# What is the Cambridge LMS ?

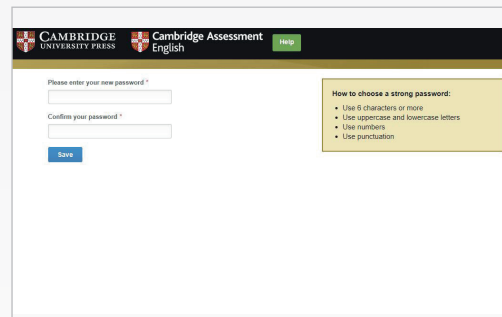

The Cambridge LMS (CLMS) is an online platform where you can find content that is part of your Cambridge course. When you join a class on the CLMS, your teacher will be able to assign work and see your scores and progress.

## How do I start ?

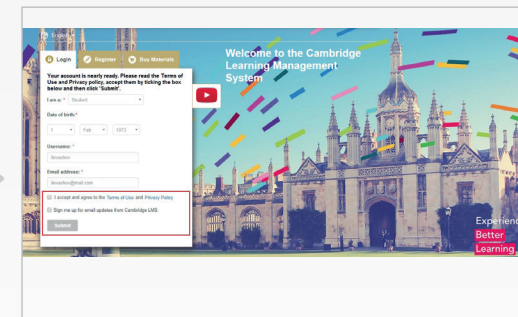

If your school has registered you...

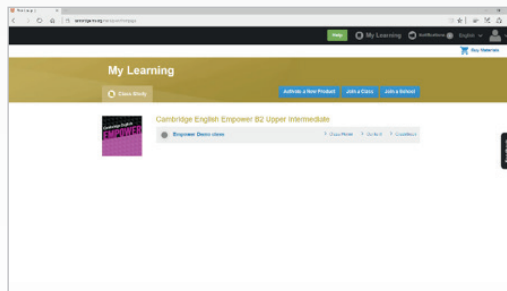

- 1 You will receive an 'Account details' email from 'Cambridge LMS'. Click the link in the email.

- 2 Set a password for your account and log in with the username from the email and the new password.

- 3 Read and accept the Terms of Use and Privacy policy, then click 'Submit'. You can also sign up for email updates from the CLMS.

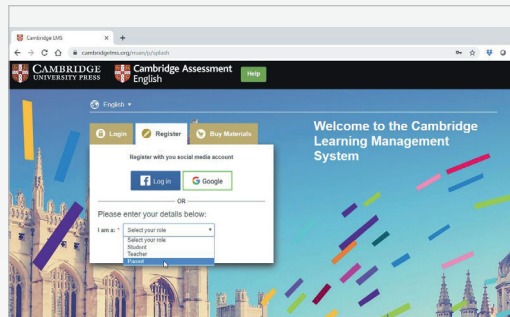

- 4 You will be taken to the My Learning page. This will show all the courses that you have been given access to.

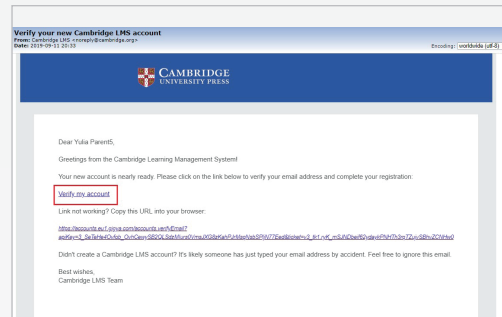

- 5 To log in again in future, go to [www.cambridgelms.org/main](http://www.cambridgelms.org/main) and use the username in the email and the password that you created for yourself.
