FIRE & SECURITY

INTRUDER

Intruder detection systems for Industrial, commercial and domestic property

When it comes to protecting property there can be no compromise, your business needs a partner that can deliver reliable approved systems backed by first class support. Located on the Wirral, UK, CQR is one of the leading manufacturers of detection devices, sounders and cabling for the Intrusion and access control market.

Our values and aims:

- Easy to do business with

- Provide quality systems that are value for money

- Partner our customer for long term mutual benefit

- Solutions designed to meet EU approvals

- Continued research into new technologies

CQR Fire & Security
125 Pasture Road, Moreton, Wirral, CH46 4TH, UK.

CQR are the leading U.K. manufacturer of cables for Intrusion Detection, Access Control and Fire Retardant applications. All our cables are manufactured at our specialist factory in the U.K.

## Professional Cable
2, 4, 6, 8, 12, 20 Core   4, 6, 8 and 12 core for LSZH

LSZH · PVC · LSF · S · US · WH · BR · CPR

Suitable for any installation where signal integrity is essential.

✓ 7 x 0.182mm² Tinned Copper   ✓ BS4737-3.30:2015 Type 2 (LSZH Type 1)

Belden Style Cable
2 x 2 or 2 x 3 core

LSZH · PVC · LSF · S · WH · GY · CPR

Used for security and access control RS-232, RS485 data transfer. Meets Belden specification 8723, 8777, 9450, 9538 and 9536.

✓ 7 x 0.25mm² Tinned Copper   ✓ BS4737-3.30:2015 Type 2 (LSZH Type 1)

CCAM Cable
4, 6, 8, 12 Core

PVC · LSF · S · US · WH · BR · CPR

Suitable for domestic applications and shorter runs.

✓ 7 x 0.2mm² Copper Clad Aluminium   ✓ BS4737-3.30:2015 Type 3

Power & Data Cable
4, 6, 8 Core

LSZH · PVC · S · WH · CPR

For use where higher than usual current carrying capacity or lower voltage drop is required.

✓ 7 x 0.182mm² Data / 16 x 0.2mm² Power   ✓ BS4737-3.30:2015 Type 2 (LSZH Type 1)

Solid Cores
4, 6, 8 & 10 Core

PVC · S · US · WH · CPR

Suitable for any installation where signal integrity is essential on longer runs.

✓ 1 x 0.5mm² Tinned Copper   ✓ BS4737-3.30:2015 Type 2

Twisted Pair Cable
4 Core

PVC · S · WH · CPR

For installations such as Access Control and CCTV.

✓ 24 x 0.2mm² Tinned copper   ✓ BS4737-3.30:2015 Type 2

Flame Retardant Cable
2, 4 Core

PVC R · S · WH · RD

Designed to resist the spread of fire vertically along the cable.

✓ 1 x 0.76mm² Tinned copper   ✓ Compliant to IEC 60332-3-2

FLUSH CONTACTS

CQR offer a range of magnetic contacts for mounting flush into windows and doors. Available with pre fitted resistor values to be compatible with your choice of control equipment, or the universal MULTI resistor version. Products meet EN50131 G2/G3 standards, available in white or brown.

FC508

FS610

FC503

FC505

FC620
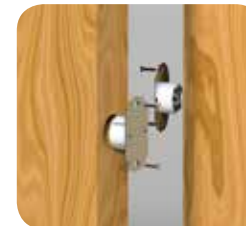

FC509

INDUSTRIAL GRADE MAGNETIC CONTACTS

Designed for heavy duty doors, roller shutters and windows. Constructed from robust and durable materials to give reliable operation in industrial, domestic and commercial applications.

RS002

RS007

GP001

The CQR range of magnetic contacts are renowned throughout the Security Industry for their quality and reliability. Many of our products are independently certified to EN50131 G2/G3 standards.

Our MULTI resistor technology allows the Installer to reduce inventory by stocking one product that can be used with most control equipment.

SURFACE CONTACTS

CQR offer magnetic contact solutions for metal, wooden and double opening doors. Available with pre fitted resistor values to be compatible with your choice of control equipment or the universal MULTI resistor version. Products meet EN50131 G2/G3 standards, available in white or brown.

