### THE NASHVILLE NUMBER SYSTEM FAKE BOOK

The Nashville Number System is the standard way for a professional country musician to notate a song. The system has been around since the 1950s, and it rapidly became widespread within the country music community because of how efficiently it can represent music. In essence, a Nashville number chart conveys the harmony, key, meter, rhythm, phrase structure, instrumentation, arrangement, and form of a song – all on a single piece of paper. An introduction is included that thoroughly explains how to use the book. Lyrics are not included. This valuable resource gathers together 200 country standards from yesterday's favorites to today's chart-topping hits, including: Achy Breaky Heart (Don't Tell My Heart) • Act Naturally • All the Gold in California • Always on My Mind • Amazed • Battle of New Orleans • Before He Cheats • Before the Next Teardrop Falls • Behind Closed Doors • Bless the Broken Road • Blue Eyes Crying in the Rain • Boot Scootin' Boogie • A Boy Named Sue • Breathe • Coal Miner's Daughter • Could I Have This Dance • Crazy • The Dance • Delta Dawn • The Devil Went down to Georgia • Don't It Make My Brown Eyes Blue • Elvira • Folsom Prison Blues • Friends in Low Places • The Gambler • God Bless the U.S.A. • He Stopped Loving Her Today • Hey, Good Lookin' • I Hope You Dance • I Walk the Line • I Will Always Love You • In Color • Jesus Take the Wheel • King of the Road • Live like You Were Dying • The Long Black Veil • Lucille • Luckenbach, Texas (Back to the Basics of Love) • Mean • Need You Now • On the Road Again • Redneck Woman • Springsteen • Stand by Your Man • This Kiss • You're Still the One • Your Cheatin' Heart • and more!

**MUSIC FROM THE HITCHCOCK FILMS**

*Music Sales America*

From the start, Hitchcock knew that music was an invaluable aid to any director of suspense movies who wanted to put his audience through the emotional wringer. From Arthur

Benjamin's pivotal cantata in the 1934 version of *The Man Who Knew Too Much* to Bernard Herrmann's jagged soundtrack for the landmark shocker *Psycho*, the music was usually a visceral part of any Hitchcock movie. By the time John Williams scored Hitchcock's final film *Family Plot* (1976) a whole generation of moviegoers would always remember their favorite Hitchcock film with, as it were, the soundtrack attached. Here, arranged for piano, are some of the most evocative themes from some of Hitchcock's most unforgettable films.

## THE LIBRARY OF CLASSICAL MUSIC

*Music Sales America*  
The Classical period saw a broad reaction against the layered complexities of Baroque music and led to a simpler relationship between melody and harmony. It was a musical

style that reflected the mid-18th century's wider enthusiasm for reviving the clean, well-ordered structures of Greek classicism across the arts. The orchestra expanded in size, woodwind became a self-contained section and the harpsichord was increasingly displaced by the recently invented fortepiano. Instrumental music dominated, notably symphony and string quartet, with examples of both strands represented here in 70 piano arrangements. Among the many composers whose work is included are C.P.E. Bach, J.C. Bach, Beethoven, Clementi, Czerny, Gluck, Haydn, Hummel, Mozart and Weber.

14043591 Piano Solo..... \$24.99

## THE LIBRARY OF MODERN PIANO MUSIC

*Music Sales America*  
This collection illustrates the vigour and variety of modern piano music. These original compositions span standalone pieces, albums, suites and arrangements

from talents as diverse as Igor Stravinsky, Francis Poulenc, Lennox Berkeley, Witold Lutoslawski, Hans Werner Henze, Peter Maxwell Davies, Philip Glass and Ludovico Einaudi. As well as these concert pieces, a number of works have been written specially for screen. From Michael Nyman's celebrated music for *The Piano* to Richard Rodney Bennett's score for the now rarely seen but superb 1980s miniseries *Tender Is The Night*, there is ample proof of the richness added to international screen dramas by first-rate composers. These and over 100 more piano pieces make *The Library of Modern Piano Music* a true classic.

## THE LIBRARY OF POP SONGS

*Music Sales America*  
A unique collection of some of the greatest pop songs of the past 50 years, this substantial compilation spans classics from 1960s folk hits to contemporary songs by Coldplay and Adele.

