ROLAND SANDS DESIGN® CAFE CLIP-ONS

The RSD 1 in. Clip-Ons mount to the front forks, below the top triple clamp, for a low handlebar position. The aluminum bars are dimple milled to allow for stock wiring to cleanly exit your stock switch housings.

- Adjustable to any pullback and any height between top and bottom triple clamps with a fixed 5° down angle
- Replaces top mounted handlebars and risers
- Bar is 1 in. diameter to accept stock or aftermarket hand controls and the bars are slotted for external wiring and black anodized
- 41mm and 49 mm applications may need to shorten, cut and/or solder wiring, depending on current bar height
- Interchangeable RSD Logo Badges (Black and Brass)
- Made in USA

¹ 41mm and 49mm are not recommended for use with stock hand controls due to clearance issues. A modified gas tank is recommended.

ROLAND SANDS DESIGN® PROSTEP NARROW HANDLEBARS

Narrow bars are a perfect bar for city use, getting your hands inboard where car mirrors and semi-trucks will not assault your bar ends. Stylistically, they provide a unique, clean and simple look that lends itself to today's chopper and club bike inspired machines utilizing narrow glide forks or high fairings. Coupled with the RSD Mega Riser, our Narrow Handlebar set up provides a brand new look with a technical feel and function, while still giving a classic stance.

- Unique Narrow width
- 1-1/4 in. diameter lower section of handlebar
- 1 in. diameter upper section allows for mounting of stock or aftermarket hand controls
- Slotted and drilled for internal wiring
- Requires use of RSD's 1-1/4 in. Mega Riser
- Available in Contrast Cut and Black-Ops
- Made in USA

MOTORCYCLES ♦ PARTS ♦ LEATHERS

ROLAND SANDS DESIGN® VINTAGE HANDLEBAR

The Vintage bar is RSD's twist on the classic ape hanger ... The true "Made in America" original gusseted ape and its flowing radius tubes and riding position are unmatched in style, design and quality. The stance will give you the aggressive yet comfortable riding position you are looking for and our end caps make it extremely easy to run internal wiring. If quality and originality are important to you, then look no further.

- 1 in. diameter to accept stock or aftermarket hand controls
- 30" Wide x 12" Rise x 6-1/2" Center Width
- Slotted and drilled for internal wiring
- Standard bars feature knurling for risers at 3-1/2 in. on-center
- Stylish multi-hole drilled corner gusset offers strength and rigidity
- Chrome billet aluminum end caps included
- Made in USA

