TERMS OF SALE

Cash or check payable directly at the close of the sale and prior to any shipping arrangements unless prior agreements have been made with the owner in advance. All lots sell under

the standard Terms and Conditions set forth by the American Hereford Association. All guarantees are between buyer and seller only, the auctioneers/sale managers act only as agents. Announcements at the sale by the owner or auctioneer take precedence over written material in the catalog.

BID LIVE

Can't make the sale? Watch it live and bid in real time on

DELIVERY

The buyer is responsible for all shipping costs unless other arrangements are made between the buyer and seller. Delivery is not part of the sale agreements.

PERFORMANCE INFORMATION:

All EPDs are current according to the official AHA record as of November 1, 2021 and are subject to change.

Dear Hereford Breeders and Enthusiasts,

It is with great excitement and enthusiasm that we welcome you to the "Hereford Eve" in OKC frozen genetics sale. We would especially like to thank the outstanding breeders and consignors that have dug deep into their respective arsenals to put together a power packed sale offering. This sale has proven to be the platform to present the freshest and hottest genetics within the Hereford breed as there have been multiple success stories from purchases right through this event. With the fast paced ever changing world we live in, the importance of utilizing the most elite, dominant, proven, and top tier genetics is more imperative than ever before. We strongly feel you will find just that kind of quality and opportunities while flipping through this catalog, with genetics that are sure to add value to your program and bottom line. We thank those who have supported and purchased from this sale and invite everyone to attend for what is sure to be an exciting event. We would like for you to study your operation's needs and future goals and highly encourage your inspection and attendance Thursday evening. Thank you in advance for your consideration, as always, if we can be of any assistance please do not hesitate to contact us.

Respectfully,

Cody Lowderman

HYFA DONATION LOT B**

Trans Ova Genetics presents this donation for 1 certificate for \$500 towards any service provided by Trans Ova*. These services can be performed at any of our regional or satellite centers, as well as our headquarters in Sioux Center, Iowa.

Trans Ova Genetics is the industry-leader in advanced reproductive technologies including embryo transfer, in vitro fertilization, sex-sorted semen, as well as genetic preservation and cloning services. With more than 37 years of experience, Trans Ova Genetics is the best partner to equip you with the tools you need to achieve your breeding goals. Our vision is to help clients "Multiply Success®" by assisting them in increasing the genetic impact of their success in their breeding programs.

*Excludes recipient and calf products.

TRANS OVA
genetics

EMBRYO INTEREST

In something we've never offered anywhere before, you have the opportunity to tap into some of the newest genetics we have to offer, and a set of females that are the cornerstone of our program. Our program for years has been selling 150+ bulls that are built to thrive on native grass in the high desert. Our females calve in large (3,000 acres) pastures and must thrive in that environment or are eliminated. With our "No Second Chance" policy on fertility we have built a cowherd that is geared to thrive almost anywhere. The following three females represent our future, and we're offering a breeder a chance to partner with us on that future. Selling a 1/2 embryo interest in your choice of these three young donors. Genomic results will be updated by sale day.

- 9233 is a member of an extremely consistent flush. Her full brothers averaged \$8,000 in our spring bull sale, going to work in some of the intermountain regions most respected commercial cowherds. She is bold in her design, pretty on the profile and has an extremely clean udder. 9233 is sired by the ever popular, and limited sire, Resolute 128D. His daughters have become in huge demand across North America. 9233's dam is part of a cow family that has been with DCR 50+ years and has stood the test of time. She has become a top cow in her young production life ratioing 116 for WW on 2 calves. 9233 ranks in the top 5% for YW, top 10% for REA, Top 15% for SCF and BMI (stayability) and top 20% for WW.

- 9206 is part of the Ella cow family that has been one of the longest standing, highest dollar generating cow families ever at DCR. Her dam sports production ratios for REA and IMF of 114 and 112 respectively. One flush sister of hers sold for \$10,000 and another for \$5,000 in the recent Mohican West production sale. 9206 is a deep bodied, broody made female that is extremely pretty in her design.

- Rounding out this trio of females is the fall bred 8639. Another member of the Ella cow family, 8639's first calf has had a successful show career in our region. She is extremely pretty fronted and feminine in her design, but powerful enough in her rib shape to produce range bulls. Extremely balanced in her EPDs, you can breed her just about anyway you choose.

