EXTREME FLEX III PADS

EXTREME FLEX III PADS **NEW**

Re-engineered with our pro goalie feedback, the Extreme Flex III is now the lightest goal pad since the inception of the Extreme Flex pads. They provide explosive power pushes and game changing stability.

SPEED SKIN TECHNOLOGY

Quick gliding and explosive power pushes.

OWD CORE SYSTEM

Optimized Weight Distribution provides great speed in the crease.

QK5 STRAPPING SYSTEM

Exceptional 5-Hole closure.

EXTREME FLEX III PADS

Two injection molded inner core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly is.

CORE OPTIONS

SINGLE BREAK CORE

THE SINGLE BREAK CORE IS DESIGNED TO BE A SOFTER PAD WITH ONE INTERNAL BREAK BELOW THE KNEE FOR FLEXIBILITY AND MOBILITY.

DOUBLE BREAK CORE

THE DOUBLE BREAK CORE IS DESIGNED WITH 2 INTERNAL BREAKS ABOVE AND BELOW THE KNEE TO FACILITATE 5 HOLE CLOSURE.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

KNEE STRAP OPTIONS

The best leg strap option matches the flexibility of the goal pad from the knee up. A double break core works well with straps above the knee. A stiffer single break core works well with leg straps at or below the knee.

INNER LEG CHANNEL / LEG CHANNEL OPTIONS

The leg channel is a personal preference based on whether the goalie wants a loose or tight fit. A tight fit leg channel works best with a shallow ultra soft EPE core. If a loose fit leg channel is desired it is best to select a shallow soft EPE core.

PREMIER PADS

PREMIER PADS

The goal pad that revolutionized blocking a shot between the posts with the first injection molded foam core technology is now the lightest Premier since inception. Designed to maximize coverage and play big the new exceptionally thin profile saves weight and allows a deeper fit. More weight reduction focused in the leg channel and redesigned Pro leg strap set-up to optimize leg rotation when going butterfly and the reverse VH. CCM Premier engineered to improve the center of mass to reduce weight at the key areas to maximize performance.

THINNER PROFILE

Redesigned to reduce weight and improve the center of mass with higher density foam to maintain stiffness and remain square to the shooter.

DEEPER KNEE STANCE

Enhanced five-hole closure in the butterfly position and reverse VH stance.

PRO STRAP SYSTEM

Optimize your leg rotation with a new single knee and single calf strap system with high quality Pro leather construction.

Re-engineered injection molded inner core design with thinner profile to reduce weight where it matters to maximize performance. The three molded core designs are offered to provide flex options from below the knee up to the thigh to maximize your five-hole coverage based on how wide or narrow your butterfly is.

CORE OPTIONS

NO BREAK CORE

THE NO BREAK GOAL PAD IS DESIGNED TO BE A STIFFER GOAL PAD TO PROVIDE SOLID SEAL TO THE ICE.

SINGLE BREAK CORE

THE SINGLE BREAK CORE IS DESIGNED TO BE A STIFFER PAD WITH ONE INTERNAL BREAK BELOW THE KNEE FOR FLEXIBILITY AND MOBILITY.

*OFFERED IN PRECURVED & STRAIGHT.

DOUBLE BREAK CORE

THE DOUBLE BREAK CORE IS DESIGNED WITH 2 INTERNAL BREAKS ABOVE AND BELOW THE KNEE TO FACILITATE 5 HOLE CLOSURE.

Flex options optimize internal and external flex points that can provide maximum coverage based on the width of your butterfly and desired flexibility above the knee.

PREMIER PADS

KNEE STRAP OPTIONS

The best knee strap option will allow proper rotation of the knee in the knee cradle. The size of knee protector that the goalie is wearing will determine whether the knee strap should be at the knee or below the knee for increased range of motion.

Leg channel options provide goalies with the ability to customize their fit. A tight fit is designed to provide a secure feel of the pad centered on the leg. Goalies with less flexibility prefer a loose fit and open leg channel, which provide more room for the knee and calf to position closer to the inside edge.

CCM PRO GOALIE STICK

EXTREME FLEX III STICK NEW

Our new Extreme Flex III foam core line is the result of close collaboration with our NHL goalies. By improving the consistency and weight of our shafts, we are able to deliver a level of performance that is unmatched while providing goalies the traditional feel they are looking for. A big emphasis was also placed on developing junior sticks that are better designed for the needs of younger goalies. Everything from the flex profile to the blade has been improved.

APPROVED BY PRO

The new Extreme Flex III was developed by working closely with our Pro goalies. It has already allowed us to switch even more NHL goalies to our Extreme Flex III stick.

CONSISTENT PERFORMANCE AND FEEL

The shaft has been improved to be lighter, but also a lot more consistent. This ensures that goalies can rely on the same great performance and feel each time they step on the ice.

IMPROVED JUNIOR STICKS

Our junior sticks have been redesigned to help younger goalies control and pass the puck better. The flex profiles have been improved and the blades are longer and the curves are bigger.

PREMIER GOALIE STICK

PREMIER PLUS STICK

CCM has completely redesigned its composite goalie line. The new Premier Plus was developed using the best out of player sticks while keeping the needs of goalies at top of mind. From the shoulder shapes to the structure and composition of the stick, everything has been optimized to bring to market the lightest and best feeling composite goalie stick.

VIBRATION DAMPENING

The combination of the Exofibe Weave with the brand new ZeroFlux Technology diminishes the vibrations which provides great feel for the puck at all times.

GRIP

A new StikTak Grip has been designed specifically for goalies and has been strategically placed to provide comfort and great control.

STIFF BLADE

Premier Plus features the same stiff blade structure as our Tacks sticks allowing goalies to deflect pucks exactly where they want to.
