High School Course Descriptions Catalog
Introduction

[Return](#)

District Leadership and the Division of Curriculum and Instruction and Assessment support the EPISD Vision Statement by ensuring that every student graduates from high school with the most rigorous education to enable them to be productive and contributing members of their community. Thus, the *High School Course Descriptions Catalog 2014-2015 Edition* is designed to provide District personnel with the latest information on course listings that meet district and state guidelines and graduation requirements.

It is the District's expectation that all individuals responsible for supporting students be fully aware of the academic path students will need in order to meet the Board Immediate and Long Term goals. The information in the *High School Course Descriptions Catalog 2014-2015 Edition* serves as a guide for district individuals (administrators, counselors, master schedule designers, teachers, and others) responsible for providing a program of instruction which meets state and district guidelines.

District personnel are encouraged to refer to this *High School Course Descriptions Catalog 2014-2015 Edition* as an initial step in reviewing policies and requirements related to curriculum and graduation. Course numbers and titles are to be used at the campus level as printed in this catalog in order to meet the standards required by the Texas Essential Knowledge and Skills requirements.

The Guidance Services Department continues to provide a valuable service to the District by editing and coordinating course listings. For questions not answered in this edition of the catalog, please contact the appropriate individuals in the specific department in question. All suggested changes, deletions, or corrections should be addressed to the Director of Guidance Services.

The *High School Course Descriptions Catalog 2014-2015 Edition* has been updated as of **July 2014**. Additional information will be incorporated as federal, state, and district mandates dictate. Campuses are encouraged to maintain at least one hard copy of the *High School Course Descriptions Catalog 2014-2015 Edition* as a reference for administration and counselors to facilitate the scheduling process for students.

Course Code: HE1000Y1 **Long Name:** English 1 (ENG 1)
Short Name: Eng 1 **Recommended Grade Placement:** 9 **1 credit** **State**
Service Id: 03220100 **2012 Course Code:** E30000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: Students enrolled in Part 1 of English I read extensively in multiple genres from world literature. They learn literary forms and terms and interpret the possible influences of the historical context on a literary work. STAAR reading and writing objectives are identified, taught, and reinforced throughout the semester. English I provides practice in all forms of writing, especially the literary and expository essay; students write to persuade, to report, and to describe. They edit their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English, with the goal of producing error-free final drafts.

Course Description: Students enrolled in Part 2 of English II refine their literary analysis skills through reading and responding to a wide variety of fiction, nonfiction, and poetry selections. Students gain more experience in planning, drafting, proofreading, and editing compositions. Reinforcement of STAAR reading and writing objectives continues.

Course Code: HE10GQY1 **Long Name:** English 1 Pre-AP (ENG 1)
Short Name: Eng 1 PAP **Recommended Grade Placement:** 9 **1 credit** **State**
Service Id: 03220100 **2012 Course Code:** E30300 **GPA:** TIER 2-PAP **Duration:** Year
School (s): All Schools

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:**

Course Description: Students enrolled in Pre-AP English I will be provided background vocabulary, literary terminology, and skills for the study of the short story, non-fiction, poetry, and the novel. Emphasis is placed on analysis of reading selections, concentrating on Pre-AP skills such as the use of diction, imagery, and tone. STAAR reading and writing objectives are identified, incorporated into the curriculum, and reinforced throughout the semester. Using the writing process, students produce literary, descriptive, informative/expository, persuasive, and analytical paragraphs and essays. To enhance students' frames of reference, cultural literacy units are included. All Pre-AP courses provide a more in-depth coverage of concepts.

Course Course Description: Students enrolled in Pre-AP English I will continue their study of literature, focusing on drama, epic poetry, and the novel. While focusing on Pre-AP skills, students continue developing their analytical skills and writing skills. STAAR reading and writing objectives continue to be reinforced and cultural literacy units are included to enhance students' frames of reference. All Pre-AP courses provide an in-depth coverage of concepts.

Course Code: HE2000Y1 **Long Name:** English 2 (ENG 2)

Short Name: Eng 2 **Recommended Grade Placement:** 10 **1 credit** **State**

Service Id: 03220200 **2012 Course Code:** E32000 **GPA:** TIER 3 **Duration:** Year

School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** English I

Course Description: Students enrolled in Part 1 of English II will continue to increase and refine their communication skills. An emphasis is placed on expository and persuasive forms of writing such as logical arguments, expressions of opinion, and personal forms of writing such as response to literature, reflective essays, and autobiographical narratives. Students apply basic library and research skills to create short, documented reports.

They continue to read selections in multiple genres including the short story, the novel, and poetry. Students enrolled in English II The study of archetypes and cultural literacy provide a frame of reference for literary allusions. Vocabulary development and word relationships are addressed in preparation for the ACT PLAN. Reading and writing TAKS objectives are addressed throughout the course.

Course Description: Students enrolled in Part 2 of English II will add drama to their study of genres and read at least one additional novel. They continue to read a wide variety of selections from nonfiction, American literature, English literature, and world literature in translation. TAKS objectives are reinforced.

Course Code: HE20GQY1 **Long Name:** English 2 Pre-AP (ENG 2)

Short Name: Eng 2 PAP **Recommended Grade Placement:** 10 **1 credit** **State**

Service Id: 03220200 **2012 Course Code:** E32500 **GPA:** TIER 2-PAP **Duration:** Year

School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** English I or Pre-AP English I

Course Description: In addition to the English II curriculum, students enrolled in English Pre-AP II will be provided an in-depth analysis and interpretation of literature. Incorporating advanced vocabulary, students develop personal, expository, imaginative, and analytical writing. Vocabulary development and word relationships are addressed in preparation for the ACT PLAN.

Course Description: In addition to the English II curriculum, students enrolled in English Pre-AP II will enrich their study of nonfiction, drama, poetry, and the novel. Using advanced vocabulary and sentence structure, students strengthen persuasive and imaginative writing techniques and produce documented reports. Emphasis on cultural literacy continues; Pre-AP skills are incorporated to enhance students' understanding and analysis of reading selections; and TAKS reading, writing, and interpretation objectives continue to be refined. All Pre-AP courses provide more in-depth coverage of concepts.

Course Code: HE3000Y1 **Long Name:** English 3 (ENG 3)

Short Name: Eng 3 **Recommended Grade Placement:** 11 **1 credit** **State**

Service Id: 03220300 **2012 Course Code:** E34000 **GPA:** TIER 3 **Duration:** Year

School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** English II

Course Description: The literary focus of English III is American literature from 1600 to 1890. In addition, students practice all forms of writing, using the writing process to draft, revise, and edit their writing, resulting in error-free final compositions. An emphasis is placed on persuasive forms of writing such as logical arguments, and expressions of opinion, and personal forms of writing such as response to literature, analytical and reflective essays, and autobiographical narratives. Vocabulary development and word relationships are addressed in preparation for the PSAT. Because junior students take the exit-level TAKS, tested objectives are emphasized throughout the course.

Course Description: As a continuation of English III, students will continue their study of American literature by reading selections dating from 1890 to the present. Students expand their writing and research skills by producing individual research papers relating to American culture/literature. TAKS objectives continue to be reinforced.

Course Code: HE30GPY1 **Long Name:** English 3 AP (APENGLAN)
Short Name: Eng 3 AP **Recommended Grade Placement:** 11 **1 credit** **State**
Service Id: A3220100 **2012 Course Code:** E344A0 **GPA:** TIER 1-AP **Duration:** Year
School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** English II or Pre-AP English II

Course Description: Advanced Placement English Language and Composition is a challenging course encompassing an in-depth study of major American literary periods from 1600-1890 and incorporates the study of tone, rhetoric, diction, imagery, language, and syntax. Students produce comparison-contrast compositions, dialectical journals, and critical, literary, and causal analysis. Vocabulary development and word relationships are addressed in preparation for the PSAT. Timed writings in preparation for the AP English Language and Composition Test are also practiced. The curriculum is designed by each AP teacher and approved by the College Board.

Course Description: As a continuation of Advanced Placement English Language and Composition, students will study American literature from 1890 to the present, this course emphasizes multi-cultural, 20th century literature and includes the study of rhetoric, diction, imagery, language, and syntax. Students study and produce personal narratives, critical and literary analyses, discussion logs, and literary-based research papers. Students continue to prepare for the AP English Language and Composition Test. The curriculum is designed by each AP teacher and approved by the College Board.

- **Because this is a college-level class, students uncertain about whether to enroll should contact the AP teacher for more information.**

Course Code: HE300DY1 **Long Name:** English 3 DC (ENG 3)
Short Name: Eng 3 DC **Recommended Grade Placement:** 11 **1 credit** **State**

Students will work on both content related material and test taking strategies. Students will be prepared have access to test-taking strategies specific to the exam, real student work samples with explanations, grading rubrics for peer and self-assessment, practice tests with complete multiple-choice assessments, essays prompts, and study resources. Instruction, followed by collaborative, guided, and independent practice, provides the foundation for the course. The following areas will be covered: Math Concepts covered will include a review of skills from all levels of mathematics that appear on the ACT test: Pre Algebra, Algebra, Algebra I, Algebra 2, Geometry, and Trigonometry; Science Reasoning Concepts covered will include understanding science related passages in the three forms used by the ACT test: Data Representation, Research Summaries, and Conflicting Viewpoints; English Concepts covered will include: basic grammar and usage, punctuation, sentence mechanics, organization and style of writing, and word choice; Reading Concepts covered will include: recall, content reasoning, and comprehension; and Writing Concepts covered will include: using rules of standard written English, organizing ideas, using logical reasoning, and supporting ideas.

- **Independent Study In English (First Time Taken)**
- **Students continuing in Independent Study in English for more than two years can receive one-half local elective credit per course.**

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Reading II

Course Description: The English Language Arts and Reading Texas Essential Knowledge and Skills (TEKS) are organized into the following strands: Reading; students read and understand a wide variety of literary and informational texts; Writing; students compose a variety of written texts with a clear controlling idea, coherent organization, and sufficient detail; Research; students are expected to know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information; Listening and Speaking; students listen and respond to the ideas of others while contributing their own ideas in conversations and in groups; and Oral and Written Conventions; students learn how to use the oral and written conventions of the English language in speaking and writing. In second grade, students will engage in activities that build on their prior knowledge and skills in order to strengthen their reading, writing, and oral language skills. Students should write and read (or be read to) on a daily basis.

Course Description:

Course Code: HE4CPLY1 **Long Name:** English College Preparation (CPMAT)
Short Name: Eng COLG Prep **Recommended Grade Placement:** 11-12 **1.0 credit** **Local**
Service Id: CP110100 **2012 Course Code:** **Duration:** Year
School (s): All High Schools

Part 1 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Satisfactory performance on the English I & II STAAR/EOC examinations and successful course completion of English III.

Course Description: Students will learn to investigate academic texts, construct supported interpretations and arguments for an authentic audience, and acquire academic habits of thought. Reading instruction will focus on developing critical reading skills for comprehension, interpretation, and analysis. In writing, students will develop skills through composing with specific purpose, situation, genre, and audience in mind. Students will write a variety of effective formal and informal texts. To learn to integrate reading and writing, students will use an inquiry approach to analyze, synthesize, and make value judgments regarding text and writing. The focus of the course will be on applying critical reading skills for organizing, analyzing, and retaining material and developing written work appropriate to the audience, purpose, situation, and length of the assignment. This course is designed to prepare students for college-level reading and writing intensive courses. Successful completion of this course, as defined by the memorandum of understanding (MOU) with the partnering institution(s), grants the student an exemption to TSI requirements for reading and writing at the partnering institution(s). Students will learn to write effective, logical essays, utilizing textual support to develop reading comprehension strategies, and to analyze, synthesize and make value judgments using critical thinking. The course fulfills TSI requirements for reading and writing.

Students will take the Final Exam with no exemptions.

- **Final exam weight will be determined by the ISD.**
- **The genre appropriate STAAR writing rubric will be used to score the essays:**
<http://www.tea.state.tx.us/student.assessment/staar/writing/>
- **Students must write and receive a score of at least a 3 on the STAAR writing rubric on each of the five assigned essays.**
- **An overall grade of 75 is required for course credit. Students who receive course credit will be considered TSI exempt in reading and writing.**

School (s): Burges HS and all schools

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: The student will participate in independent research; and become responsible for his or her own learning. The student may choose to work on a project that requires oversight and advice from a professional in the field. However, the product may be completed through an independent study and not be under the direction of a mentor. The scope and complexity of the student's work will be expected to be at a level of "professional quality". Students will conduct in-depth research, prepare or work towards an end product, and present their findings to appropriate audiences. Students, working independently or in collaboration, will investigate a problem, issue, or concern; research the topic using a variety of technologies; and present a product of professional quality to an appropriate audience. Topics will vary upon approval of a mentor teacher assigned to work with the student.