MULTIBOX - External Sounder

The Multibox is a professional external sounder available in two types. The *Standard* with single piezo sounder that meets EN50131 G2 and the *Plus* with dual piezo to EN50131 G3. CQR offer a range of interchangeable covers that allow the installer to choose the appropriate style.

Standard - EN50131-1:2006+A1:2009 grade 2
EN50131-4 type Z

Plus - EN50131-1:2006+A1:2009 grade 3
` EN50131-4 type Z

System 5 Approved

✓ 8 Interchangeable covers

✓ Independently tested to EN50131 G2/G3

✓ Trigger wire monitoring (Plus)

✓ SAB (standard), SAB/SCB (plus)

✓ Battery Monitoring

✓ Strobe Saver

✓ Comfort LED's

on all CQR External Sounders

External Sounders are an effective visual and audible deterrent against potential intruders. CQR offer a range of innovative and fully approved solutions for commercial and domestic property.

Bora - External Sounder

- ✓ High power external siren and strobe 120dB @ 1mtr
- ✓ High security - Double skinned housing:
  External: UV stable ABS 3mm Plastic
  Internal: 0.8mm Galvanized metal cover.
- ✓ Modulated two tone sound output
- ✓ High intensity LED strobe
- ✓ Negative trigger input to activate the LED strobe only
- ✓ Blue / Amber lens available
- ✓ EN50131-1:2006+A1:2009 grade 3 EN50131-4 type Z
- ✓ Incert approved

Orion - External Sounder

- ✓ Vertical or Horizontal versions
- ✓ One or two lenses
- ✓ Adjustable wall mounting
- ✓ Knockout spacers for use on uneven surfaces
- ✓ Hinged flush fitting covers
- ✓ Concealed cover screws for neat finish
- ✓ EN50131-1:2006+A1:2009 grade 3 EN50131-4 type Z

Ultima - External Sounder

- ✓ Low profile
- ✓ Dual skinned 3mm polycarbonate
- ✓ Twin comfort LED's
- ✓ Twin Stobe
- ✓ Wall, cover and option for screw tamper
- ✓ Selectable SAB/SCB
- ✓ EN50131-1:2006+A1:2009 grade 3 EN50131-4 type Z

External Sounders

Go to www.cqr.co.uk for a full range of CQR and FIREBRAND products

A range of quality internal sounders, buzzers and speakers to deliver audio and visual signalling of an intrusion attempt. CQR offer a large range of products to suit any application.

PICCOLO - EN50131-Grade 3 Internal Sounder

✓ Low profile design
✓ Plezo sounder for audible indication
✓ Bright LED's for visual indication
✓ Selectable alternating or continuous tone
✓ Flashing alarm indication
✓ Low current consumption
✓ Tamper protected lid and mounting
✓ 115dB(A) sound output

ALTO - EN50131-Grade 3 Internal Sounder

Internal Sounder

✓ Low profile design
✓ Selectable alternating or continuous tone
✓ Low current consumption
✓ Tamper protected lid and mounting
✓ INCERT Approved

Internal Speaker

✓ Low profile design
✓ 16 ohms speaker
✓ Tamper protected lid and mounting
✓ Dynamic piezo technology
  High Impedance allowing multiple speakers to be used

ARIA - Internal Speaker

✓ Flush Mount
✓ 16 ohms speaker
✓ Brushed steel effect
✓ Tamper Protection
✓ Single gang (85mm x 85mm

SOINT - Internal Sounder

SOINT 2 HI-LO - Grade 3 - The SOINT2 HI-LO low profile housing contains a multi tone sounder, with separate inputs for exit time and alarm sound.

Also available as a speaker

FULL RANGE OF

BUZZERS   SPEAKERS   HORN SOUNDERS   PIEZO SOUNDERS

at www.cqr.co.uk

Shock sensors are designed to respond to shock waves within the material they are mounted to. Once the shock level threshold has been breached the device will create an alarm condition.

The CQR Shock Sensor is designed to give a warning when a forced entry is in progress, and not after an intruder has gained access to the building. Mass inertia Shock Sensors can be used on virtually any permanent building material, the applications are practically unlimited. The most common materials that the devices are used on include; UPVC and wooden windows, permanent structures including masonry, brick, block and concrete. They can also be used on metal such as sheet roofing, steel sheeting, load bearing steelworks such as beams and girders.