RIGHT TO FLUSH HERD

- A rare opportunity to capitalize on the best of Coyote Ridge Ranch's genetics
- Take a walk in our pasture and you will appreciate our balanced approach to producing some of the most impactful genetics in the breed.
- Let our best work for you. CRR genetics have influenced landmark herds across the country and have contributed to their success.
- It will be our pleasure to work diligently with the buyer to ensure the success of this offering.
- Guaranteeing six (6) transferable embryos with the buyer to receive everything up to ten (10) embryos. If more than 10 embryos are made, then the buyer and seller will split anything over ten 50/50. In the case sexed semen is desired for the flush, then the work must be done by IVF.

RIGHT TO FLUSH CHOICE OF DONORS

- We wanted to offer something super special. We are going to open up our gates and offer the right to flush any of our donor females. We are giving you opportunity to flush any of the new donors that were recently acquired from the John Loewen (Loewen Herefords) herd. Also included is "642Z", the dam of "Dilly", the \$40,000 selection by Hoffman Ranch and Buck Cattle Company in OKC last year. Take advantage of this big time investment opportunity as this doesn't come available often. Buy with confidence.
- Guaranteeing six (6) transferable Embryos with NO CAP. Guaranteeing two (2) pregnancies if transferred by certified technician.

- Unique opportunity to buy embryos with the WOW factor. Imagine the show ring presence this mating will possess. The added quality and phenotype this mating has is a no-miss mating. Sired by the \$40,000 "Dilly" purchased by Hoffman Ranch and Buck Cattle Company. 33D was our selection from the Happ Program in 2020.
- Selling four (4) conventional embryos, guaranteeing two (2) pregnancies when put in by a certified embryologist.

RIGHT TO FLUSH CHOICE OF DONORS

- Here is something that has never been offered before ... we're selling the right to flush your choice of our 4013 and 4020 daughters.
- Selling one flush, conventional or IVF, to the buyer's choice of donor cows. The exception is 0067, which must be flushed IVF. Guaranteeing a minimum of six (6) embryos with NO CAP!

- 650F is a full sister to our new hersire Whitehawk Chief 318G and a full sister in blood to Whitehawk Natural 290E (the #1 CHB bull in the breed at 241)! She's a high capacity cow with a beautiful udder.

- 659F is a powerful female that is square hipped, lots of spring of rib, great fronted with a pretty udder. She has two sons in our 2022 Pen of 5 Bulls in OKC, and there is no animal in the Hereford breed to match her complete EPD and Index profile with her tremendous overall performance.

- 080G stands out to date as the highest performing female at WHR in all phases of performance. Her first calf had an Adj WW of 722 lbs to ratio 104 and is in our 2022 Cattleman's Congress Pen of 5 Bulls.

- 0067 was our pick out of the '20 Colyer Fall Sale. Perfect combination of genotype, phenotype and EPD profile. Her dam was part of one of the breeder's most incredible flushes, being flushmates to Double Your Miles, Diversified, Special Edition, and Spot On.
- Co-owned with Dry Creek Farms, Carter St. John 205-705-4041, and Aden Family Farm.

- We call her "Miss Spread" because this donor dam is the #1 animal in the entire Hereford database when you search for her minimums for CED and YW and a maximum for BW. 157F was the high selling female in the spring 2019 NJW Bull and Female Sale commanding \$65,000. This HOMOZYGOUS POLLED direct daughter of Endure has one of the elite performance EPD profiles in the breed. She is a +85 for WW and +144 for YW! She not only has performance, she has value added carcass merit and maternal strength to compliment her Solid EPD profile.
- Guaranteeing six (6) transferable embryos and one (1) pregnancy (if put in by certified technician) with all embryos produced going to the buyer.

- 7098 has caught the attention of the Hereford industry in the last two years. Those who have seen her in production have been amazed at her udder quality and overall complete structure. 7098 continues to rank in the top 1% of the breed for these important traits: Sustained Fertility, Ribeye, Marbling, BMI Index, and CHB Index! Her progeny are just getting started and have been in high demand.
- Her first daughter sold for \$17,000 in the Birdwell Sale.
- A daughter, Churchill Lady 1221J, just sold half interest for \$30,000 at private treaty.
- A granddaughter sold for \$42,500 in the Hoffman Sale.
- Two daughters that were 5-months-old sold in the Churchill Sale for \$10,000 and \$9,000.
- The pick of her Genesis calves sold for \$21,000 in the OKC Sale last year.
- A son, Churchill Red Thunder, will be offered in the OKC Sale this year.
- Another son, Churchill Gunsmoke, will be the featured Lot 1 bull in the Churchill Bull Sale.
- This will be an IVF flush performed at Churchill Cattle Co. by Trans Ova personnel. The seller guarantees six (6) freezable embryos. 7098 has an excellent track record for getting embryos to turn into pregnancies. The flush will be available between February 1, 2022 and March 20, 2022. The buyer is responsible for all flush costs.