Part 2 **Credit Per Part:** **Recommended Prerequisite:** GT:IS 1 Part 1

Course Description: The student will participate in independent research; and become responsible for his or her own learning. The research may be a continuation of the project that was initiated in part 1 of this course or be a different topic. The student may choose to work on a project that requires oversight and advice from a professional in the field. However, the product may be completed through an independent study and not be under the direction of a mentor. The scope and complexity of the student's work will be expected to be at a level of "professional quality". Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: The student will participate in independent research; and become responsible for his or her own learning. The student may choose to work on a project that requires oversight and advice from a professional in the field. However, the product may be completed through an independent study and not be under the direction of a mentor. The scope and complexity of the student's work will be expected to be at a level of "professional quality". Students will conduct in-depth research, prepare or work towards an end product, and present their findings to appropriate audiences. Students, working independently or in collaboration, will investigate a problem, issue, or concern; research the topic using a variety of technologies; and present a product of professional quality to an appropriate audience. Topics will vary upon approval of a mentor teacher assigned to work with the student.

Service Id: 3320100 **2012 Course Code:** S10000 **Duration:** Year
School (s): All Schools

Part 1/ Part Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: Students will examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students will describe the influence of geography on events of the past and present with emphasis on contemporary issues. The course will center around the physical processes that shape patterns in the physical environment; the characteristics of major landforms, climates, and ecosystems and their interrelationships; the political, economic, and social processes that shape cultural patterns of regions; types and patterns of settlement; the distribution and movement of the world population; relationships among people, places, and environments; and the concept of region. Students analyze how location affects economic activities in different economic systems. Students identify the processes that influence political divisions of the planet and analyze how different points of view affect the development of public policies. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. Students use problem-solving and decision-

making skills to ask and answer geographic questions. Students will use of a variety of primary and secondary source material such as contemporary and historic maps of various types, satellite-produced images, photographs, graphs, map sketches, and diagrams is encouraged in order to support their understanding of the essential knowledge and skills as outline on 19 TAC Chapter 113.43. The different strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes.

Part 1/Part **Credit Per Part:** 0.5 **Recommended Prerequisite:** Hum Geo AP Part 1

Course Description: The AP Human Geography course will introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students learn to employ spatial concepts and landscape analysis to examine human socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. Students will focus on the five college-level goals that build on the National Geography Standards developed in 1994 and revised in 2012. The standards are interpreting maps and analyzing geospatial data, understanding and explaining the implications of associations and networks among phenomena in places, recognizing and interpreting the relationships among patterns and processes at different scales, defining regions and evaluating the regionalization process and characterizing and analyzing changing interconnections among places.

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: This course should focus on "essential" concepts and skills that can be applied to various eras, events, and people within the standards found on 19 TAC Chapter 113.42. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. Students evaluate the causes and effects of political and economic imperialism and of major political revolutions since the 17th century. Students examine the impact of geographic factors on major historic events and identify the historic origins of contemporary economic systems. Students analyze the process by which constitutional governments evolved as well as the ideas from historic documents that influenced that process. Students trace the historical development of important legal and political concepts. Students examine the history and impact of major religious and philosophical traditions. Students analyze the connections between major developments in science and technology and the growth of industrial economies, and they use the process of historical inquiry to research, interpret, and use multiple sources of evidence. The following periods should serve as the framework for the organization of this course: 8000 BC-500 BC (Development of River Valley Civilizations); 500 BC-AD 600 (Classical Era); 600-1450 (Post-classical Era); 1450-1750 (Connecting Hemispheres); 1750-1914 (Age of Revolutions); and 1914-present (20th Century to the Present). Students will be exposed to a variety of rich primary and secondary source material such as state papers, legal documents, charters, constitutions, biographies, autobiographies, speeches, letters, literature, music, art, and architecture is encouraged. The eight strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes.

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: This history course will give students an understanding of themselves and others in relation to the world, both past and present. This history course aims to promote an understanding of history as a discipline, including the nature and diversity of its sources, methods and interpretations. It also helps students to gain a better understanding of the present through critical reflection upon the past. It is hoped that many students who follow the course will become fascinated with the discipline, developing a lasting interest in it. The course offers a choice of two routes through the baccalaureate history course. The route one history course explores the main developments in the history of Europe and the Islamic world from 500 to 1570, while the route two history course focuses on 20th century world history. Whichever route is selected the course provides both structure and flexibility, fostering an understanding of major historical events in a global context. It requires students to make comparisons between similar and dissimilar solutions to common human situations, whether they be political, economic or social. It invites comparisons between, but not judgments of, different cultures, political systems and national traditions.

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: The course will cover United States History Studies Since 1877, which is the second part of a two-year study that begins in Grade 8, students study the history of the United States from 1877 to the present. The course content is based on the founding documents of the U.S. government, which provides a framework for its heritage. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civil rights. Students examine the impact of geographic factors on major events and eras and analyze their causes and effects. Students examine the impact of constitutional issues on American society, evaluate the dynamic relationship of the three branches of the federal government, and analyze efforts to expand the democratic process. Students will describe the relationship between the arts and popular culture and the times during which they were created. Students analyze the impact of technological innovations on American life. Students will use a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context. Students will use a variety of rich primary and secondary source material such as biographies, autobiographies, landmark cases of the U.S. Supreme Court, novels, speeches, letters, diaries, poetry, songs, and artworks is encouraged. The eight strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes as covered under 19 TAC Chapter 113.41.

Part 1 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: In United States Government course, the focus is on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. This course is the culmination of the civic and governmental content and concepts studied from Kindergarten through required secondary courses. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created. Students analyze major concepts of republicanism, federalism, checks and balances, separation of powers, popular sovereignty, and individual rights and compare the U.S. system of government with other political systems. Students identify the role of government in the U.S. free enterprise system and examine the strategic importance of places to the United States. Students analyze the impact of individuals, political parties, interest groups, and the media on the American political system, evaluate the importance of voluntary individual participation in a constitutional republic, and analyze the rights guaranteed by the U.S. Constitution. Students examine the relationship between governmental policies and the culture of the United States. Students identify examples of government policies that encourage scientific research and use critical-thinking skills to create a product on a contemporary government issue. To support the teaching of the essential knowledge and skills, the use of a variety of rich primary and secondary source material such as the complete text of the U.S. Constitution, selected Federalist Papers, landmark cases of the U.S. Supreme Court (such as those studied in Grade 8 and U.S. History Since 1877), biographies, autobiographies, memoirs, speeches, letters, and periodicals that feature analyses of political issues and events is encouraged. The strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes.

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None
Course Description: The Comparative Government and Politics course introduces students to the rich diversity of political life outside the United States. The course uses a comparative approach to examine the political structures; policies; and the political, economic, and social challenges among six selected countries: Great Britain, Mexico, Russia, Iran, China, and Nigeria. Additionally, students examine how different governments solve similar problems by comparing the effectiveness of approaches to many global issues.

School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: The course Economics with Emphasis on the Free Enterprise System and Its Benefits is the culmination of the economic content and concepts studied from Kindergarten through required secondary courses. The focus is on the basic principles concerning production, consumption, and distribution of goods and services (the problem of scarcity) in the United States and a comparison with those in other countries around the world. Students analyze the interaction of supply, demand, and price. Students will investigate the concepts of specialization and international trade, economic growth, key economic measurements, and monetary and fiscal policy. Students will study the roles of the Federal Reserve System and other financial institutions, government, and businesses in a free enterprise system. Types of business ownership and market structures are discussed. The course also incorporates instruction in personal financial literacy. Students apply critical-thinking skills using economic concepts to evaluate the costs and benefits of economic issues. Students identify the role of the U.S. free enterprise system (As referenced in House Bill 492, an act of the Texas Legislature signed into law in 2005) within the parameters of this course and understand that this system may also be referenced as capitalism or the free market system.

Course Description: The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas.

Service Id: I3304100 **2012 Course Code:** S77010 **Duration:** Year
School (s): Coronado HS

Part 1/ Part **Credit Per Part:** 0.5 **Recommended Prerequisite:** Acceptance into IB program

Course Description: The IB psychology course is the systematic study of behavior and mental processes. The psychology course examines the interaction of biological, cognitive and sociocultural influences on human behavior. Students will develop an understanding of how psychological knowledge is generated, developed and applied in order to develop an appreciation for the diversity of human behavior. Students will use a holistic approach, which sees biological, cognitive and sociocultural analysis taught in an integrated way to ensure that students are able to develop an understanding of what all humans share, as well as the immense diversity of influences on human behavior and mental processes. Part 1 will focus on the biological level of analysis, the cognitive level of analysis and the sociocultural level of analysis.

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: American Cultural Studies is a one-semester special topics elective. Students apply a sociological perspective to investigate and analyze a variety of topics and issues concerning selected minority cultures in United States society. The course examines the consequences of discrimination against, as well as the contributions of, racial, ethnic, religious groups and women in American society. Students use critical-thinking skills to locate, organize, analyze, and use data collected from a variety of sources. Problem solving and decision-making are important elements of the course, as is the communication of information in written, oral, and visual forms. Like all other social studies courses, American Cultural Studies observes Celebrate Freedom Week emphasizing the Declaration of Independence and the U.S. Constitution, including the Bill of Rights, and its subsequent influence on American history, civil rights and citizenship.

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: This course covers European history since 1450 and introduces students to cultural, economic, political, and social developments that played a fundamental role in shaping the world in which they live. The students will use this knowledge in order to develop an understanding of contemporary institutions, the role of continuity and change in present-day society and politics, and the evolution of current forms of artistic expression and intellectual discourse. Students will also develop an understanding of some of the principal themes in modern European history, an ability to analyze historical evidence and historical interpretation, and an ability to express historical understanding in writing. The

course will also address periodization, as appropriate, to the following themes: intellectual and cultural history, political and diplomatic history, and social and economic history.

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Algebra 1

Course Description: In Mathematical Models with Applications, students continue to build on the K-8 and Algebra I foundations as they expand their understanding through other mathematical experiences. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, to model information, and to solve problems from various disciplines. Students use mathematical methods to model and solve real-life applied problems involving money, data, chance, patterns, music, design, and science. Students use mathematical models from algebra, geometry, probability, and statistics and connections among these to solve problems from a wide variety of advanced applications in both mathematical and nonmathematical situations. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to link modeling techniques and purely mathematical concepts and to solve applied problems.

Part 1/ Part Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: Students study algebraic concepts and the relationships among them to better understand the structure of algebra. Students perceive functions and equations as means for analyzing and understanding a broad variety of relationships and as a useful tool for expressing generalizations. Students perceive the connections between algebra and geometry and use the tools of one to help solve problems in the other. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to model mathematical situations to solve meaningful problems. As they do mathematics, students continually use problem-solving, language and communication, and reasoning (justification and proof) to make connections within and outside mathematics. Students also use multiple representations, technology, applications and modeling, and numerical fluency in problem-solving contexts.

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Algebra 2

Course Description: In Advanced Quantitative Reasoning, students continue to build upon the K-8, Algebra I, Algebra II, and Geometry foundations as they expand their understanding through further mathematical experiences. Advanced Quantitative Reasoning includes the analysis of information using statistical methods and probability, modeling change and mathematical relationships, and spatial and geometric modeling for mathematical reasoning. Students learn to become critical consumers of real-world quantitative data, knowledgeable problem solvers who use logical reasoning and mathematical thinkers who can use their quantitative skills to solve authentic problems. Students develop critical skills for success in college and careers, including investigation, research, collaboration, and both written and oral communication of their work, as they solve problems in many types of applied situations. As students work with these mathematical topics, they continually rely on mathematical processes, including problem-solving techniques, appropriate mathematical language and communication skills, connections within and outside mathematics, and reasoning. Students also use multiple representations, technology, applications and modeling, and numerical fluency in problem-solving contexts.

