

#### **DATA SHEET**

# **FortiMail™ Cloud for Email Security**

# Simple-to-Use Cloud-Based Email Protection

With best-in-class performance validated by independent testing firms, FortiMail delivers advanced multi-layered protection against the full spectrum of emailborne threats. Powered by FortiGuard Labs threat intelligence and integrated into the Fortinet Security Fabric, FortiMail helps your organization prevent, detect, and respond to email-based threats including spam, phishing, malware, zero-day threats, impersonation, and Business Email Compromise (BEC) attacks.

#### **Protection Against Email-borne Threats**

Powerful anti-spam and anti-malware are complemented by advanced techniques like outbreak protection, content disarm and reconstruction, sandbox analysis, impersonation detection, and other technologies to stop unwanted bulk email, phishing, ransomware, business email compromise, and targeted attacks.

#### **Validated Performance**

Fortinet is one of the only email security vendors to consistently prove the efficacy of FortiMail through independent testing. For instance, FortiMail earned a AAA rating from SE Labs and a 99.78% Spam Capture Rate from Virus Bulletin.

#### **Fabric-enabled Email Security**

Integrations with Fortinet products as well as third-party components help you adopt a proactive approach to security by sharing IoCs across a seamless Security Fabric. It also enables advanced and complementary email security protection for Microsoft 365 environments through API-level integration.

#### **Powered by FortiGuard Labs**

Fortinet FortiMail is powered by threat intelligence from FortiGuard Labs. With visibility across 500,000 customer environments worldwide, FortiGuard Labs is one of the preeminent threat research teams in existence.

# Manage it for us.

Email security solutions for organizations that want simple, easy-to-use email security as-a-service.

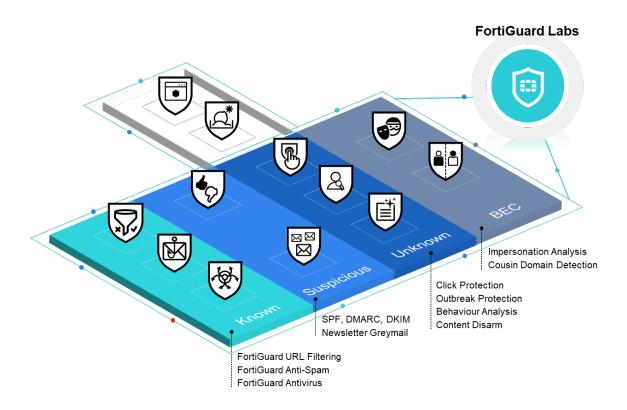

# **Check the box against:**

- ✓ Spam
- ✓ Phishing
- Spear-phishing and whale phishing
- ✓ Malicious Attachments and URLs
- ✓ Ransomware
- ✓ Zero-day Threats
- ✓ Impersonation
- ✓ Business Email Compromise (BEC)

# **Proactive Email Security**

FortiMail addresses the full spectrum of risks that email poses to organizations, fortified by FortiGuard Labs' global visibility and intelligence on the latest threats.

# **Multi-Layered Anti-Spam**

Multiple sender, protocol and content inspection techniques shield users from spam and junk mail. Using a combination of reputation analysis, connection filtering, authentication and recipient verification methods allows for fast and accurate email protection. Checks include IP, domain, sender, SPF, DKIM, DMARC and geographical restrictions.

Finally, message structure and content are analyzed based on the digital signature, keywords in context, image analysis, embedded URIs, and more advanced techniques such as behavior analysis and spam outbreak protection. Working together, these techniques consistently identify and block a verified 99.7% of spam in real-world conditions.

#### **Powerful Anti-Malware**

Combining multiple static with dynamic technologies that include signature, heuristic, and behavioral techniques along with virus outbreak prevention, FortiMail protects against a wide range of constantly evolving threats.

