

FortiGate Entry Level Enterprise Firewall

FortiGate 30 to 90 Series

September 2017

FortiGate Enterprise Firewall

Enterprise Branch Going Through Evolution

FORTINET®

80%

of organizations reported critical severity exploits¹

Gartner®

70%

Of customers mentioned existing WAN is brittle, slow, expensive and not effective for cloud adoption²

FORTINET®

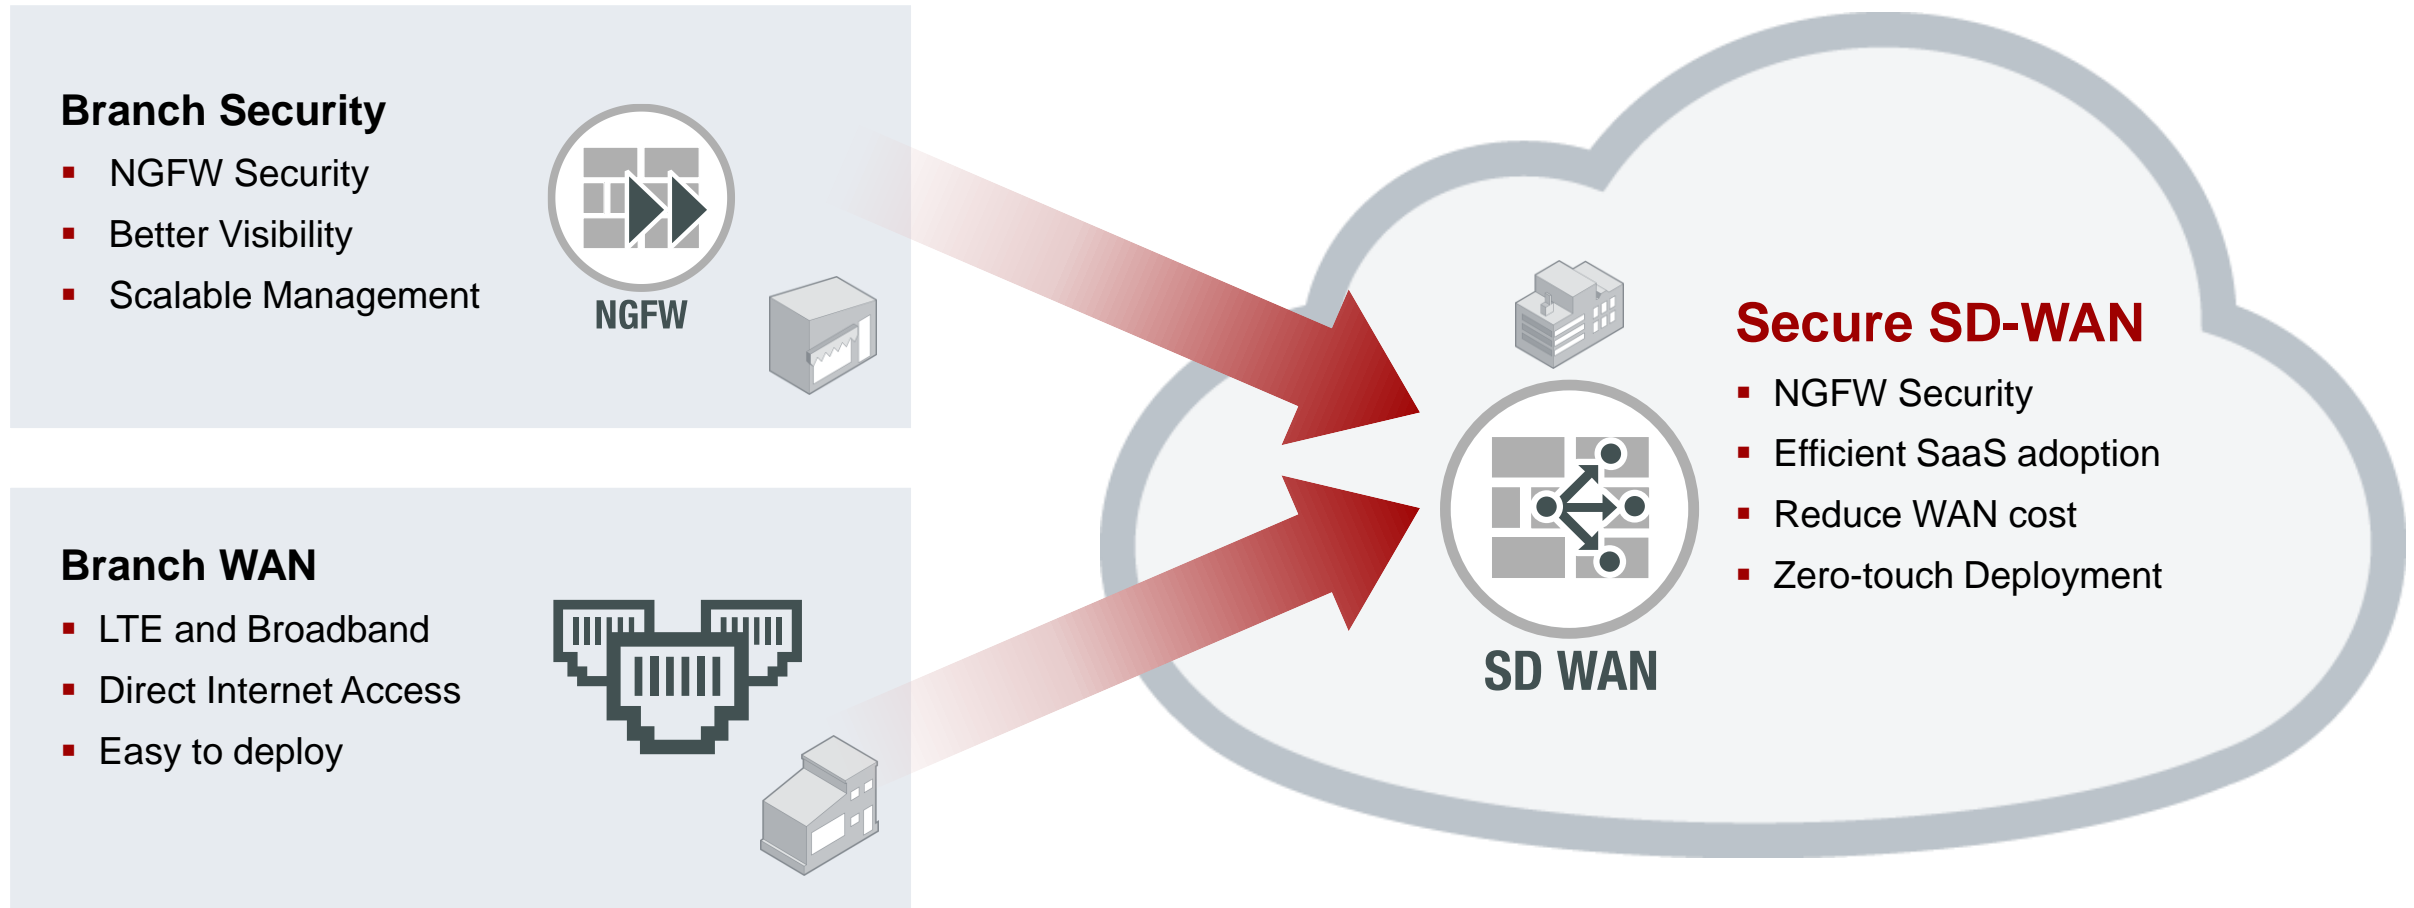

62