Short Name: PRE CALC **Recommended Grade Placement:** 11-12 **1.0 STATE**
Service Id: 3101100 **2012 Course Code:** M71500 **Duration:** Year
School (s): All Schools

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Geometry, Algebra 2

Course Description: In Precalculus, students continue to build on the K-8, Algebra I, Algebra II, and Geometry foundations as they expand their understanding through other mathematical experiences. Students use symbolic reasoning and analytical methods to represent mathematical situations, to express generalizations, and to study mathematical concepts and the relationships among them. Students use functions, equations, and limits as useful tools for expressing generalizations and as means for analyzing and understanding a broad variety of mathematical relationships. Students also use functions as well as symbolic reasoning to represent and connect ideas in geometry, probability, statistics, trigonometry, and calculus and to model physical situations. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to model functions and equations and solve real-life problems. As students do mathematics, they continually use problem-solving, language and communication, connections within and outside mathematics, and reasoning (justification and proof). Students also use multiple representations, technology, applications and modeling, and numerical fluency in problem-solving contexts.

Part 1 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Satisfactory completion of Algebra I and the Algebra I EOC exam, Geometry, Algebra II.

Course Description: This course addresses a variety of mathematical topics needed to prepare students for success in college-level mathematics. In addition, the course supports students in developing skills and strategies needed to succeed in college. Mathematics topics include: real numbers, basic geometry, polynomials, factoring, linear equations, inequalities, quadratic equations, rational expressions and quantitative reasoning. Successful completion of this course, as defined by the memorandum of understanding (MOU) with the partnering institution(s), grants the student an exemption to TSI requirements for mathematics at the partnering institution(s). An overall grade for the semester of 75 or higher indicates that the student has met the college readiness standards established by the School Districts of Region 19, El Paso Community College (EPCC), and The University of Texas at El Paso (UTEP) indicating that the student is prepared for Integrated Mathematics Course II.

Students will take the Final Exam.

- If a student scores at least 60 on the Final Exam, then the student's overall grade for the semester will not be less than 75 on the high school transcript.
- If a student scores less than the required 60 on the Final Exam, then the student's overall grade for the semester will not exceed 74 on the high school transcript.
- An overall grade for the semester of 75 or higher indicates that the student has met the criteria, and the student is prepared for Integrated Mathematics Course II without further assessment or remediation.

Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Satisfactory completion of Algebra I and the Algebra I EOC exam, Geometry, Algebra II, and Integrated Mathematics Course I.

Course Description: This course addresses a variety of mathematical topics needed to prepare students for success in college-level mathematics. In addition, the course supports students in developing skills and strategies needed to succeed in college. Mathematics topics include: factoring techniques, radicals, algebraic fractions, complex numbers, graphing linear equations and inequalities, quadratic equations, systems of equations, graphing quadratic equations, an introduction to functions, and probability. Successful completion of this course, as defined by the memorandum of understanding (MOU) with the partnering institution(s), grants the student an exemption to TSI requirements for mathematics at the partnering institution(s). An overall grade for the semester of 75 or higher indicates that the student has met the college readiness standards established by the School Districts of Region 19, El Paso Community College (EPCC), and The University of Texas at El Paso (UTEP) indicating that the student is prepared for college-level mathematics.

Course Code: HE10GKY1 **Long Name:** Eng 1 IBP **ENGLISH LA 9**
Short Name: Eng 1 IBP **Recommended Grade Placement:** 9 **1 credit** **State**
Service Id: 3220100 **2012 Course Code:** E303I0 **GPA:** TIER 2-PAP **Duration:** Year
School (s): All Schools
Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** IB Diplomas Programme admission and/or Teacher Approval

Course Description: Pre-IB courses are introductory courses meant to prepare students for the level of work they will encounter in even more rigorous IB classes as well as to compete in college at the international level. Writing assignments will be many and will focus on the critical analysis of literature, including expository essays. This does not mean that creative writing will cease to exist; it will simply be limited in scope. The desired goals are the honest and effective use of language and the organization of ideas in a clear, coherent, and persuasive way.

Course Code: HE20GKY1 **Long Name:** Eng 2 IBP **ENGLISH LA 10**
Short Name: Eng 2 IBP **Recommended Grade Placement:** 10 **1 credit** **State**

School (s): All Schools
Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** IB-Prep HE20GKY1, IB Diplomas Programme admission and/or Teacher Approval

Course Description: The course is designed to challenge students to integrate new information and skills into their previous knowledge base. Coronado IB-Prep program students are expected to come to sophomore English with a strong base of knowledge and skills; it is upon this base that 10th grade English will build. Students will focus on improving reading, language, and analytical skills through close reading and interaction with poetry, prose, drama, video, and audio materials. Students will also be encouraged to see connections between literature, history, and life through cultural literacy notes, discussion, and analysis. Tenth-grade IB-Prep writing revolves around analysis, exposition, argumentation, and personal writing which will acquaint students with many common writing styles and expose them to various ideas and sources. Furthermore, students will be expected to use proper citation format as noted by the Modern Language Association (MLA). In the effort to further vocabulary development, students will engage in a variety of texts from various sources and work almost weekly with SAT terms during a portion of the fall semester. Additionally, students will further their social and cooperative skills through periodic group work and presentations. Overall, students should expect a challenging curriculum consisting of copious reading, annotating, writing, analyzing, evaluating, and synthesizing. All of these components are designed to prepare students for the rigors of IB English III. The hopeful outcome of this course is the continued success of the students as they work toward IB classes, college careers, and meaningful lives.

Service Id: 3320100 **2012 Course Code:** S105I0 **Duration:** Year
School (s): Coronado HS
Part 1/ Part Credit Per Part: 0.5 **Recommended Prerequisite:** None

Course Description: This course integrates both physical and human geography, and ensures that students acquire elements of both scientific and socio-economic methodologies. Geography takes advantage of its position to examine relevant concepts and ideas from a wide variety of disciplines. This helps students develop an appreciation of, and a respect for, alternative approaches, viewpoints and ideas. The geography course embodies global and international awareness in several distinct ways. It examines key global issues, such as poverty, sustainability and climate change. It considers examples and detailed case studies at a variety of scales, from local to regional, national and international. The aims of the geography syllabus are to develop an understanding of the interrelationships between people, places, spaces and the environment. Students will also develop a concern for human welfare and the quality of the environment, and an understanding of the need for planning and maintaining sustainable management of the aforementioned subjects. Students will analyze contemporary issues and challenges, and develop a global perspective of diversity and change. Throughout the course, there is considerable flexibility in the choice of examples and case studies to ensure that the geography course is a highly appropriate way to meet the needs of all students.

Service Id: I3220400 **2012 Course Code:** **GPA: TIER 3** **Duration: Year**
School (s): Andress, Chapin, Coronado, Franklin High Schools

Part 1 Credit Per Part: 0.5 Recommended Prerequisite: HF330QY1

This course, taught entirely in the German language, refines the proficiency level of listening and reading comprehension, speaking, and writing through rigorous activities and experiences equal to a third year college course. It emphasizes the use of language for active communication and helps students develop the ability to understand spoken German in various contexts. There is a focus on the development of a German vocabulary sufficiently ample for reading newspapers, magazine articles, literary texts, and other non-technical writings without dependence on a dictionary and on the ability to communicate coherently, resourcefully, and with reasonable fluency and accuracy in both written and spoken German.

Part 2 Credit Per Part: 0.5 Recommended Prerequisite:

Extensive training in the organization and writing of compositions is also emphasized. The scope and sequence of this course is taught as specified for International Baccalaureate students.

Course Code: Long Name: **IB LOTE Level 4-French** **IB FREN 4**
Short Name: IB FREN **Recommended Grade Placement: 9-12** **1.0 credit** **STATE**

Part 1 Credit Per Part: 0.5 Recommended Prerequisite: IB Program Only

This course, taught entirely in the French language, refines skills in the French language through rigorous activities and experiences. It emphasizes the use of language for active communication and helps students develop the ability to understand spoken French in various contexts. There is a focus on developing a French vocabulary sufficiently ample for reading newspapers, magazine articles, literary texts, and other non-technical writings without dependence on a dictionary, and on the ability to communicate coherently, resourcefully, and with reasonable fluency and accuracy in both written and spoken French. Extensive training in the organization and writing of compositions is also emphasized.

Part 2 Credit Per Part: 0.5 Recommended Prerequisite: IB Program Only

The scope and sequence of this course is taught as specified for International Baccalaureate students.

Course Code: Long Name: **IB LOTE Level 4 - Spanish** **IBSPAN 4**
Short Name: IBSPAN 4 **Recommended Grade Placement: 9-12** **1.0** **STATE**

Service Id: I3440400

2012 Course Code: F18510

GPA: TIER 3

Duration: Year

School (s): Coronado HS

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HF330QY1

This course, taught entirely in the Spanish language, refines the proficiency level of listening and reading comprehension, speaking, and writing in the formal and informal Spanish language through rigorous and substantial activities and experiences. The course incorporates an in-depth study of Hispanic language, cultures, history, literature, and idiomatic expressions to build a solid foundation for what is integral to the course: speaking skills and writing skills that demonstrate writing organizational skills, knowledge of an expanded vocabulary, correct grammar applications, and critical writing concepts, formats, and styles in finely drafted compositions.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Extensive training in the organization and writing of compositions is also emphasized. The scope and sequence of this course is taught as specified for International Baccalaureate students. A strong focus is also placed on refining the three modes of communication: presentational, interpretive and interpersonal, with both the teacher and student using the target language.

Service Id: PES00052 **2012 Course Code:** PES052 **GPA:** TIER 3 **Duration:** Sem
School (s): All Schools

Part 1 Credit Per Part: Recommended Prerequisite:

Foundations of Personal Fitness represents a new approach in physical education and the concept of personal fitness. The basic purpose of this course is to motivate students to strive for lifetime personal fitness with an emphasis on the health-related components of physical fitness. The knowledge and skills taught in this course include teaching students about the process of becoming fit as well as achieving some degree of fitness within the class. The concept of wellness, or striving to reach optimal levels of health, is the corner stone of this course and is exemplified by one of the course objectives-students designing their own personal fitness program.

Languages Other Than English (LOTE)

[Return](#)

Course Code: HF1180Y1 **Long Name:** LOTE Level 1-American Sign Language **ASL 1**
Short Name: ASL 1 **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**
Service Id: 03980100 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year

School (s): Burges High School Only

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

This course introduces the sign language alphabet, numbers, basic sign vocabulary and syntax, and fingerspelling 3-4 letter words. Students learn expressive sign skills as well as receptive sign skills. They learn to introduce themselves, discuss basic surroundings and family information, give basic directions, ask for help, and explore occupations. Students are introduced to Deaf culture and to participate in basic conversations.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

This course continues to reinforce the sign language alphabet, numbers, basic sign vocabulary and syntax. Topics emphasized during ALS 2 include the continuation of previously taught topics for additional practice and review.

Course Code: HF2280Y1 **Long Name:** LOTE Level 2-American Sign Language **ASL 2**
Short Name: ASL 2 **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**

School (s): Burges High School Only

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HF1180Y1

American Sign Language 2 continues with a greater signed vocabulary, additional grammatical skills, and a higher level of conversational skills. This course reviews the basic ASL skills and develops students' grammar and syntax to communicate using expressive & receptive skills. Increased attention is given to the deaf culture.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

This course continues to reinforce the sign language alphabet, numbers, basic sign vocabulary and syntax. Topics emphasized during ALS 2 include the continuation of previously taught topics for additional practice and review.

Course Code: HF1120Y1 **Long Name:** LOTE Level 1-French **FREN 1**
Short Name: FREN 1 **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**
Service Id: 03410100 **2012 Course Code:** F20000 **GPA:** TIER 3 **Duration:** Year

School (s): All High Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

At the novice proficiency level, this course introduces students to the four basic skills of language learning (listening, speaking, reading and writing). Strong focus is also placed on developing the three modes of communication: presentational, interpretive and interpersonal, with both the teacher and student using the French language as much as is possible at this stage of language learning.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

Students in Level 1 also develop appropriate grammatical concepts and learn about the culture and people who speak the French language. Students will use the skills of listening, speaking, and writing to reinforce their reading skills in the target language. This continuing beginning level course will extend the foundation for French proficiency at the novice level.

Course Code: HF2220Y **Long Name:** LOTE Level 2-French **FREN 2**
Short Name: FREN 2 **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**

School (s): All High Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HF332QY1

This course prepares students for the College Board AP French Language and Culture examination, which consists of multiple-choice questions in reading and listening and free-response questions in writing and speaking. The AP French Language and Culture examination evaluates both understanding and the ability to respond to written and spoken French within six major cultural themes.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

This course, taught entirely in the French language, refines skills in the French language through rigorous activities and experiences. It emphasizes the use of language for active communication and helps students develop the ability to understand spoken French in various contexts. There is a focus on developing a French vocabulary sufficiently ample for reading newspapers, magazine articles, literary texts, and other non-technical writings without dependence on a dictionary, and on the ability to communicate coherently, resourcefully, and with reasonable fluency and accuracy in both written and spoken French. Extensive training in the organization and writing of compositions is also emphasized. The scope and sequence of this course is taught as submitted by the individual instructor to and approved by the College Board.

