# ABOUT Hitachi Select Parts

Hitachi Select Parts is the new parts line-up of Hitachi Construction Machinery for after-sales service support. It covers wide range of our machines. Parts warranty is same as Hitachi Genuine Parts but price is lower.

-  Excellent durability under the working environments of heavy equipment
-  Designed based on Hitachi Construction Machinery Company's technology
-  The warranty program provides the equivalent term with Hitachi Genuine Parts (\*)
-  Global sales network

(\*) This warranty program would not apply to normal wear and tear of the product. Please contact to Hitachi authorized dealers for the details of warranty conditions.

GET PARTS

UNDERCARRIAGE PARTS

## Example of utilization of Hitachi Select Parts to lower the lifecycle cost of a machine

Delivery of a machine

Since the bucket teeth was worn-out and work efficiency had started to drop, the bucket teeth were replaced.

**POINT 01**  
A wide variety of bucket consumable parts are prepared and available. It is possible to change certain parts to ones most suitable to each application.

It was found out that some undercarriage parts has worn-out during a special machine-visit inspection.

Parts will be replace before becoming an actual failure.

**POINT 02**  
Since the price of Hitachi Select Parts are lower than Hitachi Genuine Parts, it is economically feasible to replace parts in a preventive manner.

Since the machine had been engaged in heavy duty work for few days, few of the track links has cracked. They were replaced as individual parts as oppose to the track link assemble replacement.

**POINT 03**  
Since various parts are available as individual parts or sub-assembly, you do not need to replace the whole track link assemblies.

Replacement of the machine

# LIFECYCLE OF PARTS

# Five Features of Hitachi Select Parts

## Features

- Material
- Manufacture
- Design
- Warranty
- Supply

## 5 FEATURES

FEATURE 01	<b>Material</b>	Optimal anti-wear, impact resistance and lubricating property
FEATURE 02	<b>Manufacture</b>	Strict manufacturing processes and quality control
FEATURE 03	<b>Configuration</b>	Design based on Hitachi Construction Machinery company's technology
FEATURE 04	<b>Warranty</b>	The warranty program provides the equivalent term with Hitachi Genuine Parts
FEATURE 05	<b>Supply</b>	Global supply system

### FEATURE 01 FEATURE 02 Material / Manufacture

**Excellent durability required for the heavy equipment's working environments**  
Parts of Hitachi Select Parts have excellent anti-wear properties and impact resistance (toughness) required for the heavy equipment's working environments.

	Genuine parts	Hitachi Select Parts	Imitation or will-fit parts
Anti-wear quality/ Impact resistance	◎	○	△

**Product life**

### FEATURE 03 Configuration

**Designed based on Hitachi Construction Machinery Company's technology**  
Shapes calculated to maintain sufficient strength to prevent early performance degradation (wear and cracking).

### FEATURE 04 Warranty

**We secure the parts with warranty equivalent to Hitachi Genuine Parts**  
The warranty term is for 1 year/unlimited hour from the date the parts were installed on the machine or purchased.

Install the parts on the machine and start warranty!

**1 YEAR UNLIMITED**  
1 year warranty

### FEATURE 05 Supply

**Hitachi Construction Machinery's Global sales network**  
You can purchase from Hitachi Construction Machinery dealers around the world when needed. Please contact your nearest Hitachi Construction Machinery dealer.

# UNDERCARRIAGE PARTS

## List of undercarriage parts

Idler  
Sprocket  
Upper roller  
Lower roller  
Track link

### Regarding icons in the text;

**Mini** "Mini" indicates 1.4 to 8 ton excavators.

Examples: ZX14, ZX85, etc.

**Mid** "Mid" indicates 10 to 35 ton excavators.

Examples: ZX110, ZX270, etc.

**Large** "Large" indicates 45 to 87 ton excavators.

Examples: ZX450, ZX890, etc.

## Idler

**Mini** **Mid** **Large**

Idlers are to adjust the track link tension, which make track links to run on the rollers smoothly by expansion and contraction mechanism, and prevent the machine from falling.

