The story of Hatshepsut, the Egyptian female king, was almost lost to history.

Hatshepsut was the daughter of Thutmose I.

Hatshepsut had stronger bloodlines to the throne than her stepson.

As her stepson grew older, Hatshepsut gradually assumed the power, duties, and dress of the king.

He also destroyed her monuments and statues.

*The invisible hand* is a metaphor. It expresses the idea that people's pursuit of self-interest unintentionally benefits the public good.

In a free market, people will always pursue self-interest; that means they will try to better their own conditions.

Smith viewed the free market as being self-corrective and able to grow steadily.

Although Smith wrote during the 1700s, his ideas still resonate today.
