[CE.MAYO.EDU/GIHEPUPDATE2020](https://ce.mayo.edu/gihepupdate2020)

## COURSE HIGHLIGHTS

- This course will provide the latest, state-of-the-art information on the diagnosis and management of common gastroenterology and hepatology disorders:
  - Colon cancer and polyps; GI motility disorder; food allergies
  - Management of new anticoagulants; artificial intelligence in GI endoscopy
  - Endoscopy for obesity; new interventional endoscopy
  - Management of fatty liver; cirrhosis and portal hypertension; and update on alcoholic hepatitis
- Format will offer a livestream webcast with an interactive live endoscopy session on Friday and pertinent case-based lectures on Saturday.
- Panel discussions and Q & A after each presentation.
- Active audience participation is strongly encouraged.

Friday will offer a full-day interactive live endoscopy session where participants will have the unique opportunity to ask the endoscopists questions while the procedures are taking place.

## TARGET AUDIENCE

The intended audience includes gastroenterologists, primary care physicians, nurses and advanced healthcare practitioners (NPs, PAs, RNs, etc.).

## LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

### Gastroenterology Objectives:

- Review indication and contraindication to withhold anticoagulant for GI procedures
- Explain facts regarding food allergy
- Describe diagnostic criteria and new treatment modalities for gastroparesis
- Evaluate upcoming AI technology in diagnostic endoscopy
- Describe the best therapy for your obesity patient and explain endoscopic options
- Evaluate current recommendations and explain updates for surveillance colonoscopy
- Review current evidence of interval colon cancer and how to prevent

### Hepatology Objectives:

- Evaluate current management for alcoholic hepatitis, including the controversial role of liver transplantation, and assess emerging potential therapy
- Update current and emerging approaches to nonalcoholic fatty liver disease
- Review the management of cirrhosis and portal hypertension
- Appraise emerging role of the advanced care practitioner in a novel paradigm for treatment of transplant recipients of hepatitis C-positive donor organs
