BRIEF CONTENTS

Preface	33	Appendix: Using Isoquants and Isocost Lines to Understand Production and Cost	441
A Word of Thanks	62		
PART 1: Introduction		PART 5: Market Structure and Firm Strategy	
Chapter 1: Economics: Foundations and Models	64	Chapter 12: Firms in Perfectly Competitive Markets	452
Appendix: Using Graphs and Formulas	86	Chapter 13: Monopolistic Competition: The Competitive Model in a More Realistic Setting	486
Chapter 2: Trade-offs, Comparative Advantage, and the Market System	98	Chapter 14: Oligopoly: Firms in Less Competitive Markets	512
Chapter 3: Where Prices Come From: The Interaction of Demand and Supply	130	Chapter 15: Monopoly and Antitrust Policy	538
Chapter 4: Economic Efficiency, Government Price Setting, and Taxes	162	Chapter 16: Pricing Strategy	568
Appendix: Quantitative Demand and Supply Analysis	193		
PART 2: Markets in Action: Policy and Applications		PART 6: Labor Markets, Public Choice, and the Distribution of Income	
Chapter 5: Externalities, Environmental Policy, and Public Goods	198	Chapter 17: The Markets for Labor and Other Factors of Production	594
Chapter 6: Elasticity: The Responsiveness of Demand and Supply	232	Chapter 18: Public Choice, Taxes, and the Distribution of Income	630
Chapter 7: The Economics of Health Care	266		
PART 3: Firms in the Domestic and International Economies		PART 7: Macroeconomic Foundations and Long-Run Growth	
Chapter 8: Firms, the Stock Market, and Corporate Governance	298	Chapter 19: GDP: Measuring Total Production and Income	664
Appendix: Tools to Analyze Firms' Financial Information	323	Chapter 20: Unemployment and Inflation	690
Chapter 9: Comparative Advantage and the Gains from International Trade	332	Chapter 21: Economic Growth, the Financial System, and Business Cycles	726
		Chapter 22: Long-Run Economic Growth: Sources and Policies	760
PART 4: Microeconomic Foundations: Consumers and Firms		PART 8: Short-Run Fluctuations	
Chapter 10: Consumer Choice and Behavioral Economics	366	Chapter 23: Aggregate Expenditure and Output in the Short Run	798
Appendix: Using Indifference Curves and Budget Lines to Understand Consumer Behavior	397	Appendix: The Algebra of Macroeconomic Equilibrium	838
Chapter 11: Technology, Production, and Costs	412	Chapter 24: Aggregate Demand and Aggregate Supply Analysis	840
		Appendix: Macroeconomic Schools of Thought	875

PART 9: Monetary and Fiscal Policy

Chapter 25: Money, Banks, and the Federal Reserve System	880
Chapter 26: Monetary Policy	914
Chapter 27: Fiscal Policy	954
Appendix: A Closer Look at the Multiplier	995
Chapter 28: Inflation, Unemployment, and Federal Reserve Policy	998

PART 10: The International Economy

Chapter 29: Macroeconomics in an Open Economy	1028
Chapter 30: The International Financial System	1056
Appendix: The Gold Standard and the Bretton Woods System	1078
Glossary	1084
Company Index	1092
Subject Index	1095
Credits	1115
Chapter Features Chart	1117

DETAILED CONTENTS

Preface	33	Determining Cause and Effect	91
A Word of Thanks	62	Are Graphs of Economic Relationships Always Straight Lines?	93
		Slopes of Nonlinear Curves	93
PART 1: Introduction		Formulas	93
		Formula for a Percentage Change	94
		Formulas for the Areas of a Rectangle and a Triangle	95
		Summary of Using Formulas	96
Chapter 1: Economics: Foundations and Models	64	Chapter 2: Trade-offs, Comparative Advantage, and the Market System	98
Is the Private Doctor's Office Going to Disappear?	65	Managers at Tesla Motors Face Trade-Offs	99
1.1 Three Key Economic Ideas	66	2.1 Production Possibilities Frontiers and Opportunity Costs	100
People Are Rational	67	Graphing the Production Possibilities Frontier	100
People Respond to Economic Incentives	67	Solved Problem 2.1: Drawing a Production Possibilities Frontier for Tesla Motors	102
Making the Connection: Does Health Insurance Give People an Incentive to Become Obese?	67	Increasing Marginal Opportunity Costs	104
Optimal Decisions Are Made at the Margin	69	Economic Growth	105
Solved Problem 1.1: A Doctor Makes a Decision at the Margin	69	2.2 Comparative Advantage and Trade	105
1.2 The Economic Problem That Every Society Must Solve	70	Specialization and Gains from Trade	106
What Goods and Services Will Be Produced?	71	Absolute Advantage versus Comparative Advantage	107
How Will the Goods and Services Be Produced?	71	Comparative Advantage and the Gains from Trade	108
Who Will Receive the Goods and Services Produced?	71	Don't Let This Happen to You: Don't Confuse Absolute Advantage and Comparative Advantage	109
Centrally Planned Economies versus Market Economies	71	Solved Problem 2.2: Comparative Advantage and the Gains from Trade	109
The Modern "Mixed" Economy	72	Making the Connection: Comparative Advantage, Opportunity Cost, and Housework	111
Efficiency and Equity	73	2.3 The Market System	112
1.3 Economic Models	73	The Circular Flow of Income	112
The Role of Assumptions in Economic Models	74	The Gains from Free Markets	114
Forming and Testing Hypotheses in Economic Models	74	The Market Mechanism	114
Positive and Normative Analysis	75	Making the Connection: A Story of the Market System in Action: How Do You Make an iPad?	115
Economics as a Social Science	76	The Role of the Entrepreneur	116
Don't Let This Happen to You: Don't Confuse Positive Analysis with Normative Analysis	76	The Legal Basis of a Successful Market System	118
Making the Connection: Should Medical School Be Free?	76	Making the Connection: Who Owns <i>The Wizard of Oz</i>?	119
1.4 Microeconomics and Macroeconomics	77	Conclusion	121
1.5 A Preview of Important Economic Terms	78	An Inside Look: What's on the Horizon at Mercedes-Benz?	122
Conclusion	79		
An Inside Look: Look Into Your Smartphone and Say "Ahh"	80		
*Chapter Summary and Problems	82		
Key Terms, Summary, Review Questions, Problems and Applications			
Appendix: Using Graphs and Formulas	86	Chapter 3: Where Prices Come From: The Interaction of Demand and Supply	130
Graphs of One Variable	87	Smartphones: The Indispensable Product?	131
Graphs of Two Variables	88	3.1 The Demand Side of the Market	132
Slopes of Lines	88	Demand Schedules and Demand Curves	132
Taking into Account More Than Two Variables on a Graph	89	The Law of Demand	133
Positive and Negative Relationships	91		

*These end-of-chapter resource materials repeat in all chapters. Select chapters also include Real-Time Data Exercises.

