

Canaries, Finches, & Other Soft Billed Birds

WHOLESALE BIRD PRICES IN CENTRAL TEXAS

Prices recorded between the 3rd Quarter 2010 and 2nd Quarter 2011

This section of the BLOG is a free unofficial listing of wholesale prices for Canaries, Finches and Other Soft Billed Birds. The information is gathered at various sales during the past 12 months. No information is provided on sellers or buyers, or sale locations. Data over 12 months old is deleted. However, if there has not been a sale of the species/mutation within the past 12 months but there is older data still available the quarter/year and the median or highest price paid is provided. When only a single bird was sold the price will be listed as "high," with multiple birds sold it will be listed as "medi" for mediam price. But sometimes this
But sometimes this data is just not available.

All data is accurate to the best of the drafter's knowledge and ability.

The drafter is not liable for any errors within this BLOG.

Additionally, the drafter is not perfect and sometimes types or spell incorrectly. When the drafter is not sure about the spelling or any thing else, it is displayed in this color. When you find a typing, spelling, or other correction that is needed, please notify the drafter at centexbirdprices@live.com.

The following explains the data provided on the spreadsheets.

Color, Mutation, Variety, etc. = Self explanator (as listed by seller)

Qtr 'Yr = The quarter and year the data was collected

Jan, Feb, & Mar = 1st Qtr.

Apr, May June = 2nd Qtr.

Jul, Aug, & Sep = 3rd Qtr.

Oct, Nov, & Dec = 4th Qtr

Sold = Total number birds of the type/color sold in the quarter indicated

Each Price Range for Qtr = The lowest & highest prices paid per bird in the quarter indicated

Each Price Range For Year = The lowest & highest prices paid per bird in the year indicated

MEDIAN PAST 12 MOS = The Median price paid for the past 12 months

Age, sex, and other information such as tame, talking, proven pair, etc. is not collected.

However, it may be assumed that information of this nature is a contributing factor causing higher prices for some birds.

Canaries, Finches, & Other Soft Billed Birds

TO ACCESS (RETRIEVE) INFORMATION ON PDF

Data for each General Classification, Canaries, Finches, and Other Soft Billed Birds is in a PDF format. Open the file. If you get a shadow box on the bottom of the screen, click the far right icon in the shadow box which will let you view the screen using Adobe Reader.

Once viewing in Adobe, you can make it easier to use by opening the "Bookmarks" on the left-hand side of the form. If you're unfamiliar with PDFs, this will be the second item down on the left side of the screen. You'll see the bookmark there and it will allow you to jump to the page you wish to see. Be sure to use the scroll bar on the right to see more of the pages under that category. Within the data for each specific classification you will find the normal (wild) color listed first. Followed by other color mutations in alphabetical order

The only exception to this is when a group of birds containing more than one color mutation is sold. That data is listed as a mixed mutation lot and is usually immediately after the normal color listing.

Often a specific classification will be listed and there will be no data in the table. This is because there was once data but it has become over a year old and has been deleted.

If you do not find the type of bird within the classification you expected, there are two possible reasons: (1) No birds of that type have been sold in Central Texas recently, and they are not listed in the data. (2) The bird is listed under another classification. If this is the case the following list of General Classifications and Specific Classifications may help you find the data you need.

General Classifications	Specific Classifications
Canaries	Colorbreds are listed first Singers are listed second: American Singer, Malinoi, Roller, Spanish Timbrado, Waterslager Typed are listed last: Belgian Fancy, Border, Fife Fancy, Gloster, Old World Crested
Finches of Africa	Aurora, Crimson-wing, Cutthroat, Fire, Golden Song Sparrow, Green Singing, Quail, Silverbill, Twin-Spot, Waxbill (most), Weavers
Finches of Asia & South Pacific	Java Rice Sparrow, Nun, Parrot, Society
Finches of Australia	Gouldian, Manakin, Owl, Shaft-Tail, Silver-Bill, Spice, Zebra
Finches of Europe	Gold
Finches of South America	Band-Tailed Seed Eater, Cardinal, Gross Beak, Manakin, Saffron, Warbler
Other African Soft Bills	Hornbill, Roller, Turraco, Whydah

CANARIES

Because there is no Standar color for canaries. Mixed mutation (color) lotsare listed first.