## Sprocket

**Mini** **Mid** **Large**

Sprockets play an important role to convey rotating force to the track links. If the sprocket teeth is worn out, the traveling force of the machine will get weaker and premature wearing of track links will occur. The teeth of Hitachi Select Parts sprockets are carefully heat treated to increase their anti-wear quality.

### Application example: Forestry operation

In forestry operation, undercarriage parts worn out faster, so Hitachi Select Parts becomes handy due to its reasonable pricing.

ZX-1,3,5  
type  
1.4~8t

ZX-1,3,5,6  
type  
10~35t

ZX-1,3,5,6  
type  
45~87t

UNDERCARRIAGE PARTS

## Upper roller

**Mini** **Mid** **Large**

Upper rollers rotate and guide track links so that the track links move smoothly under various ground conditions. If they don't rotate normally, the track links will be worn out prematurely. Hitachi Select Parts upper rollers are deeply heat treated and their metal texture is fine and uniform.

## Lower roller

**Mini** **Mid** **Large**

Lower rollers play an important role to guide the track links so that the links move smoothly under various ground conditions. However, the lower rollers are prone to wearing and breakage. If they get worn beyond a certain limit, contact with track links becomes skewed, which will lead to premature wearing of the links. Hitachi Select Parts lower rollers are deeply heat treated and their metal texture is fine and uniform.

## Track link

**Mini** **Mid** **Large**

Track links play an important role in the traveling system and it is necessary to frequently adjust their tension. If they get worn beyond a certain limit, wearing will get faster. Eventually, they get derailed. The right and left end sections of Hitachi Select Parts track links are carefully heat treated to increase their anti-wear property.

\* Track;Link (Unit) are available as individual parts so that a single section or an inner part can be replaced. Refer to page 16 for details.

# GET PARTS

## List of GET parts

- Tooth adapter
- Tooth point
- Side cutter
- Shroud
- Lock pins and rubber

### Application example: Mining

Although bucket parts get worn or broken much faster in mining operation, the maintenance cost can be kept reasonable thanks to Hitachi Select Parts.

ZX-1,3,5 type  
1.4~8t

ZX-1,3,5,6 type  
12~35t

ZX-1,3,5,6 type  
45~87t

### Regarding icons in the text;

- Mini** "Mini" indicates 1.4 to 8 ton excavators. Examples: ZX14, ZX85, etc.
- Mid** "Mid" indicates 10 to 35 ton excavators. Examples: ZX110, ZX270, etc.
- Large** "Large" indicates 45 to 87 ton excavators. Examples: ZX450, ZX890, etc.

## Lock pins and rubber

**Mini** **Mid** **Large**

Prevent tooth adapters from falling out.

## Tooth adapter

**Mini** **Mid** **Large**

For fastening teeth to the bucket.

## Side cutter

**Mini** **Mid** **Large**

Improves cutting ability of the side plates of the bucket and also prevent the side plates from wearing.

## Tooth point

**Mini** **Mid** **Large**

Used for general excavation or making the surface of a slope smooth. It is possible to change attachments for each application. Heat-treated material or cemented carbide is used to increase anti-wear property.

## Shroud

**Large**

Protect the bucket bottom lip when the machine works under a hard duty environment.

ZX870-5B/5G, ZX890-5A	9252885PS	-	9252885

\* Attention :

• When replacing track-link of 50t, it must be used genuine nut of 45t to tighten bolt properly. Because if it's genuine nut of 50t, it can't be tighten/hold since width across the flats size is narrow. The picture shows actual size. ( A : Left side [ 45t ] / B : Right side [ 50t ] )

• We only set Hitachi Select Parts master;pin for 45t (XP0000438PS). And for other classes, please use genuine master;pin.

Precaution | We recommend that the left and right track links should be replaced at the same time.

Before using a machine with a telematics communication system, please make sure that the satellite communication system complies with local regulations, safety standards and legal requirements. If not so, please make modifications accordingly.

---

These specifications are subject to change without notice.  
Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features.  
Before use, read and understand the Operator's Manual for proper operation.