What Explains the Law of Demand?	133	Marginal Benefit Equals Marginal Cost in	
Holding Everything Else Constant: The <i>Ceteris paribus</i> Condition	134	Competitive Equilibrium	169
Variables That Shift Market Demand	134	Economic Surplus	169
Making the Connection: Are Tablet Computers Substitutes for E-Readers?	135	Deadweight Loss	170
Making the Connection: Coke and Pepsi Are Hit by U.S. Demographics	136	Economic Surplus and Economic Efficiency	171
A Change in Demand versus a Change in Quantity Demanded	137	4.3 Government Intervention in the Market: Price Floors and Price Ceilings	171
Making the Connection: Forecasting the Demand for iPhones	139	Price Floors: Government Policy in Agricultural Markets	171
3.2 The Supply Side of the Market	140	Making the Connection: Price Floors in Labor Markets: The Debate over Minimum Wage Policy	173
Supply Schedules and Supply Curves	140	Price Ceilings: Government Rent Control Policy in Housing Markets	174
The Law of Supply	141	Don't Let This Happen to You: Don't Confuse "Scarcity" with "Shortage"	175
Variables That Shift Market Supply	142	Black Markets and Peer-to-Peer Sites	175
A Change in Supply versus a Change in Quantity Supplied	143	Solved Problem 4.3: What's the Economic Effect of a Black Market in Renting Apartments?	176
3.3 Market Equilibrium: Putting Demand and Supply Together	144	The Results of Government Price Controls: Winners, Losers, and Inefficiency	177
How Markets Eliminate Surpluses and Shortages	145	Positive and Normative Analysis of Price Ceilings and Price Floors	177
Demand and Supply Both Count	146	4.4 The Economic Impact of Taxes	178
Solved Problem 3.3: Demand and Supply Both Count: A Tale of Two Letters	146	The Effect of Taxes on Economic Efficiency	178
3.4 The Effect of Demand and Supply Shifts on Equilibrium	147	Tax Incidence: Who Actually Pays a Tax?	179
The Effect of Shifts in Supply on Equilibrium	147	Solved Problem 4.4: When Do Consumers Pay All of a Sales Tax Increase?	180
Making the Connection: The Falling Price of Blu-ray Players	148	Making the Connection: Is the Burden of the Social Security Tax Really Shared Equally between Workers and Firms?	181
The Effect of Shifts in Demand on Equilibrium	149	Conclusion	183
The Effect of Shifts in Demand and Supply over Time	149	An Inside Look At Policy: Does the Sharing Economy Increase Efficiency?	184
Solved Problem 3.4: What Has Caused the Decline in Beef Consumption?	150	Appendix: Quantitative Demand and Supply Analysis	193
Shifts in a Curve versus Movements along a Curve	152	Demand and Supply Equations	193
Don't Let This Happen to You: Remember: A Change in a Good's Price Does <i>Not</i> Cause the Demand or Supply Curve to Shift	152	Calculating Consumer Surplus and Producer Surplus	194
Conclusion	153	PART 2: Markets in Action: Policy and Applications	
An Inside Look: Google and Apple Face Supply and Demand Concerns in the Smartphone Market	154	<hr/>	
Chapter 4: Economic Efficiency, Government Price Setting, and Taxes	162	Chapter 5: Externalities, Environmental Policy, and Public Goods	198
The Sharing Economy, Phone Apps, and Rent Control	163	Can Economic Policy Help Protect the Environment?	199
4.1 Consumer Surplus and Producer Surplus	164	5.1 Externalities and Economic Efficiency	200
Consumer Surplus	164	The Effect of Externalities	200
Making the Connection: The Consumer Surplus from Broadband Internet Service	166	Externalities and Market Failure	202
Producer Surplus	167	What Causes Externalities?	202
What Consumer Surplus and Producer Surplus Measure	168	5.2 Private Solutions to Externalities: The Coase Theorem	203
4.2 The Efficiency of Competitive Markets	168	The Economically Efficient Level of Pollution Reduction	203

Making the Connection: The Clean Air Act: How a Government Policy Reduced Infant Mortality	204	Some Estimated Price Elasticities of Demand	241
The Basis for Private Solutions to Externalities	206	Making the Connection: The Price Elasticity of Demand for Breakfast Cereal	242
Don't Let This Happen to You: Remember That It's the <i>Net</i> Benefit That Counts	207	6.3 The Relationship between Price Elasticity of Demand and Total Revenue	243
Making the Connection: The Fable of the Bees Do Property Rights Matter?	207	Elasticity and Revenue with a Linear Demand Curve	244
The Problem of Transactions Costs	208	Solved Problem 6.3: Price and Revenue Don't Always Move in the Same Direction	245
The Coase Theorem	209	Estimating Price Elasticity of Demand	246
5.3 Government Policies to Deal with Externalities	209	6.4 Other Demand Elasticities	247
Making the Connection: Should the Government Tax Cigarettes and Soda?	210	Cross-Price Elasticity of Demand	247
Solved Problem 5.3: Dealing with the Externalities of Car Driving	212	Income Elasticity of Demand	248
Command-and-Control versus Market-Based Approaches	214	Making the Connection: Price Elasticity, Cross-Price Elasticity, and Income Elasticity in the Market for Alcoholic Beverages	248
The End of the Sulfur Dioxide Cap-and-Trade System	214	6.5 Using Elasticity to Analyze the Disappearing Family Farm	249
Are Tradable Emission Allowances Licenses to Pollute?	215	Solved Problem 6.5: Using Price Elasticity to Analyze a Policy of Taxing Gasoline	250
Making the Connection: Can a Carbon Tax Reduce Global Warming?	215	6.6 The Price Elasticity of Supply and Its Measurement	251
5.4 Four Categories of Goods	216	Measuring the Price Elasticity of Supply	251
The Demand for a Public Good	217	Determinants of the Price Elasticity of Supply	252
The Optimal Quantity of a Public Good	218	Making the Connection: Why Are Oil Prices So Unstable?	252
Solved Problem 5.4: Determining the Optimal Level of Public Goods	220	Polar Cases of Perfectly Elastic and Perfectly Inelastic Supply	253
Common Resources	222	Using Price Elasticity of Supply to Predict Changes in Price	255
Conclusion	223	Conclusion	256
Chapter 6: Elasticity: The Responsiveness of Demand and Supply	232	Chapter 7: The Economics of Health Care	266
Do People Respond to Changes in the Price of Gasoline?	233	How Much Will You Pay for Health Insurance?	267
6.1 The Price Elasticity of Demand and Its Measurement	234	7.1 The Improving Health of People in the United States	268
Measuring the Price Elasticity of Demand	234	Changes over Time in U.S. Health	268
Elastic Demand and Inelastic Demand	235	Reasons for Long-Run Improvements in U.S. Health	269
An Example of Computing Price Elasticities	235	7.2 Health Care around the World	270
The Midpoint Formula	236	The U.S. Health Care System	270
Solved Problem 6.1: Calculating the Price Elasticity of Demand	237	The Health Care Systems of Canada, Japan, and the United Kingdom	272
When Demand Curves Intersect, the Flatter Curve Is More Elastic	238	Comparing Health Care Outcomes around the World	273
Polar Cases of Perfectly Elastic and Perfectly Inelastic Demand	238	7.3 Information Problems and Externalities in the Market for Health Care	275
Don't Let This Happen to You: Don't Confuse Inelastic with Perfectly Inelastic	240	Adverse Selection and the Market for "Lemons"	275
6.2 The Determinants of the Price Elasticity of Demand	240	Asymmetric Information in the Market for Health Insurance	275
Availability of Close Substitutes	240	Don't Let This Happen to You: Don't Confuse Adverse Selection with Moral Hazard	277
Passage of Time	241	Solved Problem 7.3: If You Are Young and Healthy, Should You Buy Health Insurance?	278
Luxuries versus Necessities	241	Externalities in the Market for Health Care	279
Definition of the Market	241		
Share of a Good in a Consumer's Budget	241		

