

# FORMICA® Washroom Collection

## A FRESH NEW RANGE

We present to you the new  
**FORMICA® Washroom Collection.**

A fresh and on-trend collection, offering a valuable, one-stop resource of quality Formica® products for architects, designers and manufacturers of commercial and public washrooms and related environments.

A more **extensive range** incorporates innovative decors and surface finishes so that your designs will be right on the pulse of current trends.

In addition to the assurance that Formica products will perform in these demanding environments, the new collection brings you three new and enriching textures in a refreshed and contemporary range, perfect for mixing and matching.

Plus, the new **Younique®** service offers you endless possibilities to customise your projects and make them completely one-of-a-kind.

Bring excitement to your projects with **FORMICA® Washroom Collection.**

YOUR  
CHOICE  
OF  
TWO  
PRODUCTS  
FOR  
THE  
BEST  
SOLUTION

### FORMICA® Washroom Collection

is available in **Formica®** postforming grade laminate and **Formica® Compact**. Two perfectly compatible products sharing the same range of designs so you can choose the best solution in every situation to create stylish, practical and functional environments.

## Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

Ideally suited to particularly demanding environments subject to high levels of humidity, impact, and wear and tear; cubicles, locker systems and wall linings.

## Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

An ideal solution for the demands of the modern washroom environment. Formica® postforming grade laminate meets the need for stylish, curved elements; vanity units with integral upstands; cubicle systems and wall panelling with gentle, curved edges.

Formica® products provide unbeatable solutions for washroom applications such as cubicles, lockers, vanity units and wall panelling.

- Highly resistant, durable and dependable.
- Easy to maintain.
- Hygienic and easy to clean.
- High resistance to moisture.
- FSC® certified across complete range.
- **Formica Compact** features a black core with a decorative surface on two sides.
- **Formica Compact** is CE certified to meet or exceed conformity with European consumer safety, health and environmental requirements.

## INTRODUCING YOUNIQUE® SOLUTIONS

**Younique®** by Formica Group brings you a one-of-a-kind service, enabling you to fully integrate patterns, logos, photographs, or any type of image into your project design, creation and installation.

Set your imagination free.

**Younique** offers you endless solutions to create customised and personalised environments.

# Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

# A WIDE RANGE OF POSSIBILITIES

The new FORMICA®  
**Washroom Collection** designs  
can be easily mixed and matched  
to bring a contemporary and  
innovative air to environments.

A total of 52 designs, 25 of them new,  
offer you a wide and colourful range of  
possibilities to choose from.

In addition, the new collection introduces three new  
finishes: **Plex™** (red dot design award), **Puregrain™**  
and **Linewood™**, bringing surfaces to life with the touch  
of crisp textiles and brushed, natural timber.

## Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker systems, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a weight of 14,5 kg/m<sup>2</sup> (for 10mm thickness), Compact (grade CGS) is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica® Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

## Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colors, Patterns and Woods ranges are high pressure laminates which are available in horizontal, general purpose, postforming grade (HGP) as standard.

## Younique®

DESIGN A LAMINATE by FORMICA GROUP

**Younique®** by Formica Group is a High Pressure Laminate with a customised, printed image as its decorative face. The printed image in **Younique** laminates is incorporated in the laminate structure and not just printed on the surface; this affords a much greater resistance to damage and ease of maintenance. **Younique** laminates can be either single sided, thin High Pressure Laminate, or Compact in single sided or double sided format in varying thicknesses and textures.

All **Younique** projects are priced on volume and complexity. For further information on sizes, pricing quotes, lead-time, file transfer options, etc. go to [www.formica.com](http://www.formica.com) or contact your local Formica Group sales office or representative.

## Performance Features

The Performance Features icons are for general reference only. For more specific product information, including technical data and warranties please refer to [www.formica.com](http://www.formica.com) (Knowledge).

## Surface Finish Codes

Description	Designation	Code
Linewood™	LNW	LW
Matte 58™	MAT	58
