Accu-Finish[®]

FOR THE ADVANCED MACHINIST

SHARPEN WITH NO HEAT

CERAMIC, CERMET,
CARBIDE, *and* HSS
IN YOUR SHOP

GLENDOLLC

Accu-Finish®

SHARPEN • MAKE • MODIFY

A tool that has lost its edge usually ends up tossed aside, right? Waste no more — sharpen edges to “better than new,” make custom parts from worn tools, and modify almost any tool, as needed, with Accu-Finish®.

Some tools are costly, others a dime a dozen.
Get the most of materials, time, and money with Accu-Finish®.

Top 8 Benefits For Machinists

1. SHARPEN WITH NO HEAT

Your tools will benefit from no-heat sharpening with longer life, better performance, and no loss of temper or strength.

2. SAVE MONEY

Resharpener a tool even one time and the tool cost is cut in half. Resharpener and reuse again to save even more. Accu-Finish® means money in your pocket.

3. HONE SHARPER EDGES

Want ultra-fine boring, plastics machining, micro-finishing, or the ability to utilize difficult workpieces? Make impossible jobs possible — it’s as easy as Accu-Finish®.

4. IMPROVE FINISHES

Create a mirror finish in seconds! Tools gain lowered cutting forces and reduced built-up edges. Significantly improve tools with simple and fast geometry changes, such as adding a wiper edge.

5. ELIMINATE CHATTER

Silence, tools! Chatter is often caused by tool geometry or finish. Optimize turning tools, boring tools, and more in seconds. Instead of chatter controlling the machine operation, the operator stays in control.

6. GET PRECISE GEOMETRY

Set compound angles for the precise tool geometry you want using Accu-Finish®. The built-in scales are so accurate and easy to read, tools will pass inspection **the first time**.

7. MAKE CUSTOM TOOLS

Get the custom tool you need for any project, schedule, or budget.

8. UTILIZE A VARIETY OF MATERIALS

Accu-Finish® can whip carbide, ceramic, cermet, high-speed steel, and even some PCD/CBN tools right into shape.

SERIES ONE	6
DIAMOND SPRAY	7
FINISH WHEELS	8
WHEEL ACCESSORIES	9
FIXTURES	10
ACCESSORIES	12

Accu-Finish® sharpening systems use diamond wheels and low speed to accurately sharpen lathe tools, end mills, gun drills, and many inserts — with no heat. The high-precision table and protractor provide a crisp, clean grind every time.

GRIND-R-TABLE

Grinders are safer and more accurate with a Grind-R-Table.
Add this calibrated, heavy-duty tool rest to any bench grinder for consistent accuracy.

GRIND-R-TABLE
Constructed from solid steel, this heavy-duty tool rest fits most 6-inch, 7-inch, or 8-inch bench grinders.

PRODUCT INCLUDES »

- Grind-R-Table
- QuickMount Base
- Protractor T-Slide

#001-696 \$316.00

SPECIAL PACKAGE
Mount an existing bench grinder to the Heavy Steel Base Plate with two Grind-R-Tables for the most accurate rough possible.

PRODUCT INCLUDES »

- Grind-R-Table (Qty: 2)
- Heavy Steel Base Plate

#001-754 \$785.00

#001-704 \$487.00

BALDOR 7-INCH GRINDER

Rough tools quickly with a Baldor Bench Grinder before finishing on a Series ONE or Series II from Accu-Finish®.

PRODUCT INCLUDES »

- Baldor 7-Inch Grinder
- Basic Wheel (Qty: 2)

#001-703 \$1,237.00

TWIN-TABLE PACKAGE

Get a complete setup ready for grinding compound tool angles and closer tolerances for finer parts. Use the Baldor 7-Inch Grinder to rough shape or remove tool damage.

PRODUCT INCLUDES »

- Baldor 7-Inch Grinder
- Grind-R-Table (Qty: 2)
- Heavy Steel Base Plate
- Basic Wheel (Qty: 2)

Equip grinder with BG Diamond Wheels for the most accurate rough possible.

ROUGH WHEELS

BG DIAMOND WHEELS
BG Diamond Wheels are affordable and long lasting. These wheels stay flat without grooving or needing dressing. Accu-Finish® wheels grind cooler than other wheels and handle carbides, ceramics, and cermets. For use up to 3600 RPM. Size: 6" O.D. x 1".

Clean dirty wheels with these cleaning sticks.

FIXTURES

A gun drill sharpened on an Accu-Finish® is better than new and will drill straighter, cleaner holes.

