# For a Limited Time: 30% Off Purchase of any “Ten Minutes a Day” Worksheets eBook

Lauren O'Brien  
Year 3 teacher

*“The children are really excited to see that their accuracy is becoming much better, and that their time is also dropping.”*

Stephen Jeffrey  
Primary teacher

*“I think this work flows on into the other work that we do in mathematics, because the children are able to think faster on their feet, so to speak, and they’re able to go through and work through their other content, and this allows them to practise both their speed and their accuracy, and to improve both.”*
