

Foreign Language Program

@

Pocopson Elementary

The PTO foreign language program is looking for a Chinese Mandarin teacher for 2019/2020.

We are looking for someone who can commit to 20 classes of 45 minutes from October to April. The class will meet once a week from 8:10 to 8:55am at Pocopson Elementary. The purpose of the class is to introduce Chinese culture, alphabet, basic vocabulary. The teacher will need all clearances as listed in School district website.

If you are interested, please contact Anne Sweeney at sweeneyamoc@gmail.com for more information.

Help Support the Unionville High School After Prom

@

Once again, Floga Bistro in Kennett Square has offered to graciously donate 20% of its proceeds to the UHS After Prom. Floga Bistro not only donates free pizza to the After Prom, but through this fundraising event, raises much needed money to provide the students in our school district with a safe and fun After Prom experience.

Please help support the UHS After Prom, this generous donor, and your craving for delicious food by dining in, taking out, ordering delivery or even getting some of your prom catering supplied through Floga Bistro. Just mention "Unionville High School" when you place your order and you will be automatically making a difference in our students' After Prom experience.

Fundraising Event Details

When: Monday, May 13th through Saturday May 18th

(Offer applies to breakfast, lunch, dinner and late-night orders)

Where: Floga Bistro

826 East Baltimore Pike

Kennett Square, Pa. 19348

610-444-6500

For hours of operation or a menu, visit <https://www.flogabistro.com/home>

Please note: Delivery is only available in the Kennett Square area

2019 Kennett-Unionville Titans Football and Cheerleading Registration is OPEN!

Programs are available for ages 4-13 including Flag Football programs for 4-7 year olds, a Rookie Tackle program for beginning 7 year olds, and Cheer squads for all experience levels.

Titans in all programs are taught skills and techniques in an environment that challenges them to be their personal best while emphasizing teamwork and sportsmanship.

REGISTER NOW and take advantage of our early bird discount of \$15 per child between May 1st-31st: <http://kutitans.leag1.com/>

Practice begins the first week of August 1, 2019

The Kennett-Unionville Titans serve the youth of Kennett Consolidated and Unionville-Chadds Ford School Districts.

Summer Science camps!

Camps in Pennsylvania, Delaware, Maryland and New Jersey

Camp Times & Prices

Camp locations who take their own registrations set their own prices, and may be different from those listed below. Locations who take their own registrations have a "CALL" listed next to their name on the inside of this flier.

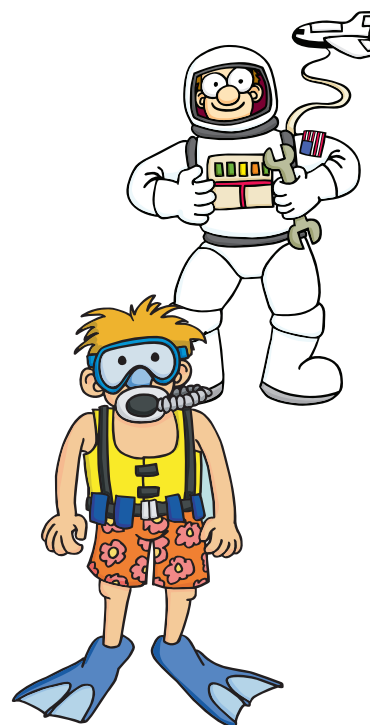

Full Day Camp	9AM - 3:30PM	\$399.00/wk.
Half Day Camp	9AM - 12 noon	12:30 PM - 3:30 PM \$229.00/wk.

4-day camp

These reduced prices apply to all 4-day camp weeks noted on the schedule.

Full Day Camp	9AM - 3:30 PM	\$320.00
Half Day Camp	9AM - 12 noon	12:30 PM - 3:30 PM \$189.00/wk.

Register ONLINE at www.ScienceExplorers.com

Camps for Ages 7-11

New! Crazy Coding with Rad Robots (C)

Come and explore the world of robots! Each camper gets a robot to customize and control as they make a spin art machine, play a bumper car game or complete a fun challenge. Campers will learn about Tangible Programming, Inputs, Outputs and Algorithms while controlling robotic behavior using complex sensors. Campers will take home a cool mini robot with a line tracking sensor. This awesome hands on experience will leave your child saying "Domo arigato."

Slime of My Life (S)

We've taken our after-school club programs from 2018-19 and turned them into a fun-filled, week-long camp that features a new slime every day, in addition to exploring an array of amazing science! In the half day morning camp we will make chalkboard slime and all new color changing slime and magnetic slime! In addition, we'll build inventions like catapults, discover how electricity and circuits work by making conductive dough, and explore biology as we extract DNA from a banana and dissect an owl pellet. Stay for the full day and we'll examine anatomy as we make a model lung and observe a real sheep heart, continue our exploration of circuits as we send messages via Morse code and build a metal detector to test objects to see if they are conductors or insulators, and explore wonders of the earth as we erupt a volcano and experiment with pollination.

Far Out Space Academy (F)

3...2...1 BLAST OFF to discovering space and flight! Half day campers will explore the stars and constellations as you take an out-of-this-world sky tour in our homemade planetarium, prepare for lift-off as you build and launch your own rocket while learning about Newton's Laws of Motion, and complete a mission to Mars as you design and build your own model space station. Full day campers will continue to use their astronaut wits as we build air powered nano-rovers, make craters and dry ice comets, and work in engineering teams to construct space capsules that will be used to launch "eggstronauts"! Come join us on our mission through outer space!

Potions, Powders & Polymers (P)

Is it science or magic? You'll find out! In our half day camp you'll create erupting foam monsters, conduct amazing air pressure experiments, dig for hidden treasures, investigate the science of illusions and build spectrometers to view the spectrum of different types of light. Stay for the full day and we'll reveal many mysteries of science as we investigate creepy creatures, learn troll tricks, capture a rainbow in a bottle, make instant snow, mix up glowing slime and conduct lab tests on mystery substances.

Take a Dive (T)

Dive into the world of marine biology and oceanography! In our half day camp you'll dissect a real shark, participate in a fisherman's challenge, examine the anatomy of a fish and learn the ancient technique of gyotaku or "fish rubbing", learn to survive at sea with a homemade solar still, create a kelp forest and make your own submarine. Stay for the full day camp and come face-to-face with some unique sea creatures! You'll complete a squid dissection, bring to life genuine Triassic Triops, conduct a whale adaptations lab, and examine many weird wonders that live under the sea!

Camps for Ages 4-6

Jr. Investigative Team (I)

"Hey there, future Science Explorers, do we have the camp for you!" Join our team of curious tiny-techs as we explore a new theme each day. We will create an edible ocean, experiment with a "magic" magnet bottle, investigate butterflies, discover how birds adapt to their environments and make colorful sidewalk chalk! Children are never too young to be scientists! Half day only.
