Algebra 1, Geometry, Algebra 2 Standards Review Problems

The Summative High School Math California Standards Test (CST) is taken by all students in grades 9, 10, and 11 who completed Algebra 2 in a previous school year. This includes students enrolled in Math Analysis, Calculus AP, Statistics, Statistics AP, Math Studies SL, and Math SL.

The HS Summative Math CST blueprint includes Algebra 1, Algebra 2, and Geometry standards. A summary of the blueprint is below. The complete blueprint is available on the SVUSD Math Resources for Teachers website via the SVUSD Staff Portal and on the California Department of Education (CDE) website.