#### **Advanced Threat Protection**

For an even stronger defense against the very latest threat classes like business email compromise and targeted attacks, FortiMail offers optional content disarm and reconstruction, sandbox analysis, sophisticated spoof detection, and more.

# **Integrated Data Loss Prevention**

A robust set of capabilities for data loss prevention and email encryption safely deliver sensitive emails and protect against the inadvertent loss of data. These features facilitate compliance with corporate policies and industry regulations.

# **Integration with the Fortinet Security Fabric**

The future of email security is platform- or fabric-enabled to counter the growing sophistication of threats and multi-vector campaigns. As part of the Fortinet Security Fabric, Indicators of Compromise and other telemetry can be shared for enhanced security across your entire security infrastructure.

IT and security teams are able to more completely connect the dots to identify multi-vector campaigns by sophisticated actors. And intensive and repetitive workflows including response can be automated to reduce the burden on security operations teams.

# **Industry Recognized, Top-Rated Performance**

FortiMail delivers superior performance as measured by independent third-party testers.

99.9%

Detection of malicious emails across malware types and across malware families 94%
Overall Detection Rate

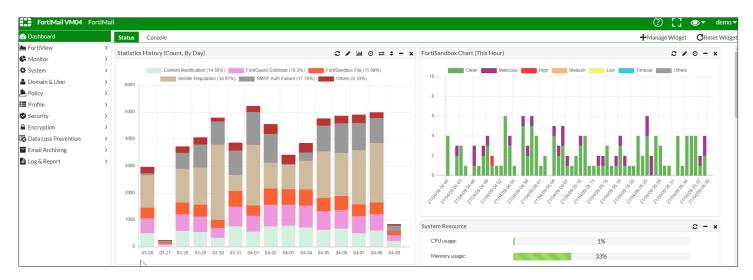

99.61% Spam Catch Rate

100%+
Wildlist Detection Rate

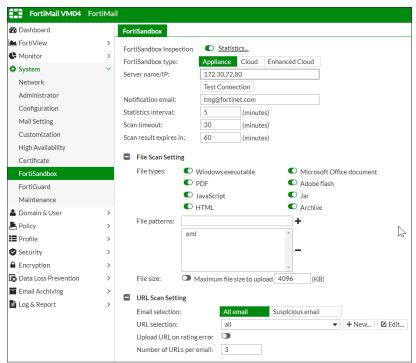

# **Intuitive Email Management**

Real-time dashboards, rich reporting, centralized quarantines, and end user controls along with full MTA and mail-handling capabilities provide organizations full visibility and easy control over email traffic.

# **Easy-To-Use Configuration**

Easy-to-use configuration controls make setting up and managing email security – even advanced security capabilities – easy for organizations of all sizes and use cases.

Hands on or hands off?

Which FortiMail solution is best for you?

#### We want full control.

Virtual Machines and appliances for teams who want total control over their infrastructure and email security.

Read the FortiMail data sheet >

#### Manage it for us.

Email security as a service for teams who just want to focus on monitoring and responding to email threats. Fortinet handles the infrastructure.

# **Easy-To-Use Configuration**

FortiMail Cloud delivers email security without the burden of managing your own infrastructure. FortiMail Cloud is hosted by Fortinet and provides robust email security performance for your cloud and on-premise use cases.

#### **Advanced Protection**

FortiMail Cloud provides advanced capabilities to combat targeted threats including impersonation and Business Email Compromise attacks.

#### **Reduced TCO**

FortiMail Cloud delivers the costsavings associated with a cloudbased pricing model, offered as a simple annual, per usage charge.

#### **Top-Rated Protection**

FortiMail Cloud is consistently tested by third parties including ICSA Labs, SE Labs, Virus Bulletin, and earns top marks for efficacy.

#### **Deployment Models**

FortiMail Cloud for organizations that want simple, easy-to-use email security as-a-service for both on-premise and cloud-based email services.