- Offering one (1) IVF flush to be completed in March 2022. Guarantee six (6) embryos. Anything over 10 will be split between the buyer and seller. The flush will be performed at Churchill Cattle Co. using Trans Ova personnel.
- The Lot 1 and \$78,000 high selling heifer calf from the Hoffman Ranch Sale is one of the most impressive and high-quality females that you will find! Here is what Jason Hoffman said about her in their catalog, "She could be the best heifer that we have offered in quite some time. Unbelievably good up through her front third and exceptional in her chest. She is big legged and perfect in the way she uses them. She has a huge foot under her and is so good over her top and in terms of muscling. She is outstanding on her feet and legs, is big and square through her pins, yet she puts it all together in as feminine of a package as you can find."
- Two maternal sisters were either grand or reserve at recent junior nationals. This is your only chance this spring to make progeny out of a truly dominating young Hereford female!

- 19Z is a consistent, outstanding producer. She is a Dam of Distinction and a maternal sister to the great donor 45C and to AH JDH Munson 15E. She is the dam of Mercedes, the lead heifer in the 2018 Champion pen of three heifers in Denver who sold in the Mile High Sale for \$30,000 and has gone on to be the dam of Makers Mark and other high sellers. 19Z's natural calf in 2015 was the pick of the Delaney/ Atkins Denver carload selling for \$20,000. Her daughter by Montgomery sold in the 2021 OKC sale for \$28,000. Embryos from 19Z sold in the 2020 Mile High Eve sale to Everhart Herefords and produced 2 herd bulls. She is the dam of both of the choice of our sale heifers in OKC this year. She is homozygous polled, moderate framed, big volumed with low BW and high growth and marbling. She raises a calf every year and as a 9-year-old this summer weaned one of our best heifer calves. These embryos offer our latest genetics mated to one of our most consistent producing dams ever!
- RST Final Print 0016 is one of the most exciting young sires in the breed. Recently the first 100 straws of semen to be sold on him commanded an average price of nearly \$500 per straw! He is an extremely powerful, sound, attractive individual with an outstanding EPD profile and tremendous birth to yearling spread. He is pigmented and freckle faced and this mating to the homozygous polled 19Z could be her best ever! Selling four (4) Grade 1 IVF embryos stored at Trans Ova Genetics in Sioux Center, Iowa.
- Guaranteeing one pregnancy if implanted by a certified embryologist.

- With the untimely death of Benton, his semen and genetics is in high demand. Benton brings outstanding growth plus high REA, marbling and \$CHB combined with great milk, udder and teat quality. Benton's dam, the great 45C, is a maternal sister to 19Z, the dam of these embryos. This cow family has given us many of our best in recent years. We believe stacking this great producing cow family could yield something special. Selling four (4) Grade 1 IVF embryos stored at Trans Ova Genetics in Sioux Center, Iowa.
- Guaranteeing one pregnancy if implanted by a certified embryologist.

- One of the very best young females we've got on the ranch is this 33Z daughter. G221 is out of possibly the most prolific donor cow in the breed today, Ladysport 2205. She's the dam of many of the top herd sires and donors spread all across the land. Mating her to the now deceased 33Z was a no brainer. Just take a look at her EPD profile. Great calving ease to growth spread with strong maternal and carcass. This homozygous polled female ratioed 113 for REA.
- Selling three (3) IVF embryos with a guarantee of one (1) pregnancy if implanted by a certified embryologist.

• Never before offered! This mating needs little introduction after producing the \$107,500 high seller at the inaugural Cattlemen's Congress, BAR STAR FRESH PRINCE 018 ET. The first flush of 410 to Belle Air resulted in four bulls that are walking in registered operations, the reserve division bull calf pen at OKC, the high seller at Black Hills Stockshow, and averaged over \$25K on 6 progeny. Here's your chance to get a polled Belle Air on the ground through a highly proven mating.