Springer Bar	Gloss Black	RD3599	319.95

ROLAND SANDS DESIGN® 8" KING APE HANDLEBARS

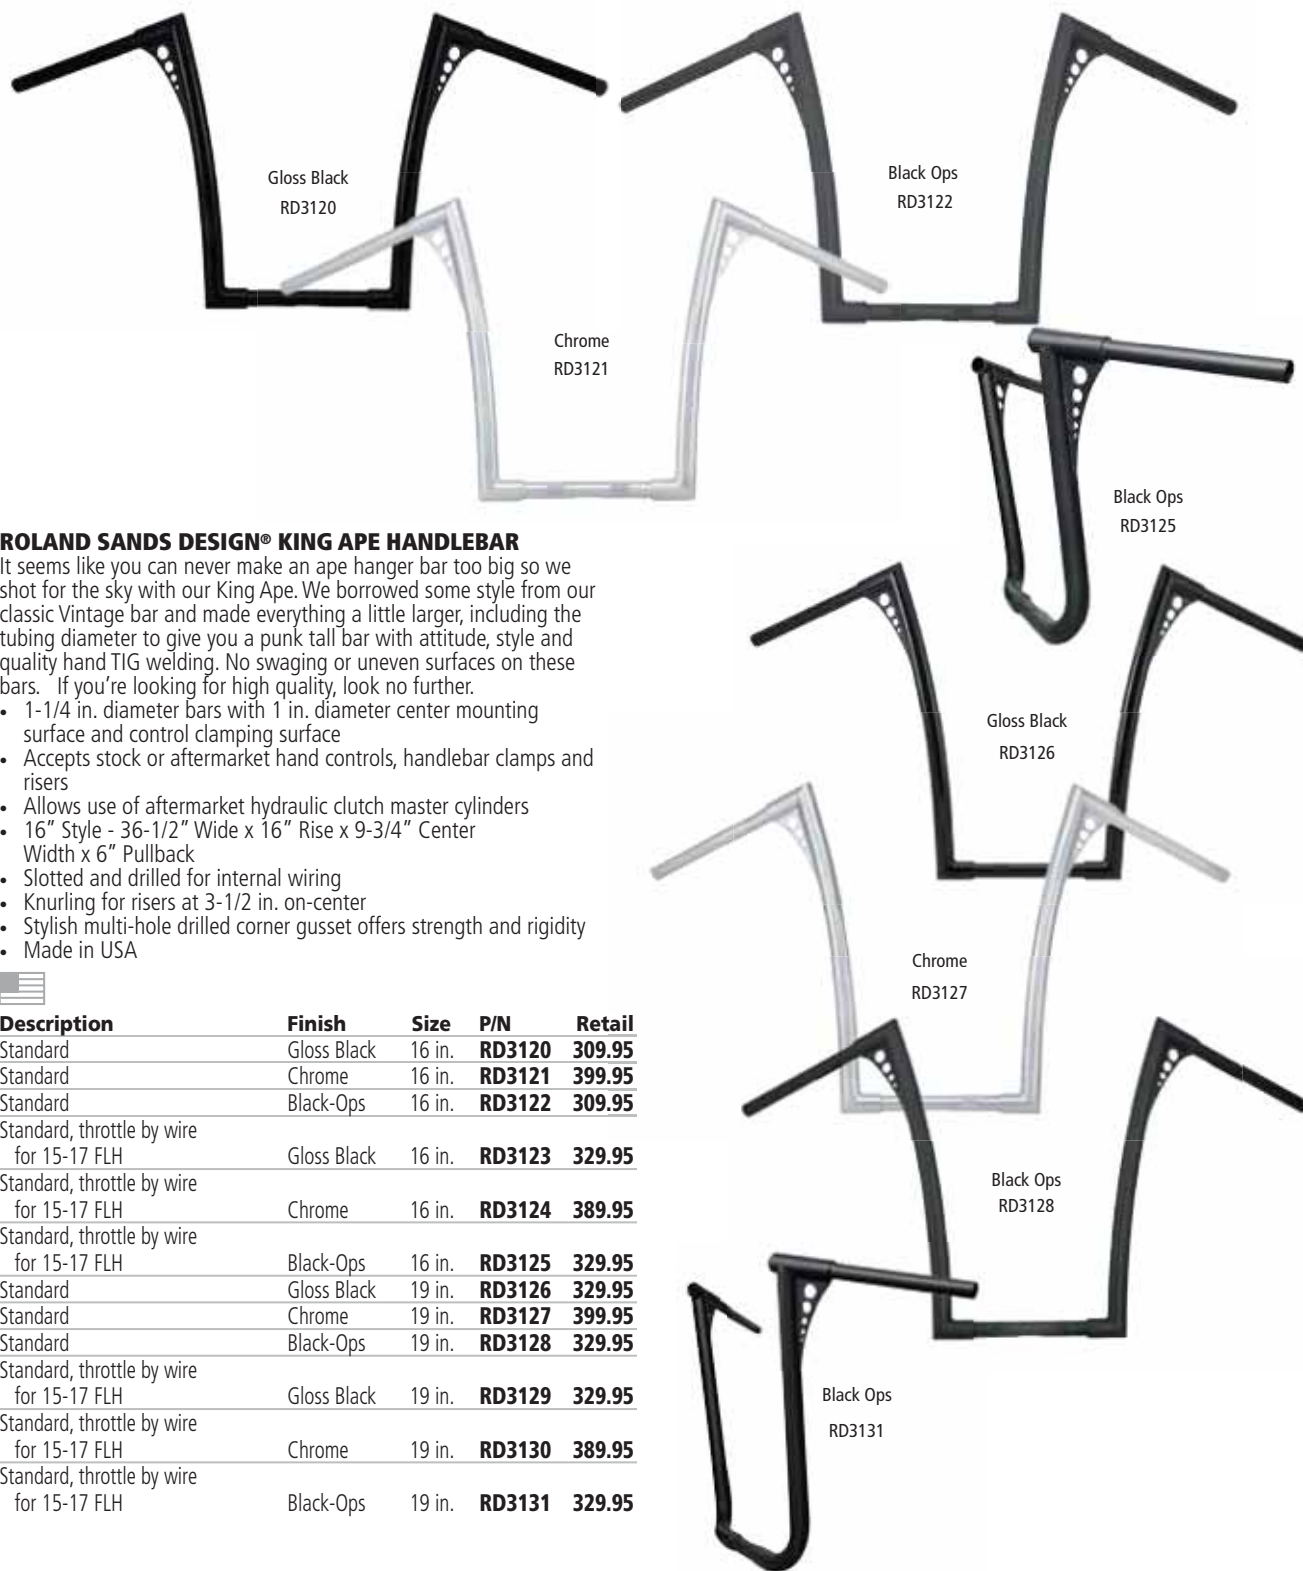

For our King Ape Bagger Handlebar, we continued with the classic Vintage bar styling, but added a special bend. This bend allows the bars to mount in a more upward position for a more aggressive riding position. Keeping with the King Ape aesthetic, everything is a little larger including the tubing diameter, giving you a punk tall bar with attitude, style and quality.

- 1-1/4 in. diameter bar with 1 in. diameter center mounting surface and control clamping surface
- 1 in. diameter accepts stock or aftermarket hand controls
- Stylish multi-hole drilled corner gusset offers strength and rigidity
- Slotted and drilled for internal wiring
- Lower contour bend allows fitment on FLHT/FLHX without any modifications to the fairing
- Knurling for risers at 3-1/2 in. on-center
- Gloss Black and Chrome handlebar includes Chrome billet aluminum end caps
- Black Ops is a textured black handlebar with gloss black billet aluminum end caps
- Made in USA

Description	P/N	Retail
Contrast Cut	RD5169	319.95

Black-Ops	RD5171	319.95

ROLAND SANDS DESIGN® KING APE HANDLEBAR

It seems like you can never make an ape hanger bar too big so we shot for the sky with our King Ape. We borrowed some style from our classic Vintage bar and made everything a little larger, including the tubing diameter to give you a punk tall bar with attitude, style and quality hand TIG welding. No swaging or uneven surfaces on these bars. If you're looking for high quality, look no further.

- 1-1/4 in. diameter bars with 1 in. diameter center mounting surface and control clamping surface
- Accepts stock or aftermarket hand controls, handlebar clamps and risers
- Allows use of aftermarket hydraulic clutch master cylinders
- 16" Style - 36-1/2" Wide x 16" Rise x 9-3/4" Center Width x 6" Pullback
- Slotted and drilled for internal wiring
- Knurling for risers at 3-1/2 in. on-center
- Stylish multi-hole drilled corner gusset offers strength and rigidity