Part 1 Credit Per Part: 0.5 Recommended Prerequisite: English II

The literary focus of English III is American literature from 1600 to 1890. In addition, students practice all forms of writing, using the writing process to draft, revise, and edit their writing, resulting in error-free final compositions. An emphasis is placed on persuasive forms of writing such as logical arguments, and expressions of opinion, and personal forms of writing such as response to literature, analytical and reflective essays, and autobiographical narratives. Vocabulary development and word relationships are addressed in preparation for the PSAT. Because junior students take the exit-level TAKS, tested objectives are emphasized throughout the course.

Part 1 Credit Per Part: 0.5 Recommended Prerequisite: None

Students enrolled in Part 1 of English I read extensively in multiple genres from world literature. They learn literary forms and terms and interpret the possible influences of the historical context on a literary work. STAAR reading and writing objectives are identified, taught, and reinforced throughout the semester. English I provides practice in all forms of writing, especially the literary and expository essay; students write to persuade, to report, and to describe. They edit their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English, with the goal of producing error-free final drafts.

This course has modified/ alternate achievement standards.

Course Code: HP1100SH **Long Name:** PE Found Foundations of Personal Fitness
Short Name: PE Found **Recommended Grade Placement:** 9-12 **0.5 credit** **STATE**
Service Id: PES00052 **2012 Course Code:** PES052 **GPA:** TIER 3 **Duration:** Sem
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:**

Foundations of Personal Fitness represents a new approach in physical education and the concept of personal fitness. The basic purpose of this course is to motivate students to strive for lifetime personal fitness with an emphasis on the health-related components of physical fitness. The knowledge and skills taught in this course include teaching students about the process of becoming fit as well as achieving some degree of fitness within the class. The concept of wellness, or striving to reach optimal levels of health, is the corner stone of this course and is exemplified by one of the course objectives-students designing their own personal fitness program.

Service Id: 3100500 **2012 Course Code:** M60000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: Students use symbols in a variety of ways to study relationships among quantities. Students use functions to determine one quantity from another, to represent and model problem situations, and to analyze and interpret relationships. Students work in many situations to set up equations and inequalities and use a variety of methods to solve them. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to model mathematical situations to solve meaningful problems.

This course has modified/ alternate achievement standards.

School (s): All Schools

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: Students continue to build on foundation concepts for high school mathematics. Students use geometric thinking to understand mathematical concepts and the relationships among them. Students study properties and relationships having to do with size, shape, location, direction, and orientation of these figures. Students perceive the connection between geometry and the real and mathematical worlds and use geometric ideas, relationships, and properties to solve problems. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to solve meaningful problems by representing and transforming figures and analyzing relationships.

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** None

Course Description: Students study algebraic concepts and the relationships among them to better understand the structure of algebra. Students perceive functions and equations as means for analyzing and understanding a broad variety of relationships and as a useful tool for expressing generalizations. Students perceive the connections between algebra and geometry and use the tools of one to help solve problems in the other. Students use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology (including, but not limited to, calculators with graphing capabilities, data collection devices, and computers) to model mathematical situations to solve meaningful problems. As they do mathematics, students continually use problem-solving, language and communication, and reasoning (justification and proof) to make connections within and outside mathematics. Students also use multiple representations, technology, applications and modeling, and numerical fluency in problem-solving contexts.

School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** One-Year Journalism or Instructor's Approval

Description: Yearbook Production Part 1 emphasizes planning, drafting, and completing written communication and photography. Students carefully examine copy for clarity, engaging language, and the correct use of convention and mechanics of written English. Students cooperate with others in covering events; writing articles that reflect the campus and community life; taking, selecting and scaling photographs to print size; writing cutlines and headlines; and editing and proofreading copy.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ2000Y1)

Description: Yearbook Production Part 2 Students continue to write, critique and produce effective communications. Analytical consumers of media and technology are produced in this course. Written composition and artwork (photography and graphics) to accompany the written composition are a focus at this level.

Course Code: HJ3000Y1 **Long Name:** Advanced Journalism: Yearbook 2 (YBK2)
Short Name: Yearbook 2 **Recommended Grade Placement:** 10-12 **1.0** **STATE**
Service Id: 03230120 **2012 Course Code:** E97200 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor's Approval or HJ2000Y1 (Yearbook 1)

Description: Page editing or section editing includes advanced students working with first year students on investigative assigned stories and photo-artwork that accompany stories. In-depth research on selected stories are done at this level. The students demonstrate an understanding of media development, press law, and the responsibility of the media.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ3000Y1) or Instructor's Approval

Description: Yearbook Production Part 2 expands to include distinguishing between responsible and irresponsible media action; planning pages and preparing the final layouts for publications; refining and enhancing journalistic skills; researching self-selected topics; and planning, organizing, and preparing projects and/or pages.

Course Code: HJ4000Y1 **Long Name:** Advanced Journalism: Yearbook 3 (YBK3)
Short Name: Yearbook 3 **Recommended Grade Placement:** 11-12 **1.0** **STATE**
Service Id: 03230130 **2012 Course Code:** E97400 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required or HJ3000Y1 (Yearbook 2)

Description: Students choose one area of study from advanced journalistic writing or photography. Students work on a more advanced level to coordinate with newer staffers. Computer layout, writing and brainstorming techniques are enhanced in this course. Students work to refine and enhance productions for a variety of audiences, adhering to journalistic rules and ethics.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ4000Y1) or Instructor's Approval

Description: Students plan, draft, and complete written communications on a regular basis; refine and enhance journalistic skills; research self-selected topics; plan, organize, and prepare projects; and work with instructor guidance to produce original work in print or another medium demonstrating advanced skills.

Course Code: HJ2100Y1 **Long Name:** Advanced Journalism: Newspaper 1 (NP1)
Short Name: Newspaper 1 **Recommended Grade Placement:** 9-12 **1.0** **STATE**
Service Id: 03230140 **2012 Course Code:** E93000 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor's approval required

Description: The school newspaper is produced in this course. Students plan, draft, and complete written and/or visual communications on a regular basis. Students examine copy for clarity, engaging language, and the correct use of convention, and mechanics of written English. Students cover events, write school and community articles; take, select and scale photographs to print size, write cutlines and headlines, and edit and proofread copy.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ2100Y1) or Instructor's Approval

Description: Advanced Journalism Part 2 focuses on analytical skills to produce consumers of media and technology. Articles and artwork (photography and graphics) to accompany the written compositions are introduced at this level

Course Code: HJ3100Y1 **Long Name:** Advanced Journalism: Newspaper 2 (NP2)
Short Name: Newspaper 2 **Recommended Grade Placement:** 10-12 **1.0** **STATE**
Service Id: 03230150 **2012 Course Code:** E93200 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required

Description: Advanced students will work with first year students on investigative/assigned stories and photo/artwork that accompany stories. In-depth research on selected stories is done at this level. The students demonstrate an understanding of media development, press law, and the responsibility of the media.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ3100Y1) or Instructor's Approval

Description: Newspaper Production Part 2 expands to include distinguishing between responsible and irresponsible media action; planning pages and preparing the final layouts for publications; refining and enhancing journalistic skills; researching self-selected topics, and planning, organizing, and preparing projects and/or pages.

Course Code: HJ4100Y1 **Long Name:** Advanced Journalism: Newspaper 3 (NP3)
Short Name: Newspaper 3 **Recommended Grade Placement:** 11-12 **1.0** **STATE**

School (s): All Schools

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

Course Description: This course focuses on the history of journalism; the contemporary role of print and broadcast media; basic features of mass communication; journalism, libel, and the law, the elements of a good interview, and basic news and feature writing.

Course Description: Part 2 concentrates on specialized forms of writing, editing, design, layout, graphics, advertising, production techniques and printing processes.

Course Code: HJ1100Y1 **Long Name:** Photojournalism (PHOTJOUR)
Short Name: Photojourn **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03230800 **2012 Course Code:** E96100 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

Course Description: Students study basic digital cameras and image manipulation software such as Adobe Photoshop.

Course Code: HJ1202Y1 **Long Name:** Digital Design and Media Production (TADGDMP)
Short Name: DigiDesignMedia **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03580400 **2012 Course Code:** T15000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:**

Description: Students learn the principles of layout and design, using print and publishing industry standard software. They gain experience in designing pages for print and online publications. Students become proficient in programs such as Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Adobe Bridge, Adobe Dreamweaver, Adobe Flash and WordPress.

HJ1202Y1 qualifies for the EPISD Technology requirement.

Course Code: HJ2000Y1 **Long Name:** Advanced Journalism: Yearbook I (YBK1)
Short Name: Yearbook 1 **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03230110 **2012 Course Code:** E97000 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** One-Year Journalism or Instructor's Approval

Description: Yearbook Production Part 1 emphasizes planning, drafting, and completing written communication and photography. Students carefully examine copy for clarity, engaging language, and the correct use of convention and mechanics of written English. Students cooperate with others in covering events; writing articles that reflect the campus and community life; taking, selecting and scaling photographs to print size; writing outlines and headlines; and editing and proofreading copy.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ2000Y1)

Description: Yearbook Production Part 2-Students continue to write, critique and produce effective communications. Analytical consumers of media and technology are produced in this course. Written composition and artwork (photography and graphics) to accompany the written composition are a focus at this level.

Course Code: HJ3000Y1 **Long Name:** Advanced Journalism: Yearbook 2 (YBK2)
Short Name: Yearbook 2 **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 03230120 **2012 Course Code:** E97200 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor’s Approval or HJ2000Y1 (Yearbook 1)

Description: Page editing or section editing includes advanced students working with first year students on investigative assigned stories and photo-artwork that accompany stories. In-depth research on selected stories are done at this level. The students demonstrate an understanding of media development, press law, and the responsibility of the media.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ3000Y1) or Instructor’s Approval

Description: Yearbook Production Part 2 expands to include distinguishing between responsible and irresponsible media action; planning pages and preparing the final layouts for publications; refining and enhancing journalistic skills; researching self-selected topics; and planning, organizing, and preparing projects and/or pages.

Course Code: HJ4000Y1 **Long Name:** Advanced Journalism: Yearbook 3 (YBK3)
Short Name: Yearbook 3 **Recommended Grade Placement:** 11-12 **1.0 credit** **STATE**
Service Id: 03230130 **2012 Course Code:** E97400 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required or HJ3000Y1 (Yearbook 2)

Description: Students choose one area of study from advanced journalistic writing or photography. Students work on a more advanced level to coordinate with newer staffers. Computer layout, writing and brainstorming techniques are enhanced in this course. Students work to refine and enhance productions for a variety of audiences, adhering to journalistic rules and ethics.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ4000Y1) or Instructor’s Approval

Description: Students plan, draft, and complete written communications on a regular basis; refine and enhance journalistic skills; research self-selected topics; plan, organize and prepare projects; and work with instructor guidance to produce original work in print or another medium demonstrating advanced skills.

Students enrolled in this class may also participate in the EPISD Journalism Internship Program.

Course Code: HJ2100Y1 **Long Name:** Advanced Journalism: Newspaper 1 (NP1)
Short Name: Newspaper **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**
Service Id: 03230140 **2012 Course Code:** E93000 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor’s approval required

Description: The school newspaper is produced in this course. Students plan, draft, and complete written and/or visual communications on a regular basis. Students examine copy for clarity, engaging language, and the correct use of convention, and mechanics of written English. Students cover events, write school and community articles; take, select and scale photographs to print size, write cutlines and headlines, and edit and proofread copy.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ2100Y1) or Instructor’s Approval

Description: Advanced Journalism Part 2 focuses on analytical skills to produce consumers of media and technology. Articles and artwork (photography and graphics) to accompany the written compositions are introduced at this level

Course Code: HJ3100Y1 **Long Name:** Advanced Journalism: Newspaper 2 (NP2)
Short Name: Newspaper **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 03230150 **2012 Course Code:** E93200 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required

Description: Advanced students will work with first year students on investigative/assigned stories and photo/artwork that accompany stories. In-depth research on selected stories is done at this level. The students demonstrate an understanding of media development, press law, and the responsibility of the media.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ3100Y1) or Instructor's Approval

Description: Newspaper Production Part 2 expands to include distinguishing between responsible and irresponsible media action; planning pages and preparing the final layouts for publications; refining and enhancing journalistic skills; researching self-selected topics, and planning, organizing, and preparing projects and/or pages.

