Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.

Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.

Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.

Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.

Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.

Manufacturer Key

ACI Automation Components Inc
AS American Stabilis
BA BAPI
BL Belimo
DR Druck (General Electric)
DT Delta
DW Dwyer Instruments

GEI General Eastern Instruments (General Electric)
GY Greystone
HW Honeywell
INV Invensys (Robertshaw/Barber-Colman/Siebe/Erie)
JC Johnson Controls

KE Kele Associates
KR Kreuler
LS Landis & Staefa/Powers/Siemens
MA Mamac Systems
MI Minco
MO Modus
PJC Penn (JC)

SE Setra
ST Staefa
TE Telaire (General Electric)
VE Veris Industries (Schneider)
VU Vulcain (Honeywell)
WR White-Rodgers (Emerson Climate Tech)

Every effort has been made to make this cross-reference as accurate as possible. To verify the recommended replacement part, refer to the product specification sheets. For installation/mounting, service kits or replacement parts, refer to the Accessories and Service Kits section for each product line. Complete indexes by part number and product name are at the front of the catalog.
