DFM1700 17" Digital Picture Frame *(IMDFM1700)* **199.90**

DIGITAL FOCI D-Light Box
8" Portable Digital Album

Dsplay images on an 8" LCD in high resolution. 4GB memory plus it accepts multiple memory cards and USB flash drives. Organize photos in different albums, and choose which one you would like to display. Features adjustable intervals and effects. Scroll through photos manually with zoom, pan, rotate functions. Includes leather-like case. *(DIDLBB)* ...**129.95**

nixplay Cloud Wi-Fi Digital Picture Frames

Display photos or videos from an SD/SDHC card, USB flash drive, or wirelessly from your cloud account. The frame is powered by AC, and it uses Wi-Fi to connect to your nixplay web application which allows you to organize your photos into albums or slideshows. You can also connect the web application to your social media sites to view photos from those sites on your frame. A "Hu-Motion" sensor will turn the frame's screen off after 5, 10, 30, or 60 minutes, and will turn it back on when it detects motion. The motion sensor will detect movement up to 8.2'. Send photos directly to the frame from iPhone or Android devices.

SAMSUNG   BD-H5100 ◆ BD-H5900 ◆ BD-H6500

Blu-ray Disc and Smart 3D Blu-ray Disc Player Players

The BD-H5100 supports full HD 1080p Blu-ray disc playback from its HDMI output, and can also upconvert standard definition DVDs to near HD quality. It features built-in streaming apps, which gives you access to a library of free and subscription-based Internet streaming content. An Ethernet port provides Internet connectivity. Connect flash drives to the USB port.
Stepping up, the BD-H5900 offers Full HD reality in both 2D and 3D. (3D TV, active shutter glasses and 3D content required). It also has built in Wi-Fi, so you can access all your Smart Blu-ray features and apps wirelessly. Sync and stream content to other devices as well, such as PCs, smartphones, tablets and cameras using Samsung AllShare.
The BD-H6500 steps up with Samsung's Smart Hub—the quickest and simplest way to enjoy your favorite content. Explore movies, shows, apps and social media in one easy-to-browse hub. Find games or videos quickly with simple navigation and superior organization. It easily integrates into your SHAPE™ Muti-Room System. Enjoy your movies, TV and music wirelessly with rich, multi-room sound and no cluttering cords. For convenience, it lets you browse your favorite sites right there on the big screen. Access movies and TV shows, download apps, shop online, search the web, update your status on Facebook and Twitter and more.

SONY

BDP-S1200 ◆ BDP-S3200 ◆ BDP-S5200 ◆ BDP-S6200

Blu-ray Disc and 3D Blu-ray Disc Players

The BDP-S1200 supports Full HD 1080p resolution and DVD upscaling to near HD quality. It provides network connectivity via Ethernet, so you can access the Sony Entertainment Network and the 200+ apps it offers. It also features a front panel USB port, which you can use to display your videos and photos on your TV or listen to your digital music.
The BDP-S3200 and Blu-ray 3-D capable BDP-S5200 step-up with built-in Wi-Fi and Miracast™ with allow viewers to display photos and video from a compatible Android smartphone or tablet on compatible TV screens by wirelessly connecting through their Blu-ray Disc player. The 3D capable BDP-S5200 also offers Full HD 1080p Blu-ray Disc playback with 2D to 3D conversion for 3D compatible TVs.
The top-of-the-line BDP-S6200 incorporates IP Content Noise Reduction Pro technology to improve the appearance of low-resolution clips streamed from the web, as well as enhancing video from Blu-ray Discs to 4K Ultra HD resolution. In addition, the BDP-S6200 has a Digital Music Enhancer to restore those subtle high frequency details that get lost when listening to heavily-compressed digital music files and also restores lost dynamics in low-bit rate audio tracks for a more spacious, natural listening and viewing experience.

