## Who We Are

The UNA In-Service Center is one of 11 Regional In-Service Centers across Alabama. These centers were created by the legislature with the mission to provide professional learning opportunities, training, and support to the state’s public educators. The 11 centers form the Alabama Regional In-Service Center network, or ARIC.

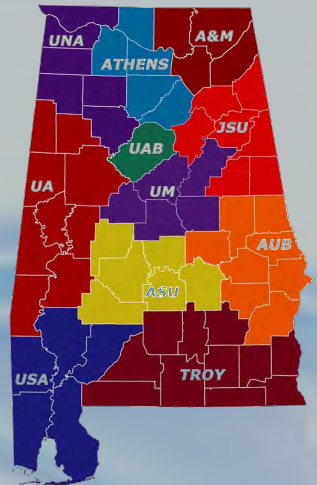

## What We Offer

The UNA In-Service Center provides professional learning opportunities throughout the year that are focused on identified needs within the region. In addition to these, the center works collaboratively within the ARIC network to offer state-wide opportunities. Also, we have the following state-wide support programs for educators: Alabama Math, Science, and Technology Initiative (AMSTI), Alabama Science in Motion (ASIM), and Alabama Technology in Motion (ATIM). These programs offer support and training to the region’s educators to enhance student learning in the areas of math, science, and technology.

Most professional learning sessions, support, and opportunities provided through the Center are free! Participant educators who attend a professional learning session through the UNA In-Service Center earn clock hours that apply toward teaching certificate renewal.

## For More Information

We look forward to providing you with many professional learning opportunities throughout the year! For more information about us and what we offer, please visit our website at [www.una.edu/in-service](http://www.una.edu/in-service) and like us on Facebook and Twitter.

## REGISTRATION INFORMATION

### All active Alabama Certified Teachers, Administrators or anyone with STIPD/Chalkable Accounts

Please note that registration for those attending workshops is to be done in Chalkable. Each workshop is assigned a PD Title Number. Please follow the directions below to register. **\*\*When registering please make sure your Chalkable Account has an email address that you can be reached at during the summer. You must check your email over the summer!** All confirmations and/or workshop changes are sent through your Chalkable email. **If you have retired or are not currently employed, please make sure your Chalkable email is your current personal email.**

### Instructions for Registration in Chalkable (formerly STIPD)

Log on to the ALSDE Chalkable Professional Learning

<https://pdweb.alsde.edu>

1. Log in using the username and password you were issued. If you don't know your username and password, contact someone at your LEA's Central Office.
2. Click on **PD Title**.
3. Click on **Search the PD Title Catalog**.
4. Enter the **PD Title Number** of the session you wish to attend in the prompt box for **PD Title Number** on the right hand side.
5. After locating the workshop description, click on **List** to view available sessions.
6. Click **Enroll Now** on the listing that matches your desired date and time.
7. You are now enrolled in the workshop. If you decide to not attend, please contact your Regional In-Service Center to remove you from the list.

### All Other Educators (**without** Chalkable Account)

If you are an educator that is not currently employed, retired, private school, parochial school, home school, out of our region, out of state, etc...— that does not have a **Chalkable Account**, please fill out the Registration Form on the back of this brochure and email, mail or fax back to the Education Research and In-Service Center. When registering please give an **email** address which you can be reached during the summer. In the event a workshop has to be cancelled, the **email** address you list is the address that will be contacted.

Please Note: All workshops will be listed in this brochure with PD Title Numbers. If you are **NOT** registering through Chalkable, you will only use the numerical part of that number that coincides with number on the registration form on the back of this brochure.

EXAMPLE: PD# unaeric01, if you are using the form on the back of this brochure, use only 01 or the number that coincides with the workshop you choose.

**\*\*In the event a workshop is cancelled, the email you list to enroll is the email through which you will be notified of a cancellation.**

# STRUCTURED LITERACY TRAINING FOR ELEMENTARY EDUCATORS

**July 24 - 25, 2019** (2 day training)

**9:00 am - 2:30 pm**

**Facilitated by: Wendy Burns**

The **Structured Literacy Training for Elementary Educators** session is OPEN to all educators. This summer professional learning is designed for **veteran and first-year elementary, intervention, special education, and EL teachers, reading specialists, and elementary administrators** who want a deeper understanding of foundational reading instruction. The training will focus heavily on the systematic, direct, and explicit ways to teach reading utilizing multisensory methods of instruction.

