COMPANY NAME: Idaho Asphalt Supply, Inc.

Distribution prices:

Distributor with operator, performance grade asphalt	Price per hour: \$300.00
Distributor with operator, all other products	Price per hour: \$250.00

****8 Hour Minimum Charge per distributor per day****

Freight/transportation prices:

- Fuel Surcharge Schedule Attached
- Freight Mileage Sheet Attached
 - Minimum Freight Tons Listed on Attached Freight Sheet
 - 25 Ton Minimum Load Size from White City, OR Terminal
 - 30 Ton Minimum Load Size from Nampa, ID Terminal

Miscellaneous prices:

Pump Charges when pumping into storage \$150.00 per use.

Demurrage: 2 hours free unload, then \$125 per hour thereafter. Clock starts 2 hours after “agreed upon due time specified by customer **or start of unload if before scheduled due time.**” For example, if the transport is due at 8am, at 10 am the demurrage clock starts if he has not been “unloaded and released.” The clock stops when the transport truck is “unloaded and released/free to leave the jobsite,” not when the vehicle actually departs. The “due time,” “start unload,” and “finish unload” is documented on the bill of lading and the customer signs to acknowledge these times (and if any demurrage exists).

Truck hold fee for each truck placed on hold by the customer in excess of 2.00 hours, \$125.00 per hour (en route or still in plant ready to leave).

Minimum Spread Charge: 8 hours x hourly rate for product type being shot

Per Diem for Spreader Operators required to remain onsite or when unable to work due to weather or breakdowns: \$400.00 per night. This covers their travel to and from a local/regional hotel/motel, their overnight stay, plus food, etc. This charge will apply to any distributor which, due to hours of service, daily workload, weather, customer breakdown or excess oil in their tanks, is required to remain on the jobsite (or nearby hotel/motel accommodation). Charge is per distributor, per night.

Return Freight on oil hauled back to plant (breakdown/weather/cancellation) ½ rate on the quantity returned (eg \$45.00 rate from Nampa to jobsite x 50% rate for returns x 8 tons returned due to rain = \$180.00 charged for the return). Full freight charges to destination and ½ freight charges will be assessed on returned product.

No credit will be given for diluted materials.

Overnight holdover for transports held overnight at jobsite: \$400.00 per unit, per night.

Restocking fee for returned product: \$250.00

24 Hour Cancellation Notice required or partial freight charges may apply.