Course Code: HJ4100Y1 **Long Name:** Advanced Journalism: Newspaper 3 (NP3)
Short Name: Newspaper **Recommended Grade Placement:** 11-12 **1.0 credit** **STATE**

School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required

Description: Students, as editors, work on a more advanced level to coordinate with newer staffers. The course is designed to help students demonstrate computer layout and writing and brainstorming techniques. The course develops skills, which make certain that the publication adheres to journalistic rules and ethics.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ4100Y1) or Instructor's Approval

Description: This continuation of HJ4100Y1 focuses on refinement and enhancement of journalistic skills and linking related information and ideas from a variety of sources. Students' research self-selected topics and plan, organize, and prepare projects and/or pages.

Students enrolled in this class may also participate in the EPISD Journalism Internship Program.

Course Code: HJ2200Y1 **Long Name:** Advanced Broadcast Journalism 1 (BRCTJOR1)
Short Name: Broadcast 1 **Recommended Grade Placement:** 9-12 **1.0 credit** **STATE**
Service Id: 03231900 **2012 Course Code:** E95400 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required

Description: The student will be responsible for producing a television program to be broadcast at regular intervals during the semester. Students examine broadcast history and terminology, and evaluate broadcast law and ethics. After studying various personnel roles involved in a broadcast, students use skills of writing, camera operation, and computer editing to produce a news-oriented program.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ2200Y1) or Instructor's Approval

Description: This class expands to include analytical skills to produce consumers of media and technology. Graphics and special effects are introduced at this level.

Course Code: HJ3200Y1 **Long Name:** Advanced Broadcast Journalism 2 (BRCTJOR2)
Short Name: Broadcast 2 **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 03231901 **2012 Course Code:** E95600 **GPA:** TIER 1 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required or HJ2200Y1 (Broadcast 1)

Description: Advanced students begin working with first year students on understanding broadcast terminology, interviewing and writing skills, and camera operation. In-depth research for more specialized topics is done at this level.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HJ3200Y1) or Instructor's Approval

Description: Advanced students begin making programming decisions based on responsible and irresponsible media action. Students will also continue planning productions for airing; refining and enhancing journalistic skills, and researching self-selected topics.

Course Code: HJ4200Y1 **Long Name:** Advanced Broadcast Journalism 3 (BRCTJOR3)

Short Name: Broadcast 3 **Recommended Grade Placement:** 11-12 **1.0 credit STATE**

Service Id: 03231902 **2012 Course Code:** E95800 **GPA:** TIER 1 **Duration:** Year

School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Instructor approval required or HJ3200Y1 (Broadcast 2)

Description: Advanced students with three years of experience make decisions on editing, type of programs produced, team dynamics, and analysis of previous shows. Students are involved in the training of second year students.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (Hj4200Y1) or Instructor's Approval

Description: Advanced students are involved in a special project (documentation) and are responsible for team coordination. **Students enrolled in this class may also participate in the EPISD Journalism Internship Programs that are partnered with the local television stations.**

Course Code: HJ2300Y1 **Long Name:** Advanced Journalism: Literary Magazine 1 (LM1)

Students plan and produce special projects. They produce shows and publications while honing staff management skills. The focus in this class is editorial leadership for student producers and publication editors.

Students enrolled in this class participate in the Journalism Publication and Broadcast Internships.

Speech

[Return](#)

Course Code: HK3300SH **Long Name:** Communication Applications (COMMAPP)
Short Name: Comm **Recommended Grade Placement:** 10-12 **0.5 credit STATE**
Service Id: 03241400 **2012 Course Code:** E59000 **GPA:** TIER 3 **Duration:** Semester
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Description: In this class, students will understand and develop communication skills, which will benefit them in professional and personal relationships. These skills include sending verbal messages, choosing effective non-verbal behaviors, listening for desired communication results, the application of valid critical thinking and problem solving processes, and presentation skills. This course is designed to prepare students who are ready to go into the workplace. While this is not a course in public speaking, oral presentations will be required.

HK3300SH may also be taken by grade 9 students if they are repeating the course.

Course Code: HK330DSH **Long Name:** Communication Applications DC (COMMAPP)
Short Name: Comm Apps DC **Recommended Grade Placement:** 10-12 **0.5 credit STATE**
Service Id: 03241400 **2012 Course Code:** E590D0 **GPA:** TIER 1-DC **Duration:** Semester
School (s): El Paso High School

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** As Identified by the Campus/Instructor

Description: This course focuses on communication theory, interpersonal skills, presentational and group techniques as they apply to the individual in organizational and professional settings. While this is not a course in public speaking, oral presentations will be required.

Dual Credit-EPCC Speech 1321 Organizational and Professional Communication.

Course Code: HK1100Y1 **Long Name:** Debate 1 (DEBATE 1)
Short Name: Debate 1 **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03240600 **2012 Course Code:** E70000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Description: Students enrolled in debate will learn about the principles of debate and its relevance to society through research, persuasive speaking, logic, argumentation, and refutation. Students will apply these principles through discussion of controversial topics and current events

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK1100Y1)

Description: Students enrolled in the second semester will refine their knowledge of the principles of debate. Students will now use their knowledge of argumentation and apply it to evidence. Students will also learn about the simple organization of cases and arguments.

Course Code: HK2100Y1 **Long Name:** Debate 2 (DEBATE 2)
Short Name: Debate 2 **Recommended Grade Placement:** 10-12 **1.0 credit STATE**
Service Id: 03240700 **2012 Course Code:** E72000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK1100Y1 (Debate 1)

Description: Students will apply the knowledge attained in Debate 1 to this semester. Students taking the second level of debate will be exposed to value debate and policy debate. Analysis of different issues along with societal impacts will be discussed. Cross-examination techniques and delivery will be reinforced. Evidence will be analyzed to see if it is appropriate for the resolution and appropriate for the argument made. Additionally, this course will allow students to construct cases, briefs, case disadvantages and critiques.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK2100Y1)

Description: In Part 2, students will continue to work on either policy debate or value debate, as well as student congress. Students will also continue to construct cases, briefs, case disadvantages, and critiques. At this point, students who are interested in debating on the competitive level will apply their knowledge of debate and begin to scout tournaments. If a student chooses to do Lincoln-Douglas Debate and Cross-Examination Debate, students will also become familiar with philosophical theories.

Course Code: HK3100Y1 **Long Name:** Debate 3 (DEBATE 3)
Short Name: Debate 3 **Recommended Grade Placement:** 11-12 **1.0 credit STATE**
Service Id: 03240800 **2012 Course Code:** E74000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK2100Y1 (Debate 2)

Description: The third level of debate will apply the knowledge of the previous courses to a competitive outlet. Students will construct cases, disadvantages, briefs, critiques, and organize evidence to use at tournaments. If a student chooses to do Lincoln-Douglas Debate and Cross-Examination Debate, students will also become familiar with more extensive philosophical theories.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK3100Y1)

Description: The second semester will also allow the students to apply their prior knowledge to a competitive outlet. Students will continue to build cases, research, repair, and practice their cases to allow them to succeed at the competitive level.

Course Code: HK1000Y1 **Long Name:** Oral Interpretation 1 (ORALINT1)
Short Name: Oral Int 1 **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03240200 **2012 Course Code:** E68000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Description: In oral interpretation, students study the oral reading or performance of a literary work as a communication art. Students will learn what kinds of literary works are appropriate for the reader, the audience, the occasion, and which literature can be easily adapted for performance. In addition, students will research to understand the author's intent.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK1000Y1)

Description: Part 2 of oral interpretation will allow students to apply their previous knowledge of oral interpretation to prose, poetry and other speech events.

Course Code: HK2000Y1 **Long Name:** Oral Interpretation 2 (ORALINT2)
Short Name: Oral Int 2 **Recommended Grade Placement:** 10-12 **1.0 credit STATE**
Service Id: 03240300 **2012 Course Code:** E69100 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK1000Y1 (Oral Interpretation 1)

Description: This class further develops oral interpretation skills, techniques, and performances. Additional emphasis is placed on effective gesturing, facial expressions, body movement, vocal variety and diction, as well as, insight and understanding of the piece.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK2000Y1)

Description: In oral interpretation Part 2, students will be continuously changing their literary selections to gain more insight to the pieces. Emphasis will be placed on interpretation skills, techniques and performances.

Course Code: HK3000Y1 **Long Name:** Oral Interpretation 3 (ORALINT3)
Short Name: Oral Int 3 **Recommended Grade Placement:** 11-12 **1.0 credit STATE**
Service Id: 03240400 **2012 Course Code:** E69300 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK2000Y1 (Oral Interpretation 2)

Description: The third year of oral interpretation applies the selection of literary works, performance technique and student's understanding of the piece to a competitive atmosphere. Students taking oral interpretation Part 1 are expected to participate in public performances, tournaments and/or University Interscholastic League Tournaments.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK3000Y1)

Description: In Part 2, students will continue to apply their knowledge of literary works, performance technique, and insight to the competitive atmosphere. At this point, students will be able to gauge what pieces are valuable to be successful on the competitive level.

Course Code: HK1200Y1 **Long Name:** Public Speaking 1 (PUBSPKG1)
Short Name: Pub Spk 1 **Recommended Grade Placement:** 9-12 **1.0 credit STATE**
Service Id: 03240900 **2012 Course Code:** E61000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Description: Students will learn the concepts and skills needed to prepare and present public messages. This course will allow students to present and prepare these messages as well as allow them to analyze and evaluate other's speeches. Students will gain skills in reading, writing, speaking, listening, and thinking while applying memory, organization, research, and delivery skills. This is an elective course.

HK1200Y1 can also be taught in the middle schools by high school certified speech teachers.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK1200Y1)

Description: The second part will further develop student's public speaking skills by taking an in-depth study of discourse. Students will now apply their background knowledge to many situations including persuasive and informative speaking. This is an elective course.

Course Code: HK2200Y1 **Long Name:** Public Speaking 2 (PUBSPKG2)
Short Name: Pub Spk 2 **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 03241000 **2012 Course Code:** E63000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK1200Y1 (Public Speaking 1)

Description: This is an elective course. In addition to creating speeches, students will present their speeches with a specific audience or purpose in mind. Students will have additional practice in different speech methods including the extemporaneous, memorized, and impromptu methods.

HK2200Y1 can also be taught in the middle schools by high school certified speech teachers.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK2200Y1)

Description: The second part is a continuation of the in-depth study and presentation of informative and persuasive speeches using the differing speech methods.

Course Code: HK3200Y1 **Long Name:** Public Speaking 3 (PUBSPKG3)
Short Name: Pub Spk 3 **Recommended Grade Placement:** 11-12 **1.0 credit** **STATE**
Service Id: 03241100 **2012 Course Code:** E65000 **GPA:** TIER 3 **Duration:** Year
School (s): All Schools

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** HK2200Y1 (Public Speaking 2)/Instructor's Approval

Description: The focus of this course is on the rhetorical concepts of delivery, content and language choice. Students will also recognize and analyze speech forms, styles, and proofs. Students will also be expected to compete in a variety of festivals, tournaments and University Interscholastic League contests.

HK3200Y1 can also be taught in the middle schools by high school certified speech teachers.

Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Part 1 (HK3200Y1)

Description: The second part will continue to focus on the concepts of delivery, content and language choice. Students will also continue to recognize and analyze speech form, styles, and proofs. Participation in competitions will be expected.

Course Code: HK4100Y1 **Long Name:** Independent Study In Speech (First Time Taken) (IND SPCH)
Short Name: Speech 1:IS **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 03241200 **2012 Course Code:** None **GPA:** TIER 2-IS **Duration:** Year
School (s): All Schools

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** None

Description: Students refine and enhance speaking skills, writing skills, researching skills and collaboration skills. Students use the learned skills in areas of competition.

Course Code: HK4200Y1 **Long Name:** Independent Study In Speech (Second Time Taken) (INDSPCH2)
Short Name: Speech 2:IS **Recommended Grade Placement:** 11-12 **1.0 credit** **STATE**
Service Id: 03241210 **2012 Course Code:** None **GPA:** TIER 2-IS **Duration:** Year
School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** HK4100Y1 (Independent Study in Speech (First Time
Description: Students refine and enhance speaking skills, writing skills, researching skills and collaboration skills. Students use learned skills in areas of competition to advance to the national level. They also use the learned skills from the speech program to write and produce resumes.

