Demo-version

Please select your login device – *Google Authenticator.*

Please enter your customer code (CIF code).

It could be found in the application for the online bank access or in the agreement on opening of a set or settlement/card account.

Please enter your user password.

For your **first logging in**, use your customer code as a password. After the first logging-in to the online bank the system will offer you to replace this password (**old password**) with your invented password known to you only (**new password**). Enter the new password twice.

If you use several *Google Authenticators*, please enter the last 4 digits of the respective *Google Authenticator.*

Enter a special 6-digit combination generated by *Google Authenticator.*