- Made in USA

ROLAND SANDS DESIGN® VINTAGE SHORTSTACK HANDLEBAR

The Vintage Shortstack is RSD's twist on the classic ape hanger, simply shorter than our standard Vintage bar. The true "Made in America" original gusseted ape and its flowing radius tubes and riding position are unmatched in style, design and quality. The stance will give you the aggressive yet comfortable riding position you are looking for and our end caps make it extremely easy to run internal wiring. If quality and originality are important to you, then look no further.

ROLAND SANDS DESIGN® MEGA RISERS

Get your bars up where you can use them with the RSD MegaRiser. We've taken design flavor from BMX and Mountain biking, blended it with a little Motocross, sprinkled in classic RSD styling and created the ultimate narrow high riser for your V-twin. Now you can run an extremely narrow handlebar with a narrow grip to grip width keeping your hands inboard of mirrors and car doors. Pair Mega Risers with the new RSD narrow bars and you have the ultimate highbar set up that looks at home on a club bike, ultra narrow glide chopper or aggressive scrambler.

Replaces conventional risers to allow for use of narrow handlebars.

- Overall handlebar clamping width 2-1/2 in.
- Designed specifically for RSD Narrow handlebar line but, also fits standard handlebars (knurling may be exposed)
- Direct bolt-on to most models with removable risers and 3-1/2 in. on-center pattern
- Available in Contrast Cut, Black Ops and Chrome
- Available for 1 and 1-1/4 in. handlebars
- Drilled and tapped for 1/2" -13 mounting bolts
- Pinch bolts included
- Made in USA

ROLAND SANDS DESIGN® NOSTALGIA ONE PIECE RISER

The leverage produced when running tall ape hangers causes extra stress to the bars and risers. We developed our one piece top riser for that extra bit of rigidity needed with high apes. We've added strength where needed and connected the top clamps to unify the structure, meaning less flex and more clamping force.