• The second choice of these matings offers something truly unique. We feel that Whatagirl 410 was made to be mated to Genesis. Genesis continues to impact the breed with high sellers throughout the fall sale season on his first crop. Those that have seen 410 know just how massive she is on the hoof. Her dark red color and powerful phenotype combined with G16 should be a no-miss homozygous polled mating with limitless potential.
 • Selling choice between the two matings. Each mating is four (4) IVF embryos with a guarantee of one (1) pregnancy if implanted by a certified embryologist.

FOUR (4) IVF EMBRYOS

- I'm not sure there's enough room in this catalog to fully describe the impact 45C has had on the Hereford breed, as well as the revenue generating potential in her progeny. When Atkins and Delaney marketed her in their sale this past spring, we jumped at the opportunity. Considering the impact she will have on our program, her \$87,000 price tag is a worthy investment.
- 45C has generated well over \$300,000 in live progeny and has sons working in some of the most prestigious herds in America. As the mother of herd bulls, her sons include: Prominent, Stand Out, Benton, Substance and Miles Ahead, among others. Her full brother, Munson, was Junior Calf Champion in 2019 at the National Western and sold for \$60,000 in the Mile High Night.
- With her exceptional growth and carcass EPDs, all these matings offer calving ease genetics. The progeny produced won't miss.
- The mating to Stud will be full sibs to Benton, Standout and Prominent.
- Each mating is four (4) IVF embryos with a guarantee of one (1) pregnancy per mating if implanted by a certified embryologist.

- This young cow is making her mark on the breed quickly! As a two-year-old she raised RST Final Print 0016 who is causing a stir. His first 100 units of semen offered to the public recently sold at auction for an average of just under \$500 per straw! Her second calf, a heifer, recently sold to Loewen Herefords and Candy Meadow Farms. She is moderate framed and freckle faced with a beautiful pigmented udder. Her EPDs are hard to match with a BW of just 0.4 and Calving Ease Direct of +10.6. Her WW EPD of 73 is in the top 1% of the breed and YW EPD of 114 is in the top 2% of the breed. Milk is also in the top 2%. On top of that her marbling and \$CHB is in the top 1% of the breed! Her mating to these two sires offers unlimited potential to produce herd bulls or donor quality females.
- Entice is siring stout, high performing bulls and heifers with pigment. Entice is the sire of our bull and one of our heifer entries to this year's national sale here in OKC. His EPDs for growth are near the top of the breed with a WW of 85 and YW of 139 both well into the top 1%. In addition SC, M&G, CW, and REA are also in the top 1%. His mating to 8032 should yield great sons and daughters.
- Selling four (4) Grade 1 IVF embryos stored at Trans Ova Genetics in Sioux Center, Iowa.
- Guaranteeing one (1) pregnancy if implanted by a certified embryologist.

- Standout is doing a great job siring high performing cattle with tremendous muscle shape, bone, rib and volume. His EPDs for WW, YW, M&G, CW and \$CHB are all in the top 1% of the breed. Plus his REA is in the top 2% and Marbling in the top 5%. The mating of Standout and 8032 complement each other beautifully.
- Selling four (4) Grade 1 IVF embryos stored at Trans Ova Genetics in Sioux Center, Iowa.
- Guaranteeing one (1) pregnancy if implanted by a certified embryologist.

HEREFORDS FOR TODAY'S CATTLEMEN

It is our firm belief, when Breeding Cattle, the "Balanced Trait Approach" is the right one! We want as much performance as we can get while maintaining that "Critical Balance" of calving ease, cowherd and feedlot efficiency and proven carcass value. All the while, never forgetting the "Unmeasured Traits" of structural soundness, udder quality and attachment, mothering ability, vigor at birth, disposition, fertility and longevity.

TAKE ADVANTAGE of using a Hereford bull on Your Angus...

- Heterosis = extra lbs. at weaning
- Improve fertility, feed efficiency and docility in your herd!
- Longevity ...get more years of use from a Hereford bull!

- Talk about something special here ... a full sister to this mating commanded \$56,250 in our fall heifer sale this past October! After genomic testing, this heifer's BW went down to a 2.7. Even out of DeBerard the birthweight will be acceptable. This mating is destined to have you in the purple. The dam of this mating goes back to the \$175,000 donor dam, Olivia. Olivia's Time had quite a successful show career in her own right. She has terrific balance to her EPDs with light birthweight, big spread to growth with a huge REA. Progeny from this mating to DeBerard will have tremendous eye appeal and power.
- Selling three (3) sexed female IVF embryos with a guarantee of one (1) pregnancy if implanted by a certified embryologist.

