Goals for Today

- Assist in defining needs
- Learn how to find relevant programs and opportunities
- Evaluate types of federal and state governmental programs designed to support business
- Evaluate types of private, non-public programs designed to support business
- Apply appropriate programs to a business/your business
- Understand the time commitment and upfront costs

Financing

Sources of Capital

- **MUST:**
 - **#1) What is the money for?**
 - Support cash flow, capital purchases, develop a product/service
 - **#2) When is the money needed?**
- **RELEVANCE?**
 - Determines which financial statement the money is counted on:
 - **Income Statement (Profit/Loss)**
 - Revenue – Expenses = Profit
 - **Balance Sheet**
 - Assets = Liabilities + Net Worth

Financing

Sources of Capital

- WHAT + WHEN = WHERE (it shows up on the financials)
 - MUST:
 - #3) How much is needed?
 - This may require cost documentation via estimates, bids, or quotes.
 - This may require staffing plan with supporting market data.
 - This will also trigger the need for a financial projection.

Financing

Types of Sources of Capital

- Equity – the investment of capital into a business balance sheet with no pay back
 - **You (personal funds, home equity, sale of stock, personal credit)**
 - **Partners (their personal funds, home equity, sale of stock, personal credit)**
Do you have a comprehensive partnership agreement?
 - **"The crowd"**
 - Investors (crowd funds, angels, "aka: rich uncles", or Angels)
 - *Laws, rules, procedures, and stages of business may all be relevant here*

For more information about securities law in Montana, please visit: <https://csimt.gov/securities/capital-formation/>

Financing

Types of Sources of Capital

- Debt – the lending of capital to a business balance sheet that must be paid back
 - **Direct: Banks, Credit Unions (prime plus 1-2)**
 - **Direct & Participation: Micro-lenders, gap & bridge financiers (prime plus 5)**
 - Non-profit lenders, CDFIs, Port Authorities, 7 other public partners
 - **Loan guarantors (guarantee to the bank, credit union, or other lender)**
 - SBA 7a (up to 85%)
 - USDA Business & Industry (up to 90%)
 - State of Montana - Montana Board of Investments

Grants

Launching or scaling?

- **What is it for?** More important for grants because of sources being limited and specific.
- **When do you need the funding?** Time limited and often annual application process. May be longer time to receipt of funds.
- **Where?** - Rural v. urban grants. Different grants available depending on population designation.
- **How much?** Utilize the same business plan and revenue projections that would be used for a loan request.
- **Who?** Telling a story to the review committee. What do they value? What impact are they trying to make? How could your business help create that impact?

- Use your match to leverage public money that builds the value proposition of the company long-term. "Investment in assets (marketing assets included) over advertising (marketing expense)."
- **Important to know:**
 - Grants to for-profits are limited
 - Grants are restricted to use type
 - Grants require match
 - Grants are reimbursement based

Grants

- **Value-Added Agriculture**
 - Growth Through Agriculture (MT Dept of Ag), <https://agr.mt.gov/GTA>