- Accepts stock or aftermarket 1 in. diameter bars
- 1-1/2 in. tall

PRO TAPER® TRACKER BARS

Great looking, oversized 1-3/4 in. diameter bars in a tapered shape that allows use of all 1 in. controls. 5/32 in. thick, aluminum bars reduce vibration.

- Pre-drilled with three holes for stock controls or single hole for custom applications
- 1-3/4 in. Pro Taper® Risers required for fitment
- Available in the straighter Outlaw bend or the more pulled back TT bend in either silver or black finishes

CONELY'S MONSTER RISERS FOR PROTAPER

West coast style, Monster Risers for ProTaper® Outlaw bars. Increases the stability and handling of your motorcycle. Takes the vibration out of your bars and gives you a much smoother ride. Risers feature a reversible top clamp for mounting your gauges. Conely's also offers a universal gauge mount so you can mount your gauges in the front or back and features universal 45° or standard gauge mount in one mount, sold separately.

- Available in raw or black anodized finish
- Risers are pre-drilled for internal wiring
- Made in USA

PROTAPER® EVO HANDLEBARS

The EVO bar is the evolution of all the best features of the original ProTaper and Contour models. The ProTaper EVO handlebar employs the latest blend of proprietary alloys and processing techniques in manufacturing. The EVO model utilizes a computer profiled 4mm wall design; thus, making the handlebar lighter and giving it a more sensitive feel. The EVO is based on the same platform as our original ProTaper bar, but we have added some great improvements. Handlebar end-plugs help keep the elements out of the handlebar tubing and aid in longer grip wear. EVO has the best balance between fatigue life, impact strength and impact absorbing flex. All EVO handlebars are manufactured to more exact rise and pullback specifications and tolerances to provide a consistent and accurate feel. Independent lab tests show that the EVO handlebars outlast every other handlebar on the market in fatigue life. The EVO handlebar incorporates a unique coating inside the tubing of the handlebar to resist corrosion. The use of left-side knurling provides maximum grip traction. Chemically applied graphics are scratch-resistant, can't peel and provide long lasting appeal.