BDP-S1200 Blu-Ray Disc Player *(SOBDPS1200)*	**88.00**	**BDP-S5200** 3D Blu-Ray Disc Player *(SOBDPS5200)*	**138.00**

BDP-S7200 4K Upscaling Wi-Fi and 3D Blu-ray Disc Player

Supports full HD 1080p Blu-ray disc playback from its HDMI output, and can also upscale to near 4K quality. For high-resolution music support, it supports SACD playback. It also features the Sony Entertainment Network (SEN), which gives you access to over 200 streaming services. Ethernet and Wi-Fi are built into the player for high-speed connectivity. A dual-core processor is also onboard for speedy menu navigation and overall performance.
Supports high-resolution audio formats such Dolby TrueHD and DTS-HD Master Audio for a dynamic surround sound experience. Dual USB ports allow you to connect peripherals such as thumb drives for easy playback, and supports a variety of file formats. With the free Sony SmartView app you can control the BDP-S7200 from portable devices such as smartphones and tablets.

#SOBDPS7200 ....**398.00**

TOSHIBA   BDX3500 ◆ BDX5500

Symbio Streaming Media & Universal Disc Players

The BDX3500 and BDX5500 are a Blu-ray Disc player, DVD player, CD player and streaming media box all in one. The new ePortal utilizes a one-page version of the new Smart TV with Cloud Portal GUI, which equates to elegant design simplicity and advanced control. The BDX3500 offers full Symbio streaming media and universal disc player content capability in 2D with built-in Wi-Fi and Miracast for peer-to-peer wireless capability. This allows you to send content from a smartphone, tablet or laptop to a TV, via the Blu-ray player.
The BDX5500 steps up with the UDE™ 4K Upscaling Engine and is Technicolor 4K Certified. UDE Ultra Detail Enhancement provides two-stage picture quality enhancement. Stage one provides superior 1080P video with both edge and texture enhancement so it improves picture quality for any Full HD or 4K TV. Stage two adds high quality 4K Upscaling for use with Ultra HD TVs. The BDX5500 also supports 3D playback, has touch controls and is slot loading so it can be placed vertically.

VSX-824-K 5.2-Channel Networked AV Receiver with HDMI 2.0

The VSX-824-K is an advanced, yet affordable receiver featuring 6 HDMI 2.0 inputs to handle 4K2K Ultra HD video at 60 fps. Plug an optional Roku Streaming Stick into the Roku Certified MHL 2.0 port on the back of your receiver to unlock a great selection of entertainment choices. Control the attached Roku stick from the receiver's remote control or free iControlAV5 app for the most convenient access to your favorite entertainment. From switching inputs and controlling volume, to exploring all of the new features of your AVR, the iControlAV5 iOS and Android remote control app offers full control Equipped with the optional AS-WL300 wireless network adapter, the VSX-824-K is the ultimate control center of your home entertainment system. The AS-WL300 provides wireless compatibility with applications such as iControlAV5, the AVNavigator, Internet Radio and DLNA® 1.5 Audio Streaming. Get instant access to your favorite content and control it with your smartphone or tablet. A networked receiver, the VSX-824-Kit supports Apple's AirPlay music streaming technology, allowing you to enjoy music with your iPhone, iPod or iTunes anywhere in the house. It also supports DLNA 1.5 media streaming. For the high-resolution music playback you demand, it supports 192 kHz 24-bit AIFF, WAV, FLAC, and Apple Lossless up to 96kHz 24-Bit. Compressed formats, such as MP3, WMA, and AAC are also supported. Stream from your home network, tablet, or even the front USB. Last, MCAC (Multi-Channel Acoustic Calibration) creates the optimum acoustic environment for movies and music in any room in the house. The system, complete with custom microphone, automatically compensates for differences in speaker size, level, and distance, and equalizes the response. *(PIVSX8 24K)* **396.99**

Better sound through research®

Lifestyle® 135 Series III Home Entertainment System

Imagine the home theater sound you want without a roomful of speakers. With the Lifestyle® 135 Series III home entertainment system, it's made possible by a Bose® innovation that delivers clear, spacious sound and impactful bass – from a slim soundbar and a wireless, compact Acoustimass® module. Together, they bring powerful performance to all your entertainment, every day – TV, movies, sports, video games and even streamed and stored music.