#001-970 \$2,645.00

GUN DRILL SHARPENING SYSTEM

The Accu-Finish® Gun Drill Sharpening System produces sharper and stronger cutting edges that will outperform and last longer than brand new gun drills. The drill's cutting surface can be mirror finished in seconds on the Accu-Finish®. For gun drills up to 1.0" (25.4 mm) diameter.

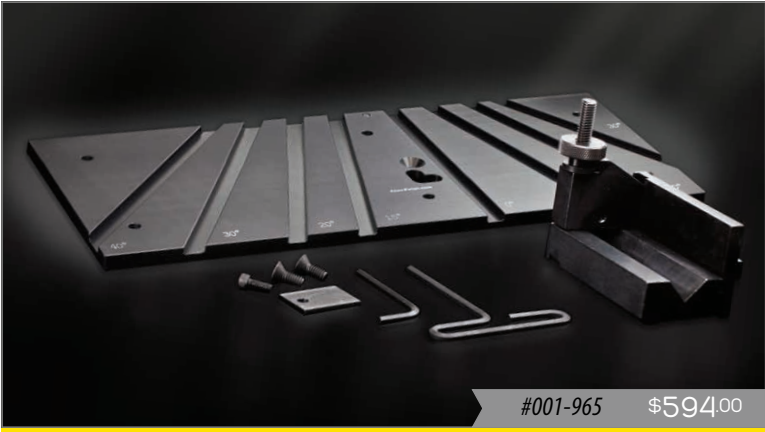

- PRODUCT
- INCLUDES
- Series II Machine
 - Diamond Wheels: 360 and 600 grit
 - Guide Table
 - Gun Drill Sharpening Fixture

1/8" to 3/16" thick. #001-580 \$59.50
3/16" to 1/4" thick. #001-581 \$59.95

INSERT HOLDER

The Insert Holder provides an ideal way to hold all shapes of inserts while sharpening the sides, nose, and edges. The holders will save your fingers, letting you do a better job. Use these holders with any Accu-Finish® machine, bench grinder, or double-end tool grinder.

#001-965 \$594.00

GUN DRILL SHARPENING FIXTURE

Sharpening gun drills is now an easy step-by-step sequence that will save money and double the life of your gun drill. Built-in slots guide the grinding of each facet while maintaining proper geometry. Fits Series ONE or Series II.

- PRODUCT
- INCLUDES
- Slotted Gun Drill Table
 - Gun Drill Holder
 - Mounting Hardware

FIXTURES

SAFETY GLASSES
REQUIRED

Get consistent sharpening results

and save your fingers. No matter what kind of tool you need to sharpen, Accu-Finish® has a fixture to hold it in place.

Square #001-881 \$79.95
Hex #001-885 \$79.95

COLLET BLOCKS

Collet blocks use any 5c collet (not included) to hold tools precisely centered in the square or hex block. The square block lets you sharpen 2- or 4-flute tools.

The hex fits 2-, 3-, or 6-flute tools. Each block is precision ground from hardened steel and includes a lock nut and wrench. Available in your choice of square (001-881) or hex (001-885) shapes.

#001-822 \$59.65

PROTRACTOR
EXTENSION
ARM

The Accu-Finish® table protractor goes up to 75°, but sometimes you need to set greater angles. This solid steel Protractor Extension Arm clamps onto the tool guide for a 90° offset that allows you to set all the angles.

#001-884 \$187.00

TOOL STOP
GUIDE

The Tool Stop Guide uses an adjustable hard stop to control the amount of material ground from each cutting edge, ensuring that all edges on multiple flute cutters are equal. Use with Collet Blocks (#001-881 or #001-885).

#001-925 \$92.95

DOUBLE-END
SERDI-STYLE
BIT HOLDER

If you don't need in-the-cutter-body sharpening, here's a fast, simple, and economical way to sharpen Serdi-style bits on any Accu-Finish® Series ONE or Series II. Rake angle can be adjusted using the Accu-Finish® tool guide.

ACCESSORIES

The better you can see, the better the results!

Accu-Finish® offers a variety of tools to illuminate and magnify your work. See with absolute clarity and precision without eye fatigue.

#003-600 \$2,528.00

MICROSCOPE SYSTEM

This microscope system is unique because you can both inspect and work under it. This difference is critical. The large focal length gives you plenty of distance under the microscope for hand tools, power tools, measuring and gauging tools, and more. The stand is steel construction for stable support. Height is easily adjusted from 2.5" (63.5 mm) to 19.5" (495.3 mm). Horizontal arms travel 11" (279.4 mm), allowing exact positioning of the scope above the workpiece.

