MBA Careers

Full-time MBA student profiles

Graduate class of 2021

Discover our full-time MBA

In a world of growing complexity, disruption and ambiguity, the traditional MBA is dead. Understanding the fundamentals of business is no longer enough. Future business leaders also need to be resilient, adaptable, progressive and influential to succeed on the global stage.

Over 18 months, studying in one of the world's iconic cities, students gain the knowledge and skills to build and lead enterprises. Like most MBAs, our program offers a deep understanding of finance, marketing and strategy. But students also learn how to harness big data, leverage the power of creativity, explore the nature of complex systems and lead teams in a digital world.

Our students 'learn by doing' with a small class of like-minded professionals, hand-picked from around the world to create a vibrant and diverse cohort. They are supported by a personalised careers service and have access to exceptional industry internships, exposing them to some of the largest global brands and enabling them to build an influential network.

Professor Guy Ford
MBA Program Director
The University of Sydney Business School

I am very delighted to introduce our second full-time MBA cohort graduating in 2021, which comprises of a diverse group of 42 students spanning 20 different countries.

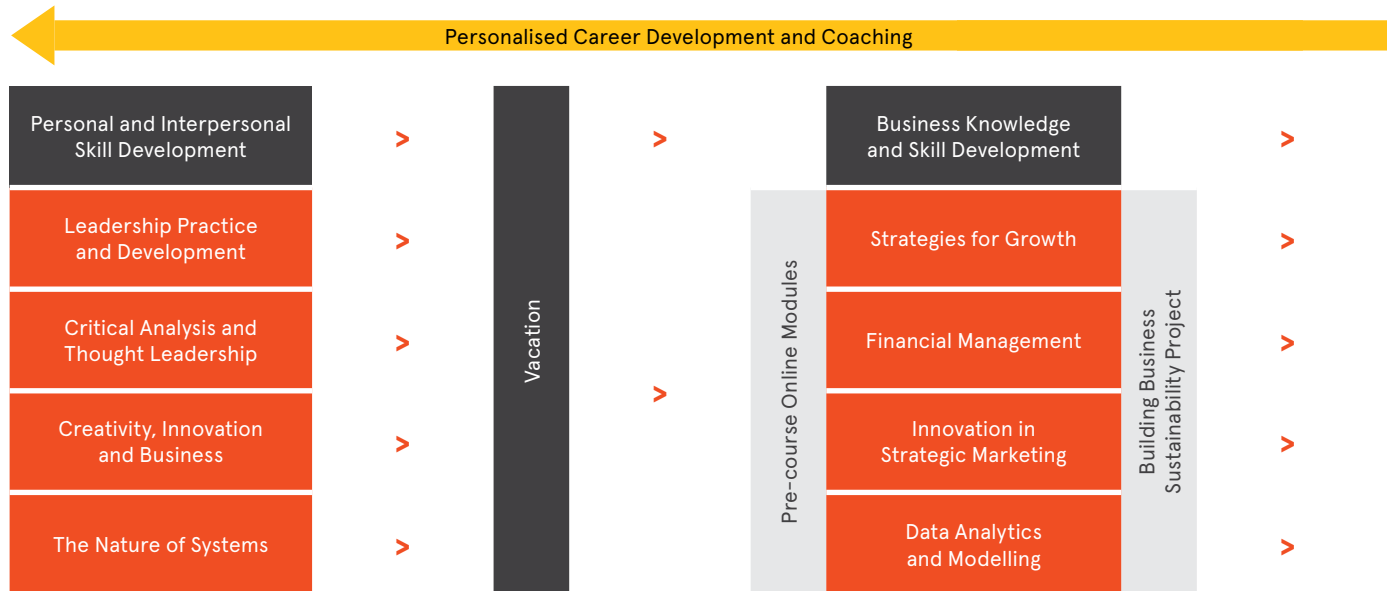

Throughout the 18-month MBA program, students develop their personal skills, business knowledge and the abilities to build and lead enterprises, while embarking on a career management journey tailored specifically to their individual goals. We provide students with personalised career coaching, career management tools and resources to help them achieve their leadership potential. Students also have the option to participate in an MBA internship or a cross-industry business sustainability project as part of their full-time program.

Our dedicated MBA careers team are keen to work with industry leaders and corporate partners to develop engagement strategies to support your recruitment needs and promote your employer brand to our talented MBA students. From industry and networking events to roundtable sessions, there are ample opportunities for you to partner with us and engage with our students.

We look forward to working with you and sharing in the successes of our MBA students as they graduate.

Betty Xiang
Careers and Corporate Relations Manager
The University of Sydney Business School

How the MBA works

MBA (Leadership and Enterprise)

Personal and Interpersonal Skill Development (units 1-4)

These units focus on developing the personal and interpersonal skills needed to manage and lead in business effectively. Students learn to build individual resilience in a world of growing complexity, disruption and ambiguity.

Business Knowledge and Skill Development (units 5-8)

After completing the first four units, students focus on core business knowledge and skills with an overarching theme of building business resilience and sustainability. Students have an opportunity to combine assessments from these four units to form a business project that will examine the sustainability of an existing business.

Building Future Enterprises (units 9-12)

These units bring together the knowledge and skills acquired in the previous units to equip students to build and lead enterprises. The final unit is the MBA Capstone (Design Strategy), in which students develop customer-centric products and services aligned with the strategy of a contemporary organisation.

MBA Career Services

We provide students with the coaching, career management tools and resources to help them refine their professional goals and navigate the recruitment process.

Full-time MBA Career Services

Dedicated to your success

Our full-time MBA Career Services team works directly with students, empowering them to achieve the next steps in their career strategy.

Through training and development of their employability skills, we support students to make the most of their MBA, and maximise the opportunity of having many of the world's best employers on our Sydney CBD doorstep.

Our full-time MBA Career Services provides students with:

Careers Academy Workshops

In line with the program curriculum, students are required to attend an intensive series of professional development workshops utilising customised case studies, and partnering with industry partners, on topics ranging from ethical leadership to corporate innovation.

Individual coaching

Our professional coaching team works with students to build a personal career-management plan that helps students to develop the tools, skills and knowledge to successfully navigate today's employment market and recruitment trends. Some of the leading career management tools, technology and resources students have access to as part of their coaching program include:

- CareerLeader®, an online self-assessment tool to evaluate their life interests, business skills, and their own work/reward values.
- Gallup's Clifton StrengthsFinder®* tool to ascertain their main talents and gain clarity on their leadership strengths and any areas they may like to develop.
- We offer all MBA students a premium subscription to MBA-Exchange.com, a global online directory with more than 500 MBA development programs offered by employers worldwide.

Internships with impact

Our program offers an optional internship, available from Semester 2 onwards.

As well as conventional internships in which students work in a partner organisation, we offer exciting and meaningful projects for both individuals and teams across a range of organisations in emerging sectors including start-ups, social enterprises, non-profits and technology enterprises.

Wide range of recruitment resources

By aligning with us now, you will have the opportunity to begin talent-pooling for your business. We work closely with corporate Australia to understand its specific requirements, and as a recruiter, we invite you to engage with us in a number of ways to gain direct access to our students.