Taken together, these outstanding songs comprise nothing less than a history of the golden age of popular music from the rock 'n' roll years onwards, covering every pop genre with a roll call of superstars and supergroups ranging from ABBA and Michael Jackson to Oasis and Whitney Houston. A priceless book that lets everyone sing and play their favorites.

## LIBRARY OF ROMANTIC MUSIC

*Music Sales America*  
Like the Baroque and Classical periods before it, Romantic music existed within a broader artistic, intellectual and literary movement. Emerging in the early 19th century it reflected a time of preoccupation with things mystical, spiritual, legendary and supernatural. Nationalism also became fashionable and, for example, Polish-born Frédéric Chopin produced many celebratory polonaises and mazurkas. Writing mainly for solo piano, Chopin latterly preferred the more intimate atmosphere of the salon to that of the concert hall. Meanwhile Puccini and Giuseppe both established Romantic Italian opera as a particularly vibrant strand of Romantic music.

## THE 20TH CENTURY

*compiled and edited by Richard Walters*  
*G. Schirmer, Inc.*

The 20th Century series presents music by some of the greatest composers of the modern era, composers who wrote a full range of music for orchestra, voices,

piano and chamber ensembles, in the great and large forms. But they also valued music education, and composed interesting music to foster a student pianist's progress. The pieces by these composers lead a student not only to technical proficiency, but also to become a more fully formed, imaginative musician. When a great talent turns attention to writing a short piece of limited difficulty level for students, it is approached with the same aesthetics, temperament, tastes and creative invention applied when composing a symphony, opera or concerto. These exquisite miniatures are complete works of timeless art. Through them a master musician of the past indirectly teaches a progressing musician of the present and the future.

**POPULAR ROCK & JAZZ VOCAL INSTRUCTION****BELTING**

A GUIDE TO HEALTHY, POWERFUL SINGING  
 by Jeannie Gagné  
 Berklee Press

Belting is a strong way of big singing that has become very popular in contemporary styles. It is heard in everything from

rock to hip-hop to pop to musical theater to the plethora of award shows. However, not only is there much confusion and misinformation about how to belt well, if done poorly belting can actually damage the voice. Numerous famous singers have belted their way to injury or even lost their voices, sometimes permanently. Many voice teachers believe (incorrectly) that belting is simply bad, physically and aesthetically. So, singing students are getting mixed messages. They hear their favorite artists belt-singing throughout their favorite music, yet the resources teaching healthy belting techniques are few and far between. *Belting for the Contemporary Singer* seeks to remedy the situation. The fact is, belting can be done well and without causing injury. This book presents the facts about belting, what approaches work and which to avoid. Its online video and audio demonstrate good techniques and exercises.

## PIANO TEACHING RESOURCES

## RIGHT BEFORE YOUR EYES

A FRESH APPROACH TO INTERPRETING A PIANO SCORE  
by *Ruth Price*

In engaging and informal language, Ruth Price invites pianists to look for the "magic" in well-known works from both concert and student repertoire. What gives a piece its identity? How can we get inside the composition in order to develop an interpretation? What makes us fall in love with certain passages? *Right Before Your Eyes* passionately delves into piano music through score study, based on the idea that if we start with our emotional reactions to the music, analysis and interpretation will flow more naturally. It is a valuable guide to score study for students at every level, and a must-have book for every piano teacher.

## THE 20TH CENTURY

compiled and edited by  
*Richard Walters*  
*G. Schirmer, Inc.*

*The 20th Century* series presents music by some of the greatest composers of the modern era, composers who wrote a full range of music for orchestra, voices,

piano and chamber ensembles, in the great and large forms. But they also valued music education, and composed interesting music to foster a student pianist's progress. The pieces by these composers lead a student not only to technical proficiency, but also to become a more fully formed, imaginative musician. When a great talent turns attention to writing a short piece of limited difficulty level for students, it is approached with the same aesthetics, temperament, tastes and creative invention applied when composing a symphony, opera or concerto. These exquisite miniatures are complete works of timeless art. Through them a master musician of the past indirectly teaches a progressing musician of the present and the future.

## MANY HANDS – ONE PIANO

PIANO DUETS, TRIOS AND  
SEXTETS BY SONNY CHUA

Sonny Chua is an inspiring and engaging composer, passionate about his teaching roles in life and well known for enthusing younger people

to wholeheartedly embrace music. This collection contains a selection of Sonny's duets, trios and sextets. Students and teachers, friends and family will have great fun playing Sonny's humorous and exciting works. What is needed is either 4 hands, 6 hands or 12 hands (or from 16 fingers/4 thumbs to 48 fingers/12 thumbs!), a piano and perhaps a competitive streak. Each piece is exhilarating to play and has many little challenges – watch out for instructions to “knock players 2 and 3 off their chairs” so that player 1 can take over that section of the keyboard!