Elementary educators and administrators working in grades kindergarten through fifth grade will have the opportunity to gain understanding of structured literacy by deepening reading content knowledge and gaining confidence in implementing multisensory literacy instruction. Participants will interact with structured literacy resources and materials as they explore the components and principles of structured literacy and sharpen their skills as critical consumers of literacy resources. This two-day session will grow educators in these areas of structured literacy: The Big 5 of Reading; Rules of Language Structure; Reading and Writing Fluency; Syllable Types and Division; Prefixes, Suffixes, and Roots; and Vocabulary and Comprehension.

# Differentiation Matters

Teaching Gifted Students in a Regular Classroom (K-5)

**UNA In-Service Center — East Campus**

8:30 am—11:30 am

Thursday, July 11, 2019

**PD Title No. UNAERIC19-98**

or

Monday, July 22, 2019

**PD Title No. UNAERIC19-99**

Using differentiation strategies in the regular classroom to meet the needs of bright gifted learners is challenging at best. In this workshop teachers will learn about specific differentiation strategies that the state gifted coordinators recommend teachers to incorporate in their instruction. Some of these strategies teachers have never heard of or have ever used. This workshop will provide explicit examples of compactors, contracts, tiered lessons and assessments and much more.

## Dr. Melissa Shields

*NBCT, Regional Support Coordinator, ALSDE*

### **Standards Based Grading (K-12) UNAERIC19-120**

Are you considering a more equitable approach to grading? Dr. Shields will share insights regarding the shift to standards-based lesson planning, grading, and/or reporting (why and how). *For more information on this workshop, please see page 31.*

Date                      Time                      Location  
June 4                      12:30 – 3:30              Jasper High School, Jasper

### **Mental Health and Trauma Issues (K-12) UNAERIC19-29**

We already know too well that many of our students have experienced trauma in their lives, deeply affecting their social and emotional learning, as well as their academic performance. Dr. Shields will share information, resources, and trauma-informed instructional tools to arm educators with a better knowledge to address these critical needs. *For more information on this workshop, please see page 20.*

Date                      Time                      Location  
June 14                      8:30 – 11:30              East Campus, UNA

### **My Students are Poets and They Know It (5-12) UNAERIC19-30**

Many students come to our ELA classrooms loathing poetry (both reading and writing it). Why is that, and most importantly, how can we change it? Dr. Shields will share robust, engaging activities, tools, and strategies to cultivate the art of reading and writing poetry, as well as meet the individualized needs and interests of our students, such as using pop culture and music. *For more information on this workshop, please see page 20.*

Date                      Time                      Location  
June 14                      12:30 – 3:30              East Campus, UNA

## Bullying, What's New and What to Do (K-12)

**Consultant:** *Robert G. Pastula, Captain, Lee County Port Authority Police Dept.*

When people think about bullying many imagine something like this: one child yelling at another to give up their lunch money, but the reality of bullying is very different and unfortunately much more severe. Did you know that over 70% of students report that bullying is a problem at their school? And that about one out of ten middle school kids drop out of or change schools due to bullying? In this course we'll talk about the root causes of bullying, the acts that cause terror in our children every day, and how your school can implement and maintain an effective campaign to keep our children safe.

## Kids & Killing... Changing the Mindsets (K-12)

**Consultant:** *Robert G. Pastula, Captain, Lee County Port Authority Police Dept.*

In the horrific aftermath of school shootings, distraught communities struggle to make sense of these senseless acts. Despite massive media coverage, we know little about what drives young perpetrators or how they rationalize their acts. In this course we will talk about the causes of school shootings and offer unprecedented insight into why certain teens exhibit the potential to kill. We will identify early signs of possible violence and offer preventative measures that parents and educators can take to protect their home, communities and schools.

