About Us

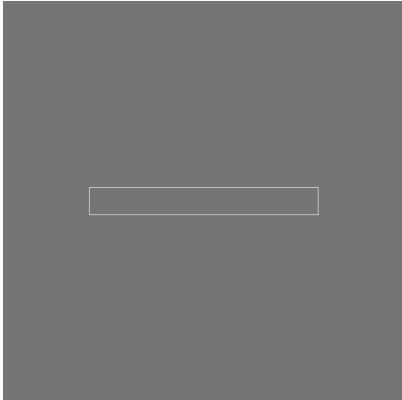

Established in the year 1996, at Ludhiana, Punjab (India), we, “ **Formative Engineering Private Limited,**” are the foremost manufacturer and exporter of a wide assortment of **Railheads, Forged Center Pieces, Collars, Railings, Gates, Baskets, Fer Forge, Portails, Sheet Metal Components, Rosettes & Flower Panel, Balusters & Panels** and **Ready Made Gates**. Designed and developed utilizing optimum quality raw material as per the set industry norms, our offered products are perfect blend of creativity and technology. Applicable for exterior decoration purposes in homes and other buildings, these products are available in various designs, sizes, shapes, colors and specifications in accordance the drawing provided by the clients. Our state-of-the-art infrastructure is installed with all the facilities which are required to fulfill bulk requirements of the clients within the stipulated time frame. Our R & D department explores the market, analyzes the ever-changing needs of the industry and helps in manufacturing products accordingly. With the assistance of our experienced quality inspectors, we test the entire range on various parameters to assure flawlessness in the end products. Additionally, these products are available in optimum quality packaging material to keep these safe from damages during transportation. By following the strategies and working methods of our mentor, **Mr. Harivrat Parashar (Director)**, we have...
