The Importance of Education

Our parents play a great role in turning our mind towards education from childhood. They tried their best to give us good education from the popular educational institutions. Earlier, there was many differences and inequality in the society among people. Lower castes were not allowed to study in the school. But now many rules and regulations have been made by the Indian Government to make education system accessible for all. We all know well educated people make the healthy pillar of the country. Essay

Prevention of Cruelty to Animals

Cruelty upon animals has become a hot issue these days. Cruelty does not mean to torture or trouble the animals, but not to give proper shelter, food and attention is also called cruelty. In these days animals are a common means of entertainment like in circus or at home to entertain the kids. Still they are not getting proper treatment from their masters. When people don't find them profitable, leave them like stray animals on road. People do not hesitate to kill the animals for their personal gains like flesh, leather, decoration etc. So it is high time to stop this inhuman attitude towards animals. Hunting should be stopped and Govt. should take necessary actions against these hunters. Govt. should set up sanctuaries and national parks to give proper shelter and care to the animals. The most Important need is that human beings should change their attitude towards animals. They should treat these dumb Creature like family members as they are also a creation of God. We can't ignore the benefits that they are giving us by living also. Moreover we have no right to kill any creation of God. It is a sin. Now its time to stop it and give love to the animals.