Unify® technology lets you easily connect and control up to 6 HD and music sources – such as a Blu-ray Disc player or cable box. With intuitive onscreen menus and a universal RF remote control, everyday operation is easy, plus you can hide away the console and attached components. And SoundTouch™ lets you discover and enjoy music more effortlessly than ever before. Wirelessly stream Internet radio, music services and your music library using your home Wi-Fi® network.

Solo 15 TV Sound System

Flat-screen TVs are made for great picture, not great sound. The Solo 15 is an easy way to solve the problem. Thanks to advanced Bose technology, you'll hear more of the sound you've been missing – like whispered dialogue, carefully placed sound effects, and the music that perfectly sets the mood. All without needing to constantly adjust the volume. And the Solo system connects easily to your TV with a single cable. It even includes a universal remote that simplifies controlling your TV, cable box, Blu-ray Disc™ player and more. The Solo system also has a knob so you can easily adjust the bass to your liking. (BOS15TVSS) **449.00**

SoundTouch™ 20 II ✦ SoundTouch™ 30 II Wi-Fi Music Systems

Now you can stream Internet radio, Pandora and your music library with the touch of a button. The SoundTouch™ 20 makes listening to your favorite music easier than ever. If you already have a Wi-Fi network, you're ready to enjoy rich, room-filling sound. This compact system has a built-in power supply, making it easy to place just about anywhere. With SoundTouch™, Internet radio and music services are built right into the system, so you don't need other devices to play personal favorites. Enjoy Bose® sound in any room you want – no extra equipment necessary. That means you can put your tablet away, or leave your phone in your pocket and still stream the music you love.

SoundTouch™ app lets you personalize up to six presets, which can be found on the top of the system or the included remote. Once set, the system gives you the easiest control ever– one touch. Use the app to stream a song or station that you haven't added as a preset. Sound-Touch™ systems are AirPlay enabled, so you can play music wirelessly from your IOS device. When you're ready, add more SoundTouch systems for a multi-room experience. Play the same music throughout your home, or listen to different music in different rooms. Stepping up, the SoundTouch™ 30 utilizes exclusive waveguide technology engineered around a high-performance woofer to produce deep, rich sound that can fill the largest room of a home.

KEF

E301 Passive Home Theater Satellites

Designed from the start as a single perfectly balanced system with the crossover, cabinet and drivers working together in harmony. To eliminate secondary radiation and cabinet coloration, the enclosures are heavily reinforced with internal ribbing and damping technologies to ensure sonic accuracy with no unwanted resonances. The cabinets are engineered to minimize scattering of the output, so nothing subtracts from, nor adds to, the sound from the driver. They feature a 4.25" woofer and 0.75" vented aluminum dome tweeter. In Black *(KEE301BL)* or White *(KEE301WH)* ......sold as a pair **349.99**

KEF **KUBE-1** 8" Powered Subwoofer

Compact yet high-performance audiophile sub that provides a powerful and precise bass response whether for the latest action-packed blockbuster movie or the rhythmic sounds of your favorite CD. Saled cabinet houses the 200w on-board amplifier that powers both the 8" long-throw bass driver and the 8" active bass reflex. *(KEKUBE1)*..**549.99**
KUBE-2 Powered 10" Subwoofer *(KEKUBE2)* **749.99**

KEF **Q300**
6.25" Bookshelf Speakers

Used as main speakers, music speakers for a study or family room, rear speakers in a home theater system or general purpose speakers for multi-room set-ups, the Q300 opens up a world of audiophile quality. Sound is lush, spacious and precisely defined, with compelling midrange/HF response and solid, immaculately controlled bass. Uni-Q 'point source' configuration delivers a more accurate sound image dispersed more evenly throughout the room than is possible with any conventional speaker. *(KEQ300B)*.............**649.99**

