# NEW COURSE FORMATS

Starting in the winter semester 2020/21, we offer **remote learning courses** and **pure online courses** in addition to **in-class learning courses**.

During the remote learning course you will meet with the teacher and your group in a virtual classroom set up in a communication software. There you will work on the learning material together and communicate in German. This part of the lesson lasts 75 minutes. It is followed by a self-study phase of 15 minutes on our learning platform, during which you will solve further exercises that form the starting point for the next online session. Throughout the course you will work with a textbook.

In addition to the remote learning courses, we offer pure online group courses in which you will work with an interactive learning programme without a printed textbook. Using professional training materials and modern learning methods, you will practice reading, writing, speaking and listening in German. Together with the other participants of your course you will work on a variety of cooperative exercises. You will be supervised by a tutor who will give you individual feedback.
