1889

FENCE POCKET GUIDE

Since 1889, one brand of fence has stood the test of time. That's why five generations have depended on Red Brand to keep their property and livestock secure. Unmatched strength and durability combine to create a fence that lasts and lasts. That's real value and real peace of mind.

The most trusted name in fencing. The one. The only. Red Brand.

DEALER LOCATOR
Find Red Brand fence near you.

Our Dealer Locator provides the most up-to-date information on Red Brand dealers throughout the country. You can find a local Red Brand retailer simply by entering a zip code on our website.

To locate a dealer near you, go to redbrand.com.

ONLINE FENCE CALCULATOR
Planning your fence project is easy.

Red Brand's exclusive Online Fence Calculator uses GPS coordinates to help map your property, determine layout options and select the proper fencing product for your application. You can also estimate the number of rolls needed and material costs.

Find the link for the Fence Calculator at redbrand.com.

CERTIFIED FENCE INSTALLER
A reliable resource for your fence project.

Getting the right fence installed correctly helps to ensure your fence works properly and lasts a long time. If you need a helping hand, the Red Brand Certified Fence Installer (CFI) Program is designed to help property owners locate and hire qualified installers for their fencing project. Each participating CFI company has been carefully screened to assure that they meet Red Brand's standards for excellence and workmanship. Experience, fence knowledge and credibility are all considerations for making our list. By choosing Red Brand fence products and hiring a Certified Fence installer, you can be confident in your fencing investment.

To find a Certified Fence Installer,
go to redbrand.com/cfi.

MADE IN AMERICA

MADE IN THE USA
We know what's in your fence.

For over 125 years, Red Brand fence has been manufactured in Peoria, IL. Steel is carefully formulated in our on-site mill and rigorous testing is performed throughout the fence manufacturing process. Strict specifications, tight tolerances and pride in workmanship result in continuous, reliable and long lasting quality in every roll of Red Brand fence.

RED BRAND FENCE KNOTS

Many heavy-gauge wire fence styles are made by "tying" sections of wire together with knots. Red Brand Fence uses three types of knots, each with a specific advantage.

Monarch® Knot

The Monarch Knot acts as a hinge that gives under pressure, then allows the fence to spring back into shape.

Square Deal® Knot

The construction of the Square Deal Knot prevents Red Brand fence from buckling or sagging. It provides extra strength and rigidity with flexibility.

Cross Lock® Knot

The Cross Lock Knot firmly affixes the fence wires together, providing superior resistance to movement from animal penetration or severe snowstorms.

MESH DESIGN

Red Brand fence is constructed by forming the wire into uniform patterns called "mesh." Each design has been refined based on more than a century of experience and usage requirements.
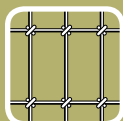

Squared Mesh

The mesh is either "knotted" or welded to form square and rectangle patterns—used mostly with heavier gauge wire.

Netting

Lightweight wire is woven to form a hexagonal mesh. Red Brand uses a reverse weave allowing netting to unroll flat.

HOW TO READ FENCE STYLE NUMBERS

Look for the style number, which is a quick description of the fence it classifies. Pull-out is the measure, in inches, of the distance between the vertical stay wires.

Style# 1047-6-12½

- **10** #Line wires
- **47** Height in inches
- **6** Pullout
- **12½** Wire gauge

Number of Line Wires

47" Height

6" Pullout
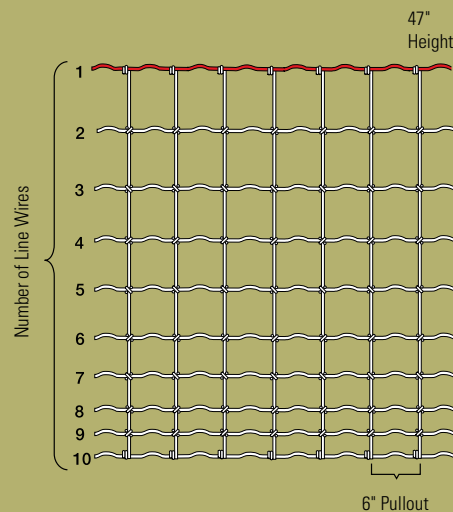

HOW TO GAUGE YOUR FENCE

Red Brand fence is made from various gauges of wire—from very heavy to very light. The chart below shows the size of each gauge (Ga) wire used in producing Red Brand fence. The larger the number, the smaller the wire.

20 Ga	18 Ga	17 Ga	16 Ga	14½ Ga	14 Ga	12½ Ga	11 Ga	10 Ga	9 Ga

ACREAGE GUIDE

The diagram below can be used to calculate the number of rods required to enclose fields of various sizes. These are suggested guidelines using the square area to be fenced.

½ mile

½ mile

160 ACRES
Requires 2 miles
of fence to enclose

40	16	53	4	400	51	167	13

GALVANIZED ZINC COATING

All Red Brand fence is galvanized, which means the steel has been immersed in molten zinc and is covered with a zinc alloy that is resistant to rust. Each class is associated with a minimum coating weight per square foot of wire. Class 3 coating is heavier, resulting in 2½ times longer service life than Class 1 coating.

MINIMUM COATING WEIGHT
based on 12½ ga wire

CLASS 3
.80 oz/ft2

CLASS 1
.28 oz/ft2

COMMERCIAL

HORSE FENCE

Non-Climb

Keepsafe®

For equine applications, it is recommended that a sight rail be installed.