LG **NBN36** 280w 2.1-Channel Sound Bar

iSimple installation and reduced speaker wire management with the wireless subwoofer system. Stream music wirelessly from your smart phone for more versatile listening experience. Two optical inputs allow you to connect multiple audio devices at once for your convenience. Mount your sound bar for both optimal placement and sleek design with the included wall mount. *#LGNBN36*..**289.00**

Marshall **Stanmore**
Bluetooth Speaker System

Play audio from a variety of wired and wireless sources. The speaker outputs 80-watts from its dual 0.75-inch tweeters and 5.25-inch woofer. The Stanmore has controls for volume, bass, and treble and features a design emulating the look of classic Marshall guitar amps, including black vinyl casing, a fret grille cloth, and Marshall's script logo.
#MASMBTSSB **399.00**

HT-H7730WM 7.1 Channel 1330W Blu-Ray System

The HT-H7730WM features the DTS Neo: Fusion II codec which creates virtual 9.1-channel output by interpolating source material and turning it into an auditory experience with such depth and direction that the listener can't help but be swept into the action. Powering the HT-H7730WM is an amplifier that gives listeners the best of two worlds – the warmth of analog vacuum tubes and the power and efficiency of digital amplification. The tallboy speakers house not only midrange drivers and tweeters, but also front height speakers that can be angled upward to create height channels that enhance the immersive surround sound experience. The Blu-ray player features UHD Upscale Processor, which generates true-to-life pictures with vivid colors. Can upscale standard- and high-definition content to Ultra-High Definition (UHD) – four times the resolution of 1080p – making it compatible with UHD TVs. *(SAHTH7730WM)*.........................**797.99**

LG
Life's Good

UB8200 Series 4K Smart LED TV

They combine an expansive display and Internet connectivity. They offer native 3840 x 2160 resolution to deliver detailed 4K images. Integrated UCI 1080 motion technology utilizes the TV's 120 Hz refresh to combat distortion on fast moving images like sporting events and action movies. They also incorporate Tru 4K Engine technology, which can upscale lower resolution sources to near-4k quality. LG's Smart TV interface allows you to take advantage of premium streaming services. Built-in Wi-Fi and Ethernet for high-speed Internet access. Onboard Wi-Fi Direct technology allows you to wirelessly share content with compatible devices. Equipped with component video and 3 HDMI inputs. Three USB ports allow you to connect flash drives for audio, video and photo playback. Integrated Miracast and MHL connectivity allow wireless and wired connections to compatiblesmartphones and tablets for content sharing.

UB9800 Series 4K ULTRA HD TV

The UB9800 series feature 3840 x 2160 resolution ULTRA IPS panels. LG's IPS technology is highly regarded for its ability to offer extraordinarily detailed images and a wide viewing angle. This series also features improved sound with the collaboration with harman/kardon. They are equipped with a unique proprietary chip that enhances the Ultra HD resolution and optimizes overall image quality. Thanks to this chip, LG's Tru-ULTRA HD Engine Pro further differentiates the TV's picture quality.
The UB9800 comes with a sophisticated upscaling function that takes SD, HD or Full HD content and renders it in sharp, near-Ultra HD quality. Working in tandem with the Super Resolution Algorithm, the Tru-ULTRA HD Engine Pro provides a more enjoyable viewing experience by helping to eliminate the visual errors common to some other types of upscaling systems. In addition, the Tru-ULTRA HD Engine Pro also supports a technique called 4K Motion Estimation Motion Compensation (MEMC), which helps ensure that all 4K Ultra HD content appears lifelike and virtually free of motion blur. It also has a built-in 4K HEVC 60p decoder. The device decodes broadcast signals in both H.264 and HEVC H.265 formats, in both 30p or 60p. They seamlessly display Ultra HD content from nearly any input source, including HDMI, USB and LAN. LG's unique ULTRA HD CINEMA 3D uses Film Patterned Retarder (FPR) technology to render convincing 3D images with virtually no flicker or cross-talk. Also have a built-in camera and enhanced audio with built-in harmon/kardon 4.2- or 5.2-channel audio systems.