Course Code: HK4300Y1 **Long Name:** Independent Study In Speech (Third Time Taken) (INDSPCH3)
Short Name: Speech 3:IS **Recommended Grade Placement:** 12 **1.0 credit** **STATE**
Service Id: 03241220 **2012 Course Code:** None **GPA:** TIER 2-IS **Duration:** Year
School (s): All Schools

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** HK4200Y1 (Independent Study in Speech (Second Time Taken)
Description: Students refine and enhance speaking skills, writing skills, researching skills and collaboration skills. Students use learned skills by participating in community projects which require speaking with interviewers for job placement.

Career and Technical Education

Agriculture, Food, and Natural Resources

[Return](#)

Course Code: HT1A00Y1 **Long Name:** Principles of Agriculture, Food, and Natural (PRINAFNR)
Short Name: Prin Ag FNR **Recommended Grade Placement:** 9 **1.0 STATE**
Service Id: 13000200 **2012 Course Code:** TA0200 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** NONE

Description: To be prepared for careers in agriculture, food, and natural resources, students must attain academic skills and knowledge in agriculture. This course allows students to develop knowledge and skills regarding career opportunities, personal development, globalization, industry standards, details, practices, and expectations. To prepare for success, students need to have opportunities to learn, re-enforce, experience, apply, and transfer their knowledge and skills in a variety of settings.

Course Code: HT2A00Y1 **Long Name:** Livestock Production (LIVEPROD)
Short Name: Livestock Prod **Recommended Grade Placement:** 9-12 **1.0 STATE**

School (s): Coronado (10-12 graders) and CCTE (11 graders)

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in the field of animal science, students need to attain academic skills and knowledge, acquire technical knowledge and skills related to animal systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer knowledge and skills and technologies in a variety of settings. Topics covered in this course include, but are not limited to, veterinary practices as they relate to both large and small animal species.

Course Code: HT3A10Y1 **Long Name:** Advanced Animal Science (ADVANSKI)
Short Name: Adv Animal Sci **Recommended Grade Placement:** 12 **1 credit** **STATE**
Service Id: 13000700 **2012 Course Code:** TA0701 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado and CCTE

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Veterinary Medical Applications (HT3A00Y1)

Description: To be prepared for careers in the field of animal science, students need to attain academic skills and knowledge, acquire knowledge and skills related to animal systems, and develop knowledge and skills regarding career opportunities, entry requirements, and industry standards. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings. This course examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. To receive credit in science, students must meet the 40% laboratory and fieldwork requirement identified in §74.3(b)(2)(C) of this title (relating to Description of a Required Secondary Curriculum).

HT3A10Y1 qualifies for 4th Year of Science.

Course Code: HT4A00Y1 **Long Name:** Mathematical Apps in Agriculture, Food, and Natural Resources (MATHAFNR)

Short Name: Math AG FD NR **Recommended Grade Placement:** 12 **1.0 credit** **STATE**

Service Id: 13001000 **2012 Course Code:** TA1001 **GPA:** TIER 3 **Duration:** Year

School (s): Coronado

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** 1 Credit in AG Cluster

Description: To be prepared for careers in agriculture, food, and natural resources, students must acquire technical knowledge in the discipline as well as apply academic skills in mathematics. Students should apply knowledge and skills related to mathematics, including algebra, geometry, and data analysis in the context of agriculture, food, and natural resources. To prepare for success, students are afforded opportunities to reinforce, apply, and transfer their knowledge and skills related to mathematics in a variety of contexts.

HT4A00Y1 Course qualifies for 4th year of math must be taken prior to or concurrently with Algebra 2.

Course Code: HT2A30Y1 **Long Name:** Energy & Natural Resources Technology (ENGNRT)

School (s): Address, Irvin and CCTE

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Energy & Natural Resources Technology
(HT2S10X1)

Description: To be prepared for careers in environmental service systems, students need to attain academic skills and knowledge, acquire advanced technical knowledge and skills related to environmental service systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills and technologies in a variety of settings. This course examines the interrelatedness of environmental issues and production agriculture. Students evaluate sustainable resources and green technologies which will provide environmental benefits. Instruction is designed to allow for the application of science and technology to measure environmental impacts resulting from production agriculture through field and laboratory experiences.

Course Code: HT1A10Y1 **Long Name:** Principles and Elements of Floral Design (PEFLDSN)
Short Name: Prin Floral Dsg **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 13001800 **2012 Course Code:** TA1801 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in floral design, students need to attain academic skills and knowledge as well as technical knowledge and skills related to horticultural systems and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply and transfer their knowledge and skills and technologies in a variety of settings. This course is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises.

HT1A10Y1 qualifies for a Fine Arts credit.

Course Code: HT3A30Y1 **Long Name:** Landscape Design and Turf Grass (LNDTGMGT)
Short Name: LS Dsg TG Mgmt **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 13001900 **2012 Course Code:** TA1901 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in horticultural systems, students need to attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills and technologies in a variety of settings. This course is designed to develop an understanding of landscape and turf grass management techniques and practices.

Course Code: HT3A40Y1 **Long Name:** Horticulture Science (HORTSCI)
Short Name: Hort Sci **Recommended Grade Placement:** 10-12 **1.0 credit** **STATE**
Service Id: 13002000 **2012 Course Code:** TA2001 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in horticultural systems, students need to attain academic skills and knowledge, acquire technical knowledge and skills related to horticulture and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to

learn, reinforce, apply, and transfer knowledge and skills in a variety of settings. This course is designed to develop an understanding of common horticultural management practices as they relate to food and ornamental plant production.

Course Code: HT3A50Y1 **Long Name:** Advanced Plant and Soil Science (ADVPSSCI)
Short Name: Adv P & S Sci **Recommended Grade Placement:** 12 **1.0 credit STATE**
Service Id: 13002100 **2012 Course Code:** TA2101 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** 1 Credit in the AG Cluster

Description: Plant and Soil Science provides a way of learning about the natural world. Students should know how plant and soil science has influenced a vast body of knowledge, that there are still applications to be discovered, and that plant and soil science is the basis for many other fields of science. Investigations, laboratory practices, and field exercises will be used to develop an understanding of current plant and soil science. This course is designed to prepare students for careers in the food and fiber industry. Students will learn, reinforce, apply, and transfer their knowledge in a scientific setting.

HT3A50Y1 qualifies for 4th Year of Science.

Course Code: HT2A40Y1 **Long Name:** Agricultural Mechanics and Metal (AGMECHMT)
Short Name: AG Mech & Metal **Recommended Grade Placement:** 10-12 **0.5 credit STATE**
Service Id: 13002200 **2012 Course Code:** TA2200 **GPA:** TIER **Duration:** Year
School (s): Coronado

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in agricultural power, structural, and technical systems, students need to attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer knowledge and skills and technologies in a variety of settings. This course is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques.

Course Code: HT3A60Y1 **Long Name:** Agricultural Facilities Design and (AGDFDAB)
Short Name: AG Fac Dsg/Fab **Recommended Grade Placement:** 11-12 **1.0 credit STATE**
Service Id: 13002300 **2012 Course Code:** TA2301 **GPA:** TIER 3 **Duration:** Year
School (s): Coronado

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Principles of AG FNR (HT1A00Y1)

Description: To be prepared for careers in mechanized agriculture and technical systems, students attain knowledge and skills related to agricultural facilities design and fabrication. Students explore career opportunities, entry requirements, and industry expectations. To prepare for success, students reinforce, apply, and transfer their academic knowledge and technical skills in a variety of settings.

Course Code: HT3A70Y1 **Long Name:** Agricultural Power Systems (AGPOWSYS)
Short Name: AG Power Sys **Recommended Grade Placement:** 11-12 **1.0 credit STATE**

Course Code: **Long Name:**
HT2D00SH Business Information Management I (BUSIM1)
HT2D0DSH Business Information Management I - (Dual Credit) (BUSIM1)
Short Name: BIM 1/BIM 1 DC **Recommended Grade Placement:** 9-12 **0.5 Credit STATE**
Service Id: 13011400 **2012 Course Code:** TD1400/TD14D0 **GPA:** TIER 3/TIER 1-DC **Duration:** Semester
School (s): Trans Mountain Early College

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Keyboarding (HT1D10SH)

Description: Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce and postsecondary education. Students apply technical skills to address business applications of emerging technologies, create word-processing documents, develop a spreadsheet, formulate a database, and make an electronic presentation using appropriate software. Articulated and Dual Credit courses will follow EPCC Course Syllabus. Dual Credit Course offered in conjunction with Post-Secondary Institution [Must be accepted and enrolled with EPCC]. Counselors need to enroll all TMEC students in HT2D0DSH and HT2D00SH.

The EPCC course is:
BCIS 1305 (Business Computers Applications)
Courses require concurrent enrollment.
HT2D00SH/ HT2D0DSH qualifies for the EPISD Technology requirement.

Course Code: HT3D00Y1 **Long Name:** Business Information Management II (BUSIM2)
Short Name: BIM 2 **Recommended Grade Placement:** 11-12 **1.0 credit STATE**
Service Id: 13011500 **2012 Course Code:** TD1501 **GPA:** TIER 3 **Duration:** Year
School (s): All Campuses

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Business Information Management 1 (HT1D10SH)

Description: Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies, create complex word-processing documents, develop sophisticated spreadsheets using charts and graphs, and make an electronic presentation using appropriate multimedia software.

Course Code: HT4D00Y1 **Long Name:** Business English (BUSENG)
Short Name: Bus English **Recommended Grade Placement:** 12 **1.0 credits STATE**
Service Id: 13011600 **2012 Course Code:** TD1601 **GPA:** TIER 3 **Duration:** Year
School (s): All campuses

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** English 3 (HE3000Y1) & Keyboarding (HT1D10SH)

Description: Students recognize, evaluate, and prepare for a rapidly evolving global business environment that requires flexibility and adaptability. Students apply technical skills to address business applications of emerging technologies. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students are expected to plan, draft, and complete written compositions on a regular basis. Students edit their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English and produce final, error-free drafts for business reproduction.

Course Code: HT3D00SH **Long Name:** Business Law (BUSLAW)
Short Name: Bus Law **Recommended Grade Placement:** 11-12 **0.5 credit STATE**
Service Id: 13011700 **2012 Course Code:** TD1700 **GPA:** TIER 3 **Duration:** Semester
School (s): Andress, Austin, Bowie, Burges, Coronado, EPHS, Franklin, Irvin, and Jefferson

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Business Information Management 1 (HT2D00Y1)

Description: Students analyze the social responsibility of business and industry regarding the significant issues relating to the legal environment, business ethics, torts, contracts, negotiable financial instruments, personal property, sales, warranties, and business organizations, concept of agency and employment, and real property. Students apply technical skills to address business applications of contemporary legal issues. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions.

Course Code: HT4D00SH/HT4D0AY1 **Long Name:** Global Business (GLOBBUS)
Short Name: Global Bus **Recommended Grade Placement:** 10-12 **0.5/1.0 credit STATE**
Service Id: 13011800 **2012 Course Code:** TD1800/TD18A0 **GPA:** TIER 3 **Duration:**
School (s): All Campuses-[HT4ED0AY1(Articulated) only at Bowie]

Part 1/ Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** Business Information Management 1 (HT2D00Y1)

Description: Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce and postsecondary education. Students apply technical skills to address global business applications of emerging technologies. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment.

Course Code: HT2D10Y1 **Long Name:** Human Resources Management (HRMGT)

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Principles of Health Science Technology (HT1H2ASH), and Biology ([HC1000Y1](#))

Description: The Health Science course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skill development. The course may be taught by different methodologies such as clinical rotation and career preparation learning. To pursue a career in the health science industry, students should recognize, learn to reason, think critically, make decisions, solve problems, and communicate effectively. Students should recognize that quality health care depends on the ability to work well with others. The health science industry is comprised of diagnostic, therapeutic, health informatics, support services, and biotechnology research and development systems that function individually and collaboratively to provide comprehensive health care. Students should identify the employment opportunities, technology, and safety requirements of each system. Students are expected to apply the knowledge and skills necessary to pursue a health science career through further education and employment. Professional integrity in the health science industry is dependent on acceptance of ethical and legal responsibilities. Students are expected to employ their ethical and legal responsibilities, recognize limitations, and understand the implications of their actions. All students are required to become credentialed (background check, drug testing, fingerprinting and / or CPR Certification.) Articulated courses will follow EPCC Course Syllabus. Articulated Course offered; student can request post-secondary credit with participating institutions [Transcript grade of 85 or better].