Dam:	86	1.30	1.30	69	0.073	0.23	0.58	419	529	152

- "5047" progeny have dominated our last two production sales, most recent a bred heifer sold for \$20,000, a right to flush for \$10,750, and a Belle Air son commanded \$20,000 as Lot 1 in the 2020 Bull Sale. 5047 herself is wide based, big square hipped, bold ribbed, moderate framed, and extremely easy fleshing. She is a maternal powerhouse posting flawless progeny production ratios to average: BW 94%, WW 109%, YW 107%, REA 105%, IMF 134%.
- We look for the calves out of this mating to C Key West to be elite and powerful in their type and kind, equally impressive in their pedigree and with an EPD profile that is modern yet balanced and very useful.

We're giving you options on two of our very best to choose from. To start off, you can pick this mating out of the immortal 58Z cow. The last time the breed saw her, she commanded \$60,000 during the 2020 Mile High Night Sale. 58Z is the dam of Contender D56, who has been very influential within our breed and was the 2018 NWSS Reserve National Champion Bull. This combination with Makers Mark is something truly unique. In addition to producing beautiful phenotype progeny and show heifers, just look at the performance this mating will offer. These progeny will be in the top 20% or better for CE, WW, YW, CW, and MARB including being in the top 3% for REA.

Not a lot needs to be said about the second choice to this mating ... you're bidding on 3/4 sib embryos to the great KJ MHPH RW 364C MEDIA 240J ET. 25% of Media sold for \$240,000 this past fall in the 2021 Autumn Alliance Sale in Canada. You can ask for more proof of the potential revenue value in these progeny. Salsa Time herself was the lead-off heifer in the 2020 "Chosen" Sale. She possesses an excellent phenotype, is super feminine and sound.

Selling choice between the two (2) matings. Each mating is four (4) IVF embryos with a guarantee of one (1) pregnancy per mating if implanted by a certified embryologist.

NJW 79Z 10W RITA 11B — Dam of Lot 18B

- 16 years old, 14 natural calves, 145 progeny. Her name graces the pedigrees of more animals than not in our herd and she is the most prolific and influential cow we have ever owned! The dam of Trust, 8Y, 10Y, Hutton, Rimrock, Ridge and numerous other well known, top producing herd sires.
- We selected 4013 to compliment her with his added and proven carcass and performance values. We, at NJW, are anxious to see the results of this mating and anticipate the offspring to be a **NEW FOUNDATION LINE** for our herd!
- Selling five (5) conventional embryos with a guarantee of two (2) pregnancies if put in by a certified embryologist.

SHF SOLDIER Z311 D97

- D97 was our pick out of the 2021 Sandhill Farms Production Sale. Kevin regularly markets all of his 5-year-old cows carrying a heifer pregnancy, and this homozygous polled female is a perfect fit for our program. This mating with Daybreak will produce progeny that are built for today's beef industry. The resulting calves will be in the top 2% of the breed for Marbling and CHB, top 5% for CE, top 20% for WW and top 25% for BW and REA. In addition, they will be in the top 10% for BMI which is a terrific indicator for stayability.
- Selling five (5) embryos with a guarantee of two (2) pregnancies if implanted by a certified embryologist.

PCC New Mexico 6002 is truly a bonified producer. Her progeny gravitates to the top of every calf crop. She always found her way to the winner circle as there wasn't a judge in three years that didn't appreciate her for her mass, volume, femininity, and cow charter. 6002 was the 2017 Show Heifer of the Year and the 3-time undefeated National Champion Cow-Calf Pair. She seems to click with every mating that has been used on her. The amount of presence and quality that will come out of the mating with the NWSS Supreme Champion bull, Dominate 308F, will be second-to-none.

8205 is phenotypically the best-looking cow on the ranch. She has perfect teat and udder, and her genetic profile gives us a lot of versatility in our matings. We can't say enough good about our Fortified calves. Our February 22, 2022 bull sale will feature his sons, and the daughters fixing to come into production look outstanding. There is no doubt these embryos will yield you something special.

