Homeland Security Grant Program (HSGP)

- ▣ The purpose of the HSGP is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States.
- ▣ HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation.
- ▣ <https://www.fema.gov/national-preparedness-goal>

State Homeland Security Program (SHSP)

- ▣ The SHSP supports state and local preparedness activities that address high priority preparedness gaps across all core capabilities that support terrorism preparedness
- ▣ The SHSP is divided into two programs: Regionalization and Law Enforcement Terrorism Prevention Activities (LETPA)

CTO Program

By combining specially trained officers with the proper mission specific equipment, this project will allow officers participating in the CTO Program to dramatically increase their ability to delay, divert, intercept, halt, apprehend, or secure threats and/or hazards.

This project addresses the gaps identified in the THIRA/State Preparedness Report (SPR), specifically as it applies to outreach to the fusion centers, Joint Terrorism Task Force (JTTF), and for the assignment of personnel for follow up interdiction and disruption.

This project will enhance the Missouri Counter Terrorism Officer Program's effectiveness at the local level by giving agencies the opportunity to acquire equipment uniquely focused on their terrorism prevention mission and locality. Items purchased through this opportunity will support the law enforcement officers involved in the CTO Program. Officers who are specially trained to prevent, respond to, and mitigate acts of terror is a homeland security initiative.

CTO Equipment Grant

The CTO Equipment Grant is available to any agency employing a member of the Missouri Office of Homeland Security Counter Terrorism Officer Program. The grant is for allowable equipment items up to a maximum award amount of \$5,000.00. In 2019 the Missouri Office of Homeland Security (OHS) began a process of analyzing gaps, in prevention, response, and mitigation of acts of terrorism, identified in the Threat and Hazard Identification and Risk Assessment (THIRA) across the 32 Core Capabilities. Through these assessments, OHS has identified a critical shortage in law enforcement officers trained to identify and plan for potential terrorist threats and vulnerabilities in our local communities. In order to expand law enforcement capabilities in the areas of homeland security and to combat the rising threats of homegrown violent extremism and terrorist threats across the state of Missouri, the Counter Terrorism Officer (CTO) Program was designed.

CTO's are located within multiple jurisdictions in each region of Missouri. These specially trained officers are members of their local law enforcement agencies and provide a level of expertise to their agency and community with regards to terrorism prevention, response and mitigation. This grant program will provide increased capabilities across these mission areas.

The screenshot shows a web application interface with a top navigation bar containing links for Menu, Help, Log Out, Back, Print, Add, Delete, Edit, and Save. A blue arrow points to the 'Save' button. Below the navigation bar is a section titled 'Application' with a sub-section 'Attach File'. This section contains instructions on how to attach files, supported file types (Word, Excel, PowerPoint, Publisher, Adobe PDF, Photos), and a note about password-protected documents. At the bottom, there is a form with an 'Upload File' field showing the path 'C:\Users\mbranson\Desktop\Test.docx' and a 'Browse...' button. Below this is a 'Description:' label followed by a text area containing the text 'Audit 01/01/2016-12/31/2016'.

Attach File

- To [attach any other documents](#), click "Add".
- To [delete an uploaded file](#), click the recycle bin in the Delete column.
- If you have no additional attachments to include in your application, just select "Mark as Complete".

The Missouri Department of Public Safety can support the following file types: Word (*.doc, *.docx), Excel (*.xls, *.xlsx), PowerPoint (*.ppt, *.pptx), Publisher (*.pub), Adobe PDF (*.pdf), Photos (*.bmp, *.jpg, *.jpeg, *.jpe, *.asp, *.tif, *.wmf) and similar commonly used programs. If you attach a file type that the Missouri Department of Public Safety does not have software to open or the file is corrupted and cannot be opened, the attachment may not be considered.

If this document is saved on a computer or disk, search for the file location and upload it. The Description field should merely name the attachment, not provide extensive details about the attachment.

If this document is not saved on a computer or disk but is rather a sheet of printed paper, it will need to be scanned and saved to a computer file location. If the document is multiple pages, check your scanner settings to ensure the pages can be saved as one file or use the free, online tool called [PDF Merge](#) if it is necessary to combine multiple 1-page scans into 1 saved document.

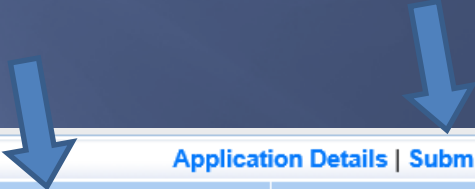

NOTE: Do not attach password protected documents as the Print to PDF feature will not be able to open such file types.

Upload File: C:\Users\mbranson\Desktop\Test.docx