Average number of cloud applications shows rapid growth of SaaS and IaaS³

Increasing Need for Specialized Enterprise Branch Firewall

Secure SD-WAN with best Security and WAN Networking

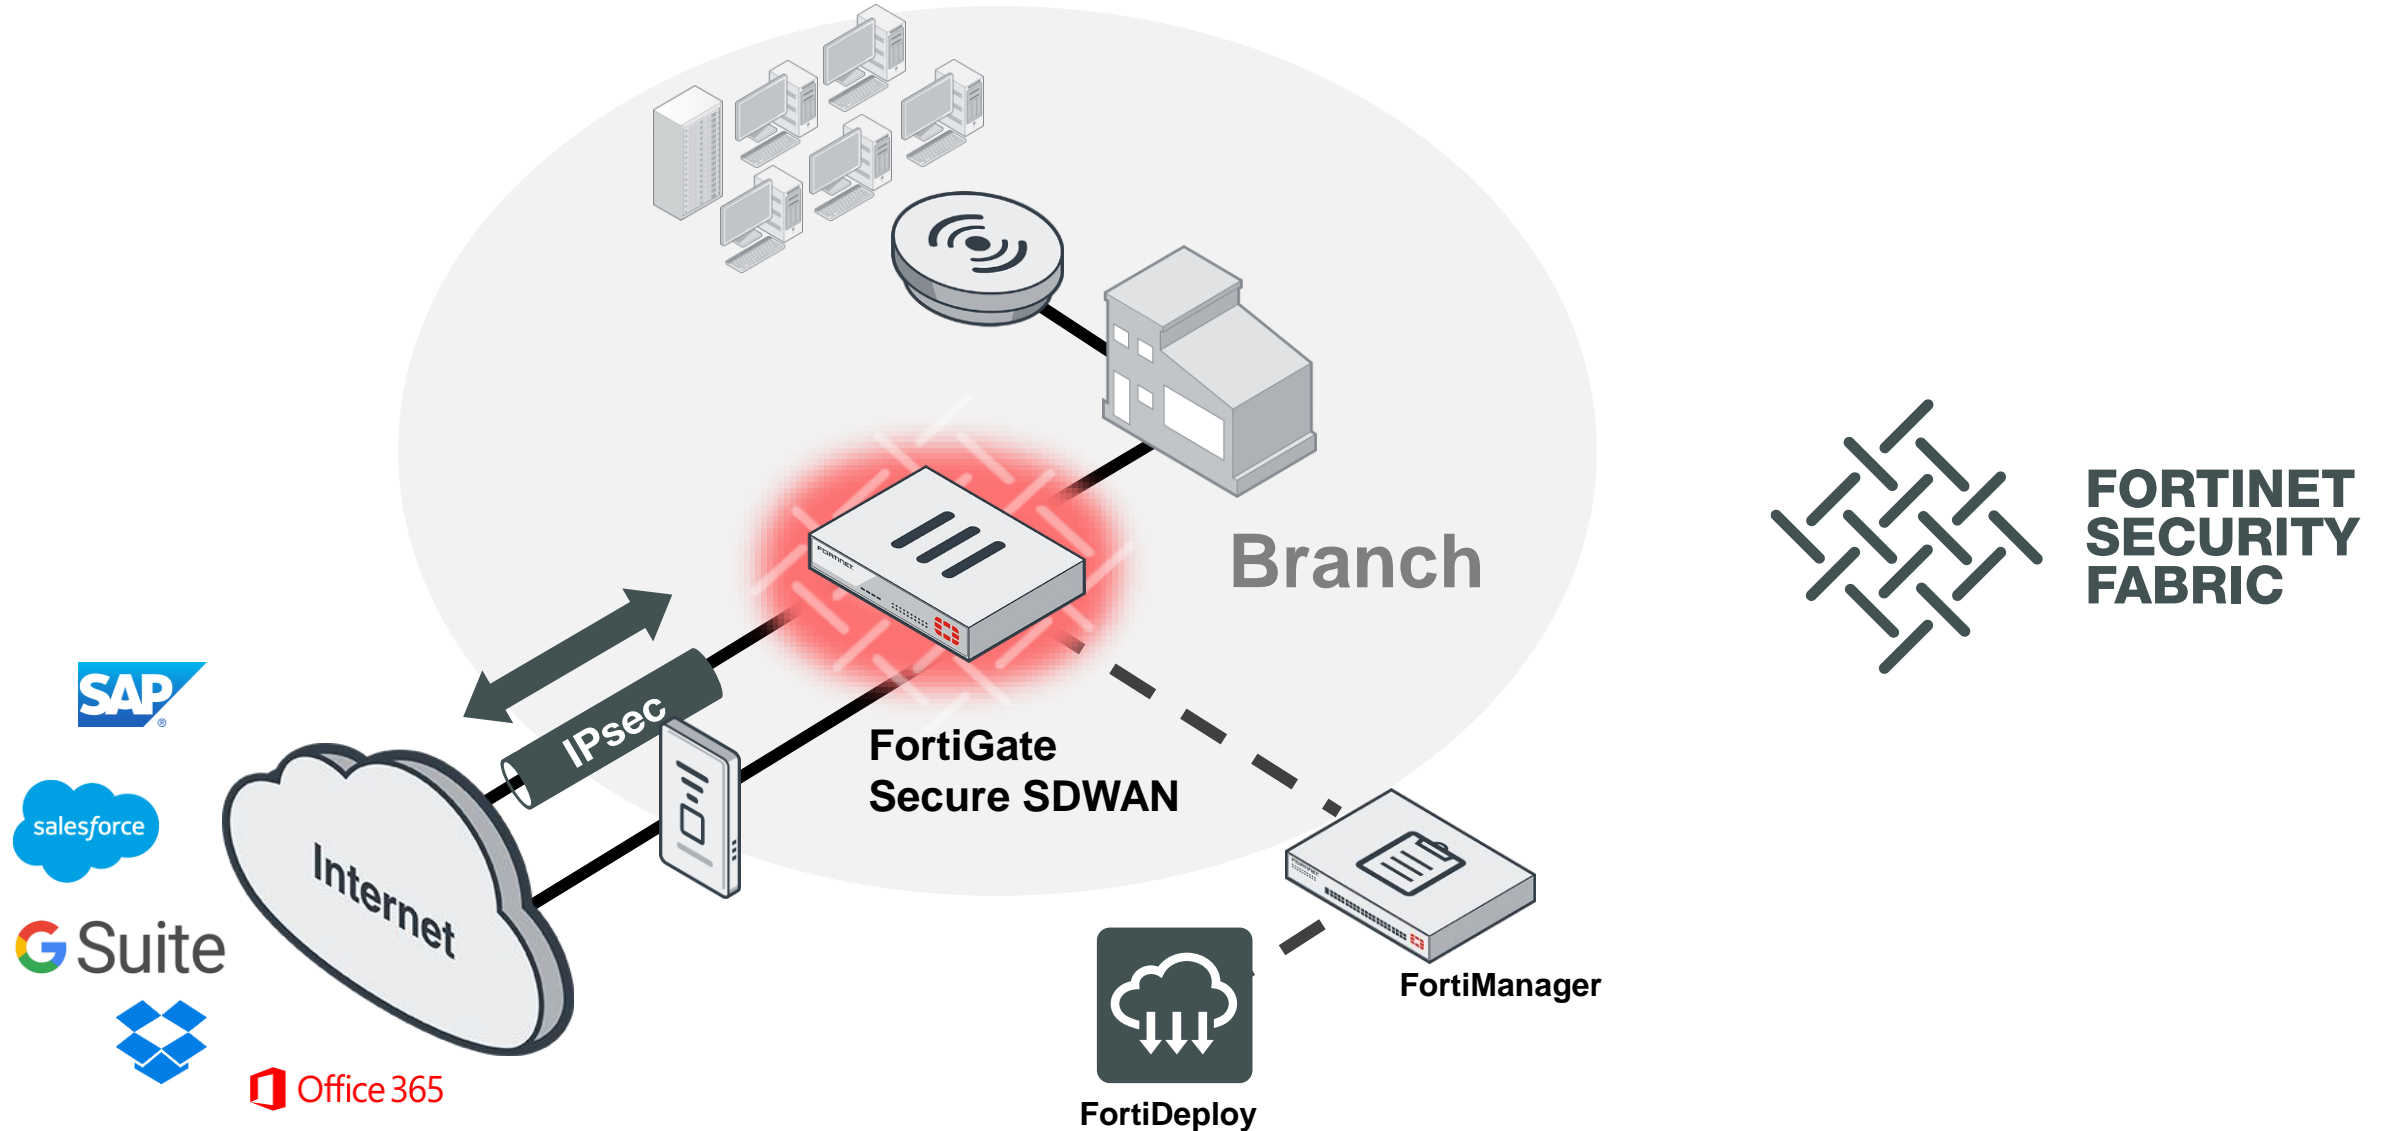

FortiGate Entry Level

Fortinet Key Differentiators

1. **SD-WAN ready:** FortiGate provides best of breed integrated SD-WAN networking and security capabilities in a single device and reduce TCO
2. **Performance and Security:** Security Processor (SOC3) delivers industry's best IPSEC VPN and threat protection performance important for SD-WAN use-case
3. **Scalable management and Zero Touch deployment** reduces complexity and provide single pane of glass across all branches

FortiGate Secure SDWAN Deployment at Branch

Secure SD-WAN Use-case

Fortinet Key Differentiator # 1

1. **SD-WAN ready:** FortiGate provides best of breed integrated SD-WAN networking and security capabilities in a single device and reduce TCO

- FortiGate is **market share leader** in enterprise branch security enhances SD-WAN capabilities in latest FOS 5.6
- WAN path controller allow customers to efficiently distribute applications per WAN link while **maintaining performance SLA**
- New SaaS application data-base enable **efficient direct internet access**