- Without a doubt one of the most exciting and freshest matings we have made. Marksman has hit the ground running in the show ring with the success of his first calf crop winning multiple divisions and Grand and Reserves at national shows around the country. Kelly 166 is a big middle, ultra sound, large outlined cow that we feel will really click well with Marksman. We feel that the calves from this mating will not only excel in the show ring, but will go on to make front pasture cows and herd bulls alike. Selling four (4) IVF embryos with the guarantee of one (1) pregnancy if implanted by a certified technician. Embryos stored at Hoofstock Genetics, Ranger, TX.

• We think this could be the "mating of the year!" 333 is without a doubt one of the most influential females in the breed! Fresh Prince was the most talked about in OKC last year. Offspring from this mating will be herd changers.

• G92 is one of the ranch favorite two-year-olds. Check the carcass numbers on this sweet uddered, young donor. She is the #2 female in the entire breed when you search for REA and MARB. Distinct was a feature bull in the Hoffman sale. He commanded \$55,000 for 1/2 interest. This mating is a no-miss for performance and carcass.
• Selling choice of these two matings, either the foundation mother or the exciting young daughter! Four (4) IVF embryos per mating and guaranteeing one (1) pregnancy per mating if implanted by a certified embryologist.

HILLS-GALORE 44Z RESOLUTE 128D

- 810 is a super sweet fronted full sib to the \$80,000 Atkins/Delaney 45C donor.
- She has the udder quality we all dream of in a donor and puts all the pieces together to make a great one, paired with the ever-popular, Resolute 128D.
- 128D semen is in VERY short supply and has produced high sellers in several top Hereford programs. He will add bone, rib shape, and thickness.
- 810's first calf ratioed WW@116 and YW@128. She ranks 11 EPD traits in the TOP 10%.
- This mating will be HOMOZYGOUS POLLED and rank among the very elite in terms of phenotype, genotype, and marketability.
- Selling three (3) embryos with a guarantee of one (1) pregnancy if implanted by a certified embryologist.

- One of the most unique young sires in the breed. We challenge you to find a hole in him phenotypically or in his performance and EPD profile. He ranks in the top 20% for 15 economically important EPDs. 69 pounds and 120 WWR and 105 YWR and raised on his first calf heifer dam with no creep. His pedigree is stacked with some of the greatest cows in the history of the breed.
- We thought enough of this young sire to purchase 3/4 interest in him in the 2021 Colyer bull sale for \$80,000. Key West will play an important role in both of our programs going forward.
- Selling 10 packages of 5 units of semen.

Sancho

- Years from now when breeders talk about the legacy "Sancho" leaves on the breed, he will go down as one of the top maternal prospects in history. Just look at the cow families combined in his pedigree. He combines great calving ease, big time growth spread and a huge REA. You can use him almost any way you like, and you'll keep almost every daughter.
- Selling 5 packages of 3 units of 4 mil sexed female semen.

LOEWEN GENESIS G16 ET

- There was no more talked about bull within the Hereford breed over the past two years than Genesis. He has proven to be one of the most popular young bulls in history. He is ideal in his phenotype combined with a tremendous EPD profile. His striking color pattern and being homozygous polled will add to the value of his offspring.
- As his progeny have come along, there is no doubt Genesis has lived up to the hype. Just visit any of the partners' stalls here in OKC and see what he's capable of producing.
- Selling packages of 5 units with more terms to be announced sale day.

- The Supreme Champion Hereford & Champion Horned Bull during the 2020 National Western Stock Show, Dominate has sired numerous high sellers for both Buck Cattle Company and Hoffman Ranch. We have received more positive feedback on him of any other bulls we've sold semen on. A proven revenue generator, his sons are just as high quality as the female progeny. Look for his daughters to be exceptional producers as his dam has excellent udder quality. A bull whose pedigree is stacked with longevity, he will weather the tides of time. This is one of the only chances in 2022 to buy a volume of semen.
- Selling packages of 5 units with quantities to be updated sale day. Buyer is responsible for all shipping costs.

- Offering sexed heifer semen on KJ BJ 309C Leader 182F. Offered in 5 packages of 5 units. 182F was Lorenzen's pick from the 2019 Jensen bull sale. In just two calf crops, he has quickly become what many believe is the best R Leader son in production. His progeny are incredibly sound moving, balanced and big bodied. Anticipation is building as his first daughters will be coming into production next spring with ideal teat and udder placement.
- To top it off, he's heifer safe with a tremendous set of EPDs. Sexed semen on 182F is not on the open market and will only be available in special sales like this one!