Non-Climb

- 2" x 4" spacing prevents stepping through and climbing up
- Square Deal® knot provides strength and rigidity for security

Keepsafe®

- 2" x 4" durable v-mesh creates springy texture to protect from injury when bumped
- Close spacing prevents hooves and legs from getting caught and keeps predators out
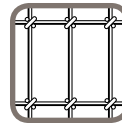

Non-Climb Horse Fence
features 2"x 4" mesh pattern with Square Deal® Knot

High-Tensile Smooth Wire

• Suitable to enclose livestock and pastures

• Effective, dependable, low-cost fencing solution

• Class 3 galvanized wire has a heavy zinc coating for long life and durability

• Can be electrified when needed

Galvanized and Black Annealed Smooth Wire

• Multiple applications around home, shop and farm

• Single-strand wire ideal for bundling and tying

• Great for hanging tools and other household chores

Baler Wire

• Used in agricultural and commercial tie balers

• Packaged in a heavy-duty corrugated box with center punch for easy dispensing
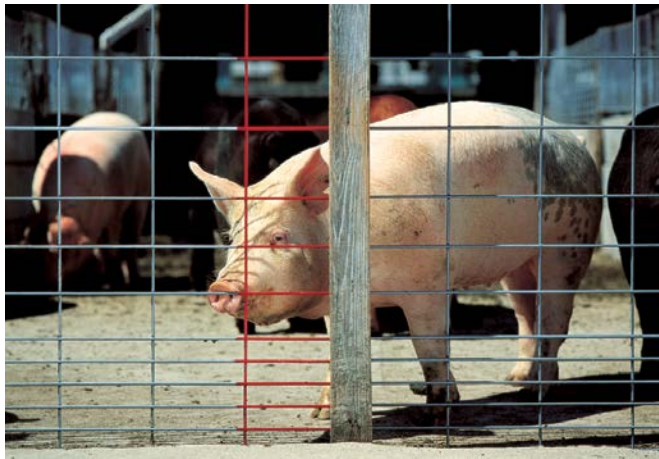

Ty Wire for Rebar

• Pliable and easy to twist, but strong enough to make firm ties for concrete reinforcement bars

• Special center hole of coil is semi-square with rounded corners to slip quickly onto standard dispensing unit

1660-2-6 Horse	S	6	60"	16'	74	90230

- Meets the demands of busy farms and ranches
- Unmatched strength and durability stands up well to animal pressure and weight
- Available in several styles and weights to match your specific animal-confinement needs
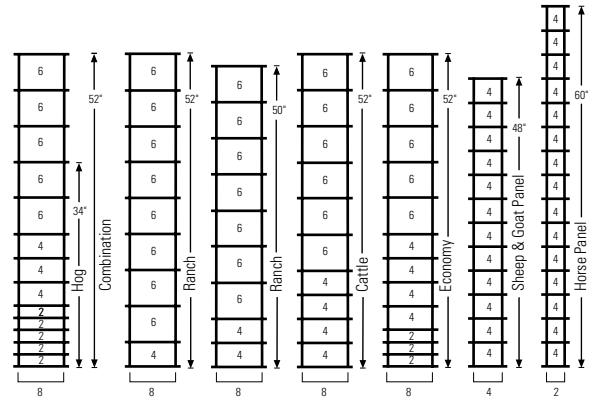

POULTRY NETTING

- Ideal for poultry and pet pens
- Can be used as pest-resistant garden barriers
- Provides predator-proof protection for domestic fowl and gardens
- Hexagon mesh design is reinforced with supplemental horizontal wires to keep netting straight and upright
- 20-gauge wire is galvanized before weaving to last longer, resisting rust and corrosion
- Reverse twist weave unrolls flat, ensuring easier handling

1" Hexagonal Pattern

12" Hinged Apron

Yard, Garden & Kennel

- 2"x 2" mesh safeguards yards, gardens, toddlers and pets
- Ideal for kennel fencing
- Economical alternative to chain-link fencing
- Strong yet lightweight makes fence easy to install
- Smooth side of Square Deal® Knot prevents injury to animal
- Tough 16-gauge wire has a bright galvanized finish that resists rust

Saltwater Netting

- Flexible netting ideal for crab pots, live wells and fish traps
- Resists corrosion while withstanding severe underwater elements or inclement above-ground weather
- Galvanized twice—before and after weaving

Apron Fence

- Special 12" hinged apron prevents animals from burrowing under the fence
- Sturdy construction for kennels and small animal pens
- Tough 17-gauge wire is woven into 1.5" hexagonal pattern
- Rust-resistant, galvanized wire can be buried under sod

RB **Red Brand Tradition** – Class 1 galvanized wire
EL **Red Brand Extended Life** – Class 3 galvanized wire

AMERICAN MADE

UTILITY FENCE (Welded Wire)
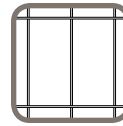

2"x 4" Mesh Spacing

- General purpose fencing offers strength and rigidity for a variety of outdoor projects
- Solid welded construction ensures a sturdy fence design
- Quality galvanized wire to resist weathering as well as wear and tear

Toughcoat™ Premium Staples
- Zinc/aluminum coating offers better protection against weathering than Class 3 galvanized coating
- Single- or double-barbed options with deep barbs and sharp points
- Meets or exceeds ASTM A856/A856M standards

Galvanized Staples
- Single barbed or barbless
- Class 1 galvanization for longer life
- Staples packaged in boxes

Barbless Fence Staples
- Heavy gauge wire with a ¼" inside spread at the shoulder
- Sharp points drive easily into aged or weathered fence posts
- Uniform shank for easier driving
- Smooth, bright finish
