Special Thanks...

We would like to thank **YOU** for supporting Fine Arts at Fairfield Christian Academy.

Dr. Ken Beck, Superintendent of Fairfield Christian Academy, for his vision and dedication to Fine Arts and for “just doing anything that needed done”.

The coaches of spring sports for trying to make sure our kids have the opportunity to be involved in the fine arts programs as well as sports here at FCA.

Pastor Mark Barbee of Fairfield Christian Church whose advice and expertise of Jewish history were helpful and much appreciated.

Mrs. Bertie Anne Rice for donating countless hours to direct the students in drama.

Fairfield Christian Church for their support and facilities, without which, this musical would not have been possible.

Rutherford B. Hays High School, Delaware, Ohio, Linda Hurley, Drama Director

David Horsky, Fairfield Union High School, Music Department

Erica Neal, David Albert, and Tom Alexander, for helping with tonight's production.

Jalinda Wilson for coordination of the FCA student Jewish history project display.

Rebekah Salyers for helping with our production.

Why support the Fine Arts programs at Fairfield Christian Academy you ask?

“When I hear people asking how do we fix the education system, I tell them we need to do the opposite of what is happening, cutting budgets by cutting music programs.... Nothing could be stupider than removing the ability for the left and right brains to function. Ask the CEO what they are looking for in an employee and they say they need people who understand teamwork, people who are disciplined, people who understand the big picture.

You know what they need? They need musicians.”

Former Arkansas Governor Mike Huckabee, 2007

“Music is the one way for young people to connect with themselves, but it is also a bridge for connecting with others. Through music, we can introduce children to the richness and diversity of the human family and to the myriad rhythms of life.”

Daniel A. Carp, Eastman Kodak Company Chairman and CEO

“Students in high-quality school music programs score higher on standardized tests compared to students in schools with deficient music education programs, regardless of the socioeconomic level of the school or school district. Students in top-quality music programs scored 22% better in English and 20% better in math than students in deficient music programs. Students at schools with excellent music programs had higher English and math test scores across the country than students in schools with low-quality