ARLEN NESS

ARLEN NESS MODULAR HANDLEBARS

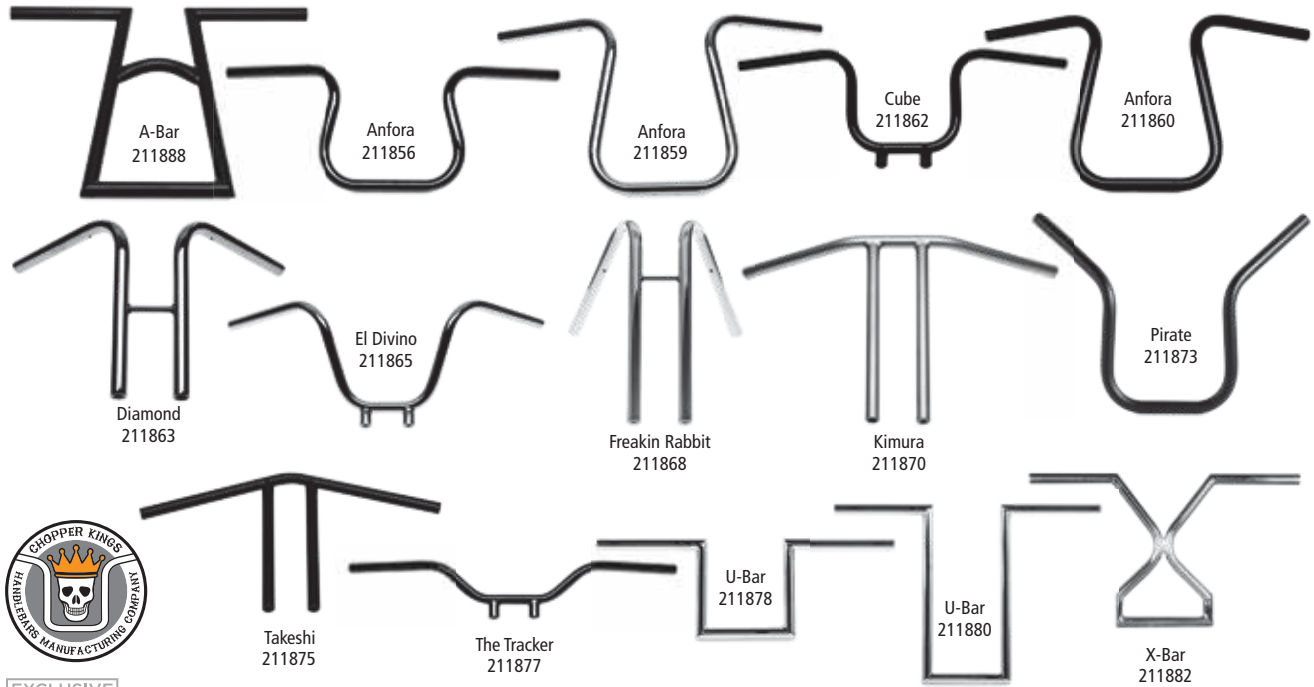

Adjustable 1-1/4 in. handlebars that feature billet aluminum junction clamps. Junction clamps allow bars to rotate towards or away from the rider as needed for comfort. Multi-piece design allows junction clamps to be removed for easy internal wiring installation and gives the end user the option for custom color combinations. All bars are drilled and slotted for internal wiring and can be used for cable or Throttle-by-Wire applications. Drag bars have 3-1/2 in. centers that bolt directly to upper triple tree, eliminating the need for risers (3-1/2 in. centers are standard on most H-D models except Bagger, Springer and FXS).

- Bagger Apes and Mini Apes feature 3-1/2 in. on-center knurling
- Available in black or chrome
- Made in USA

HANDLEBAR DIMENSION CHART

Note: The following diagrams and terms explain how Biker's Choice® measures the handlebars listed in this catalog.

Center Width

- Horizontal Dimension of the straight tubing between the lower most bends in the bar
- Measured on the top side of the bar

Width

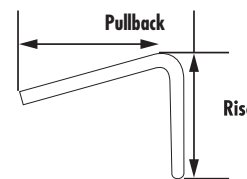

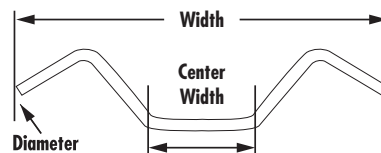

- Overall width of the bars from end to end

Rise

- Vertical dimension (height) of the bar measured from the bottom to the highest point on the bar (viewed from the side with the front face of the bar positioned vertically)

Pullback

- Horizontal Dimension from the front face of the bar to the rearmost point of the bar
- Measured in a front to rear direction (viewed from the side with the front face of the bar positioned vertically)

BIKER'S CHOICE

EXCLUSIVE

BIKER'S CHOICE® 1-1/4" FAT RISER BARS

Works with all standard controls, grips and risers.

- 1-1/4 in. thick
- Smooth swaged design
- Risers are 3-1/2 in. centers
- Pre-drilled, dimpled for wiring
- Clearance for hydraulic clutch control
- Polished and chromed finished
- Welds at risers, polished smooth
- 1/2-13 thread
- Made in USA

KHROME WERKS® WIDE SWEEPER CUSTOM HANDLEBARS FOR 08-15 ELECTRA GLIDE, ROAD KING AND ROAD GLIDE

Similar to P/N 491399 and 491345 Wide Sweeper Bars, except the throttle grip end is notched and the bar is milled for internal wiring to accommodate the new electronic throttle control sensor unit on 08-15 models.

- Formed from 1in. diameter, 14-gauge steel tubing, dimpled, knurled and duplex nickel chrome-plated
- No cable or brake hose changes normally required
- Made in USA

Note: +2 "Sweeper" on Electra Glide models requires a longer clutch cable, H-D® P/N 38649-98. Twist grip sensor kit H-D#32310-08 can be used with 29 in. and longer wires to eliminate wire splicing of the sensor unit.

WILD 1® ROAD GLIDE CLAMPING SYSTEM

Wiring can exit through the bottom of the handlebar instead of the front like the O.E.M. component. Created from T6061 billet aluminum for strength.