UB8500 ♦ UB9500 Series 4K ULTRA HD TV

The UB8500 and UB9500 contain an IPS panel with Edge LED and local dimming. Fans of ultra-fluid images will appreciate a 100 Hz refresh rate along with CMR 1000. To make up for the lack of 4K/Ultra HD content, they have an upscaling chip, Tru Ultra XD Engine Pro, which is capable of converting any content to 3840 x 2160 pixels. They use passive 3D and are therefore lined with a polarized filter and come with four pairs of glasses, two for 3D and two DualPlay glasses for simultaneous two-player gaming. For connections, they have a single HDMI 2.0 input capable of receiving 60 Hz Ultra HD signals, three HDMI 1.4 inputs, USB 3.0 port, two USB 2.0 ports and dual DVB-C2/T2 and S2 tuners. To make the TV interface nice and fluid, a quad-core processor runs WebOS with its connected functions and downloadable apps (VOD, TV replay, games, etc.).
The UB8500 features TruMotion 120Hz, 1320 UCI (Ultra Clarity Index), Magic Remote, Cinema 3D and 2.0-channel 20w audio system. TheUB9800 steps up with TruMotion 240Hz, 1500 UCI and 2.1-channel 35w audio system.

PB6900 Full HD 3D Smart Plasma TV

View detailed 1080p images and stream Internet content. This TV features 1920 x 1080 resolution and has 600 Hz Sub Field Driving, so distortion on fast-moving material such as sporting events is kept to a minimum. Active 3D technology is onboard for viewing 3D content when paired with optional 3D glasses. Additionally, you can convert images back and forth between 2D and 3D. As a Smart TV, this model incorporates Ethernet and Wi-Fi connectivity. Once connected, you can access subscription-based and free streaming services like Netflix, Hulu Plus, and YouTube. With three HDMI ports, three USB 2.0 ports, and a component video input, you have multiple interfaces for connected high-definition video sources. The component video connection is shared with the composite video input for interfacing analog video sources. Two built-in speakers deliver 20W of total power. Virtual Surround Plus is integrated for producing dynamic virtual surround sound from the TV's built-in speakers. Using the optical output, you have the option of outputting audio to an external multi-channel speaker system.

Clean Power & Surge Protectors

APC C2 Wall Mount Power Filter

The filter is designed to fully protect your wall-mounted display from damaging power surges, spikes and lightning. Isolated noise filter banks eliminate EMI/RFI as a source of audio and video signal degradation. LED status indicators provide active notification of changing power conditions including filtering, protection, overload, and wiring faults. A detachable 2' power cord gives you the option to switch to a longer cord (sold separately) for particular installations. *(APC2)*...............**99.99**

10-Outlet Reference PowerCenter Surge Protector

Features an outstanding 6814-joule surge protection. Exclusive Tri-Mode Protection circuitry automatically disconnects all of your connected equipment if you're hit by a big one. If your system takes a hit, an audible alarm will tell you that your system was protected from damage. Clean Power Circuitry Stage 4 v.2.1 filters provide the best AC power line noise/disturbance rejection. This advanced technology delivers more precise sound and picture quality from connected components. Color-coded outlets are configured for optimal protection of any home theater setup. *(MOMPHTS5100M)* ....**Log-on**

