HIRE GUIDE

Our catalogue contains handy icons as well as pricing, to let you know what connections and/or power requirements for the equipment to function.

See below for more information on the hire icons.

Please also note that whilst every effort has been made to ensure that the equipment in this brochure is accurate, equipment may change throughout the course of the year and makes or models may differ for the time of hire.

Specifications will however always remain the same if not better for the required equipment requested.

We are always at the end of a call or email if you have questions or queries.

Please bear in mind some equipment may only be hired with a trained engineer. These fees will be outlined and will be in addition to the hire of the equipment unless otherwise stated.

-  3 Pin XLR
-  13A Plug
-  Battery
-  5 Pin XLR
-  16A Plug
-  UHF
-  Speakon
-  32A Plug
-  VHF

For your safety, all our electrical items undergo Portable Appliance Testing (PAT) before all hires. If you require information on any of our products, including power consumption, heat output and other details, then please get in touch and let us know.

MAINTENANCE & INSTALLATION

FROM SOUND TO LIGHTS TO RADIO.
WE PUT OUR EXPERIENCE AND
KNOWLEDGE TO GOOD USE
MAINTAINING AND INSTALLING
SOLUTIONS

Whether you own a venue in Pembrokeshire or run a factory in Swansea. We can maintain your sound, lights or even radio systems if you have had them installed by another party or inherited systems in takeovers.

We know how frustrating it can be when equipment goes down without any notice and more so it often goes down when you need it most.

If you require any Audio Visual equipment servicing and maintaining. We will do our best to facilitate your needs.

Radio
Maintaining a radio system can be complex. We have a range of mobile test equipment that can service radios, repeaters, antennas, cables and even radio batteries to ensure you get the very best life out of your equipment.

We are happy to maintain existing systems should the need arise.
Get in touch with us to discuss your needs.

Installation

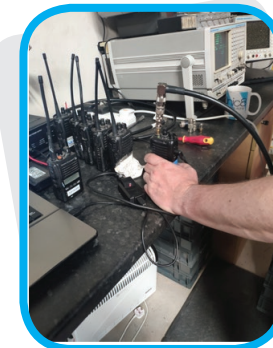

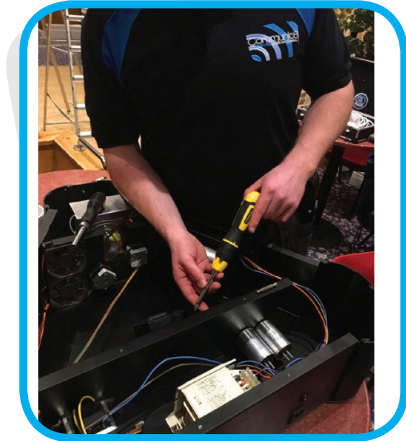

If you are replacing an aging system or perhaps developing a new building/factory. We can install Audio Visual or Communication systems that are designed to suit your needs.

Whether you require outdoor LED uplighting, dancefloor lighting or a modern, digital 2 way radio infrastructure.

With knowledgeable, trained and professional staff always available to help, advise and provide ideas. We can work with you on any project from initial concept and deliver right through to handover and on going support contracts.

We maintain and install systems across not only South Wales but also around the UK.

If you would like to know more or ask about a problem you're facing. Drop us a line.

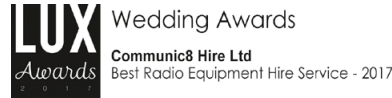

AWARD WINNING

In only our first full year of business, we were delighted to receive our first award. The prestigious award is something we never saw coming in such an early start to our business life. To be nominated put a huge smile on our faces. Since then we have continued to win.

Over the last 4 years we have been fortunate enough to win other awards and recognitions for our business and work.

We love the work we do and we're hugely appreciative of the great customer feedback we have online at Google and Trustpilot also.

EQUIPMENT FROM BRANDS YOU CAN TRUST

Whether you hire or purchase from us. We deal with brands you can trust.

We strive to deliver the best prices for both hired and sold equipment and can supply on going support when required.

CLIENTS

We're pleased of our continued client base in both commercial and private sectors.

Some of those we've been able to work for and also sell equipment to are shown in a small snapshot to the left.

We hope you can be one added to our growing client list in 2020