The EPCC Course is:

HPRS 1201 (Introduction to Health Professions)

HPRS1202 (Wellness and Health Promotion).

Counselors need to identify campus by section number.

Students @ CTE require concurrent enrollment in HT3H1DSH, HT3H2DSH, and HT3H0AY1.

HT3H3AY2 qualifies for the EPISD Health requirement

Student must complete both semesters to fulfill the Health requirement.

Course Code: HT3H3AY2 **Long Name:** Health Science – (Articulated) (HLTHSCI)
Short Name: Health Sci **Recommended Grade Placement:** 10 Silva / 11-12 CCTE **2.0 credits** **STATE**
Service Id: 13020400 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Silva Health Magnet/Center for Career and Technology Education

Part 1/ Part 2 **Credit Per Part:** 1.0 **Recommended Prerequisite:** Principles of Health Science Technology (HT3H1DSH), and Biology (HC1000Y1)

Description: The Health Science course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skill development. The course may be taught by different methodologies such as clinical rotation and career preparation learning. To pursue a career in the health science industry, students should recognize, learn to reason, think critically, make decisions, solve problems, and communicate effectively. Students should recognize that quality health care depends on the ability to work well with others. The health science industry is comprised of diagnostic, therapeutic, health informatics, support services, and biotechnology research and development systems that function individually and collaboratively to provide comprehensive health care. Students should identify the employment opportunities, technology, and safety requirements of each system. Students are expected to apply the knowledge and skills necessary to pursue a health science career through further education and employment. Professional integrity in the health science industry is dependent on acceptance of ethical and legal responsibilities. Students are expected to employ their ethical and legal responsibilities, recognize limitations, and understand the implications of their actions. All students are required to become credentialed (background check, drug testing, fingerprinting and / or CPR Certification.) Articulated courses will follow EPCC Course Syllabus. Course Code: HT4D10Y2	Long Name: Business Management (BUSMGT) Business Management (Medical Admin) (BUSMGT)	
Short Name: Bus Mgmt-MedAdm	Recommended Grade Placement: 11	2.0 credits STATE
Service Id: 13012100 13012100	2012 Course Code: TD2101 TD2102	GPA: TIER 3 Duration: Year Year

School (s): Center for Career and Technology Education

Part 1/ Part 2 Credit Per Part: 1.0 **Recommended Prerequisite:** Business Information Management 1 (HT2D00Y1)

Description: Students recognize, evaluate, and prepare for a rapidly evolving global business environment that requires flexibility and adaptability. Students analyze the primary functions of management and leadership, which are planning, organizing, staffing, directing or leading, and controlling. Topics will incorporate social responsibility of business and industry. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent managers, employees, and entrepreneurs. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate management decisions.

School (s): See Above

Part 1/ Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** Biology (HC1000Y1) & Chemistry (HC2000Y1) and Physics (HC3000Y1)

Description: In Anatomy and Physiology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Science, as defined by the National Academy of Sciences, is the "use of evidence to construct testable explanations and predictions of natural phenomena, as well as the knowledge generated through this process." This vast body of changing and increasing knowledge is described by physical, mathematical, and conceptual models. Students should know that some questions are outside the realm of science because they deal with phenomena that are not scientifically testable. Scientific inquiry is the planned and deliberate investigation of the natural world. Scientific methods of investigation are experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Scientific decision making is a way of answering questions about the natural world. Students should be able to distinguish between scientific decision-making methods (scientific methods) and ethical and social decisions that involve science (the application of scientific information). Science, systems, and models; A system is a collection of cycles, structures, and processes that interact. All systems have basic properties that can be described in space, time, energy, and matter. Change and constancy occur in systems as patterns and can be observed, measured, and modeled. These patterns help to make predictions that can be scientifically tested. Students should analyze a system in terms of its components and how these components relate to each other, to the whole, and to the external environment. Articulated courses will follow EPCC Course Syllabus. Articulated Course offered; student can request post-secondary credit with participating institutions [Transcript grade of 85 or better].

The EPCC Courses are:

VNSG1405 (Health Science)

School (s):

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Biology (HC1000Y1) & Chemistry (HT2000Y1) and Physics (HC3000Y1)

Description: Students in Medical Microbiology explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Science, as defined by the National Academy of Sciences, is the "use of evidence to construct testable explanations and predictions of natural phenomena, as well as the knowledge generated through this process." This vast body of changing and increasing knowledge is described by physical, mathematical, and conceptual models. Students should know that some questions are outside the realm of science because they deal with phenomena that are not scientifically testable. Scientific inquiry is the planned and deliberate investigation of the natural world. Scientific methods of investigation are experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Scientific decision making is a way of answering questions about the natural world. Students should be able to distinguish between scientific decision-making methods (scientific methods) and ethical and social decisions that involve science (the application of scientific information). Science, systems, and models; A system is a collection of cycles, structures, and processes that interact. All systems have basic properties that can be described in space, time, energy, and matter. Change and constancy occur in systems as patterns and can be observed, measured, and modeled. These patterns help to make predictions that can be scientifically tested. Students should analyze a system in terms of its components and how these components relate to each other, to the whole, and to the external environment.

HT4H00SH-Medical Microbiology qualifies for 4th Year of Science in conjunction with HT4H10SH-Pathophysiology.

Course Code: HT4H10SH **Long Name:** Pathophysiology (PATHO)
Short Name: Pathophysiology **Recommended Grade Placement:** 12 **0.5 credit** **STATE**
Service Id: 13020800 **2012 Course Code:** TH0800 **GPA:** TIER 3 **Duration:** Semester
School (s):

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Biology (HC1000Y1) & Chemistry (HT2000Y1) and Physics (HC3000Y1)

Description: Students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology. Nature of science; Science, as defined by the National Academy of Sciences, is the "use of evidence to construct testable explanations and predictions of natural phenomena, as well as the knowledge generated through this process." This vast body of changing and increasing knowledge is described by physical, mathematical, and conceptual models. Students should know that some questions are outside the realm of science because they deal with phenomena that are not scientifically testable. Scientific inquiry; Scientific inquiry is the planned and deliberate investigation of the natural world. Scientific methods of investigation are experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Science and social ethics; Scientific decision making is a way of answering questions about the natural world. Students should be able to distinguish between scientific decision-making methods (scientific methods) and ethical and social decisions that involve science (the application of scientific information). Science, systems, and models; A system is a collection of cycles, structures, and processes that interact. All systems have basic properties that can be described in space, time, energy, and matter. Change and constancy occur in systems as patterns and can be observed, measured, and modeled. These patterns help to make predictions that can be scientifically tested. Information Technology

[Return](#)

Course Code: HT1K00SH **Long Name:** Principles of Information Technology (PRINIT)
Short Name: Prin Info Tech **Recommended Grade Placement:** 11-12 0.5 credit STATE
Service Id: #13027200 **2012 Course Code:** TK7200 **GPA:** TIER 3 **Duration:** Semester
School (s): Chapin and Irvin

Part 1 **Credit Per Part:** 0.5 **Recommended Prerequisite:** NONE

Description: Students develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment.

Course Code: HT2K00Y1 **Long Name:** Digital and Interactive Media (DIMEDIA)
Short Name: D & I Media **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13027800 **2012 Course Code:** TK7801 **GPA:** TIER 3 **Duration:** Year
School (s): Andress, Austin, Burges, Chapin, Coronado, EPHS, Franklin, Irvin, and Jefferson

Part 1 **Part 2** **Credit Per Part:** 1.5 **Recommended Prerequisite:** NONE

Description: Through the study of digital and interactive media and its application in information technology, students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

HT2K00Y1 qualifies for the EPISD Technology requirement.

Course Code: HT3K00Y1 **Long Name:** Web Technologies (WEBTECH)
Short Name: Web Tech **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13027900 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Andress, Austin, Burges, Chapin, Coronado, EPHS, Franklin, Irvin, and Jefferson

Part 1 **Part 2** **Credit Per Part:** 1.0 **Recommended Prerequisite:** Digital and Interactive Media (HT2K00Y1)

Description: Through the study of web technologies and design, students learn to make informed decisions and apply the decisions to the field of information technology. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

Course Code: HT3K20Y2 **Long Name:** Telecommunications and Networking (TELECOMN)
Short Name: Telecom&Ntwks **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13027400 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Center for Career Technology Education

Part 1/Part 2 **Credit Per Part:** 1.0 **Recommended Prerequisite:** NONE

Description: Students develop knowledge of the concepts and skills related to telecommunications and data networking technologies and practices in order to apply them to personal or career development. To prepare for success, students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. HT3K20Y2 qualifies for the EPISD Technology requirement.

Course Code: HT4K20Y2 **Long Name:** Research in IT Solutions (RESITSOL)
Short Name: **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13028000 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Center for Career Technology Education

Part 1/Part 2 **Credit Per Part:** 1.0 **Recommended Prerequisite:** Telecommunications and Networking

Description: This course prepares students for CompTIA's vendor-neutral Network+ certification. CompTIA Network+ validates the knowledge and skills of networking professionals. Network+ recognizes a technician's ability to describe the features and functions of networking components and to install, configure and troubleshoot basic networking hardware, protocols and services. This course will teach students the various cables, connectors and hardware involved in creating a functional network. Students will continue their exploration of computer networking by developing an understanding of the OSI model as well as configuration techniques. Students will explore the different aspects of networking in relation to operating systems such as Linux, Mac and NetWare. This certification is part of Microsoft's, MCSE pathways. This course satisfies the required technology credit.

Course Code: HT3K10Y2 **Long Name:** Computer Maintenance (COMPMTN)
Short Name: CPU Maint **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Center for Career Technology Education

Part 1/Part 2 **Credit Per Part:** 1.0 **Recommended Prerequisite:** NONE

Description: Students acquire principles of computer maintenance, including electrical and electronic theory, computer hardware principles, and broad level components related to the installation, diagnosis, service, and repair of computer systems. To prepare for success, students must have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems.

HT3K10Y2 qualifies for the EPISD Technology requirement.

Course Code: HT4K10Y2 **Long Name:** Computer Technician (COMPTECH)
Short Name: CPU **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13027500 **2012 Course Code:** TK7502 **GPA:** TIER 3 **Duration:** Year
School (s): Center for Career Technology Education

Part 1 **Part 2** **Credit Per Part:** 1.0 **Recommended Prerequisite:** NONE

Description: Students gain knowledge and skills in the area of computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related to the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of information technology concepts and standards are essential to prepare students for success in a technology-driven society. The critical thinking, information technology experience, and product development may be conducted either in a classroom setting with an instructor, with an industry mentor, or both.

HT4K10Y2 qualifies for the EPISD Technology requirement.

Short Name: Forensic Sci **Recommended Grade Placement:** 11-12 1.0 credit STATE
Service Id: #13029500 **2012 Course Code:** **GPA:** TIER 3 **Duration:** Year
School (s): Austin, Burges, Irvin, Jefferson, and Silva

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** NONE

Description: Forensic Science is a course that uses a structured and scientific approach to the investigation of crimes of assault, abuse and neglect, domestic violence, accidental death, homicide, and the psychology of criminal behavior. Students will learn terminology and investigative procedures related to crime scene, questioning, interviewing, criminal behavior characteristics, truth detection, and scientific procedures used to solve crimes. Using scientific methods, students will collect and analyze evidence through case studies and simulated crime scenes such as fingerprint analysis, ballistics, and blood spatter analysis. Students will learn the history, legal aspects, and career options for forensic science.

HT3L00Y1 qualifies for 4th Year of Science.

Course Code: HT3L1DY1 **Long Name:** Court Systems and Practices (Dual Credit) (COURTSP)
Short Name: Court CP DC **Recommended Grade Placement:** 11-12 1.0 credit STATE
Service Id: #13029600 **2012 Course Code:** TL96D1 **GPA:** TIER 1-DC **Duration:** Year
School (s): Austin

Part 1 Credit Per Part: 1.0 **Recommended Prerequisite:** Principles of Law, PS/C/S (HT1L00SH) and Law Enforcement I (HT3L1ASH)

Description: Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation. Student must be accepted and enrolled with EPCC. Dual Credit course will follow EPCC Course Syllabus and student can request post-secondary credit with participating institution.