- ✓ Domestic and Commercial Windows and Doors
- ✓ Cash dispensers (ATM)
- ✓ Glass windows
- ✓ Cash and valuable storage facilities
- ✓ Strong rooms
- ✓ Self-storage units
- ✓ Shipping containers

Trapper

Trapper - Intelligent Shock Sensor & Analyser

MA100T - Mass Inertia Shock Analyser
Works in conjunction with CQR shock sensor range.

SD's - Mass Inertia Shock Sensor
Mass inertia shock sensors can be used with the Trapper or with the MA100T Analyser.

*SD1 - Flush **Mounted***

*SD2 - Small Surface **Mounted***

SD3 - Surface with tamper

SD4 - Surface with tamper and magnetic switch

MA100T

CQR offer a market leading range of hold up devices. From the PADP3 to the innovative electronic EPA-NG PD6662:2010 / BS8243 compliant electronic panic button.

The EPA-NG Double Push

The EPA-NG is the most advanced PA Button available on the market today. Packed with innovative features, this electronic unit is a versatile device capable of many functions including confirmed output. Available in white and stainless steel finishes.

PADP3 - Double Push

The double push range of PA Buttons are all suitable for use in Grade 3 Installations. Inside the traditional double push design is a selection of end-of-line resistors for the convenience of the installer.

PASP1 - Single Push

The single push range of PA Buttons are available in white and stainless steel finishes.

EPA-STD - Double Push

The original electronic Hold-Up Device is now available with a stainless steel flat plate. This is flush fitting which allows the device be mounted in a standard UK single gang box.

NEW DESIGN

DP3

Double Push Hold Up

After consultation with distributors and installers CQR have made improvements the the design of the Double Push Hold Up device.
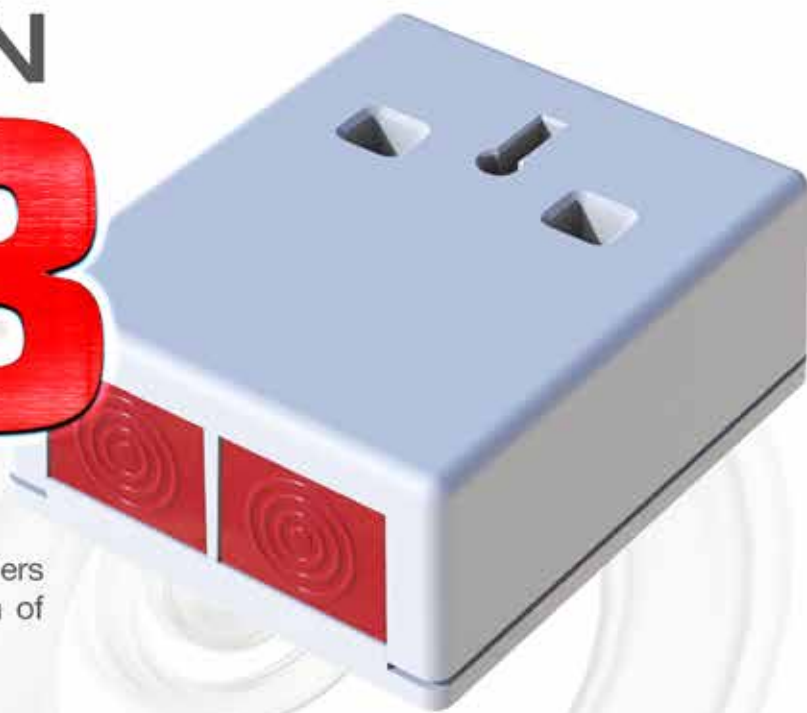

OUTSIDE Improvements

- Screw to secure front cover
- Original key to reset
- Tactile flush activation buttons
- Improved case / backplate

INSIDE Improvements

- Improved access for cable entry
- No requirement to remove PCB when wiring
- Access for power tools when mounting
- Secure spring mechanism
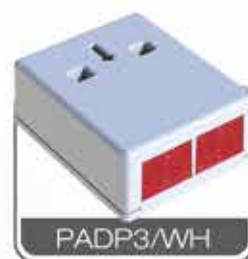

PADP3/BS

PADP3/SS/BK

PADP3/SS/WH

PADP3/WH

Call Points

FP3

The FP3 is available in a variety of colours to suit different applications. Red is available as single pole and is certified to EN54-11 and CPR. White and yellow are available as single or double pole. Green is available in single, double and triple pole.

