

Fortinet Security Awareness and Training Service

K-12 School Districts and Systems

As part of the White House National Cyber Workforce and Education Summit 2022, Fortinet announced that a free education-focused version of its Security Awareness and Training service would be made available to all K-12 school districts and systems in the U.S.

The Security Awareness and Training service is developed by Fortinet's award-winning Training Institute.

With content incorporating threat intelligence insights from FortiGuard Labs, the service arms your faculty and staff with the latest knowledge, guidance, and tips to make smarter choices when confronted by cyberattacks and other risks to your organization.

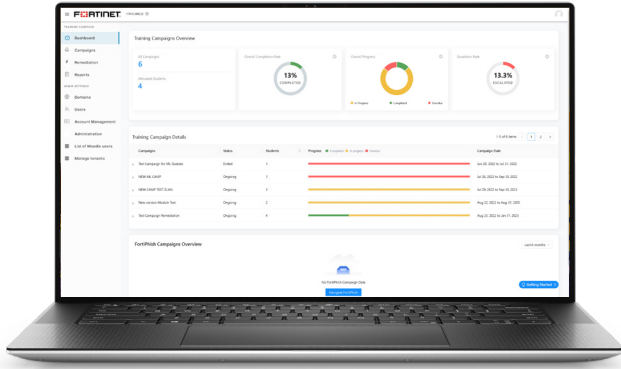

Highlights

- **Aligns to the National Institute of Standards and Technology** framework (NIST 800-50 and NIST 800-16): addresses Security Awareness, Data Privacy, Internet Security, Password Protection, and Physical Security
- **Includes quarterly training alerts** mapped from Fortinet Threat Signals reports to provide timely awareness of current and active threats
- **Appeals to various learning styles** by delivering engaging, interactive training through video, text, audio, imagery, and animations
- **Interactive quizzes and knowledge checks** throughout the training keep learners engaged and interested while allowing managers to assess knowledge levels
- **Up-to-the-minute activity tracking** gives admins the ability to monitor and run reports on training campaigns, user completion and performance, cross-organizational usage, and other results