- Required to install standard handlebars on the 2015 Road Glide
- The clamping area is 1 in. diameter
- Comes complete with the risers and top clamp
- Made in USA

HARLEY-DAVIDSON	Year	P/N	Retail
FLTR	15-16	211520	120.00

WILD 1® TOP CLAMP

- 1-piece top clamp for Deuce® and Softail Deluxe® style risers
- Covers the 1 in. diameter center section of the Chubby® bars
- Precision machined from billet aluminum with a show chrome finish
- Fits stock Deuce®, Softail Deluxe® and same style aftermarket risers, all 1 in. handlebars and Wild 1 Chubby® bars
- Made in USA

P/N	Retail

ARLEN NESS RAD III HANDLEBAR CONTROLS

Now available in black, Arlen Ness presents the industry's first full-custom factory replacement hand controls. An evolution of the popular RAD II hand controls, the RAD III controls are guaranteed to give your stock handlebars a great new look. These full-custom hand controls are direct factory replacement that provides a custom look while utilizing factory switches, wires and functions.

- Brake master cylinders come in 9/16 in., 11/16 in. or 15mm bore size
- Available in chrome or black powder-coated finish

Includes:

Chrome kits include appropriate chrome switch housings, master cylinder with brake lever, and clutch assembly with clutch lever (switches not included)

Black kits do not include switch housings; each kit includes master cylinder with brake lever and clutch assembly with clutch levers

Note: 9/16 in. bore is for single-disc applications, 11/16 in. bore is for dual applications

ARLEN NESS

ARLEN NESS 10-GAUGE GRIPS

The fastest way to make your bike feel brand-new is to paint it. The second-fastest is to put some super grips on it. Fall in love with your bike again put some Ness 10-gauge grips on your bars. Billet aluminum accents are intricately machined and later finished in flawless chrome or black anodizing. All grips come with throttle sleeve installed where applicable and include grip glue and easy-to-follow instructions.

- For 1 in. handlebars
- Accents other Ness 10-gauge items
- Made in USA
- Sold in pairs

ARLEN NESS DEEP CUT COMFORT GRIPS

The perfect blend of form and function. Unique conical grip bodies are machined to perfection and finished in chrome or black anodize finish. Innovative rubber inserts have a soft air cushion feel that dampens vibration for a comfortable ride. Grips have a slightly larger diameter than stock, which helps with carpal tunnel and hand fatigue during long rides. Matches the Ness line of Deep Cut Accessories: matching pegs, floorboards, covers and many more.

- Cable or Fire-By-Wire applications

ARLEN NESS

ARLEN NESS FUSION SERIES GRIP

The perfect fusion of machined billet and high performance rubber. Each grip features good looks and excellent traction for your hands. Bevelled grips 1-1/4 in. billet collars and end caps feature deep machined pockets that are finished off with a beveled edge for a detailed yet clean look. Knurled grip rubber ensures excellent hand traction. Slot Track design features slotted 1-1/4 in. billet aluminum inner collars, diamond knurled grip rubber with Arlen Ness logo and slotted billet aluminum end caps. Port Hole, Deep Cut and Smoothie designs feature 1-1/4 in. billet aluminum inner collars, diamond knurled grip rubber and billet end cap with lazer Arlen Ness logo.

- Ring Leader design features linear style grip rubber with integrated air pillows for exceptional comfort; collars, rings and end caps are machined from billet aluminum. End cap features a lazer Arlen Ness logo
- Knurled design features diamond knurled grip rubber with integrated billet end cap for a clean minimalist look at an economical price
- All Fusion grips come with throttle sleeve installed, grip glue and easy to follow instructions
- Available in chrome or black anodize finish
- Matching Fusion footpegs, shift pegs and floorboards are available for each style (sold separately)

KURYAKYN

NEW!

KURYAKYN HEAVY INDUSTRY GRIPS

Don't be fooled by the rugged appearance of Heavy Industry Grips. The proprietary EPDM rubber compound provides a soft, vibration-dampening feel for long-haul comfort, while the tough industrial styling hides your softer side. Housings are made from quality cast aluminum with form-fitted premium EPDM rubber compound for comfort, durability and longevity. Knurled areas between rubber pads provide both style and added grip.

- EPDM rubber pads dampen vibration
- Includes matching aluminum end caps

AVON GRIPS AIR-SUPER SPORT GRIPS

Similar to the original air cushioned grips, the Air SS incorporates a system of air pockets inside the grip to dampen vibration. Does not have any surface bumps, rather a consistent surface diameter with Avon's popular knurl texture.