Making the Connection: Should the Government Run the Health Care System?	281	Did Principal-Agent Problems Help Cause the 2007–2009 Financial Crisis?	315
7.4 The Debate over Health Care Policy in the United States	282	Making the Connection: The Ups and Downs of Investing in Facebook	316
The Rising Cost of Health Care	282	Conclusion	317
Making the Connection: Are U.S. Firms Handicapped by Paying for Their Employees' Health Insurance?	284	Appendix: Tools to Analyze Firms' Financial Information	323
Explaining Rapid Increases in Health Care Spending	285	Using Present Value to Make Investment Decisions	323
The Continuing Debate over Health Care Policy	287	Solved Problem 8A.1: How to Receive Your Contest Winnings	325
Making the Connection: How Much Is That MRI Scan?	289	Using Present Value to Calculate Bond Prices	325
Conclusion	291	Using Present Value to Calculate Stock Prices	326
		A Simple Formula for Calculating Stock Prices	327
		Going Deeper into Financial Statements	327
		Analyzing Income Statements	328
		Analyzing Balance Sheets	329
PART 3: Firms in the Domestic and International Economies			
<hr/>			
Chapter 8: Firms, the Stock Market, and Corporate Governance	298	Chapter 9: Comparative Advantage and the Gains from International Trade	332
Facebook Learns the Benefits and Costs of Becoming a Publicly Owned Firm	299	Saving Jobs in the U.S. Tire Industry?	333
8.1 Types of Firms	300	9.1 The United States in the International Economy	334
Who Is Liable? Limited and Unlimited Liability Corporations Earn the Majority of Revenue and Profits	300	The Importance of Trade to the U.S. Economy	334
Making the Connection: How Important Are Small Businesses to the U.S. Economy?	302	Making the Connection: Goodyear and the Tire Tariff	335
8.2 The Structure of Corporations and the Principal-Agent Problem	303	U.S. International Trade in a World Context	336
Corporate Structure and Corporate Governance	303	9.2 Comparative Advantage in International Trade	337
Solved Problem 8.2: Should a Firm's CEO Also Be the Chairman of the Board?	304	A Brief Review of Comparative Advantage	337
8.3 How Firms Raise Funds	304	Comparative Advantage and Absolute Advantage	338
Sources of External Funds	305	9.3 How Countries Gain from International Trade	339
Making the Connection: The Rating Game: Is the U.S. Treasury Likely to Default on Its Bonds?	306	Increasing Consumption through Trade	339
Stock and Bond Markets Provide Capital—and Information	308	Solved Problem 9.3: The Gains from Trade	340
Don't Let This Happen to You: When Facebook Shares Are Sold, Facebook Doesn't Get the Money	308	Why Don't We See Complete Specialization?	342
Why Do Stock Prices Fluctuate So Much?	309	Does Anyone Lose as a Result of International Trade?	342
Making the Connection: Following Abercrombie & Fitch's Stock Price in the Financial Pages	310	Don't Let This Happen to You: Remember That Trade Creates Both Winners and Losers	342
8.4 Using Financial Statements to Evaluate a Corporation	311	Where Does Comparative Advantage Come From?	343
The Income Statement	312	Making the Connection: Leaving New York City Is Risky for Financial Firms	344
The Balance Sheet	313	Comparative Advantage over Time: The Rise and Fall—and Rise—of the U.S. Consumer Electronics Industry	345
8.5 Corporate Governance Policy and the Financial Crisis of 2007–2009	313	9.4 Government Policies That Restrict International Trade	345
The Accounting Scandals of the Early 2000s	313	Tariffs	347
The Financial Crisis of 2007–2009	314	Quotas and Voluntary Export Restraints	348
		Measuring the Economic Effect of the Sugar Quota	348
		Solved Problem 9.4: Measuring the Economic Effect of a Quota	349
		The High Cost of Preserving Jobs with Tariffs and Quotas	350
		Making the Connection: The Effect on the U.S. Economy of the Tariff on Chinese Tires	351

Gains from Unilateral Elimination of Tariffs and Quotas 352
 Other Barriers to Trade 352
9.5 The Arguments over Trade Policies and Globalization 352
 Why Do Some People Oppose the World Trade Organization? 353
Making the Connection: The Unintended Consequences of Banning Goods Made with Child Labor 354
 Dumping 356
 Positive versus Normative Analysis (Once Again) 356
Conclusion 357

PART 4: Microeconomic Foundations: Consumers and Firms

Chapter 10: Consumer Choice and Behavioral Economics 366
J.C. Penney Learns That Simplifying Prices Isn't Simple 367
10.1 Utility and Consumer Decision Making 368
 The Economic Model of Consumer Behavior in a Nutshell 368
 Utility 368
 The Principle of Diminishing Marginal Utility 369
 The Rule of Equal Marginal Utility per Dollar Spent 369
Solved Problem 10.1: Finding the Optimal Level of Consumption 372
 What If the Rule of Equal Marginal Utility per Dollar Does Not Hold? 373
Don't Let This Happen to You: Equalize Marginal Utilities *per Dollar* 374
 The Income Effect and Substitution Effect of a Price Change 375
10.2 Where Demand Curves Come From 376
Making the Connection: Are There Any Upward-Sloping Demand Curves in the Real World? 378
10.3 Social Influences on Decision Making 379
 The Effects of Celebrity Endorsements 379
 Network Externalities 380
 Does Fairness Matter? 381
Making the Connection: What's Up with "Fuel Surcharges"? 383
 Behavioral Economics: Do People Make Their Choices Rationally? 385
 Pitfalls in Decision Making 385
Making the Connection: A Blogger Who Understands the Importance of Ignoring Sunk Costs 387
 The Behavioral Economics of Shopping 388
Making the Connection: J.C. Penney Meets Behavioral Economics 389
Conclusion 390

Appendix: Using Indifference Curves and Budget Lines to Understand Consumer Behavior 397
Consumer Preferences 397
 Indifference Curves 397
 The Slope of an Indifference Curve 398
 Can Indifference Curves Ever Cross? 398
The Budget Constraint 399
Choosing the Optimal Consumption of Pizza and Coke 400
Making the Connection: Dell Determines the Optimal Mix of Products 401
 Deriving the Demand Curve 402
Solved Problem 10A.1: When Does a Price Change Make a Consumer Better Off? 403
 The Income Effect and the Substitution Effect of a Price Change 405
 How a Change in Income Affects Optimal Consumption 406
The Slope of the Indifference Curve, the Slope of the Budget Line, and the Rule of Equal Marginal Utility per Dollar Spent 406
 The Rule of Equal Marginal Utility per Dollar Spent Revisited 407

