

GAZEBO COLLECTION
create a backyard escape

A relaxing *escape*
can be as close as your
backyard.

Feel stress melt away... in any way you choose. Whether it's putting your feet up and immersing yourself in a good book or having family and neighbors over for a casual dinner, there's no place like home for recuperating after a long day or work week. And really, where else would you rather be than right where you live — yet a world apart?

wood gazebos

**Beauty and durability.
Naturally.**

We know what you want: a gazebo that will be useful and attractive for years to come. All of our lumber is #1 grade or better southern yellow pine. Although the wood is already pressure treated for longevity, we encourage you to add our Sherwin-Williams Super Deck Sealer to extend the life of your gazebo and enhance its appearance.

vinyl gazebos

High Style and Low Maintenance

Our vinyl gazebos are built with a wood structure that is made of pressure-treated lumber and then covered with vinyl. Composite decking is used for the flooring. The ceilings have a vinyl Soffit covering. We settle for nothing less than a top-quality maintenance-free gazebo that is both elegant and durable. Neither should you.

quality & craftsmanship

It's pretty simple. We won't compromise. Not in materials. Not in workmanship. Every gazebo is made by hand, one at a time, by dedicated, experienced builders who don't take shortcuts. When artisans do their jobs that way, it shows in the final product. Come and see for yourself what passionate master craftsmen can accomplish. And prepare to be amazed.