- Rubber with chrome or black aluminum cap and rings
- Fits 1 in. handlebars
- Made in USA

Heated Grips:

- Manufactured from Kraton, a USA engineered material
- Features machined aluminum end caps, collars and rings
- Sold in pairs

INTERNAL CONTROL KITS

Made with high quality components to ensure trouble free operation and installation.

- Uses left side grips
 - Fits 1 in. handlebars
- Note: Requires cutting 4 in. off end of handlebars.

Description	P/N	Retail
Internal Throttle Cable Black Vinyl (53" Cut to Length)	479990	21.99
Internal Throttle Kit	482416	107.50
Internal Clutch Kit	482417	107.50

S&S® THROTTLE ASSEMBLY KIT

Universal 48 in. throttle assembly is used with early style S&S carburetors including Early Style, L Series, Super B, Super D, and TWO-THROAT. It can also be used with any other carburetor which uses a screw clamp style throttle arm. Threads on both cables are the same size so cables are interchangeable. One end of each cable has a molded ball end, and the other end is plain. Cable can be cut to length required. Fits 1 in. diameter handlebars.

Description	P/N	Retail
48" Kit	484018	139.95
Throttle Grip Spacer 7/8" to 1"	484019	15.95

S&S® THROTTLE ASSEMBLY KIT FOR SUPER E AND G

These throttle assemblies are designed to update 1981 and earlier Harley-Davidson® chassis with 1 in. diameter handlebars for S&S Super E and G carbs or any other butterfly type carburetors with 1981-Up stock style throttle linkage. Cables are not interchangeable since they are specifically designed for the opening or closing side of throttle. Cable measurement is from throttle grip to end of cable housing, barrel fittings are molded in place. Kit contains throttle grips and both throttle cables.

- Select kit with cable length desired

BikeMaster

EXCLUSIVE BIKEMASTER® HEATED GRIPS

The elegant, open-end design makes these heated grips both stylish and functional. Highly efficient design delivers warmth faster than traditional heated grips. Five level temperature controller adjusts the grips accurately to avoid overheating. Specially selected rubber material resists the outdoor environment and provides a secure and comfortable grip. Even at high-temperatures, the grip remains resistant to damage.

- Removable end caps allow for use as open-ended grips when needed
- For twist throttle applications

Note: 12-Volt DC applications only.

SHOW CHROME® COMFORT HEATED GRIPS FOR V-TWIN

CNC-machined, cast aluminum with a brilliant chrome finish for a great look and durability. Ergonomically designed and have symmetrical vibration damping rubber inserts with a convex profile to fit the palm of your hand for unsurpassed comfort while riding. Variable position rheostat switch gives the rider ultimate control over the degree of warmth produced. Perfect way to keep your hands comfortably warm while riding during cool to inclement weather conditions. Control switch for cruisers easily installs on any 1 in. handlebar in a convenient position of the rider's choice.

- Fits 1 in. bars; not for 2008-12 H-D® Touring models

P/N	Retail

NEW! SHOW CHROME® INFERNO HEATED GRIPS FOR V-TWIN

Big Bike Parts® introduces its Inferno™ Grips for the Electronic Throttle Harley models. The Inferno™ Grips are made from extremely durable TPR rubber to not only grip easily but maximize heat to your fingers. Standard room temperature operation is a whopping 170°F which provides extremely comfortable heat when riding in the cold. Multiple textures and patterns in the rubber provide a comfortable grip and soothing style. The all new E-Z™ temperature controller is the easiest to use and provides the most functionality available. Single button control provides 5 pre-set heat settings with each touch of the button reducing 1 level until off. New smart logic design allows the activation of an optional battery saver mode which will shut the grips off if the battery voltage falls below 12.5 volts.

- Fits Harley with Electronic Throttle, 1" x 5-1/8" Bars

P/N	Retail
418950	89.95

HEAT DEMON GRIP WARMERS FOR HARLEY-DAVIDSON

Kit includes everything needed for fast, easy installation. Convenient and safe heat extends your riding season. Replaces half of the O.E.M. clutch or brake perch for a stock look and safe operation. Controller is available in either black or chrome finish. Four color LED lights indicate heat level and automatically dim for night riding.