Secure SD-WAN Use-case

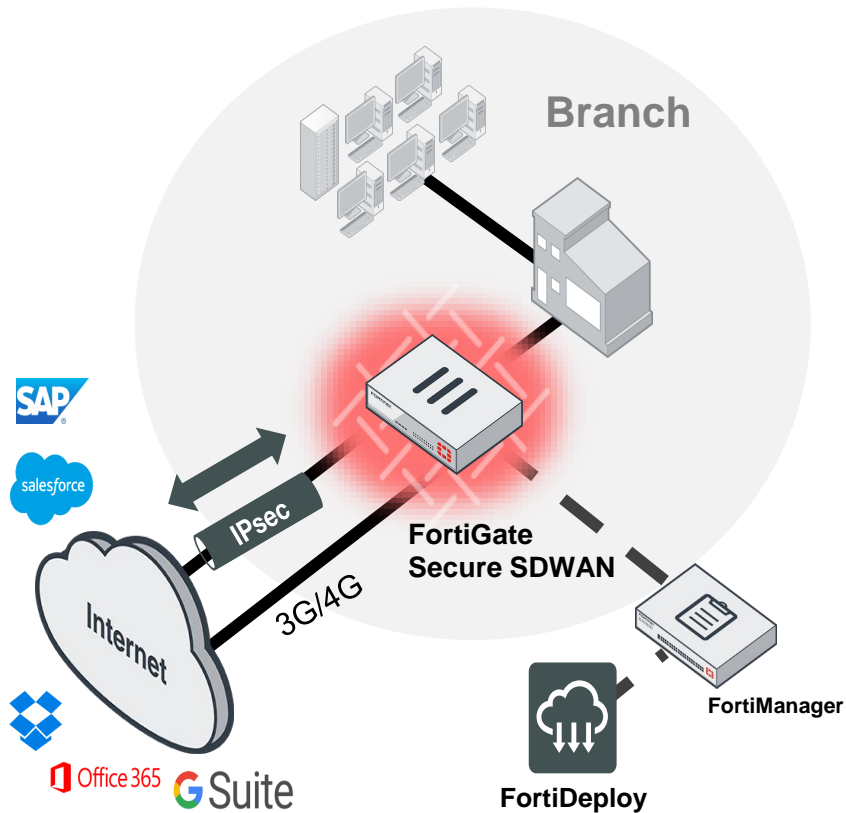

Fortinet Key Differentiator # 2

2. **Performance and Security:** Security Processor delivers industry's best IPSEC VPN and threat protection performance important for SD-WAN use-case

- FortiGate Entry level uses our latest **purpose built security processor** security processor for high reliability
- Security processor enables **higher IPSEC VPN performance** needed for SD-WAN links for secure direct internet access connectivity
- Only SD-WAN vendor which delivers **NSS Labs validated NGFW security** needed for branch security

Secure SD-WAN Use-case

Fortinet Key Differentiator # 3

3. Scalable management and Zero Touch deployment reduces complexity and provide single pane of glass across all branches

- FortiManager enables **unified policy and centralized VPN controller** across thousands of enterprise branches
- FortiDeploy enables zero touch deployment and further **helps reducing complexity**
- Fortinet is one of the only vendor which is capable of managing 10,000+ branches and **successful proven record** with large distributed enterprise customers world-wide

FortiGate Entry-Level (30 to 90 Series) Product Line

30 and 50 Series

- 75 to 200 Mbps IPSEC VPN
- 200 to 220 Mbps NGFW
- Up-to 7x1GbE Ports
- Wireless, 3G4G Variants

60 Series

- 2 Gbps IPSEC VPN
- 250 Mbps NGFW
- 10x1GbE Ports
- Wireless, POE, DSL Variants

80 and 90 Series

- 2.5 Gbps IPSEC VPN
- 360 Mbps NGFW
- 16x1GbE Ports
- Wireless and POE Variants

IDC Quarterly Security Tracker

#1 Unit and Revenue Market Share of Entry Level

FortiGate Entry Level (30 to 90 Series) Summary

Secure SD-WAN

- **Leading Security Performance (SPU)**
 - » Security Processor powered high perf VPN and NGFW
 - » Compact, Fan-less desktop form-factor with integrated WAN
 - » Industry's best VPN and SSL inspection performance
- **Built-in Advanced Security and SD-WAN (FortiOS)**
 - » NGFW Security with deep visibility
 - » Efficient WAN Path Controller for SaaS adoption
 - » Zero Touch deployment
- **Best Security Effectiveness (FortiGuard)**
 - » Validated NSS Labs Recommended NGFW Security
 - » Prevent Exploits, Malware and Malicious web-sites
 - » Detect unknown zero day attacks

The logo for FERTINET is displayed in a bold, white, sans-serif font. The letter 'F' is stylized with three horizontal bars. The letters 'E', 'R', 'T', 'I', 'N', and 'E' are solid. The final 'T' is also solid. A registered trademark symbol (®) is located to the right of the final 'T'. The background is a solid blue color with a complex, white, geometric pattern of overlapping lines and rectangles, creating a 3D architectural effect.
