

2017

FORMULARY (LIST OF COVERED DRUGS)

Trillium Medicare Advantage

Oregon

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN.

00017353, Version Number 4

This formulary was updated on 08/23/2016. For more recent information or other questions, please contact Trillium Medicare Advantage Member Services, at 1-844-867-1156 or, for TTY users, 711. October 1 - February 14, seven days a week, 8 a.m. to 8 p.m.; February 15 - September 30, Monday - Friday, 8 a.m. to 8 p.m., or visit <http://trilliumadvantage.com>.

Y0020_CompForm17_FINAL_7_09042016

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Trillium Medicare Advantage. When it refers to “plan” or “our plan,” it means Trillium Advantage Dual (HMO SNP), Trillium Advantage TLC ISNP (HMO SNP), and Trillium Advantage TLC Community ISNP (HMO SNP).

This document includes a list of the drugs (formulary) for our plan which is current as of August 23, 2016. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

What is the Trillium Medicare Advantage Formulary?

A formulary is a list of covered drugs selected by Trillium Medicare Advantage in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Trillium Medicare Advantage will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Trillium Medicare Advantage network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2017 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2017 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of August 23, 2016. To get updated information about the drugs covered by Trillium Medicare Advantage please contact us. Our contact information appears on the front and back cover pages. If we make any other negative formulary changes to a drug we will notify effected members by mail. The formulary is updated monthly and posted on our website.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 119. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Trillium Medicare Advantage covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Trillium Medicare Advantage requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Trillium Medicare Advantage before you fill your prescriptions. If you don’t get approval, Trillium Medicare Advantage may not cover the drug.
- **Quantity Limits:** For certain drugs, Trillium Medicare Advantage limits the amount of the drug that Trillium Medicare Advantage will cover. For example, Trillium Medicare Advantage provides 30 tablets per prescription for Januvia. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Trillium Medicare Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Trillium Medicare Advantage may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Trillium Medicare Advantage will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Trillium Medicare Advantage to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I

request an exception to the Trillium Medicare Advantage formulary?” on page iii for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Trillium Medicare Advantage does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Trillium Medicare Advantage. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Trillium Medicare Advantage.
- You can ask Trillium Medicare Advantage to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Trillium Medicare Advantage Formulary?

You can ask Trillium Medicare Advantage to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.

- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Trillium Medicare Advantage limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Trillium Medicare Advantage will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or

request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 91 to 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Level of care changes

Throughout the plan year, you may have a change in your treatment setting (the place where you get and take your medicine) because of the level of care you require. Such transitions may include, but are not limited to:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled nursing facility to another and are served by a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where

payments include all pharmacy charges) and who now need to use their Part D plan benefit

- Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
- Members discharged from psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, Trillium Medicare Advantage will cover as much as a 31-day temporary supply of a Part D covered drug when you fill your prescription at a network pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and get approval for continued coverage of your drug. We will review these requests for continuation of therapy on a case-by-case basis when you are on a stabilized drug regimen that, if changed, is known to have risks. If you do not request an exception or prior authorization with us, you do not qualify for extra time for a level of care transition fill unless it is a life threatening emergency.

For more information

For more detailed information about your Trillium Medicare Advantage prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Trillium Medicare Advantage please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

Trillium Medicare Advantage Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by Trillium Medicare Advantage. If you have trouble finding your drug in the list, turn to the Index that begins on page 119.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., HUMALOG) and generic drugs are listed in lower-case italics (e.g. *Amoxicillin*).

The information in the Requirements/Limits column tells you if Trillium Medicare Advantage has any special requirements for coverage of your drug.

List of abbreviations

- **B/D:** This prescription drug has a Part B versus D prior authorization requirement. This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
- **LA:** Limited Access. This drug may only be available at one or a certain number of pharmacies. For more information call Member Services at 1-844-867-1156, From October 1 to February 14, you can call us 7 days a week from 8 a.m. to 8 p.m. From February 15 to September 30, you can call us Monday through Friday from 8 a.m. to 8 p.m. On weekends and holidays, an automated system will handle your call.. TTY users should call 711.
- **PA:** Prior Authorization (Prior Approval). The plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Trillium Medicare Advantage before you fill your prescriptions. If you don't get approval, Trillium Medicare Advantage may not cover the drug.
- **ST:** Step Therapy. In some cases, Trillium Medicare Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Trillium Medicare Advantage may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Trillium Medicare Advantage will then cover Drug B.
- **QL:** Quantity Limit. For certain drugs, Trillium Medicare Advantage limits the amount of the drug that Trillium Medicare Advantage will cover. For example, Trillium Medicare Advantage provides 30 tablets per prescription for Januvia. This may be in addition to a standard one month or three month supply.
- **MO:** Mail Order. This prescription drug is eligible for up to a 90-day supply through our mail order pharmacy as well as through certain retail network pharmacies. Consider using mail order for your long-term (maintenance) medications (such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).
- **NDS:** Non-Extended Day Supply. This prescription drug is not available for an extended days' supply.

Trillium Medicare Advantage covers both brand-name drugs and generic drugs. Generally, generic drugs cost less than brand-name drugs.

Trillium Medicare Advantage is contracted with Medicare for HMO SNP and PPO plans, and with the Oregon Medicaid program. Enrollment in Trillium Medicare Advantage depends on contract renewal.

Cost Sharing

This information is available for free in other languages. Please call our Member Services number at 1-844-867-1156 or, for TTY users, 711, from October 1 to February 14, you can call us 7 days a week from 8 a.m. to 8 p.m. From February 15 to September 30, you can call us Monday through Friday from 8 a.m. to 8 p.m.

| Drug Tier | Tier Description | Copayment and/or Co-Insurance [±] |
|-----------|-------------------|---|
| 1 | Generic and Brand | 25% - OR - \$0, \$1.20, \$3.30 copay or 15% of the total cost for generic drugs \$0, \$3.70, \$8.25 copay or 15% of the total cost for brand name drugs (depending upon your level of Extra Help)] |