Chapter 11: Technology, Production, and Costs 412
Fracking, Marginal Costs, and Energy Prices 413
11.1 Technology: An Economic Definition 414
Making the Connection: Improving Inventory Control at Wal-Mart 414
11.2 The Short Run and the Long Run in Economics 415
 The Difference between Fixed Costs and Variable Costs 415
Making the Connection: Fixed Costs in the Publishing Industry 416
 Implicit Costs Versus Explicit Costs 416
 The Production Function 417
 A First Look at the Relationship between Production and Cost 418
11.3 The Marginal Product of Labor and the Average Product of Labor 419
 The Law of Diminishing Returns 419
 Graphing Production 420
Making the Connection: Adam Smith's Famous Account of the Division of Labor in a Pin Factory 421
 The Relationship between Marginal Product and Average Product 421
 An Example of Marginal and Average Values: College Grades 422
11.4 The Relationship between Short-Run Production and Short-Run Cost 423
 Marginal Cost 423
 Why Are the Marginal and Average Cost Curves U Shaped? 423

Solved Problem 11.4: Calculating Marginal Cost and Average Cost	425	12.2 How a Firm Maximizes Profit in a Perfectly Competitive Market	457
11.5 Graphing Cost Curves	426	Revenue for a Firm in a Perfectly Competitive Market	457
11.6 Costs in the Long Run	428	Determining the Profit-Maximizing Level of Output	458
Economies of Scale	428	12.3 Illustrating Profit or Loss on the Cost Curve Graph	460
Long-Run Average Cost Curves for Automobile Factories	429	Showing a Profit on the Graph	461
Solved Problem 11.6: Using Long-Run Average Cost Curves to Understand Business Strategy	429	Solved Problem 12.3: Determining Profit-Maximizing Price and Quantity	461
Making the Connection: The Colossal River Rouge: Diseconomies of Scale at Ford Motor Company	431	Don't Let This Happen to You: Remember That Firms Maximize Their Total Profit, Not Their Profit per Unit	463
Don't Let This Happen to You: Don't Confuse Diminishing Returns with Diseconomies of Scale	432	Illustrating When a Firm Is Breaking Even or Operating at a Loss	464
Conclusion	433	Making the Connection: Losing Money in the Solar Panel Industry	464
Appendix: Using Isoquants and Isocost Lines to Understand Production and Cost	441	12.4 Deciding Whether to Produce or to Shut Down in the Short Run	465
Isoquants	441	Solved Problem 12.4: When to Pull the Plug on a Movie	466
An Isoquant Graph	441	The Supply Curve of a Firm in the Short Run	467
The Slope of an Isoquant	442	The Market Supply Curve in a Perfectly Competitive Industry	468
Isocost Lines	442	12.5 "If Everyone Can Do It, You Can't Make Money at It": The Entry and Exit of Firms in the Long Run	469
Graphing the Isocost Line	442	Economic Profit and the Entry or Exit Decision	469
The Slope and Position of the Isocost Line	443	Long-Run Equilibrium in a Perfectly Competitive Market	471
Choosing the Cost-Minimizing Combination of Capital and Labor	443	The Long-Run Supply Curve in a Perfectly Competitive Market	471
Different Input Price Ratios Lead to Different Input Choices	444	Making the Connection: In the Apple iPhone Apps Store, Easy Entry Makes the Long Run Pretty Short	474
Making the Connection: The Changing Input Mix in Walt Disney Film Animation	445	Increasing-Cost and Decreasing-Cost Industries	474
Another Look at Cost Minimization	446	12.6 Perfect Competition and Efficiency	475
Solved Problem 11A.1: Determining the Optimal Combination of Inputs	447	Productive Efficiency	475
Making the Connection: Do National Football League Teams Behave Efficiently?	448	Solved Problem 12.6: How Productive Efficiency Benefits Consumers	475
The Expansion Path	449	Allocative Efficiency	477
		Conclusion	477
PART 5: Market Structure and Firm Strategy		Chapter 13: Monopolistic Competition: The Competitive Model in a More Realistic Setting	486
Chapter 12: Firms in Perfectly Competitive Markets	452	Starbucks: The Limits to Growth through Product Differentiation	487
Perfect Competition in Farmers' Markets	453	13.1 Demand and Marginal Revenue for a Firm in a Monopolistically Competitive Market	488
12.1 Perfectly Competitive Markets	455	The Demand Curve for a Monopolistically Competitive Firm	488
A Perfectly Competitive Firm Cannot Affect the Market Price	455	Marginal Revenue for a Firm with a Downward-Sloping Demand Curve	488
The Demand Curve for the Output of a Perfectly Competitive Firm	456		
Don't Let This Happen to You: Don't Confuse the Demand Curve for Farmer Parker's Wheat with the Market Demand Curve for Wheat	456		