SHARP AQUOS

AQUOS 6-Series AQUOS 1080p Smart LED TV

The AQUOS 6-, 7-, 8-Series feature dual-core processor, Web browser and built-in Wi-Fi. Sharp's SmartCentral platform provides access to virtually unlimited Web based content with an expanded selection of apps, Flash and HTML5 supported Web browsing and Android and iOS remote control. They also allow you to send content from an iOS and Android phone or tablet to the TV with a flick. You can also split screens for simultaneous TV viewing and Web browsing. And, Netflix subscribers can search for content on their smartphone or tablet and then select to watch it on the TV with Netflix "Second Screen" capability.
6-Series has an astonishingly slim screen bezel. The sides of the TV amazingly appear to fall away. Turn them into a work of art. Wallpaper Mode allows pre-installed artwork images or photos from a USB drive on the screen at a reduced light level that mirrors museum conditions, so the screen blends beautifully into a room's décor with extremely low power consumption.

AQUOS Q

Q Series features Sharp's proprietary Quattron technology which incorporates a fourth yellow subpixel to the standard red, green and blue, giving them 33% more subpixels than a standard HDTV, for a total of 8 million subpixels. See sharper, more electrifying action with 240Hz refresh rate, while 8:1M dynamic contrast ratio delivers deeper blacks and whiter whites. For convenience, optical picture control automatically adjusts picture brightness to the light in the room. Sharp's split-screen experience lets you surf the web while you watch TV, so you won't have to choose between your favorite show and your favorite website. MHL connection turns a small-screen phone into a big-screen experience. MHL delivers HD uncompressed video with up to 8 channels of digital audio. Since MHL also charges the mobile device, you can power-up while you're connected.
For connectivity, they are equipped with 4 HDMI (4K inputs), 2 USB ports and Bluetooth. Powerful 20W audio features high fidelity with Clear Voice, so scenes sound great. With Smart Central 3.0, you can browse and search across cable, satellite, and streaming services, all in one place. With the exclusive SmartCentral 3.0 mobile app everything you do on your Smart TV can be done from your tablet or smartphone. When the TV is turned off, Wallpaper Mode lets you display virtually any image you choose.

AQUOS Q+

Stepping up, the Q+ series feature 10 million more subpixels than standard Full HD, for more detail, depth and color. They can also accept a 4K signal and play it back at near-4K resolution, with an effective resolution of up to 3840 x 2160. With Sharp's Revelation Upscaler, they take HD content and optimize it for the higher resolution screen, so all your HD content is sharper and more vivid. The SQ line is 3D ready, has a 240Hz Panel and is designed with a high-quality finish on a thin diamond cut bezel. The UQ line has premium features such as THX certification, AquoMotion TM 960, Super Bright Technology, premium design with aluminum bezel, 3D with 2 pairs of glasses, powerful 35W audio and Bluetooth.

SONY

KDL-W Series BRAVIA LED Full HD TVs

In addition to being Wi-Fi enabled, W600B Series utilizes Sony's X-Reality PRO picture processor to ensure it displays unprecedented detail and astonishing color regardless of the content source. Motionflow XR 240 produces lifelike movement for the best experience when viewing fast action programming and gaming. ClearAudio+ Digital Sound Processing (DSP) with S-Force Front Surround projects clear vocals and wide sound range. A new user interface (UI) allows viewers to stream beautiful, HD entertainment straight from the Internet or a home network using built-in Wi-Fi with ease.
• Otherwise the same, the W630B steps-up with Motionflow™ XR 480 to produce lifelike movement
• Otherwise the same, the W800B series is 3D capable and comes with 2 pairs of glasses.
• W850B steps up with an innovative structural design with iconic Wedge form factor. The Wedge shape increases capacity to incorporate larger speakers for a deeper, more powerful sound. The design also increases stability by lowering the TV's center of gravity, achieving a smaller pedestal size than conventional TVs, and allows for a variety of installation options.
• The flagship W950B series incorporates TRILUMINOS™ Display, delivering lifelike color and accurate shading. The display works in unison with Sony's X-Reality PRO picture engine which analyzes, cleans and refines images from any source, to reproduce rich, accurate color while maintaining brightness, hue and saturation. In addition, proprietary X-tended Dynamic Range achieves a much more dynamic range of brightness with deeper blacks, more detailed gradation and higher peaks.