## Tech Tools to Reach and Teach Digital Natives (K-5)

**Consultants:** *Stephanie Bolton, Shelly Hellums, and Mandy Wicks, Kilby Laboratory School*

There are many tech tools available to help enhance lessons and captivate our students, who truly are digital natives! In this hands-on session, you will have an opportunity to explore three of these relevant and high-impact tools: green screen, coding/robotics, and virtual reality. Three "stations" will be set up for you to visit. At each station, a facilitator will teach basics for the tech tool and provide opportunities for you to practice and gain skills with the provided tools. Classroom integration ideas will be embedded throughout the session so you will leave knowing how to maximize the impact of these tech tools and boost student learning and engagement. You can expect to leave this session with basic knowledge and skills in ALL three tech tools...no prior experience or equipment is needed!

## Mental Health and Trauma Issues (K-12)

**Consultant:** *Dr. Melissa Shields, NBCT, Regional Support Coordinator, ALSDE*

We already know too well that many of our students have experienced trauma in their lives, deeply affecting their social and emotional learning, as well as their academic performance. Dr. Shields will share information, resources, and trauma-informed instructional tools to arm educators with a better knowledge to address these critical needs. She will also review ACE (Adverse Childhood Experiences) research and how ACEs impact resiliency, stress, and academic learning. Participants will learn what an ACE score might reveal about responses, stresses, and potential health risks. This session will provide learning that can be transferable to school, as well as personal lives.

## My Students are Poets and They Know It (5-12)

**Consultant:** *Dr. Melissa Shields, NBCT, Regional Support Coordinator, ALSDE*

Many students come to our ELA classrooms loathing poetry (both reading and writing it). Why is that, and most importantly, how can we change it? Dr. Shields will share robust, engaging activities, tools, and strategies to cultivate the art of reading and writing poetry, as well as meet the individualized needs and interests of our students, such as using pop culture and music. Participants will receive hands-on training (writing several poems themselves!), as well as ready-to-use classroom presentations and lessons to begin implementation in their own language arts classrooms. Many student samples will be provided as well.

## Why Am I Here? (PreK-12 Educators/Administrators)

**Consultant:** *Scott Paul, PhD, Educational Media*

Good teachers have skills, strong values, and imagination. As with all institutional professionals, educators may sometimes lose track of the essential things that originally brought them into the school community. This workshop is devoted to remembering some of the reasons we became teachers, giving voice to challenges we face, and reflecting on creative ways to make our classrooms and school communities better. Participants will brainstorm and share their ideas related to meaningful questions, such as: How to address social issues in authentic ways? How to recognize talent and nurture it in individual students? How to model love in the face of fear?

## Dear Teacher... (K-12/Administrators)

**Consultant:** *Scott Paul, PhD, Educational Media*

Everyone has had a teacher who impacted them deeply, including teachers themselves. This workshop is designed as a time to remember and reflect on the influence our teachers have had on us, as people and as educators. The class will hear sample letters written by other teachers and then be invited to write 2 letters themselves. The first letter will be to a teacher who was inspiring and nurturing, the second letter will be to a teacher who had a negative impact in some way. Participants will have the opportunity (if desired) to share their letters with the group and topics that arise will be discussed.

## Super Models in Math (3-5)

**Consultants:** *Laurel Partrick and Kimberly Williams, AMSTI-UNA Specialists*

Supermodels in Your Math Class? Why are we as teachers often reluctant to use models in our classrooms? Because they're scary, they're intimidating, they're not in our comfort zone, they take too much time away from the lesson. In this session, we will tie together manipulatives, number lines and area models to show how easily they can be used and incorporated into your math class. You'll see how they help make sense of the critical math standards for your grade level. Participants will get hands-on practice and the confidence to tackle models; they will experience modeling tasks and discuss instructional planning that connects content to the practices and standards that make such tasks successful. We will also share resources that you can begin using immediately in your classroom.

## Bullying, What's New and What to Do (K-12)

**Consultant:** Robert G. Pastula, Captain, Lee County Port Authority Police Dept.

When people think about bullying many imagine something like this: one child yelling at another to give up their lunch money. But the reality of bullying is very different and unfortunately much more severe. Did you know that over 70% of students report that bullying is a problem at their school? And that about one out of ten middle school kids drop out of or change schools due to bullying? In this course we'll talk about the root causes of bullying, the acts that cause terror in our children every day, and how your school can implement and maintain an effective campaign to keep our children safe.