13.2 How a Monopolistically Competitive Firm Maximizes Profit in the Short Run	490	14.3 Sequential Games and Business Strategy	525
Solved Problem 13.2: Does Minimizing Cost Maximize Profit at Apple?	492	Deterring Entry	525
13.3 What Happens to Profits in the Long Run?	493	Solved Problem 14.3: Is Deterring Entry Always a Good Idea?	526
How Does the Entry of New Firms Affect the Profits of Existing Firms?	493	Bargaining	527
Don't Let This Happen to You: Don't Confuse Zero Economic Profit with Zero Accounting Profit	494	14.4 The Five Competitive Forces Model	529
Making the Connection: The Rise and Decline and Rise of Starbucks	496	Competition from Existing Firms	529
Is Zero Economic Profit Inevitable in the Long Run?	496	The Threat from Potential Entrants	529
Solved Problem 13.3: Can It Be Profitable to Be the High-Price Seller?	497	Competition from Substitute Goods or Services	529
13.4 Comparing Monopolistic Competition and Perfect Competition	498	The Bargaining Power of Buyers	530
Excess Capacity under Monopolistic Competition	498	The Bargaining Power of Suppliers	530
Is Monopolistic Competition Inefficient?	498	Making the Connection: Can We Predict Which Firms Will Continue to Be Successful?	530
How Consumers Benefit from Monopolistic Competition	499	Conclusion	531
Making the Connection: Peter Thiel, e-Cigarettes, and the Monopoly in Monopolistic Competition	500	Chapter 15: Monopoly and Antitrust Policy	538
13.5 How Marketing Differentiates Products	500	A Monopoly on Lobster Dinners in Maine?	539
Brand Management	501	15.1 Is Any Firm Ever Really a Monopoly?	540
Advertising	501	Making the Connection: Is Google a Monopoly?	540
Defending a Brand Name	501	15.2 Where Do Monopolies Come From?	541
13.6 What Makes a Firm Successful?	502	Government Action Blocks Entry	542
Making the Connection: Is Being the First Firm in the Market a Key to Success?	502	Making the Connection: Does Hasbro Have a Monopoly on Monopoly?	542
Conclusion	503	Control of a Key Resource	544
Chapter 14: Oligopoly: Firms in Less Competitive Markets	512	Making the Connection: Are Diamond Profits Forever? The De Beers Diamond Monopoly	544
Competition in the Video Game Console Market	513	Network Externalities	545
14.1 Oligopoly and Barriers to Entry	514	Natural Monopoly	545
Barriers to Entry	515	Solved Problem 15.2: Can a Seafood Restaurant Be a Natural Monopoly?	546
14.2 Using Game Theory to Analyze Oligopoly	517	15.3 How Does a Monopoly Choose Price and Output?	548
A Duopoly Game: Price Competition between Two Firms	517	Marginal Revenue Once Again	548
Firm Behavior and the Prisoner's Dilemma	518	Profit Maximization for a Monopolist	548
Don't Let This Happen to You: Don't Misunderstand Why Each Firm Ends Up Charging a Price of \$399	519	Solved Problem 15.3: Finding the Profit-Maximizing Price and Output for a Cable Monopoly	550
Solved Problem 14.2: Is Same-Day Delivery a Prisoner's Dilemma for Wal-Mart and Amazon?	519	Don't Let This Happen to You: Don't Assume That Charging a Higher Price Is Always More Profitable for a Monopolist	551
Making the Connection: Is There a Dominant Strategy for Bidding on eBay?	520	15.4 Does Monopoly Reduce Economic Efficiency?	552
Can Firms Escape the Prisoner's Dilemma?	521	Comparing Monopoly and Perfect Competition	552
Making the Connection: With Price Collusion, More Is Not Merrier	522	Measuring the Efficiency Losses from Monopoly	552
Cartels: The Case of OPEC	523	How Large Are the Efficiency Losses Due to Monopoly?	554
		Market Power and Technological Change	554
		15.5 Government Policy toward Monopoly	555
		Antitrust Laws and Antitrust Enforcement	555
		Making the Connection: Did Apple Violate the Law in Pricing e-Books?	556
		Mergers: The Trade-off between Market Power and Efficiency	557
		The Department of Justice and FTC Merger Guidelines	558
		Regulating Natural Monopolies	560
		Conclusion	561

Chapter 16: Pricing Strategy	568	17.3 Equilibrium in the Labor Market	602
Getting into Walt Disney World: One Price Does Not Fit All	569	The Effect on Equilibrium Wages of a Shift in Labor Demand	603
16.1 Pricing Strategy, the Law of One Price, and Arbitrage	570	Making the Connection: Will Your Future Income Depend on Which Courses You Take in College?	604
Arbitrage	570	The Effect on Equilibrium Wages of a Shift in Labor Supply	605
Solved Problem 16.1: Is Arbitrage Just a Rip-Off?	571	Making the Connection: Veterinarians Fall Victim to Demand and Supply	606
Why Don't All Firms Charge the Same Price?	571	17.4 Explaining Differences in Wages	606
16.2 Price Discrimination: Charging Different Prices for the Same Product	572	Don't Let This Happen to You: Remember That Prices and Wages Are Determined at the Margin	608
Don't Let This Happen to You: Don't Confuse Price Discrimination with Other Types of Discrimination	572	Making the Connection: Technology and the Earnings of "Superstars"	608
The Requirements for Successful Price Discrimination	573	Compensating Differentials	609
Solved Problem 16.2: How Apple Uses Price Discrimination to Increase Profits	574	Discrimination	610
Airlines: The Kings of Price Discrimination	575	Solved Problem 17.4: Is Passing "Comparable Worth" Legislation a Good Way to Close the Gap between Men's and Women's Pay?	611
Making the Connection: How Colleges Use Yield Management	577	Making the Connection: Does Greg Have an Easier Time Finding a Job Than Jamal?	612
Perfect Price Discrimination	577	Labor Unions	615
Price Discrimination across Time	579	17.5 Personnel Economics	616
Can Price Discrimination Be Illegal?	579	Should Workers' Pay Depend on How Much They Work or on How Much They Produce?	616
Making the Connection: The Internet Leaves You Open to Price Discrimination	580	Making the Connection: Raising Pay, Productivity, and Profits at Safelite AutoGlass	617
16.3 Other Pricing Strategies	581	Other Considerations in Setting Compensation Systems	618
Odd Pricing: Why Is the Price \$2.99 Instead of \$3.00?	581	17.6 The Markets for Capital and Natural Resources	618
Why Do McDonald's and other Firms Use Cost-Plus Pricing?	582	The Market for Capital	618
Making the Connection: Cost-Plus Pricing in the Publishing Industry	583	The Market for Natural Resources	619
Why Do Some Firms Use Two-Part Tariffs?	584	Monopsony	620
Conclusion	587	The Marginal Productivity Theory of Income Distribution	621
		Conclusion	621
PART 6: Labor Markets, Public Choice, and the Distribution of Income			
<hr/>			
Chapter 17: The Markets for Labor and Other Factors of Production	594	Chapter 18: Public Choice, Taxes, and the Distribution of Income	630
Who Is Zack Greinke and Why Is He Being Paid \$147 Million?	595	Should the Government Use the Tax System to Reduce Inequality?	631
17.1 The Demand for Labor	596	18.1 Public Choice	632
The Marginal Revenue Product of Labor	596	How Do We Know the Public Interest? Models of Voting	632
Solved Problem 17.1: Hiring Decisions by a Firm That Is a Price Maker	598	Government Failure?	634
The Market Demand Curve for Labor	599	Is Government Regulation Necessary?	636
Factors That Shift the Market Demand Curve for Labor	599	18.2 The Tax System	636
17.2 The Supply of Labor	600	An Overview of the U.S. Tax System	637
The Market Supply Curve of Labor	601	Progressive and Regressive Taxes	638
Factors That Shift the Market Supply Curve of Labor	602	Making the Connection: Which Groups Pay the Most in Federal Taxes?	639
		Marginal and Average Income Tax Rates	639

The Corporate Income Tax 640
 International Comparison of Corporate Income Taxes 640
 Evaluating Taxes 641
18.3 Tax Incidence Revisited: The Effect of Price Elasticity 643
 Don't Let This Happen to You: Don't Confuse Who Pays a Tax with Who Bears the Burden of the Tax 643
 Making the Connection: Do Corporations Really Bear the Burden of the Federal Corporate Income Tax? 644
 Solved Problem 18.3: The Effect of Price Elasticity on the Excess Burden of a Tax 645
18.4 Income Distribution and Poverty 646
 Measuring the Income Distribution and Poverty 646
 Explaining Income Inequality 647
 Making the Connection: What Explains the 1 Percent? 650
 Showing the Income Distribution with a Lorenz Curve 651
 Problems in Measuring Poverty and the Distribution of Income 652
 Solved Problem 18.4: Are Many People in the United States Stuck in Poverty? 654
 Income Distribution and Poverty around the World 655
 Conclusion 656