XBR-Series 4K Ultra HD TVs

The XBR-X850B series incorporates unique technologies to provide overall quality that goes beyond standard 4K resolution. Sony's 4K X Reality PRO picture engine can upscale a variety of content regardless of source to beautiful 4K resolution, while wide color gamut TRILUMINOS™ Display works in unison to reproduce lifelike color and accurate shading to ensure the highest quality picture. Iconic Wedge shape, increases capacity to incorporate larger speakers, which provide a deeper, more powerful sound, unprecedented for a flat-screen TV. In addition, they incorporate Sony's ClearAudio+ digital signal processing to create an immersive experience with clear vocals and a wide range of sound. An optional wireless subwoofer (SWF-BR100) creates a richer audio experience, delivering powerful bass from the TV for a stylish home theater experience.
• The XBR-X900B series steps up with X-tended Dynamic Range technology driven by Edge LED arrays arranged along the side of the panel. This leads to unprecedented brightness and deeper detail even in the whitest whites or darkest blacks on the screen to deliver a truly brilliant picture quality.
• The flagship XBR-X950B series incorporates Sony's X-tended Dynamic Range® PRO technology driven by direct LED arrays to achieve a much wider dynamic range of brightness, with higher peaks and deeper blacks, using a unique backlighting algorithm to further enhance picture quality.

H6350 Series
3D LED Smart HDTVs with Built-in Wi-Fi

Faster and smarter, the H6350 Smart LED TVs have and upgraded Smart Hub that organizes your content to make finding what you're looking for easier and more intuitive than ever. This TV is backed by a lightning-fast quad core processor, which reduces lag and accelerates load and smoother navigation. View every detail of action packed movies and sports with Clear Motion Rate 240, an excellent level of motion clarity. The Samsung CMR uses the frame refresh rate, image processor speed and backlight technology to measure fast action. Built-in S Recommendation helps you discover additional content based on preferences. This model even allows you to wirelessly share content between your TV and portable devices with integrated AllShare technology. With four HDMI and three USB ports, you have multiple options for connecting high-resolution audio and video sources. A component video input is also onboard for connecting additional sources. The component video connection is shared with a composite video input for interfacing lower resolution sources.

• Built-in quad-core processor reduces lag to give you a fluid browsing experience. It enables you to switch between apps, stream content and multitask faster.

• With Wide Color Enhancer Plus, you'll witness a wider spectrum of colors on your screen, just like the director intended. You'll enjoy enriched colors while watching your favorite movies and shows, even older, non-HD content.

• Browse the web on your Smart TV to find the latest content. Enjoy everything from online shopping and social media browsing to entertainment news and the latest YouTube hits. Catch up on all the trending news and then go back to watching TV.

H6400 ◆ H7150 Full HD Smart 3D LED TVs

Step-up features from the H6350 Series

The H6400 Series steps up from the H6350 with Motion Rate of 480 and stunning Full HD 1080p in both 2D and 3D modes. Active 3D technology is onboard for viewing 3D material in full HD 1080p resolution. Enjoy a 3D listening experience with 3D Sound Plus. Plus, experience advanced picture contrast, color and detail with Micro Dimming. Smart Interaction with Voice Command lets you talk to the TV to search what's on, or to perform basic commands such as "last channel," "record" or "turn off". Includes two pairs of active 3D glasses as well as the Smart Touch Remote for enhanced control. Select TV functions by simply talking into the built in mic. You can also use the touchpad to navigate quickly or use the remote like a mouse. Otherwise the same, the H7150 steps up with Clear Motion Rate (CMR) 960 and Micro Dimming Pro which scans zones across the entire picture and adjusts brightness to deliver deeper blacks and brighter whites.