- PRODUCT INCLUDES
- Meiji Microscope
 - Stand
 - Headrest

Also Available with the Acrobat™ Stand.

OPTIVISOR

The OptiVISOR helps you see your work better. It features ground lenses and an adjustable headband. The OptiVISOR includes a special kit for changing lens position.

ITEM	POWER	PRICE
#002-710	1.75	\$47.00
#002-711	2.50	\$47.00
#002-712	2.75	\$47.00

#011-380 \$19.60

HAND LOUPE

Triplet 10X, 18 mm lens. High-quality optics allow close inspection of tools and work. Chrome finish, leather case.

#022-119 \$19.70

OPTILOUPE KIT

The Optiloupe Kit adds an extra 2.5 power to your OptiVISOR and swings away when you don't need it.

#001-756 \$88.95

HEAVY-DUTY LAMP KIT FOR ACCU-FINISH® SERIES II

This extra-heavy-duty, UL-listed lamp is rated to a bright 100 watts and provides plenty of work light. An insulated shade keeps the lamp cool on the outside. The sealed 24" flexible neck allows the lamp to provide light where you need it and stays where you put it. A QuickMount bracket is included for easy installation. 110V / 120V, 3-prong grounded plug.

#022-915 \$78.05

COMPACT LAMP KIT FOR ACCU-FINISH® SERIES ONE

The Compact Lamp Kit has the same construction as the Heavy-Duty Lamp Kit, only smaller. This UL-listed lamp is rated to 40 watts and has an insulated shade to stay cool. The 15" flexible neck is sealed against oil and grit and can be positioned where you need light. The kit includes a hex ferrule with lock nut and washer for easy "panel" mounting. 110V / 120V, 3-prong grounded plug.

ACCESSORIES

#003-597 \$443.00

TWIN HALOGEN LAMP KIT

Two halogen work lamps allow you to direct light where you need it. Lock the lamp in position or move it from side to side with the microscope. Includes mounting bracket for attachment to the microscope stand.

#002-205 \$51.05

ON / OFF FOOT SWITCH

Power the machine on and off with both hands free, which is especially useful for horizontal lapping. Comes prewired for standard 3-wire, 110V / 120V grounded outlet. UL listed to 1/2 HP.

#002-982 \$32.95

PR88 HAND PROTECTOR

Give your hands convenient protection by applying pr88 Hand Protector before dirty jobs. After the job is done, even the toughest dirt and grime will wash off with ease. It even works on printer's ink and automotive grease. pr88 is non-toxic and kind to your skin with no oily feel.

#002-811 \$212.00

MAGNIFIER LAMP

Improve the quality of your sharpening and reduce eye strain. The built-in lens magnifies your work, while the flexible neck allows you to add light and a clear view where you need it. Includes clamp-on mount and 40W bulb.

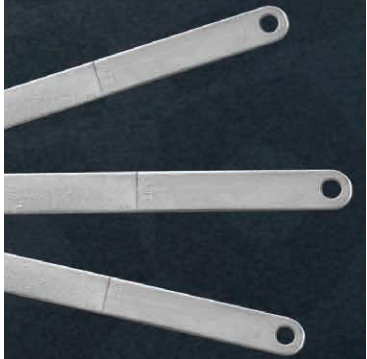

#022-268T \$252.00

MICROSCOPE RING LIGHT

The Microscope Ring Light provides cool, glare-free illumination. The circular fluorescent bulb will provide 7,000 hours of lamp life. This lighting fixture is highly recommended for use with the Acrobat™ Stand.

POST KIT

Mount the Workspace Utility Shelf with this 24" (609.6 mm) post for adjustable height that meets your needs. Includes 1.125" OD stainless steel post with mounting flange base.

#003-686 \$43.35

UTILITY SHELF MOUNT

Mount your utility shelf to any flat surface with this bracket kit. Utility shelf not included.

#001-823 \$674.00

HEAVY-DUTY CABINET FOR ACCU-FINISH® SERIES II

This Heavy-Duty Cabinet will turn your Accu-Finish® Series II workstation into an organized sharpening center. The cabinet features pre-drilled holes and includes hardware to make mounting the Series II easy. Built-in slots and plenty of space inside the cabinet provide convenient storage for all your wheels and accessories. Mount the cabinet directly to the floor using the holes in the base, or add the Floor Mounting Plate (see below) for stability. Approximate shipping weight 69 lb. Wheels and accessories not included.

