antibiotic Residue (TRIO)	\$40.00	X				Raw Milk	1 to 2 days
Bulk Tank Culture	\$17.45	X	X	X	X	Raw Milk	2 to 5 days
Bulk Tank Culture- Preliminary Incubated	\$17.45	X	X		X	Raw Milk	3 to 6 days
Cryoscope	\$5.85				X	Raw Milk	1 to 2 days
Direct Microscopic Bacterial Count	\$8.20	X	X		X	Raw Milk	1 to 2 days
Bulk Tank Panel SCC, PAC, PIC, Culture	\$28.10	X	X		X	Raw Milk	Normally run on Mondays & Tuesdays
E coli Sponge Swab	\$14.00	X	X	X	X	Sponge	Run on M, T, W, TH 1 day
Environmental Culture	\$20.95	X	X	X			
Lab Pasteurized Count	\$8.20	X				Raw Milk	2 days
Mastitis Culture	\$4.25	X	X	X	X	Raw milk	2 to 5 days
Moseley Keeping Quality Test	\$16.35				X	Pasteurized milk	9 days
Mycoplasma Enrichment Culture	\$29.10			X	X	Raw milk	9 days
Petrifilm Aerobic Count	\$8.20	X	X		X	Raw or Pasteurized milk	2 to 3 days
Petrifilm Coliform Count	\$8.20	X	X		X	Raw or Pasteurized milk	1 to 2 days

Petrifilm E. coli Count	\$8.20	X	X			Raw or Pasteurized milk	1 to 2 days
Petrifilm High Sensitivity Coliform Count	\$8.20	X	X		X	Raw or Pasteurized milk	1 to 2 days
Phosphatase	\$3.50	X	X	X	X	Pasteurized milk, Cheese	1 to 2 days
Pipette Verification	\$17.45	X	X		X	Pipette	1 day
Preliminary Incubated Count	\$8.20	X	X		X	Raw milk	3 to 4 days, Submissions on M, T
Regulatory Dairy Testing	\$0.00	X	X		X	Raw or Pasteurized milk	4 to 5 days
Residual Bacterial Count	\$8.20		X		X	Containers	2 to 3 days
Residual Coliform Count	\$8.20		X		X	Containers	2 to 3 days
Somatic Cell Count	\$4.65	X	X		X	Raw Milk	1 to 2 days
Sweetwater (Glycol Water MPN)	\$0.00	X	X			Glycol Water	Run M, T, W 48 hours TA M, T Submissions in Harrisonburg
Thermometer Verification	\$17.45	X	X		X	Thermometer	1 day
<b>FOOD SAFETY TESTING</b>							
Campylobacter Screening	\$20.95			X		Meat, Cheese	72 hours
Campylobacter Confirmation	\$58.35			X		Meat, Cheese	3-5 days
E coli 25g	\$20.95			X		Meat, Cheese	1 to 2 days
E coli 325g	\$29.10			X		Meat, Cheese	1 to 2 days
E coli Confirmation	\$75.50			X		Meat, Cheese	3 to 5 days
Listeria	\$20.95			X		Meat, Cheese, Swabs	1 to 2 days
Listeria Confirmation	\$58.35			X		Meat, Cheese	5 to 7 days
Salmonella	\$20.95			X		Meat, Cheese	1 to 2 days
Salmonella Confirmation	\$58.35			X		Meat, Cheese	6 to 8 days
Staph Enterotoxin	\$40.80			X		Meat, Cheese	Same day
Pet Food	\$20.95			X		Wet pet food	Dependent on test requested
