WHAT IS NLP?

NLP is a set of tools, techniques, and both verbal and non-verbal communication patterns derived from people who have achieved mastery in their personal and professional life. NLP is created by a think-tank of brilliant professionals who studied initially three world renowned psychotherapists.

A methodology was created to study outliers and brilliant high-flyers in the fields of psychology, coaching, business leadership, sales, motivational speaking, teaching, even sports performance and the field of the arts and entertainment. These findings, the specific underlying strategies they all used, were included into the toolset of NLP. The international experts in NLP, one being the founder of Global NLP Training, continued to develop NLP over the years.

OUR COURSES

GLOBAL NLP TRAINING ONLINE FOUNDATION

Prerequisites: NONE

This is your starting point to learn NLP and mindset-based coaching. This has the same content as our live NLP Practitioner training. We also offer additional training in positive psychology in all of our online courses.

In this course, you will be trained in the core skills of NLP and NLP-based Motivational Coaching. This includes many tools and techniques that can be used for your own personal change or development in any professional field where effective communication, understanding how the brain processes information, and coaching and motivational leadership are essential. NLP and positive psychology based mindset tools can be applied in all areas of our lives. When taught and learned experientially (such as in this training), it allows for a change in our neurology. This means your brain actually changes for the positive when you make a daily effort to apply the newly learned skills.

This program can be taken as a stand-alone training or as a first step towards taking the advanced class or a live training NLP Practitioner/Master Practitioner training.

IN THIS COURSE YOU WILL LEARN:

- To be a powerful and inspirational communicator
- To be highly skilled at reading non-verbal communication
- To increase your sensory and (un)conscious awareness
- To master your thinking and emotional states
- To remove unnecessary fears and phobias.
- To empower and motivate.
- To develop strong personal and business relationships
- To create success and achieve results

- Goal setting modeled after the top 7% of extraordinarily high achievers
- To effectively elicit information from others
- Science of Positive Psychology

DO I GET AN NLP PRACTITIONER CERTIFICATE AS WELL?

No, although the class content is equal to an NLP Practitioner training, this licensing can only legitimately be achieved in a live training based on standards set by both the Society of NLP & our own integrity as a company. We have a reputation as a company to offer certificates that aren't only legitimate but also have meaning. This means any NLP Practitioner certification offered for an online class is by definition falsified and/or produced by a person who isn't a licensed trainer. The creators of NLP do not approve of these classes.

For many training schools, NLP Master Practitioner is a repeat of the NLP Practitioner, with different practice exercises to gain mastery and only some new content. Global NLP Training teaches almost entirely new content integrated with additional practice for the NLP Practitioner skillset to achieve mastery. As we train in small groups and have very experienced expert trainers on staff, this allows us to teach new content and deeper, more complicated patterns while upholding integrity regarding the investment of our students.

WHEN CAN I START? AND HOW DOES IT WORK?

We opted for an on-demand and self-paced learning system because it is the best format for online learning. Not only does it allow for experiential exercises, practice, home experiments, and self-guided positive interventions, it has been scientifically proven and understood that live seminars longer than 50 minutes in length do not offer the best, healthiest, experiential, and immersive training experience. As a company, we want our certificates to have value and offer the most optimised learning experience.

In addition, optional live zoom sessions in different times zones will be conducted regularly for direct contact and personal interaction with the trainer. Email us at info@globalnltraining.com for timing and schedule.

WHAT HAPPENS IF I TAKE THE LIVE TRAINING TOO?

The fee of this training (minus certificate fee) **will be deducted** from your final live training course tuition payment.

A request can be submitted to reduce your number of class days.

INTERNATIONAL CERTIFICATION & LEGITIMACY

All certifications are internationally valid, and held up to the highest of standards because they do not only carry the legitimacy of the Society of NLP (signed by one of the original co-creators), they also carry the Global NLP Training name. This is of even higher value, as we have an impeccable international track record for quality and our graduates are considered to be among some of the best-trained NLP practitioners in the world. This is assessed when they take their trainers training for the Society of NLP itself.

Our coaching certifications are offered by INEMLA and Global NLP Training.

SOCIETY OF NLP

The **Society of NLP** is the only legitimate licensing body in the world endorsed by one of the co-creators of NLP.

By training with Global NLP Training, you have the option to become a licensed NLP Practitioner or NLP Master Practitioner and become a member of this organization.

You will also receive a certificate signed by the co-creator of NLP and will be allowed to carry the seals on your marketing materials.

INEMLA

Membership in **INEMLA** is only available to institutions with documented satisfied customers and many years of experience.

Our trainers have over 15 years of NLP coaching experience, and over 10 years of teaching at Master Practitioner level. This is extremely rare in the coaching and NLP training profession where most trainers have minimal NLP teaching and/or coaching experience.

Our training has been attended and audited by independent peers in our field, and we have demonstrated that our company operates from a place of integrity.

CRKBO

Global NLP Training is excited to announce that we have officially obtained admittance into the **Central Register for Short Vocational Education** again. This is extremely hard to achieve for an NLP and coach-training business. Our company, program, trainers, and marketing (inclusive of this brochure) have been extensively audited for quality and accuracy by an independent body every four years. Thorough in-person audits have also been conducted; we passed 3 times, meeting the highest standards in the first round.

As a result, we are an official vocational training school. There is no 21% VAT-tax (BTW in Europe) applicable to our business. Rather than raising our pricing to match that of our competitors, we have instead opted to use our monetary flexibility to benefit you.

EQI2 & MBTI

EQi2

We are certified to use the EQ-2.0 and EQ360 assessment instruments. The EQ-i 2.0® is widely acknowledged as today's leading Emotional Intelligence assessment instrument.

EQ-i^{2.0}