**FASTTRACK  
VIOLIN METHOD

## THAT NIGHT IN BETHLEHEM

A TRADITIONAL IRISH  
CHRISTMAS CAROL

"That Night in Bethlehem" is the gorgeous traditional Irish Christmas carol "Don Oíche ud i mBeithil." Sylvia has created a 4-verse arrangement playable on

lever or pedal harp. Each verse is a bit harder than the one before, so less experienced players can play the verses at their level. The music is in the key of E minor (1 sharp). There is one C# lever change in the 3rd verse. Fingerings and chord symbols are included. The lyrics printed in the music are David Monks' English translation. The original Irish Gaelic and a phonetic version are included on the last page. This beautiful Celtic carol will be a wonderful addition to your Christmas repertoire.

### BELTING

A Guide to Healthy, Powerful Singing  
by *Jeannie Gagné*

Belting is a strong way of big singing that has become very popular in contemporary styles. It is heard in everything from rock to hip-hop to pop to musical theater to the plethora of award shows. However, not only is there much confusion and misinformation about how to belt well, if done poorly belting can actually damage the voice. Numerous famous singers have belted their way to injury or even lost their voices, sometimes permanently. Many voice teachers believe (incorrectly) that belting is simply bad, physically and aesthetically. So, singing students are getting mixed messages. They hear their favorite artists belt-singing throughout their favorite music, yet the resources teaching healthy belting techniques are few and far between. *Belting for the Contemporary Singer* seeks to remedy the situation. The fact is, belting can be done well and without causing injury. This book presents the facts about belting, what approaches work and which to avoid. Its online video and audio demonstrate good techniques and exercises.

## TRADING LICKS: CHARLIE CHRISTIAN & T-BONE WALKER

by Joseph Weidlich

Centerstream Publications

*Trading Licks: Charlie Christian and T-Bone Walker* explores the musical commonality of the

founders of electric jazz guitar and electric blues guitar respectively. While both were heavily influenced musically by the Kansas Territory blues bands, T-Bone Walker ended up working professionally in the late 1930s in the looser rhythm-and-blues genre that was developing at that time in Los Angeles, while Charlie Christian began working in the number one dance band in the nation, the Benny Goodman Orchestra. This book also explores how commonly used jazz licks were "reinterpreted" in an R&B context that are still just as exciting to listen to and to play today as they were in the 1940s, when they were first heard on Central Avenue in L.A. This book includes an audio CD with 83 tracks of examples from the tablature!

TAB. TONE. TECHNIQUE.

This is not your typical bass tab book. In this new TAB+ series from Hal Leonard we provide you guidance on how to capture the bass tones for each song as well as tips and advice on the techniques used to play the songs. Where possible, we've confirmed the gear used on the original recordings via new and previously published interviews with the bassists, producers, and/or engineers. Then we make general recommendations on how to achieve a similar tone, based on that info. Some of the songs will be easy to play even for advanced beginner students, and others might present a much greater challenge. In either case, we've identified key technique that should help you learn the songs with greater ease. This volume will help you master 25 must-know bass classics, including: Another One Bites the Dust • Around the World • Blurred Lines • The Boys Are Back in Town • Freewill • Hey Joe • The Joker • London Calling • My Generation • Sledgehammer • Strange Brew • Sweet Emotion • You Can Call Me Al • Young Lust • and more.

HOW TO DO JAZZ CHORD

SUBSTITUTION FOR ACCOMPANIMENT AND SOLOING  
*by Fred Sokolow*

*Flea Market Music, Inc.*

*Jazzing Up the Ukulele* by Fred Sokolow is a method

book/CD for uke players who want to add jazz chord substitution principles to their arrangements. Everything is written out in uke tablature, and all three versions of each song are on the included CD. Plus, the opening chapter clearly introduces the music theory that is the foundation of playing chord substitutions. Songs include: April Showers • Avalon • I'm Always Chasing Rainbows • Indiana (Back Home Again in Indiana) • Look for the Silver Lining • Smiles • Some of These Days.
