GE ZONELINE®

A Story of American Invention

In 1961, the GE Zoneline® PTAC began making its way into hotels and motels across the country, changing the face of comfort on the road.

Now, over 50 years later, GE Zoneline has been reinvented in Louisville, Kentucky, to meet the changing needs of America's hotel industry. The newest GE Zoneline PTACs are engineered to be more reliable, efficient, quieter and incredibly easy to install and maintain.

RELIABLE | With over one million units installed across the U.S. and remarkably low service issues, GE Zoneline PTACs offer unrivaled reliability, consistent performance and constant guest comfort.

UNMATCHED SERVICE & SUPPORT | GE Appliances is the only manufacturer with a dedicated factory service network and field team. Our technicians service your Zoneline—and any other GE appliances you have—in no time, so guest comfort is not compromised.
