

Heroes Working Together to Serve MILLIONS & MILLIONS of MEALS

At the end of World War II, the country realized that the health of our children was a matter of national security as was ensuring and protecting our means of growing our own food. The National School Lunch Program (NSLP) was established under the National School Lunch Act (NSLA), signed by President Harry Truman in 1946, to “safeguard the health and well-being of the Nation’s children and to encourage the domestic consumption of nutritious agricultural commodities and other foods.” When COVID-19 closed our nation’s schools on March 13th, the program still needed to continue to ensure the health and well-being of our nation’s children. California School Nutrition Association members rose to the challenge. They Showed Up and Made It Happen while Pivoting Together to ensure our kids had access to these nutritious meals. Could the themes for the two years have been any more appropriate or fit better together? Here is a sample of some of our members programs. They are the School Nutrition Heroes we are so proud of!

Santa Clara Unified School District

Capistrano Unified School District

Paramount Unified School District

West Contra Costa Unified School District

Meals Served:
11,000,000

San Diego County Office of Education