PART 7: Macroeconomic Foundations and Long-Run Growth

Chapter 19: GDP: Measuring Total Production and Income 664
 Ford Motor Company Rides the Business Cycle 665
19.1 Gross Domestic Product Measures Total Production 667
 Measuring Total Production: Gross Domestic Product 667
 Solved Problem 19.1: Calculating GDP Production, Income, and the Circular-Flow Diagram 668
 Components of GDP 670
 Don't Let This Happen to You: Remember What Economists Mean by *Investment* 671
 An Equation for GDP and Some Actual Values 671
 Making the Connection: Adding More of Lady Gaga to GDP 672
 Measuring GDP Using the Value-Added Method 673
19.2 Does GDP Measure What We Want It to Measure? 674
 Shortcomings in GDP as a Measure of Total Production 674

Making the Connection: Why Do Many Developing Countries Have Such Large Underground Economies? 675
 Shortcomings of GDP as a Measure of Well-Being 675
 Making the Connection: Did World War II Bring Prosperity? 676
19.3 Real GDP versus Nominal GDP 677
 Calculating Real GDP 678
 Solved Problem 19.3: Calculating Real GDP 678
 Comparing Real GDP and Nominal GDP 679
 The GDP Deflator 680
19.4 Other Measures of Total Production and Total Income 681
 Gross National Product 681
 National Income 681
 Personal Income 681
 Disposable Personal Income 682
 The Division of Income 682
 Conclusion 683

Chapter 20: Unemployment and Inflation 690
 Caterpillar Announces Plans to Lay Off Workers 691
20.1 Measuring the Unemployment Rate, the Labor Force Participation Rate, and the Employment–Population Ratio 692
 The Household Survey 692
 Solved Problem 20.1: What Happens if the BLS Includes the Military? 694
 Problems with Measuring the Unemployment Rate 695
 Trends in Labor Force Participation 696
 Unemployment Rates for Different Groups 697
 How Long Are People Typically Unemployed? 697
 Making the Connection: How Unusual Was the Unemployment Situation Following the 2007–2009 Recession? 698
 The Establishment Survey: Another Measure of Employment 699
 Revisions in the Establishment Survey 699
 Employment Data: How Bad Was the 2007–2009 Recession? 700
 Job Creation and Job Destruction over Time 701
20.2 Types of Unemployment 701
 Frictional Unemployment and Job Search 702
 Structural Unemployment 702
 Cyclical Unemployment 703
 Full Employment 703
 Making the Connection: How Should We Categorize Unemployment at Caterpillar? 703
20.3 Explaining Unemployment 704
 Government Policies and the Unemployment Rate 704
 Labor Unions 706
 Efficiency Wages 706
20.4 Measuring Inflation 706
 The Consumer Price Index 707

Is the CPI Accurate?	708	Chapter 22: Long-Run Economic Growth: Sources and Policies	760
Don't Let This Happen to You: Don't Miscalculate the Inflation Rate	709	Can China Save General Motors?	761
The Producer Price Index	710	22.1 Economic Growth over Time and around the World	762
20.5 Using Price Indexes to Adjust for the Effects of Inflation	710	Economic Growth from 1,000,000 B.C. to the Present	762
Solved Problem 20.5: Calculating Real Wages at Caterpillar	711	Making the Connection: Why Did the Industrial Revolution Begin in England?	763
20.6 Nominal Interest Rates versus Real Interest Rates	712	Small Differences in Growth Rates Are Important	763
20.7 Does Inflation Impose Costs on the Economy?	713	Why Do Growth Rates Matter?	764
Inflation Affects the Distribution of Income	714	Don't Let This Happen to You: Don't Confuse the Average Annual Percentage Change with the Total Percentage Change	765
The Problem with Anticipated Inflation	714	"The Rich Get Richer and ..."	765
The Problem with Unanticipated Inflation	715	Making the Connection: Is Income All That Matters?	766
Making the Connection: What's So Bad about Falling Prices?	715	22.2 What Determines How Fast Economies Grow?	767
Conclusion	717	The Per-Worker Production Function	767
Chapter 21: Economic Growth, the Financial System, and Business Cycles	726	Which Is More Important for Economic Growth: More Capital or Technological Change?	769
Economic Growth and the Business Cycle at Whirlpool	727	Technological Change: The Key to Sustaining Economic Growth	769
21.1 Long-Run Economic Growth	728	Making the Connection: What Explains the Economic Failure of the Soviet Union?	770
Making the Connection: The Connection between Economic Prosperity and Health	730	Solved Problem 22.2: Using the Economic Growth Model to Analyze the Failure of the Soviet Economy	771
Calculating Growth Rates and the Rule of 70	731	New Growth Theory	771
What Determines the Rate of Long-Run Growth?	732	Joseph Schumpeter and Creative Destruction	773
Solved Problem 21.1: Explaining Economic Growth in Singapore	733	22.3 Economic Growth in the United States	773
Making the Connection: Can India Sustain Its Rapid Growth?	734	Economic Growth in the United States since 1950	774
Potential GDP	735	What Caused the Productivity Slowdown of 1974–1995?	774
21.2 Saving, Investment, and the Financial System	736	Is the United States Headed for Another Productivity Slowdown?	775
An Overview of the Financial System	736	22.4 Why Isn't the Whole World Rich?	776
The Macroeconomics of Saving and Investment	738	Catch-Up: Sometimes but Not Always	777
The Market for Loanable Funds	739	Solved Problem 22.4: The Economic Growth Model's Prediction of Catch-Up	779
Making the Connection: Ebenezer Scrooge: Accidental Promoter of Economic Growth?	740	Why Haven't Most Western European Countries, Canada, and Japan Caught Up to the United States?	780
Solved Problem 21.2: How Would a Consumption Tax Affect Saving, Investment, the Interest Rate, and Economic Growth?	743	Why Don't More Low-Income Countries Experience Rapid Growth?	781
21.3 The Business Cycle	744	Making the Connection: What Do Parking Tickets in New York City Tell Us about Poverty in the Developing World?	782
Some Basic Business Cycle Definitions	744	The Benefits of Globalization	784
How Do We Know When the Economy Is in a Recession?	745	22.5 Growth Policies	785
Making the Connection: Can a Recession Be a Good Time for a Business to Expand?	746	Enhancing Property Rights and the Rule of Law	785
What Happens during the Business Cycle?	747	Making the Connection: Will China's Standard of Living Ever Exceed That of the United States?	785
Don't Let This Happen to You: Don't Confuse the Price Level and the Inflation Rate	750	Improving Health and Education	787
Will the U.S. Economy Return to Stability?	752		
Conclusion	753		

Policies That Promote Technological Change	787
Policies That Promote Saving and Investment	787
Is Economic Growth Good or Bad?	788
Conclusion	789

