## Hijacking Google...

In this report I'm going to reveal a fast way to “hijack” Google by bypassing regular SEO methods.

Using this method you can get rankings on the first page of Google for competitive search terms in 24-48 hours. Let me start with some examples...

When you search for a competitive search term like “dog waste removal service long island”, the advertisers are paying \$2 to \$6 for a single click...

Check out these screenshots:

With just one article without optimization we got to around position 7 for this highly competitive keyword phrase. You can do this as many times as you like to grab as many front page rankings as you'd like.

This method also helps to push your competition off the first page of Google.

This same article ranked for other keyword phrases like “long island pooper scooper service” and “long island dog waste service”...

Here are 2 money-making methods just to get you started (and I'll reveal 4 step-by-step money-making methods later in this same PDF report, just keep on reading):

### **Renting Out Ranked Articles...**

With this first method you're targeting location based keyword phrases that have high value to businesses.

You can rent out these high ranked articles to those businesses for \$25 to \$500 a month each.

That makes this method a very powerful way to rank and profit if you're doing anything with local clients.

### **Profiting By Promoting Affiliate Products...**

I recommend you promote higher priced affiliate products because it's the same amount of effort promoting \$10 products but you usually make more commissions when you promote \$100 or \$200 products.

Below you can see this method has got us to #1 promoting a \$500 course with the lucrative search term "PPC tactics course"...

The image shows a Google search interface for the query "PPC tactics course". The search bar contains the text "PPC tactics course" with a red arrow pointing to it. Companies who want to rank higher in Google need useful information on the issues impacting their business. SkyRanker takes this into account several months in advance. Generates hundreds of press releases for publication on Google within 24-48 hours..

SkyRanker has invested considerable time and effort to ensure an enjoyable user experience while providing timely and relevant information on Press Releases. Additional updates and new features can be expected in the future. Interested parties can view the website at <http://skyranker.com>.

CEO Chris Munch described the new website in this way:

"There has been a lot of positive feedback surrounding <http://skyranker.com> and the information that it provides. SkyRanker is committed to making continual improvements and adjustments so that all companies who want to rank higher in Google have access to the latest information on Press Releases. It is the goal of SkyRanker to become the leading resource for reliable information on issues impacting companies who want to rank higher in Google."

SkyRanker welcomes new and old website visitors alike to take a look at the new features available, and to submit feedback for the next round of updates.]

PressCable gives you a press release ready for minor edits and publishing...

You can also improve the headline in various ways (for viewer appeal and for SEO reasons which is covered in depth in the full SkyRanker training).

Just fill in a few more minor details and you can publish your press release and get a report back of every site your press release was published on...sites like the Boston Globe, Buffalo News, Fox News station and many, many more...

The image shows a comparison of two pricing plans on a website. The 'Premium' plan is highlighted with a red 'Best Value' badge. Below the plan names are 'Get Started' buttons. The 'Premium' section lists 'ADVANCED FEATURES PLUS:' and includes bullet points about news outlet coverage (New York Times, USA Today, Associated Press) and image inclusion. The 'Financial' section lists 'PREMIUM FEATURES PI' and includes bullet points about business and financial news coverage (Yahoo! Finance, Bloomberg, Wall Street Journal). At the bottom, the costs are listed as '\$369 per news release' for Premium and '\$499 per news' for Financial. A red callout box with a white background and red border contains the text: 'PRweb.com's premium distribution service gets the same coverage as SkyRanker but costs \$369 for one press release...'. An arrow points from this box to the '\$369 per news release' price tag.

PRweb.com's \$369 cost cuts into your profits and can be a serious barrier for many people.

People do make profits even at this cost and somewhere around 1,000 people use Prweb.com's premium service for the simple reason that it's effective at getting traffic online.

It works because your content ends up on the trusted news channels.

The good news is what I have for you today is a lot cheaper.

# 4 Different Ways To Make Money...

---

## Strategy #1 – Make Money With Local Clients...

- ⤴ Choose 5 potential clients.
- ⤴ Submit content via SkyRanker for each of them. You don't charge the client upfront.
- ⤴ Then show the client the results when you have the content ranked.
- ⤴ Control where the traffic goes from the content with a simple redirect script.
- ⤴ If the client stops paying you you can send the traffic somewhere else.
- ⤴ Charge \$25-\$500/month+ for the rankings.
- ⤴ This is covered in detail in the SkyRanker training.

## Strategy #2 – High Ticket Affiliate Programs...

- ⤴ Choose affiliate programs that pay \$100+ per sale (SkyRanker training includes a list of high paying affiliate programs).
- ⤴ Target keywords with “buyer intent” (SkyRanker training includes a pdf and video showing my proven keyword selection method in detail).
- ⤴ Make profits immediately.
- ⤴ Do this repeatedly so that you keep profiting from traffic that comes years after you've done the work building up your passive income.

## Strategy #3 – Launch Jacking Product Keywords...

- ⤴ Check out a launch calendar like Muncheye or JVNotifyPro, or Marketplaces like Clickbank and JVZoo to find a product you'd like to promote.
- ⤴ Use SkyRanker to quickly rank for the product's name and buyer keywords like 'Product Name Review' or 'Product Name Bonus'.
- ⤴ Link to your product review website or a landing page and enjoy the commissions!

## Strategy #4 – Seeding Viral Traffic Campaigns...

- ⤴ Place viral content on a minimalist landing page with nothing but the content and social share buttons.
- ⤴ Submit a SkyRanker release promoting the content, and let PressCable drive 200+ backlinks to the site and a bunch of initial 'seed' traffic.
- ⤴ Watch your rankings, traffic and social following increase — and if you happen to place an affiliate link on your landing page too — Enjoy Your Commissions!

## Many More Money-Making Strategies In The SkyRanker Training...

In the full SkyRanker training you'll see a whole different range of ways you can make money creating and submitting press releases with the PressCable service.

**Ron Douglas** We used SkyRanker for a local client's press release and it far exceeded our expectations. Not only did the press release rank in the top 3 for several of the client's main buyer keywords, the clients site also jumped up in the search results knocking a competitor off the first page in the process.

Our client is so happy that he's renewing with us for another \$5k contract. Very well done. For what they're charging, this service is a no brainer.

For example, you could do 5 campaigns for clients, 3 campaigns to promote an affiliate product, and 2 campaigns promoting your own product/site.
- ⤴ You can use your credits at any time. They do not expire. So you can buy now and lock in the low prices while the discount is still running. Otherwise, next time you want front page rankings, you'd be stuck paying \$369 to one of our competitors like PRWeb.