Single pole - 🟥🟩⬜

Double pole - 🟩⬜

Triple pole - 🟩

✓ *Key resettable*

✓ *Red - jumper selectable EOL 470-680 Ohms. Addressable also available*

✓ *White, yellow & green for use in other applications such as Access Control*

✓ *Lift up cover available (FP3/COVER)*

✓ *CPR Certified (Red only)*

✓ *Triple pole version available*

FP2

The FP2 manual call point is a key resettable MCP which offers all commonly used switch monitoring configurations in one device.   Available in white, yellow and green for use in other applications such as emergency door release.

✓ *Available as double pole or single pole*

✓ *Key resettable*

✓ *Lift up cover available (MOUFPC)*

✓ *Choice of wording*

The CQR range of switch mode power supplies incorporate the latest highly efficient technology. This technology offers key benefits over traditional linear PSU's

| SINGLE Indicator | MULTI Indicator | EN Grade 2 | EN Grade 3 |

High efficiency: CQR Power supplies are more cost effective to operate due to the switching technology

Delivery of Power: Power will be delivered consistently over the life of the product

Operational Temperature: Switch Mode PSU's operate at a lower temperature than traditional PSU's which can be of benefit in enclosed spaces or air conditioned rooms

GSM Communicators

CQR have two advanced GSM communicators that can be connected to any peripheral device such as an intruder alarm system, fire control panel, CCTV equipment or access control equipment etc.

GD04 - The GD04 is a GSM Communicator designed for use with any system to provide wireless communication. The ability to switch outputs on or off means for example, the unit can be used to switch interior lights on or off via sms text message.

GD05 - The GD-05 GSM controller is a microprocessor controlled device capable of sending SMS alerts and automatically calling up to five telephones via the GSM900/ 1800/ 1900 networks when activated from the onboard inputs

CQR offer both leaf spring tampered junction boxes as well as microswitch tampered products for use in graded applications. We also offer weatherproof junction boxes and a range of door loops.

Microswitch Tamper Junction Boxes

Junction boxes are available in white or brown and as a 5, 12 or 24 way with 2 terminals for tamper. Also available is the JB757 Grade 3 Environmental Class III.

JB707   JB727   JB737   JB757

Junction Boxes

Tampered junction boxes available as a 5, 12 or a 24 way with 2 terminals for tamper. The 5 and 12 way are Grade 3 Environmental Class II.

JB701   JB720   JB730
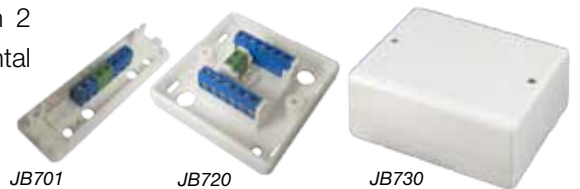

Door Loops

A range of door loops available with 4 or 6 cores, fixed or extendable lengths and supplied with junction boxes included. They are constructed from copper cores for ease of connection.

DLA706   DLA709   DLT103

Empty Boxes

A range of white empty plastic boxes suitable for both security and non-security applications.

EB830

EB823   EB824

EB820

Full range of products at www.cqr.co.uk

A range of Stainless Steel green domed, push plate and standard architrave exit buttons designed to meet the most robust applications.

✓ Available as push plate, push button and green domed
✓ Flush or surface mount
✓ Stainless steel
✓ Complete with green back box

✓ Touch free Exit Button
✓ Illuminated sensor
✓ Flush or surface mount
✓ Complete with green back box

Call for Assistance Alarm

KEY FEATURES

✓ Appealing design and simple to use
✓ Two wire system
✓ Integral power supply
✓ High visibility LED indicators
✓ Optional networking of multi control units
✓ CE Complies to BS8300:2009

Two Models Available:
PA/DTA/3 – Control unit – Pull cord – Reset button
PA/DTA/4 – same as above with over door indicator