PART 8: Short-Run Fluctuations

Chapter 23: Aggregate Expenditure and Output in the Short Run	798
Fluctuating Demand Helps—and Hurts—Intel and Other Firms	799
23.1 The Aggregate Expenditure Model	800
Aggregate Expenditure	800
The Difference between Planned Investment and Actual Investment	801
Macroeconomic Equilibrium	801
Adjustments to Macroeconomic Equilibrium	802
23.2 Determining the Level of Aggregate Expenditure in the Economy	803
Consumption	803
The Relationship between Consumption and National Income	806
Income, Consumption, and Saving	808
Solved Problem 23.2: Calculating the Marginal Propensity to Consume and the Marginal Propensity to Save	809
Planned Investment	810
Making the Connection: Intel Moves into Tablets and Perceptual Computing	811
Government Purchases	812
Net Exports	813
Making the Connection: The iPhone Is Made in China ... or Is It?	815
23.3 Graphing Macroeconomic Equilibrium	815
Showing a Recession on the 45°-Line Diagram	818
The Important Role of Inventories	819
A Numerical Example of Macroeconomic Equilibrium	820
Don't Let This Happen to You: Don't Confuse Aggregate Expenditure with Consumption Spending	821
Solved Problem 23.3: Determining Macroeconomic Equilibrium	821
23.4 The Multiplier Effect	822
Making the Connection: The Multiplier in Reverse: The Great Depression of the 1930s	825
A Formula for the Multiplier	826
Summarizing the Multiplier Effect	827
Solved Problem 23.4: Using the Multiplier Formula	828
The Paradox of Thrift	829
23.5 The Aggregate Demand Curve	829
Conclusion	831

Appendix: The Algebra of Macroeconomic Equilibrium	838
Chapter 24: Aggregate Demand and Aggregate Supply Analysis	840
The Fortunes of FedEx Follow the Business Cycle	841
24.1 Aggregate Demand	842
Why Is the Aggregate Demand Curve Downward Sloping?	843
Shifts of the Aggregate Demand Curve versus Movements along It	844
The Variables That Shift the Aggregate Demand Curve	844
Don't Let This Happen to You: Understand Why the Aggregate Demand Curve Is Downward Sloping	845
Solved Problem 24.1: Movements along the Aggregate Demand Curve versus Shifts of the Aggregate Demand Curve	845
Making the Connection: Which Components of Aggregate Demand Changed the Most during the 2007–2009 Recession?	848
24.2 Aggregate Supply	849
The Long-Run Aggregate Supply Curve	849
The Short-Run Aggregate Supply Curve	850
Making the Connection: How Sticky Are Wages?	851
Shifts of the Short-Run Aggregate Supply Curve versus Movements along It	853
Variables That Shift the Short-Run Aggregate Supply Curve	853
24.3 Macroeconomic Equilibrium in the Long Run and the Short Run	854
Recessions, Expansions, and Supply Shocks	856
Making the Connection: Does It Matter What Causes a Decline in Aggregate Demand?	857
Making the Connection: How Long Does It Take to Return to Potential GDP? Economic Forecasts Following the Recession of 2007–2009	860
24.4 A Dynamic Aggregate Demand and Aggregate Supply Model	862
What Is the Usual Cause of Inflation?	863
The Recession of 2007–2009	863
Solved Problem 24.4: Showing the Oil Shock of 1974–1975 on a Dynamic Aggregate Demand and Aggregate Supply Graph	866
Conclusion	867
Appendix: Macroeconomic Schools of Thought	875
The Monetarist Model	875
The New Classical Model	876
The Real Business Cycle Model	876
The Austrian Model	876
Making the Connection: Karl Marx: Capitalism's Severest Critic	877

PART 9: Monetary and Fiscal Policy

Chapter 25: Money, Banks, and the Federal Reserve System	880	The Goals of Monetary Policy	916
Washing Dollar Bills to Save the Economy of Zimbabwe	881	26.2 The Money Market and the Fed's Choice of Monetary Policy Targets	918
25.1 What Is Money, and Why Do We Need It?	882	Monetary Policy Targets	918
Barter and the Invention of Money	882	The Demand for Money	918
The Functions of Money	883	Shifts in the Money Demand Curve	919
What Can Serve as Money?	884	How the Fed Manages the Money Supply: A Quick Review	919
Making the Connection: Apple Didn't Want My Cash!	885	Equilibrium in the Money Market	920
25.2 How Is Money Measured in the United States Today?	885	A Tale of Two Interest Rates	921
M1: A Narrow Definition of the Money Supply	886	Choosing a Monetary Policy Target	922
M2: A Broad Definition of Money	887	The Importance of the Federal Funds Rate	922
Don't Let This Happen to You: Don't Confuse Money with Income or Wealth	887	26.3 Monetary Policy and Economic Activity	923
Solved Problem 25.2: The Definitions of M1 and M2	888	How Interest Rates Affect Aggregate Demand	924
What about Credit Cards and Debit Cards?	888	The Effects of Monetary Policy on Real GDP and the Price Level	924
Making the Connection: Are Bitcoins Money?	888	Making the Connection: Too Low for Zero: The Fed Tries Quantitative Easing and Operation Twist	926
25.3 How Do Banks Create Money?	889	Can the Fed Eliminate Recessions?	927
Bank Balance Sheets	890	Fed Forecasts	928
Using T-Accounts to Show How a Bank Can Create Money	890	Making the Connection: Trying to Hit a Moving Target: Making Policy with "Real-Time Data"	929
The Simple Deposit Multiplier	893	A Summary of How Monetary Policy Works	930
Don't Let This Happen to You: Don't Confuse Assets and Liabilities	894	Don't Let This Happen to You: Remember That with Monetary Policy, It's the Interest Rates—Not the Money—That Counts	931
Solved Problem 25.3: Showing How Banks Create Money	894	26.4 Monetary Policy in the Dynamic Aggregate Demand and Aggregate Supply Model	931
The Simple Deposit Multiplier versus the Real-World Deposit Multiplier	896	The Effects of Monetary Policy on Real GDP and the Price Level: A More Complete Account	931
25.4 The Federal Reserve System	897	Using Monetary Policy to Fight Inflation	933
The Establishment of the Federal Reserve System	897	Solved Problem 26.4: The Effects of Monetary Policy	934
How the Federal Reserve Manages the Money Supply	899	26.5 A Closer Look at the Fed's Setting of Monetary Policy Targets	935
The "Shadow Banking System" and the Financial Crisis of 2007–2009	901	Should the Fed Target the Money Supply?	935
25.5 The Quantity Theory of Money	903	Why Doesn't the Fed Target Both the Money Supply and the Interest Rate?	936
Connecting Money and Prices: The Quantity Equation	903	The Taylor Rule	937
The Quantity Theory Explanation of Inflation	904	Inflation Targeting	938
How Accurate Are Forecasts of Inflation Based on the Quantity Theory?	904	Making the Connection: How Does the Fed Measure Inflation?	938
High Rates of Inflation	905	26.6 Fed Policies during the 2007–2009 Recession	940
Making the Connection: The German Hyperinflation of the Early 1920s	906	The Inflation and Deflation of the Housing Market Bubble	940
Conclusion	907	The Changing Mortgage Market	942
Chapter 26: Monetary Policy	914	The Role of Investment Banks	942
Why Do Businesses Care What the Federal Reserve Does?	915	Making the Connection: The Wonderful World of Leverage	943
26.1 What Is Monetary Policy?	916	The Fed and the Treasury Department Respond	944
		Conclusion	945
		Chapter 27: Fiscal Policy	954
		Does Government Spending Create Jobs?	955
		27.1 What Is Fiscal Policy?	956

