AAPC (**www.aapc.com**) is the nation's largest training and credentialing association for the business side of medicine with more than 124,000 members representing physician offices, outpatient facilities, and payer environments. AAPC certifications encompass the entire business side of provider care, with physician coding (CPC®), the hospital outpatient facility (CPC-H®), payer perspective coding (CPC-P®), interventional radiology cardiovascular coding (CIRCC™), medical auditing (CPMA™), medical compliance (CPCO™), and practice management (CPPM™). All certifications demonstrate a strong hands on, working knowledge to support cleaner claim submission, faster reimbursement, fewer denials, and better run practices. Specialty coding credentials are currently offered in 20 different fields of expertise. AAPC offers continuing education for all our credentials through local chapters, workshops, webinars, a monthly newsmagazine (*Cutting Edge*), other publications, and conferences