#### **FortiMail Cloud Operation Modes**

#### **Gateway Mode**

Provides inbound and outbound proxy mail transfer agent (MTA) services for existing email gateways. A simple DNS MX record change redirects email to FortiMail for analysis. FortiMail then relays safe email to its destination email server for delivery.

#### **Microsoft 365 API Integration**

FortiMail can be deployed out of line to simplify deployment, so no MX record change is required, and leverage the native Microsoft 365 API to deliver threat detection and post-delivery message clawback. Broad flexibility is possible with clawback to create policies that address compliance or unique business requirements, such as building search parameters based on keywords, file name, or content type. These capabilities can serve as powerful complements to native Microsoft security features to bolster overall efficacy and reduce risk.

#### **Server Mode**

The FortiMail device acts as a standalone messaging server with full SMTP email server functionality, including flexible support for secure POP3, IMAP, and WebMail access.

# **Additional Add-on Capabilities**

#### **Email Continuity**

Email Continuity for FortiMail Cloud is designed to protect valuable productivity by providing emergency mailbox services when organizations experience an outage in their email services.

#### Read the Email Continuity for FortiMail Cloud data sheet >

#### **Fortilsolator**

Fortilsolator allows users to browse the web in an isolated environment, which renders safe content in a remote container.

#### **Dynamic Image Analysis Service**

Protects your organization and employees against inappropriate and sexually explicit images.

#### **ORDER INFORMATION**

**FortiMail Cloud — Gateway.** Cloud Gateway Email filtering supporting inbound and outbound scanning with AS and AV. Support for up to 10 protected domains\*. SKUs are chargeable on a per mailbox annual basis with the SKU selected based on the relevant range.

Product	SKU	Description
FortiMail Cloud — Gateway	FC1-10-FECLD-414-02-DD	FortiMail Cloud — Gateway (25 to 100 Mailboxes)
	FC2-10-FECLD-414-02-DD	FortiMail Cloud — Gateway (101 to 1000 Mailboxes)
	FC3-10-FECLD-414-02-DD	FortiMail Cloud — Gateway (1001 to 5000 Mailboxes)
	FC4-10-FECLD-414-02-DD	FortiMail Cloud — Gateway (5001 to 10000 Mailboxes)
	FC5-10-FECLD-414-02-DD	FortiMail Cloud — Gateway (10000+ Mailboxes)

**FortiMail Cloud — Gateway Premium.** Cloud Gateway Email filtering supporting inbound and outbound scanning with AS, AV, DLP, IBE CDR, URL click protection and Cloud sandboxing. Support for up to 10 protected domains\*. SKUs are chargeable on a per mailbox annual basis with the SKU selected based on the relevant range.

Product	SKU	Description
FortiMail Cloud — Gateway Premium	FC1-10-FECLD-415-02-DD	FortiMail Cloud — Gateway Premium (25 to 100 Mailboxes)
	FC2-10-FECLD-415-02-DD	FortiMail Cloud — Gateway Premium (101 to 1000 Mailboxes)
	FC3-10-FECLD-415-02-DD	FortiMail Cloud — Gateway Premium (1001 to 5000 Mailboxes)
	FC4-10-FECLD-415-02-DD	FortiMail Cloud — Gateway Premium (5001 to 10000 Mailboxes)
	FC5-10-FECLD-415-02-DD	FortiMail Cloud — Gateway Premium (10000+ Mailboxes)

**FortiMail Cloud — Gateway Premium with Office365 API Support.** Cloud Gateway Email filtering supporting all the premium features plus scanning and post-delivery clawback of threats for Office 365 email deployments. Support for up to 10 protected domains\*. SKUs are chargeable on a per mailbox annual basis with the SKU selected based on the relevant range.

Product	SKU	Description
FortiMail Cloud — Gateway Premium with	FC1-10-FECLD-423-02-DD	FortiMail Cloud - Gateway Premium w. Office 365 API support (25 to 100 Mailboxes)