What Fiscal Policy Is and What It Isn't	956	The Effects of Changes in Tax Rates on the Multiplier	994
Automatic Stabilizers versus Discretionary Fiscal Policy	956	The Multiplier in an Open Economy	995
An Overview of Government Spending and Taxes	957	Chapter 28: Inflation, Unemployment, and Federal Reserve Policy	998
Making the Connection: Is Spending on Social Security and Medicare a Fiscal Time Bomb?	959	Why Does Parker Hannifin Worry about Monetary Policy?	999
27.2 The Effects of Fiscal Policy on Real GDP and the Price Level	960	28.1 The Discovery of the Short-Run Trade-off between Unemployment and Inflation	1000
Expansionary and Contractionary Fiscal Policy	961	Explaining the Phillips Curve with Aggregate Demand and Aggregate Supply Curves	1001
Don't Let This Happen to You: Don't Confuse Fiscal Policy and Monetary Policy	962	Is the Phillips Curve a Policy Menu?	1002
A Summary of How Fiscal Policy Affects Aggregate Demand	962	Is the Short-Run Phillips Curve Stable?	1002
27.3 Fiscal Policy in the Dynamic Aggregate Demand and Aggregate Supply Model	963	The Long-Run Phillips Curve	1002
27.4 The Government Purchases and Tax Multipliers	964	The Role of Expectations of Future Inflation	1003
The Effect of Changes in the Tax Rate	967	Making the Connection: Do Workers Understand Inflation?	1004
Taking into Account the Effects of Aggregate Supply	967	28.2 The Short-Run and Long-Run Phillips Curves	1005
The Multipliers Work in Both Directions	968	Shifts in the Short-Run Phillips Curve	1006
Solved Problem 27.4: Fiscal Policy Multipliers	968	How Does a Vertical Long-Run Phillips Curve Affect Monetary Policy?	1006
27.5 The Limits of Using Fiscal Policy to Stabilize the Economy	969	Making the Connection: Does the Natural Rate of Unemployment Ever Change?	1008
Does Government Spending Reduce Private Spending?	970	Solved Problem 28.2: Changing Views of the Phillips Curve	1009
Crowding Out in the Short Run	970	28.3 Expectations of the Inflation Rate and Monetary Policy	1009
Crowding Out in the Long Run	971	The Effect of Rational Expectations on Monetary Policy	1010
Fiscal Policy in Action: Did the Stimulus Package of 2009 Succeed?	972	Is the Short-Run Phillips Curve Really Vertical?	1011
Making the Connection: Why Was the Recession of 2007–2009 So Severe?	975	Real Business Cycle Models	1012
27.6 Deficits, Surpluses, and Federal Government Debt	976	28.4 Federal Reserve Policy from the 1970s to the Present	1012
How the Federal Budget Can Serve as an Automatic Stabilizer	978	The Effect of a Supply Shock on the Phillips Curve	1012
Making the Connection: Did Fiscal Policy Fail during the Great Depression?	979	Paul Volcker and Disinflation	1013
Solved Problem 27.6: The Effect of Economic Fluctuations on the Budget Deficit	980	Don't Let This Happen to You: Don't Confuse Disinflation with Deflation	1015
Should the Federal Budget Always Be Balanced?	980	Solved Problem 28.4: Using Monetary Policy to Lower the Inflation Rate	1015
The Federal Government Debt	981	Alan Greenspan, Ben Bernanke, and the Crisis in Monetary Policy	1017
Is Government Debt a Problem?	982	Making the Connection: The Debate over Quantitative Easing	1019
27.7 The Effects of Fiscal Policy in the Long Run	982	Has the Fed Lost Its Independence?	1020
The Long-Run Effects of Tax Policy	982	Conclusion	1021
Tax Simplification	983		
The Economic Effect of Tax Reform	983		
How Large Are Supply-Side Effects?	984		
Conclusion	985		
Appendix: A Closer Look at the Multiplier	992		
An Expression for Equilibrium Real GDP	992		
A Formula for the Government Purchases Multiplier	993		
A Formula for the Tax Multiplier	994		
The "Balanced Budget" Multiplier	994		
		PART 10: The International Economy	
		Chapter 29: Macroeconomics in an Open Economy	1028
		A Strong Dollar Hurts McDonald's Profits	1029
		29.1 The Balance of Payments: Linking the United States to the International Economy	1030
		The Current Account	1030

The Financial Account	1031	Chapter 30: The International Financial System	1056
The Capital Account	1032	Volkswagen Deals with Fluctuating Exchange Rates	1057
Why Is the Balance of Payments Always Zero?	1033	30.1 Exchange Rate Systems	1058
Don't Let This Happen to You: Don't Confuse the Balance of Trade, the Current Account Balance, and the Balance of Payments	1033	Don't Let This Happen to You: Remember That Modern Currencies Are Fiat Money	1059
Solved Problem 29.1: Understanding the Arithmetic of the Balance of Payments	1034	30.2 The Current Exchange Rate System	1059
29.2 The Foreign Exchange Market and Exchange Rates	1035	The Floating Dollar	1059
Making the Connection: Exchange Rate Listings	1035	What Determines Exchange Rates in the Long Run?	1060
Equilibrium in the Market for Foreign Exchange	1036	Making the Connection: The Big Mac Theory of Exchange Rates	1061
How Do Shifts in Demand and Supply Affect the Exchange Rate?	1037	Solved Problem 30.2: Calculating Purchasing Power Parity Exchange Rates Using Big Macs	1062
Some Exchange Rates Are Not Determined by the Market	1039	The Euro	1063
How Movements in the Exchange Rate Affect Exports and Imports	1039	Making the Connection: Can the Euro Survive? Pegging against the Dollar	1065
Making the Connection: Japanese Firms Ride the Yen Roller Coaster	1039	Making the Connection: Why Did Iceland Recover So Quickly from the Financial Crisis?	1070
Don't Let This Happen to You: Don't Confuse What Happens When a Currency Appreciates with What Happens When It Depreciates	1041	30.3 International Capital Markets	1071
Solved Problem 29.2: Why Did Honda Move Some Production to the United States?	1041	Conclusion	1073
The Real Exchange Rate	1042	Appendix: The Gold Standard and the Bretton Woods System	1078
29.3 The International Sector and National Saving and Investment	1042	The Gold Standard	1078
Net Exports Equal Net Foreign Investment	1043	The End of the Gold Standard	1078
Domestic Saving, Domestic Investment, and Net Foreign Investment	1043	The Bretton Woods System	1079
Solved Problem 29.3: Arriving at the Saving and Investment Equation	1044	The Collapse of the Bretton Woods System	1080
29.4 The Effect of a Government Budget Deficit on Investment	1045	Glossary	1084
Making the Connection: Why Is the United States Called the "World's Largest Debtor"?	1046	Company Index	1092
29.5 Monetary Policy and Fiscal Policy in an Open Economy	1048	Subject Index	1095
Monetary Policy in an Open Economy	1048	Credits	1115
Fiscal Policy in an Open Economy	1048	Chapter Features Chart	1117
Conclusion	1049
