

HEATED GRIPS FOR MOTORCYCLE

KOSO TITAN HEATED CRUISER GRIPS

\$194.95-H

The New Titan custom bike or cruiser heated grips are perfect to warm you up with their 5 level heating function. The external controller with a 5 color LED display allows you to quickly know in which heat level the grips are set. These grips are easy to adjust the temperature level without removing your hands from the handlebar for a safer ride. The Titan heated grip also features Koso's "Low voltage warning" that will automatically turn off the heated grips in case the voltage goes under 12 V, and it's "Short circuit protection" will help avoid damages to the control by cutting off power to the grips in case of short circuit.

- Available in chrome or black finish.

PART #	DESCRIPTION	FINISH
709-050	Fits 7/8" & 1" bars with twist throttle	Black
709-051	Fits 7/8" & 1" bars with twist throttle	Chrome

KOSO TITAN X HEATED GRIPS FOR HARLEY DAVIDSON MOTORCYCLES

\$194.95-H

Power on and adjust the temperature of the Titan-X heated grips with Koso's innovative thumb switch design. Made of aluminum and high quality soft to the touch rubber, these heated grips are offered in a chrome or black finish. These grips will take the love for your Harley to the next level.

The Titan-X heated grips feature an integrated 5 temperature level thumb switch which provides riders the ability to easily change the temperature of the grips without removing their handles from the handlebars. The 5 color LED display allows the easily see which temperature setting is currently being used. The Titan-X grips also feature a low battery voltage protection. If the battery voltage becomes low the Titan-X grips will automatically shut off in order to preserve battery power.

- Choose throttle type (electronic or cable throttle) and finish (chrome or black finish)

POLLY HEATER HI-LOW MOTORCYCLE KIT

710-4166

\$39.95-H

This kit contains heaters which have a dual heat setting; however, they are different from the snowmobile kit because they are manufactured to run slightly cooler. In addition this kit contains a metal bound switch, and various additional items to facilitate installation. The heaters are 5/8" in diameter and 2.030" long. There is a retaining clip welded on to the cartridge which can be adjusted for a snug fit. They operate with 12 VAC or 12 VDC drawing approximately 3 amps for both heaters (1.5 amps per heater) on both heat settings. They can be installed on any motorcycle that has a handlebar with an inner diameter measuring more than 5/8", and a regulated electrical system.