The EPCC Courses are:

CRIJ 2313 (Correctional Systems and Practices)
CJSA 1347 (Police Organization and Administration).

Course Code: HT3L10S1 **Long Name:** Correctional Services (CORRSRVS)
Short Name: Correctnl Srvc **Recommended Grade Placement:** 11-12 1.0 credit STATE
Service Id: #13029700 **2012 Course Code:** TL9701 **GPA:** TIER 3 **Duration:** Year
School (s): Austin

Part 1 Credit Per Part: 0.1 **Recommended Prerequisite:** NONE

Description: In Correctional Services, students prepare for certification required for employment as a correctional officer. The student will learn the role and responsibilities of a correctional officer; discuss relevant rules, regulations, and laws; and discuss defensive tactics, restraint techniques, and first aid procedures as used in the correctional setting. The student will analyze rehabilitation and alternatives to institutionalization.

Course Code: HT2L2AY2 **Long Name:** Firefighter I (All Year) (Articulated) (FIRE1)

Course Code: HT1M00Y1 **Long Name:** Principles of Manufacturing (PRINMAN)
Short Name: Prin of Mfg **Recommended Grade Placement:** 9-12 1.0 credit STATE
Service Id: #13032200 **2012 Course Code:** TM2201 **GPA:** TIER 3 **Duration:** Year
School (s): Irvin and Jefferson

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Algebra I (HM1000Y1)

Description: In Principles of Manufacturing, students gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how those knowledge and skills are applied to manufacturing. Knowledge and skills in the proper application of principles of manufacturing, the design of technology, the efficient production of technology, and the assessment of the effects of manufacturing production technology prepare students for success in the modern world. The study of manufacturing technology allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in a manufacturing setting. In addition to general academic and technical knowledge and skills, students gain an understanding of career opportunities available in manufacturing and what employers require to gain and maintain employment in these careers

Course Code: HT2M0AY1 **Long Name:** Welding (Articulated) (WELD)
Short Name: Welding **Recommended Grade Placement:** 11-12 1.0 credit STATE

School (s): Jefferson

Part 1 Credit Per Part: 0.5 **Recommended Prerequisite:** Principles of Manufacturing (HT1M00Y1) and Algebra I (HM1000Y1)

Description: Rapid advances in technology have created new career opportunities and demands in many industries. Welding provides the knowledge, skills, and technologies required for employment in metal technology systems. Students develop knowledge and skills related to this system and apply them to personal career development. This course supports integration of academic and technical knowledge and skills. Students will reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for future success. Articulated and Dual Credit courses will follow EPCC Course Syllabus. Articulated Course offered; student can request post-secondary credit with participating institutions [Transcript grade of 85 or better]. Dual Credit Course offered in conjunction with Post-Secondary Institution [Must be accepted and enrolled with EPCC].

School (s): Irvin

Part 1/Part 2 Credit Per Part: 1.0 **Recommended Prerequisite:** Metal Manufacturing (HT2M10Y1)

Description: This course is designed to enhance the technical knowledge and skills learned in Precision Metal Manufacturing by allowing students the opportunity to explore career preparation that has resulted from the rapid advances in technology and career demands in high-skill, high-wage opportunities. Advanced Precision Metal Manufacturing provides the knowledge, skills, and technologies required for employment in a globally competitive manufacturing environment. This course may also address a variety of materials in addition to metal such as plastics, ceramics, and wood. Students need to develop concepts and skills related to this system in order to apply them to personal and professional development. Career and technical education supports the integration of academic and career and technical knowledge and skills. Students must have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for future success.

Part 1/Part 2 Credit Per Part: 1.0 **Recommended Prerequisite:** Marketing Dynamics (HT3N3AY2)

Description: Through course required employment, students gain knowledge and skills that help them become proficient in one or more of the marketing functional areas. Students will illustrate appropriate management and research skills to create the marketing mix. This course covers technology, communication, and customer-service skills. The practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. The practicum course is a paid or unpaid experience for students participating in a coherent sequence of career and technical education courses in marketing education.

Course requires minimum of 180 hours worked per semester.

Course Code: HT4N10Y3 **Long Name:** Practicum in Marketing Dynamics 1 (PRACMKTG)
Short Name: Prac Mkt I **Recommended Grade Placement:** 12 3.0 credits STATE
Service Id: #13034800 **2012 Course Code:** TN4803 **GPA:** TIER 3 **Duration:** Year
School (s): Bowie, Burges, Chapin, Coronado, EPHS, and Franklin

Part 1/Part 2 Credit Per Part: 1.5 **Recommended Prerequisite:** Marketing Dynamics (HT3N3AY2)

Description: Through course required employment, students gain knowledge and skills that help them become proficient in one or more of the marketing functional areas. Students will illustrate appropriate management and research skills to create the marketing mix. This course covers technology, communication, and customer-service skills. The practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. The practicum course is a paid or unpaid experience for students participating in a coherent sequence of career and technical education courses in marketing education.

Course requires minimum of 270 hours worked per semester.

Course Code: *HT4N1VY2 **Long Name:** (PRACMKTG)
Short Name: Prac Mkt I **Recommended Grade Placement:** 11-12 2.0 credits STATE
Service Id: #13034800 **2012 Course Code:** *TN48V3 **GPA:** TIER 3 **Duration:** Year
School (s): Center for Career Technology Education

Part 1/Part 2 Credit Per Part: 1.0 **Recommended Prerequisite:** NONE

Description: Marketing is a series of dynamic activities that focus on the customer to generate a profitable exchange. Students gain knowledge and skills that help them to be proficient in one or more of the marketing functional areas associated with distribution, financing, marketing information management, pricing, product planning, promotion, purchasing, risk management, and selling skills. Students integrate skills from academic subjects, information technology, interpersonal communication, and management training to make responsible decisions. This course may include paid or unpaid career preparation experience.

***Course is offered to students scheduled through ARD**

School (s): Burges, Chapin, Coronado, Irvin, TMEC and Silva

Part 1/Part 2 **Credit Per Part:** 0.5 **Recommended Prerequisite:** NONE

Description: Nature of Science, as defined by the National Academy of Sciences, is the "use of evidence to construct testable explanations and predictions of natural phenomena, as well as the knowledge generated through this process." This vast body of changing and increasing knowledge is described by physical, mathematical, and conceptual models. Students should know that some questions are outside the realm of science because they deal with phenomena that are not scientifically testable. Scientific inquiry is the planned and deliberate investigation of the natural world. Scientific methods of investigation are experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Science and social ethics; Scientific decision making is a way of answering questions about the natural world. Students should be able to

distinguish between scientific decision-making methods (scientific methods) and ethical and social decisions that involve science (the application of scientific information). Scientific systems; A system is a collection of cycles, structures, and processes that interact. All systems have basic properties that can be described in space, time, energy, and matter. Change and constancy occur in systems as patterns and can be observed, measured, and modeled. These patterns help to make predictions that can be scientifically tested. Students should analyze a system in terms of its components and how these components relate to each other, to the whole, and to the external environment.

HT3SX0Y1 qualifies for 4th Year of Science after completing Biology, Chemistry, and Physics.

School (s): Center for Career Technology Education

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** NONE

Description: In Principles of Transportation, Distribution, and Logistics, students gain knowledge and skills in the safe application, design, production, and assessment of products, services, and systems. This knowledge includes the history, laws and regulations, and common practices used in the logistics of warehousing and transportation systems. Students should apply knowledge and skills in the application, design, and production of technology as it relates to the transportation, distribution, and logistics industries. This course allows students to reinforce, apply, and transfer their academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings.

Course Code: HT1P20Y1 **Long Name:** Energy, Power, and Transportation Systems (EPTSYS)
Short Name: Intro Auto 2 **Recommended Grade Placement:** 9-12 / 10 CCTE 1.0 credit STATE
Service Id: #13039300 **2012 Course Code:** TP9301 **GPA:** TIER 3 **Duration:** Year
School (s): Austin and Center for Career Technology Education

Part 1/Part 2 Credit Per Part: 0.5 **Recommended Prerequisite:** NONE

Description: The businesses and industries of the Transportation, Distribution, and Logistics cluster are rapidly expanding to provide new career opportunities. Students will need to understand the interaction between various vehicle systems, the logistics used to move goods and services to consumers, and the components of transportation infrastructure. Performance requirements will include academic and technical skills. Students prepared to meet the expectations of employers in this industry must be able to interact and relate to others and understand the technologies used in order to provide products and services in a timely manner. The increasing demand for employees will provide growth potential.

Course Code: HT3P20Y2 **Long Name:** Advanced Auto Technology (ASE Program 1) (ADVAUTOT)

District Graduation Requirements</p> <p>Only for students entering Grade 9 in the 2014-2015 school year and thereafter shall enroll in the courses necessary to complete the curriculum requirements for the EPISD Foundation High School Program. This plan plus 1 or more ENDORSEMENTS will earn a student a DISTINGUISHED LEVEL OF ACHIEVEMENT and be eligible for the top 10% automatic admission to the Texas University System.</p>
--	---	---

A Student must earn 22.5 credits and pass testing requirements for graduation as specified in Chapt 101.

- 4.0 credits in ELA
 - o Eng. I, II, & III and one adv. Eng. credit
 - 3.0 credits in Mathematics
 - o Alg. I, Geometry, & one adv. math
 - 3.0 credits in Science
 - o Biology & 2 lab-based courses
 - 3.0 credits in Social Studies
 - 2.0 credits in LOTE in the same language
 - 1.0 credit in P.E.
 - o ROTC OR
 - o Or P.E. Substitute
 - 1.0 Credit in Fine Arts
 - 0.5 Credit in Speech
 - 5.0 Elective Credits
- 22.5 Total Credits**

A Student must earn 22 credits and pass testing requirements for graduation as specified in Chapter 101.

- 4.0 credits in ELA
 - o Eng. I, II, & III and one adv. Eng. Credit
 - 3.0 credits in Mathematics
 - o Alg. I, Geometry, & one adv. math
 - 3.0 credits in Science
 - o Biology, & 2 lab-based courses
 - o Credit may not be earned for both Physics and Prin. Of Tech. to satisfy the science credit requirement
 - 3.0 credits in Social Studies
 - o 1.0 credit U.S. History
 - o 0.5 credit U.S. Government
 - o 0.5 credit Economics
 - o 1.0 elective Social Studies
 - 2.0 credits in LOTE in the same language
 - o 2.0 credits in computer programming languages
 - 1.0 credit in P.E.
 - o ROTC OR
 - o Or P.E. Substitute
 - 1.0 Credit in Fine Arts
 - 5.0 Elective Credits
- 22 Total Credits**

A Student must earn 26 credits and pass testing requirements for graduation as specified in Chapter 101.

- 4.0 credits in ELA
 - o Eng. I, II, III and one adv. Eng.
 - 4.0 credits in Mathematics
 - o Alg. I, Geometry, Alg. II & one adv. math
 - 4.0 credits in Science
 - o Biology, Chemistry, Physics & 1 lab-based course
 - o Credit may not be earned for both Physics and Prin. Of Tech. to satisfy the science credit req.
 - 3.0 credits in Social Studies
 - o 1.0 credit U.S. History
 - o 0.5 credit U.S. Government
 - o 0.5 credit Economics
 - o 1.0 credit World History OR World Geography
 - 2.0 credits in LOTE-same language
 - o 2.0 credits in computer programming languages
 - 1.0 credit in P.E. or ROTC or P.E. Substitute
 - 1.0 Credit in Fine Arts
 - 0.5 Credit in Speech
 - 0.5 Health
 - 1.0 Technology Credit
 - 1.0 Elective Credit
 - 4.0 Endorsement Credits
- 26 Total Credits**

- ENDORSEMENTS**
- (STEM) Science, Technology, Engineering and Technology**
 - o CTE, Computer Science, STEM Math, STEM Science, and/or STEM Combination
 - Multidisciplinary**
 - o Workforce/Post-Secondary Education, Core Concentration, and/or Advanced Academics
 - Public Services**
 - o CTE Health Science, Human Services, Law, Gov. & Public Admin, Education and/or JROTC
 - Arts and Humanities**
 - o Social Studies, LOTE (Same Lang.), LOTE (Two Languages), Fine Arts (Single Genre), Fine Arts(Multi-Genre), and/or ELA
 - Business and Industry**
 - o CTE, English, Technology Apps, Business Combination

Courses may be selected from: Pre-AP, AP, IB, Dual Credit, ESOL, SPED and Regular