#001-890 \$186.00

FLOOR MOUNTING PLATE FOR HEAVY DUTY CABINET

The Accu-Finish® Floor Mounting Plate allows you to add stability and safety without permanently mounting the cabinet to the floor. Adjustable leveling bolts compensate for unlevel floors. Solid steel construction. Complete with mounting hardware. Approximate shipping weight 30 lb.

ABOUT

ABOUT ACCU-FINISH

Accu-Finish® products are manufactured by Glendo LLC in the United States of America. The Glendo manufacturing facility is located in Emporia, Kansas, in the heart of the Midwest and the majestic Flint Hills.

Glendo has built an extraordinary team of manufacturing people and support personnel for Glendo Contract Manufacturing. We provide production machining, prototype machining, assembly, design assistance and a variety of related services. For over 25 years Glendo has made a business of exceeding customers' expectations. Our machine operators are technically advanced and receive ongoing education at training facilities around the U.S.

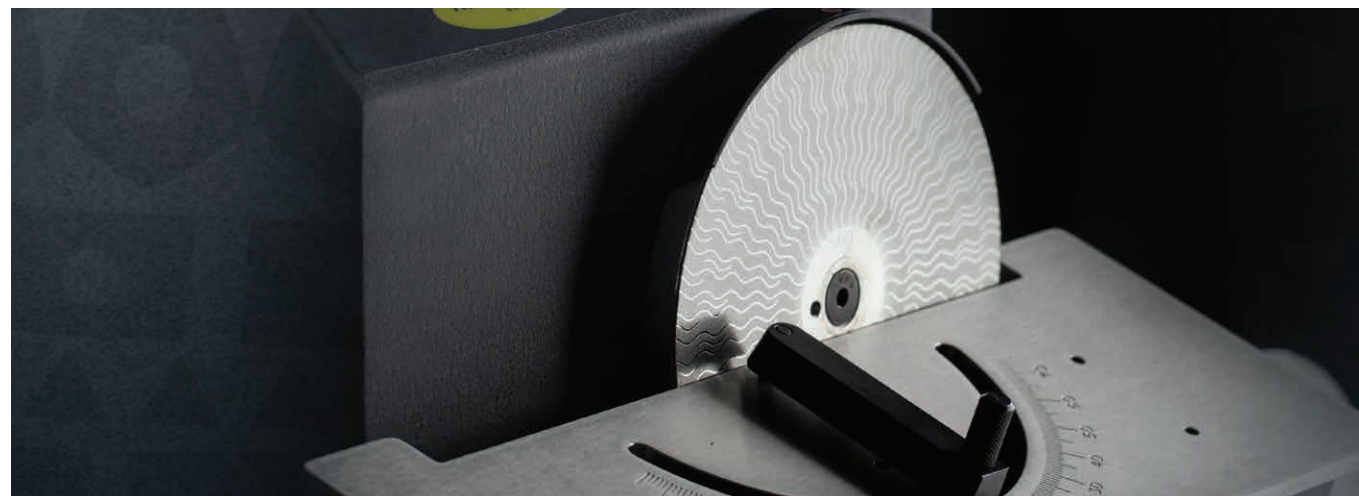

Ready to add Accu-Finish® sharpening systems to your shop? The Accu-Finish® line carries products to make both roughing and finishing an easier, more accurate task.

Start shopping now on
accu-finish.com

Visit Accu-Finish.com for technical specifications.

Visit [Accu-Finish.com](https://www.accu-finish.com) for more great products.

RETURN POLICY

All products purchased directly from Glendo LLC can be returned for a full refund of their purchase price, if received in new condition within 30 days of purchase. All parts, pieces, accessories, manuals, warranty information, and printed materials must be in the original packaging with the product in order to be eligible for a full refund or exchange. Returns after 30 days but within 6 months of purchase may be charged a 20% restocking fee. Returns after 6 months are generally not accepted. Before shipping any returns, please contact Glendo LLC for a Return Authorization number (RA), which simplifies this process.

2-YEAR WARRANTY

Accu-Finish® Series ONE and Series II are warranted for 2 full years against defects in material and workmanship. Any such defect will be repaired or replaced by sending it freight prepaid to Glendo in Emporia, Kansas. After servicing under this warranty, Glendo will pay normal surface freight back to the customer's location. Shipping damages, normal wear and tear, and abuse not covered.