- Works with most grips
- Totals 40-Watts and draws less than 3-Amps
- Fits all H-D® motorcycles, regardless of handlebar size or throttle type

* Allows for installation of any mirror with 1/4"-20 threaded stud

**KURYAKYN®
BLIND SPOT II
TURN SIGNAL MIRRORS**

Alert drivers around you of your intention to move. These classy mirrors have a LED amber turn signal directed to the side to get the attention of those drivers in your blind spot. The flat glass has a beveled edge and a sculpted mirror head that moves like silk in a ball-and-socket mechanism.

- Hardware for a variety of H-D® applications is included
- Mfg/N 1499
- Sold in pairs

Note: Street 500/750 models require adaptors P/N 498169.

P/N	Retail
419196	189.99

KURYAKYN® MIRROR CAPS

Highlight those great lines by adding a sparkle of chrome in an unexpected location.

- Also available with built-in amber auxiliary turn signals using simple plug-in connections
- H-D® 91945-98B
- Sold in pairs

**KURYAKYN®
TURN SIGNAL MIRRORS FOR V-TWIN**

A heavy-duty locking mechanism and swivel ball keep these mirrors from moving.

- LEDs work for a running light and an auxiliary turn signal
- Mounting hardware for a variety of H-D® applications is included
- Required Load Equalizer also included
- Not D.O.T. approved
- Available with flat or convex glass and feature an oversized swivel ball for superior lock ability
- Fits 65-17 H-D models (exc. 04-17 XL, XG)
- Sold in pairs

Note: Not recommended for Buckhorn style bars or 04-17 Sportster models.

Street 500/750 models require adaptors P/N 498169.

KURYAKYN

KURYAKYN® STOCK MIRROR COVERS

Quick, clean and a simple way to change the look of your stock mirrors without breaking the bank. 3-D flame design goes great with other Kuryakyn® Flame accessories. Black Hole model provides a trick contrast appearance. Ace of Spades includes black inserts that can be left black, custom painted or left out for a totally chrome look.

- Installs in minutes using high strength 3M VHB
- Fits all 03-17 H-D® models with O. E. handlebar mounted mirrors (except CVO/Screamin Eagle models or accessory mirrors)

Description	P/N	Retail
Flame Accents, Chrome (pr.) Mfg/N 1753	419429	39.99
Flame Accents, Gloss Black (pr.) Mfg/N 1754	419430	39.99
Ace of Spades Accents (pr.) Mfg/N 1755	419431	59.99
Black Hole Accents (pr.) Mfg/N 1756	419432	39.99

KURYAKYN® LIGHTED MIRROR STEM COVERS

Add some auxiliary lighting to your handlebars easily with lighted mirror stem covers.

- Amber LEDs provide run and turn function
- Chrome plated housings clamp securely to stock mirror stems and simple plug-&-play wiring adapters make connections a snap
- Mfg/N 1757
- Fits 03-15 H-D® O. E. tapered, short-stem mirrors. Will not fit stock CVO model mirrors or accessory mirrors
- Sold in pairs

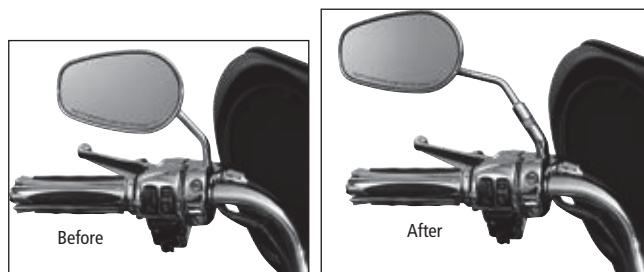

P/N	Retail
419433	109.99

NEW! KURYAKYN® MIRROR MOUNT ADAPTORS

Great for mounting Kuryakyn mirrors, also universal for mounting most mirrors with tapped 5/16"-18 hole.

P/N	Retail
418462	10.99

KURYAKYN® MIRROR STEM EXTENDERS

Extend stock mirrors outward about 3 in. and only slightly upward with these uniquely angled, chrome-plated mirror stem extenders.

- The extenders fasten to handlebars exactly like stock mirrors and re-use acorn nut or turn signal mounting swivels
- Exc. 500/750 Street

Mfg/N	P/N	Retail
1444	419422	44.99

NEW! KURYAKYN® RAISED MIRROR ADAPTOR

Provides a raised mirror mount location essential for mounting Kuryakyn mirrors on newer Indian, Victory and metric models. Raising the mirror mounting position 1-1/2 in. allows clearance from the brake master cylinder and improves visibility.

- Manufactured from quality stainless steel with a polished finish