Television Antennas & Tuners

AVerMedia AVerTV
Hybrid TVBox 11

This compact box tuner delivers HD digital TV, over-the- air (ATSC), or unencrypted digital cable (ClearQAM) right to your desk. In addition, the tuner provides transparent Picture-in-Picture so you can watch TV and work on your PC at the same time. You can also connect other devices, such as a projector, DVD player, camcorder, or video game system and switch between them.
#AVMTVBOXH11...**169.99**

digitalstream DHA1000A
Ultra High-Gain HDTV Antenna

Provides additional gain to increase signal range and improve the quality and reliability of over-the-air HDTV signals. The antenna provides several channels and high picture quality thanks to looping and LPDA technology in the same antenna. It features a multi-directional design as well, which receives signals from every direction. Plus, a VHF antenna is employed to capture channels 2 through 12.
#DIDHA1000A..**41.98**

800-947-9913 | 212-444-6784

dish VQ2510 Tailgater Bundle

Features a Tailgater Satellite and a ViP 211z HD Receiver. Together, they allow you to bring Dish TV service with you wherever you go. Just connect the Tailgater to the receiver and start watching TV wherever you are. Portable and lightweight, system is easy to set up and it automatically finds the right satellite signal.

#DIVQ2510..**Call or Log-on**

MOHU Curve 30 ◆ Curve 50

Indoor HDTV Antennas

Clean and graceful arched structure for those who want access to free over-the-air (OTA) HDTV in their homes but want a unique, designer feel whether placed on a shelf, countertop or table. Just plug-in-and-go, the Curve 30 is for city dwellers within 30 miles of a broadcast tower, while the Curve 50 is for those within 50 miles.

Curve 30 Indoor HDTV Antenna *(MOMH110566)*....................**49.88**
Curve 50 Indoor HDTV Antenna *(MOMH110567)*....................**79.88**

MOHU Leaf 30 ◆ Leaf 50

Indoor HDTV Antenna

Receive free over-the-air (OTA) HD broadcasts. Simply attach the antenna to your HDTV with the included 10' coaxial cable. They feature a multi-directional design, so there's no need to point the antenna for signal strength. The Leaf 30 has a 35 mile range for UHF signals, and 10 miles for VHF. The Leaf 50 up to 50 miles for UHF and 20 miles for VHF.

RF Wireless Headphone System

On-ear type wireless headphones combine comfort and mobility. They feature Hi-Fi audio reproduction with 40mm drivers and a frequency range of 10Hz to 24kHz. Wear up to 26-ft. from line of sight with the transmitter base. A rotary volume control and on/off button with LED for quick adjustments.

#SOMDRIF245RK **58.99**

SONY MDR-IF245RK

RF Wireless Headphone System

Enjoy wireless audio from up to 150-feet. The headphones have a built-in rechargeable battery that provides playback for up to 25-hours per charge. They are charged by connecting to the transmitter base station. The headphones also feature 40mm drivers and an adjustable headband designed to provide comfort for long listening sessions.

TERK Leapfrog L-30S

2.4 GHz Wireless A/V Transmitter and Receiver

Imagine having your A/V components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires. Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that. It also gives you the ability to control the A/V source from the other room, so you can actually change the channels on your satellite receiver from the second TV's location. With the purchase of additional receivers, you can use it with multiple TV's throughout your home.

#TELF30S...**62.99**

Universal Remote Control
RF-20 Master Control

- RF wireless capability
- One-Touch MacroPower function
- Convenient IR learning
- SimpleSound technology
- Instant channel access
- Customizable LCD screen
- Control up to 10 devices
- 5-way Thumb-Pad

#UNRF20...**55.00**

Universal Remote Control RFS200
Master Control Powerpak

Includes the RF20 remote control and the MRF100B RF Base Station, which offers the ability to control any device with the built-in extensive IR database - capable of executing remote commands up to a 100' range. Works through walls, floors, doors, indoors or outdoors. You can finally close your entertainment doors, conceal your system components and their messy wires, and still maintain full control.
